SUGGESTED IDENTIFICATION:
1990 Catalog of Federal Domestic Assistance
Superintendent of Documents
Government Printing Office
Washington, D.C. 20402

The 1990 edition is sold on a subscription basis by the Superintendent of Document, U.S. Government Printing Office, Washington, D.C. 20402. It consists of the basic manual and change as issued for one year. The order for the Catalog must be accompanied by a check or money order made payable to the Superintendent of Document. Although the Catalog is published by the Office of Management and Budget and the General Services Administration, subscriptions for the Catalog are only available through the Government Printing Office (see Subscription Form in back of Catalog).

Catalog Highlights

The Update to the 1990 Catalog contains 1,183 assistance programs administered by 52 Federal agencies. As a potential applicant, always contact the agency information sources in the program descriptions for the latest information concerning assistance programs.

AIDS/HIV	Grant program set up to increase the capacity of community health facilities to offer higher quality, broader scope, and greater quantities of HIV related ambulatory clinical services needed in their service area. The services will include increased counseling and testing, partner involvement in risk reduction, transmission prevention, appropriate primary care diagnostic and treatment services, and case management to ensure that individual service needs are met. Also, program set up to determine the effectiveness and cost of providing subacute care to HIV infected persons and technical assistance to health professionals in other facilities providing subacute services (93.904 and 93.909).
DRUG TREATMENT	Model programs to enhance drug treatment for criminal justice populations, including prisons, jails, probation and parole, as well as court diversion to treatment. Also, to enhance drug abuse treatment programs for adolescents, racial/ethnic minority populations and residents of public housing, with the ultimate goal of improving treatment for these populations (93.902 and 93.903).
FISH AND WILDLIFE	Project grant program set up to provide financial assistance for research and development projects to provide information for the full and wise use and enhancement of fishery resources in the Gulf of Mexico (11.433).
HEALTH CARE	Program set up to conduct research and development activities in areas of Indian health care which impact the health of the American Indians and Alaska Natives and which are within the health service responsibilities of the Indian Health Service (93.905).
HEALTH/HUMAN SERVICES	Program designed to focus on ways to improve health and human services to minority males at high risk of (1) Health problems such as alcohol, tobacco or other chemical dependency, homicide, suicide, and unintentional injuries; or HIV infection and sexually transmitted diseases; mental health problems; and (2) Social problems such as unemployment, under-education, poor social development, homelessness, family dysfunction, child abuse and neglect, delinquency, criminal backgrounds, teenage pregnancy and fatherhood (93.910).
MEDICAL EDUCATION	Program designed to assist physicians to develop clinical experience in rural areas using reimbursement for graduate medical education under the Social Security Act. Grant Program set up to provide financial assistance and support (fellowships) to certified registered nurse anesthetists who are faculty members of accredited programs to enable such nurse anesthetists to obtain advanced education relevant to their teaching functions. Program to provide incentive for registered nurses to enter into full-time employment at health facilities. The intent of the program is to increase the number of registered nurses serving designated nurse shortage areas (93.906, 93.907 and 93.908).

NEW CATALOG NUMBER SERIES ASSIGNED FOR DEPARTMENT OF HEALTH AND HUMAN SERVICES

A new Catalog program number series has been assigned to the Department of Health and Human Services (HHS). All HHS programs which were formerly listed under the 13.000 series will now be found in the new 93.000 series. Due to the number of programs administered under HHS (totalling 263 programs for this Update), the rapid pace of growth (10 added this cycle – 27 for 1990), and program numbers previously used but not authorized for future use, the agency has nearly exhausted the available Catalog numbers for assignment to new programs in the 13.000 series. Except for 20 programs, the last three digits remain the same under the new 93.000 series prefix. (The exceptions noted include these program numbers, which now have new 5-digit numbers in the 93.000 series: 13.675, 13.678, 13.714, 13.766, 13.780, 13.781, 13.782, 13.783, 13.784, 13.786, 13.787, 13.788, 13.789, 13.790, 13.791, 13.792, 13.793, 13.795, 13.796, and 13.797.) A listing of the old and new program numbers for HHS follows.

Updating Instructions to the 1990 Catalog

INTRODUCTION

This material contains looseleaf update pages for the 1990 Catalog of Federal Domestic Assistance which was previously sent to you. The Update to the 1990 Basic Catalog adds some new programs, deletes other programs and modifies many of the program descriptions to reflect substantive changes. Revised indices and appendices are also included. First time users of the Catalog are urged to review the Introduction. Both the organization and the information content of the Catalog are explained.

SUGGESTIONS FOR HANDLING THE NEW MATERIAL

Updating methods:

The appropriate updating method depends upon the principal purpose for which the Catalog will be used. But, first, there are some general rules that apply to the printing of the Catalog. The Basic Catalog is an annual reprint in total. The Update is a reprint of parts of the Basic Catalog. Which sections of the Basic Catalog are reprinted in the Catalog Update? The Introduction, indices and appendices are the only sections completely revised for the Catalog Update. Appendix VI, Historical Profile of Catalog programs is published in the Basic edition only. How are the program descriptions modified in the Catalog Update? Each paragraph is modified if a single significant word or number, sentence, or the entire text needs to be changed to reflect a new or altered concept about the program. The Summary List of Modified Programs is a guide to those programs from the Basic Catalog that have undergone a paragraph modification. Are there other reference tools that provide guidance to the changes in the Basic Catalog? Yes, included are the added, deleted and the list containing modified titles and program numbers which follow the indices in the Update. In addition, the full description of those programs listed on ADDED PROGRAMS are displayed in the section called PROGRAM DESCRIPTIONS. Two options are suggested as updating approaches to the Basic Catalog. Users should select the option which best meets the principal need for program information.

OPTION A—COMPLETE RETENTION

This option may be used by those who have general purpose program information needs. Examples are: libraries, clearinghouses, research institutions, information brokers, etc. The entire update package would be retained as a total change reference unit which could be located in either the front or the back of the Catalog, or in a separate binder. When seeking information on a program in the Update, the user should first, search the indices and appendices to see if the program is still active. Second, refer to the complete program description in the Basic Catalog. Third, refer to the Update's Modification to Program Description for detailed changes.

OPTION B—PARTIAL RETENTION

Federal programs are subject to both legislative and administrative changes throughout a fiscal year. The Update attempts to compile and present the most recently reported significant program modifications. It is unlikely an individual or single purpose agency would have an interest in the thousands of changes reflected in the Update. If this is the case, option B could be used. First, list the agencies or specific programs to be monitored. Using the Summary List of Modified Programs, determine the presence of the agency or program(s) and record this information. Next, search the Modified Programs section to determine which paragraphs of the agency/program(s) interest list were changed. If the changed paragraphs are considered important information to the user then take any of the following steps: 1. make a photostatic copy of the page, cut and paste the changed paragraph(s) in the Basic Catalog, or 2. compare the two paragraphs word-for-word and make pen/ink changes to the Basic Catalog paragraph, or 3. if the changed paragraphs are on one side of a page in the Update, insert the page in the Basic Catalog in the vicinity of the altered program description. Third, replace the Introduction, indices and appendices in the Update with those in the Basic Catalog. Although this option may seem like a lot of work, reference will be easier, and bulk will be reduced.

OTHER HANDLING SUGGESTIONS:

Binding

The Catalog from time to time is temporarily bound with glue. Infrequent Catalog users will probably find this binding material sufficient. Those using the Catalog regularly should consider investment in a binder large enough to contain the material. Depending upon the locally available binder sizes, it may be necessary to invest in more than one binder. Another alternative, though less attractive, is the use of wire or string through the post holes.

Paging and Tabbing

Users will find that the paging used in the Update is arranged in the same order as the 1990 Basic Catalog. This aids in the identification of sections for updating Catalog material. Regardless of the option used (even prior to updating), users may find the use of index tabs helpful. Catalog (and Update) sections requiring frequent reference, for example: one or more indices, a certain agency or agencies, specific programs and certain appendices, could be flagged with an index tab. This approach can reduce the time required to locate appropriate sections, and serves to visually organize the Catalog material. (All new pages are dated 12-90.)

INTRODUCTION

Public Law 98-169 authorized the transfer of responsibilities of the Federal Program Information Act from the Office of Management and Budget to the General Services Administration (GSA). The transfer took place in July 1984. These responsibilities include the dissemination of Federal domestic assistance program information through the Federal Assistance Programs Retrieval System (FAPRS) and the Catalog of Federal Domestic Assistance, pursuant to the Federal Program Information Act, Public Law 95-220, as amended by Public Law 98-169. GSA now maintains the Federal assistance information data base from which program information is obtained. The Office of Management and Budget serves as an intermediary agent between the Federal agencies and GSA, thus providing oversight to the necessary collection of Federal domestic assistance program data.

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance is a government-wide compendium of Federal programs, projects, services, and activities which provide assistance or benefits to the American public. It contains financial and nonfinancial assistance programs administered by departments and establishments of the Federal government.

As the basic reference source of Federal programs, the primary purpose of the Catalog is to assist users in identifying programs which meet specific objectives of the potential applicant, and to obtain general information on Federal assistance programs. In addition, the intent of the Catalog is to improve coordination and communication between the Federal government and State and local governments.

The Catalog provides the user with access to programs administered by Federal departments and agencies in a single publication. Program information is cross referenced by functional classification (Functional Index), subject (Subject Index), applicant (Applicant Index), deadline(s) for program application submission (Deadlines Index), and authorizing legislation (Authorization Index). These are valuable resource tools which, if used carefully, can make it easier to identify specific areas of program interest more efficiently.

Other sections of the Catalog provide users with information on programs added and deleted since the last edition of the Catalog, a crosswalk of program numbers and title changes, regional and local offices, intergovernmental review requirements, definitions of the types of assistance under which programs are administered, proposal writing, grant application procedures, and additional sources of information on Federal programs and services. Also included is a chart on how to use the Catalog to locate programs of interest.

In previous editions, the Catalog has routinely provided information on Federal policy circulars, both in the program description text and in Appendix I. However, as the result of an OMB initiative, this information will only be partially reflected, as the agency liaisons and program staffs determine to be appropriate. In some cases, circular coordination references will still appear in program descriptions, but the Catalog no longer requires such coordination.

Since the 1989 Basic Edition of the Catalog, the only Federal policy document routinely being referenced and tracked is the Executive Order 12372, "Intergovernmental Review of Federal Programs." Appendix I, now entitled "Programs Requiring Executive Order 12372," will provide general information on the Executive Order, a listing of all Catalog programs which are affected by it, and the Single Point of Contact List, to which State applicants may refer for application coordination and review. For the purpose of general information, the following is a listing of the policy circulars previously referenced throughout the Catalog.

ENVIRONMENTAL IMPACT STATEMENT (EIS). Reference: 42 U.S.C. 4332(2)(C) and 34 FR 4247.

Programs selected for inclusion in the Federal assistance data base are defined as any function of a Federal agency that provides assistance or benefits for a State or States, territorial possession, county, city, other political subdivision, grouping, or instrumentality thereof; any domestic profit or nonprofit corporation, institution, or individual, other than an agency of the Federal government. A "Federal domestic assistance program" may in practice be called a program, an activity, a service, a project, a process, or some other name, regardless of whether it is identified as a separate program by statute or regulation. It will be identified in terms of its legal authority, administering office, funding, purpose, benefits, and beneficiaries. "Assistance" or "benefits" refers to the transfer of money, property, services, or anything of value, the principal purpose of which is to accomplish a public purpose of support or stimulation authorized by Federal statute. Assistance includes, but is not limited to grants, loans, loan guarantees, scholarships, mortgage loans, insurance, and other types of financial assistance, including cooperative agreements; property, technical assistance, counseling, statistical, and other expert information; and service activities of regulatory agencies. It does not include the provision of conventional public information services.

The Catalog is published annually, using the most current data available on the status of programs at the time the Catalog or the Update to the Catalog are compiled. The Basic edition of the Catalog, which is usually published in June, reflects completed congressional action on program legislation. The Update, usually published in December, reflects completed congressional action on the President's budget proposals and on substantive legislation as of the date of compilation, and includes information on Federal programs that was not available at the time the latest edition of the Catalog was compiled. It is suggested that the Update be retained and used along with the Basic edition in order to obtain the most current information on program revisions.

GSA distributes a limited number of free copies of the Catalog to National, State and local offices. At the national level copies are provided to: Members of Congress, congressional staff, Federal agencies, and all Federal Depository Libraries. At the State level copies of the Catalog are provided to: Governors, State Coordinators of Federal-State Relations, Directors of State Departments of Administration and Budget Offices, Directors of State Departments of Community Affairs, Directors of State Planning Agencies, Directors of State Agricultural Extension Services, State Municipal Leagues, State Association of Counties, Chief State School Officers, and State Employment Security Agencies. At the local level copies are provided to: Mayors, County Chairmen, Chairmen of Boards of Commissioners and city planners. Copies are also provided to the Federal Information Centers, Federal Regional Councils, Federal Executive Boards, and appropriate field and area offices of most Federal agencies. The Catalog is also provided to other agencies of State and local governments down to and including those with a population size of 250. Private individuals who wish to receive a copy of the Catalog should contact one of the U.S. Government Bookstores listed below in Part VIII, Information Resources for Legislative Research and Inquiry. (See back cover of the Catalog for a Mail Order Subscription Form.)

Program information from the Catalog is also available on machine readable magnetic tape and on high-density floppy diskettes. Both contain all textual material published in the program description section of the Catalog, and a characteristics record of coded program information extracted from the textual material. The characteristics record format allows the user to retrieve program numbers and titles, along with the program function, types of assistance, applicants, beneficiaries, circular requirements, obligations, matching requirements, geographic data, and authorizing legislation. From the text record, users may retrieve the complete text or specific sections of the program text. The accompanying documentation describes the procedures for retrieving program information. The tape or diskettes may be purchased from GSA. Federal Assistance Programs Retrieval System (FAPRS)

The Federal Assistance Programs Retrieval System (FAPRS) is a computerized question-answer system designed to provide rapid access to Federal domestic assistance program information. The system provides information on Federal programs which meet the developmental needs of the applicant and for which the applicant meets basic eligibility criteria. Program information provided by FAPRS is determined from input supplied by the requestor. Input includes the types of applicant (e.g., State or local governments, federally-designated Indian tribal governments, nonprofit organizations, small businesses, individuals), the type of assistance under which programs are administered (e.g., grants, loans); and the specific functional categories and subcategories of interest. Based upon the input supplied, the output consists of: (1) a list of program numbers and titles; (2) the full text of selected programs; or (3) specific sections of the program text.

A keyword search function has been added to FAPRS this year. This allows the applicant to search all Catalog programs. The new features allow the applicant to (1) perform a program search by using up to five "keywords" or phrases with several operators; (2) position the keyword options in the same order, paragraph or program or within a selected range of words; and (3) determine the number of programs and occurrences selected. (This allows programs to be listed by program number and titles, with the option to view each occurrence in context.) Keyword search is designed for experienced users and provides greater search specificity. The original menu-driven FAPRS facility is still available to all users.

As originally developed, FAPRS was designed to aid small, rural, isolated communities unfamiliar with Federal assistance programs or unable to locate Federal aid programs that had the greatest funding potential. The present FAPRS is an enhanced version which was developed by incorporating data provided from an analysis of FAPRS users and an OMB study of the overall requirements for Federal information systems. FAPRS may now be accessed by both rural and urban communities.

FAPRS consists of the following features:

1. Functional search criteria—20 functional categories and 175 subcategories to specify areas of interest, as listed in the Functional Index of the Catalog.
2. Applicant eligibility search criteria—10 government related and 11 non-government related applicant types.
3. Type(s) of assistance search criteria—15 type of assistance categories.
4. A display of definitions for functional subcategories, applicant types, and types of assistance to assist the user in selecting the desired search criteria.
5. Program text printout selection to print entire text(s) or only specified sections of text(s) if desired.
6. Formatted display of Federal circular coordination requirements for a selected list of programs.

States have designated access points where FAPRS searches may be requested. In addition, bulletins on FAPRS are available from the system to inform users of the addition or deletion of programs, changes to program numbers from one update cycle to the next, and enhancements or changes to the system. For volume users, direct access to FAPRS is available through GSA on a cost-reimbursable basis. For further information on FAPRS, the location of the nearest State access point, or procedures for directly accessing the system, write or call:

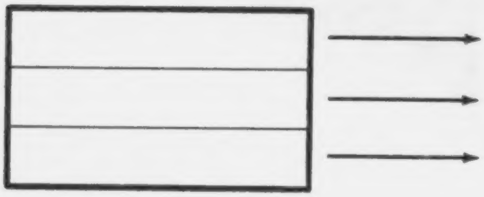
How To Use the Catalog

The application procedures information in the following section is general in nature and may vary depending upon the type of applicant, type of assistance offered under a program, or the nature of the particular program or project. Potential applicants are urged to carefully review the requirements indicated in each program, since evaluation of applications are based upon the degree to which program requirements have been met.

The following page contains a chart which suggests how to use the Catalog. By following the steps outlined in each block, the user will have extracted all of the Catalog data pertaining to a Federal assistance program. For matters too complex, or those which frequently change, potential applicants are encouraged to obtain this information from the Federal agency contact listed in the Information Contacts section of the program descriptions. The Federal agency contact will also supply detailed information and specific guidance on applying for Federal assistance.

Each block in the chart is divided into three sections:



Describes the type of action to take.

Identifies the appropriate Catalog section for reference.

Details the important aspects to consider and note.

Using the Chart

Users should start at the top of the chart with the blocks indicating LOCATE PROGRAM. Use one or more of these blocks depending upon the type of informaiton you have regarding your Federal assistance interests. Move down the chart collecting and noting information as you proceed until you reach the block indicating PREPARE AND SUBMIT APPLICATION. Once you have identified the Federal program you believe fits your objective or proposal, you may process your application. Information on proposal writing and grant procedures are outlined in the Introduction.

Types of Assistance

Currently, programs in the Catalog are being classified by GSA into 15 types of assistance. (Cooperative Agreements as a type of assistance is used for programs administered under that mechanism. However, the definition does not appear in this section.) Benefits and services of the programs are provided through seven financial types of assistance and eight nonfinancial types of assistance. The following list defines the types of assistance which are available through the programs. Code letters below (A through O) which identify the type of assistance) will follow program titles in the Agency Index, Applicant Eligibility Index, the Functional Index, Deadlines Index, and in the list of added programs.

A	Formula Grants — Allocations of money to States or their subdivisions in accordance with a distribution formula prescribed by law or administrative regulation, for activities of a continuing nature not confined to a specific project.
B	Project Grants — The funding, for fixed or known periods, of specific projects or the delivery of specific services or products without liability for damages for failure to perform. Project grants include fellowships, scholarships, research grants, training grants, traineeships, experimental and demonstration grants, evaluation grants, planning grants, technical assistance grants, survey grants, construction grants, and unsolicited contractual agreements.
C	Direct Payments for Specified Use — Financial assistance from the Federal government provided directly to individuals, private firms, and other private institutions to encourage or subsidize a particular activity by conditioning the receipt of the assistance on a particular performance by the recipient. This does not include solicited contracts for the procurement of goods and services for the Federal government.
D	Direct Payments with Unrestricted Use — Financial assistance from the Federal government provided directly to beneficiaries who satisfy Federal eligibility requirements with no restrictions being imposed on the recipient as to how the money is spent. Included are payments under retirement, pension, and compensation programs.
E	Direct Loans — Financial assistance provided through the lending of Federal monies for a specific period of time, with a reasonable expectation of repayment. Such loans may or may not require the payment of interest.
F	Guaranteed/Insured Loans — Programs in which the Federal government makes an arrangement to indemnify a lender against part or all of any defaults by those responsible for repayment of loans.
G	Insurance — Financial assistance provided to assure reimbursement for losses sustained under specified conditions. Coverage may be provided directly by the Federal government or through private carriers and may or may not involve the payment of premiums.
H	Sale, Exchange, or Donation of Property and Goods — Programs which provide for the sale, exchange, or donation of Federal real property, personal property, commodities, and other goods including land, buildings, equipment, food and drugs. This does not include the loan of, use of, or access to Federal facilities or property.
I	Use of Property, Facilities, and Equipment — Programs which provide for the loan of, use of, or access to Federal facilities or property wherein the federally-owned facilities or property do not remain in the possession of the recipient of the assistance.
J	Provision of Specialized Services — Programs which provide Federal personnel to directly perform certain tasks for the benefit of communities or individuals. These services may be performed in conjunction with nonfederal personnel, but they involve more than consultation, advice, or counseling.

K Advisory Services and Counseling — Programs which provide Federal specialists to consult, advise, or counsel communities or individuals, to include conferences, workshops, or personal contacts. This may involve the use of published information, but only in a secondary capacity.

L Dissemination of Technical Information — Programs which provide for the publication and distribution of information or data of a specialized technical nature frequently through clearinghouses or libraries. This does not include conventional public information services designed for general public consumption.

M Training — Programs which provide instructional activities conducted directly by a Federal agency for individuals not employed by the Federal government.

N Investigation of Complaints — Federal administrative agency activities that are initiated in response to requests, either formal or informal, to examine or investigate claims of violations of Federal statutes, policy, or procedure. The origination of such claims must come from outside the Federal government.

O Federal Employment — Programs which reflect the government-wide responsibilities of the Office of Personnel Management in the recruitment and hiring of Federal civilian agency personnel.

Contents Of the Catalog

The Catalog contains Federal domestic assistance programs available to: State and local governments (including the District of Columbia and federally-recognized Indian tribal governments); Territories (and possessions) of the United States; domestic public, quasi-public, and private profit and nonprofit organizations and institutions; specialized groups; and individuals.

Programs in the Catalog provide information on the:

— Federal agency administering a program;

— Authorization upon which a program is based;

— Objectives and goals of a program;

— Types of financial and nonfinancial assistance offered under a program;

— Uses and restrictions placed upon a program;

— Eligibility requirements;

— Application and award process;

— Amount of obligations for the past, current, and future fiscal years;

— Regulations, guidelines and literature relevant to a program;

— Information contacts at the headquarters, regional, and local offices;

— Programs that are related based upon program objectives and uses;

— Examples of funded projects;

— Criteria for selecting proposals; and

— Individual agency policies and Federal management policy directives pertaining to a program.

Programs in the Catalog provide a wide range of benefits and services, which have been grouped into 20 basic functional categories, and 176 subcategories which identify specific areas of interest. Listed below are the 20 basic categories in which all programs have been grouped by primary purpose.

— Agriculture

— Business and Commerce

— Community Development

— Consumer Protection

— Cultural Affairs

— Disaster Prevention and Relief

— Education

— Employment, Labor, and Training

— Energy

— Environmental Quality

— Food and Nutrition

— Health

— Housing

— Income Security and Social Services

— Information and Statistics

— Law, Justice, and Legal Services

— Natural Resources

— Regional Development

— Science and Technology

— Transportation

Programs in the Catalog also include service activities of regulatory agencies.

The Catalog does not include:

— Solicited contracts administered under procurement laws and regulations for the purchase of goods and services for the Federal government;

— Foreign activities except as such programs have direct economic benefit in the domestic economy. (A program that provides both domestic and foreign assistance will be included with the description of the program oriented toward the domestic aspect.);

— Personnel recruitment programs of individual Federal departments which offer employment opportunities as part of normal recruiting operations, (the overall government-wide programs of the Office of Personnel Management are included);

— Benefits or assistance available only to current employees of the Federal government either civilian or military;

— New programs proposed in the Budget for which appropriations have not been enacted; or

— Programs which are no longer active due to expired authorization or appropriation.

Organization of the Catalog

The Catalog is divided into three basic sections —— the indices, the program descriptions, and the appendices.

INDICES—To locate specific programs of interest, determine eligibility, and to obtain information on the dates applications for assistance should be submitted to the funding agency, users may consult the Agency Program Index, the Functional Index, or the Subject Index; the Applicant Eligibility Index, and the Index listing deadlines for program applications.

The Agency Index Summary provides a description of the functions and activities of Federal agencies responsible for administering programs in the Catalog. Program numbers are also listed with the administering agency.

The Agency Program Index lists all programs in the Catalog in numerical order by the five-digit program identification number, the program title, the Federal agency responsible for administering the program, and whether the program offers financial assistance, nonfinancial assistance, or a combination of both.

The Functional Index Summary lists the basic functional categories and the subcategories which further identify specific areas of interest. Following the Summary is the Functional Index listing each program number and title under the appropriate basic category and subcategory.

The Subject Index provides a detailed listing of programs by various topics, popular name, general functional terms, categories of services, and selected beneficiaries, and is followed by the applicable program numbers.

The Applicant Eligibility Index is a listing in program number sequence, along with program titles, indicating the applicants eligible to apply. The index lists programs which may be applied for by:

— any of the several States of the United States, the District of Columbia, or any agency or instrumentality of a State exclusive of State institutions of higher education and hospitals;

— local governments which include a county, parish, municipality, city, town, township, village, State-designated Indian tribal government, local public authority, school district, special district, intrastate district, council of governments, sponsor group representative organizations, and other regional or interstate government entity, or any agency or instrumentality of a local government;

— U.S. Territories (and possessions) of the United States which include the Commonwealths of Puerto Rico and the Northern Mariana Islands, the Virgin Islands, Guam, Trust Territory of the Pacific Islands, and American Samoa;

— Federally-recognized Indian Tribal governments which include the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in Section 3 of the Alaska Native Claims Settlement Act, 85 Stat. 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs;

— nonprofit organizations and institutions which include quasi-public, public and private institutions of higher education and hospitals, Native American Indian Organizations, and other quasi-public and private nonprofit organizations such as, but not limited to, community action agencies (CAAs), Head Start agencies, research institutes, educational associations, and health centers. Excluded under this definition are government-owned contractor operated facilities or research centers providing support for mission-oriented, large scale programs that are government-owned or controlled, or are designed as federally-funded research and development centers; and

— private individuals such as Native Americans, homeowners, students, farmers, artists, scientists, consumers, small business, refugees, aliens, veterans, senior citizens, low-income persons, health and education professionals, builders, contractors, developers, handicapped persons, the physically afflicted.

The Deadlines Index (for program applications) is a listing of program numbers and titles and the deadline date(s) by which funding agencies must receive applications. This information is also contained in the Deadlines Section of the program descriptions.

Users should also consult the following listings:

The Deleted Programs list identifies programs that have been deleted since the previous edition of the Catalog due to: expiration of budget authority; rescission of budget authority for the current fiscal year; program consolidation which has rendered the former program number(s) obsolete; the replacement of a categorical grant program by a block grant program; the replacement of two or more categorical programs by a block grant program; the abolishment of an agency; or the criteria for including a program in the Catalog no longer valid being (e.g., a program which no longer operates under Federal funding).

The Added Programs list identifies programs that have been added since the previous edition of the Catalog due to: the appropriation of new budget authority; the consolidation of two or more programs creating a new program; the splitting of elements from a former program creating two or more new programs; the transformation of a single categorical grant program into a block program; or the consolidation of two or more categorical grant programs into a block program.

The Crosswalk of Changes to Program Numbers and Titles which lists programs that have undergone a title change, or a program number change due to restructuring of programs, or reorganization of a Federal agency.

PROGRAM DESCRIPTIONS——The center section of the Catalog contains descriptions of Federal programs listed by program number in the same numerical sequence as in the Agency Program Index. Detailed information concerning programs is contained under the description headings of each Catalog program. The following is an explanation of each program description heading followed by examples of the type of information found under each heading.

NOTE: The program used in the example below does not exist. It is provided for the purpose of illustration only.

PROGRAM NUMBER, TITLE, AND POPULAR NAME — Each program in the Catalog is preceded by a five-digit program identification number. The first two digits identify the Federal department or agency that administers the program, and the last three numbers are assigned in numerical sequence. Thus, program number 10.500 is administered by the Department of Agriculture, 11.500 by the Department of Commerce, 12.500 by the Department of Defense, 13.500 by the Department of Health and Human Services, and so on. (In the numerical sequence of program numbers, some numbers do not appear due to program deletions or consolidations. To accommodate users' systems and records, the numbers are not reassigned to other programs but are reserved for the reinstated programs.) The program title is the descriptive name given to a program. The popular name, which is less descriptive than the program title, is the name by which programs are commonly known or most often used by applicants and agencies.

Example: 13.259 Mental Health—Children's Services

FEDERAL AGENCY — The Federal agency is the Federal department, agency, commission, council or instrumentality of the government, and the primary organizational sub-unit (the administering office) that has direct operational responsibility for managing a program.

Example: ALCOHOL, DRUG ABUSE AND MENTAL HEALTH ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION — This section lists the legal authority upon which a program is based (acts, amendments to acts, Public Law numbers, titles, sections, Statute Codes, citations to the U.S. Code, Executive Orders, Presidential Reorganization Plans, and Memoranda from an agency head). Information provided here is used to produce Appendix II, the Authorization Appendix.

Example: Community Mental Health Centers Act of 1975, Part A, Section 203(e), Public Law 94-63, 42 U.S.C. 2689.

OBJECTIVES — This is a brief statement of specific objectives stated in terms of what the program is intended to accomplish along with the goals toward which the program is directed.

Example: To stimulate innovative approaches to children's mental health problems emphasizing prevention and coordination of community services; to expand training activities; and, to broaden resources for children's mental health services.

TYPES OF ASSISTANCE — This section indicates the form in which the assistance is transmitted from the Federal government and is initially received for use or distribution by the applicant.

Example: Project Grants.

USES AND USE RESTRICTIONS — This section describes the potential uses for the assistance provided to meet stated objectives, and the specific restrictions placed upon the use of funds. The section cites one or more applications depending upon the nature of a particular program. Since this section translates objectives into the uses of a program, users may develop a clearer understanding of the program's objectives.

Example: Support for Continuation Grants only. Program authorizes funds on a matching basis for initial staffing of facilities offering mental health services for children. Staffing grants may be used for a portion of the costs of professional and technical personnel to operate a facility for child mental health services; a higher percentage may be paid if an area has been designated a poverty area by the Secretary, HHS. The proposed program must provide consultation and coordinating services with other community agencies serving children in service area, and must include a plan with the means by which it will be evaluated.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility — This section indicates who can apply to the Federal government for assistance and the criteria the potential applicant must satisfy. For example, individuals may be eligible for research grants, and the criteria to be satisfied may be that they have a professional or scientific degree, 3 years of research experience, and be a citizen of the United States. Universities, medical schools, hospitals, or State and local governments may also be eligible. Where State governments are eligible, the type of State agency will be indicated (State welfare agency or State agency on aging) and the criteria that they must satisfy.

Certain programs in the Catalog (e.g., the Pell Grant program which provides grants to students) involve intermediate levels of application processing, i.e., applications are transmitted through colleges or universities that are neither the direct applicant nor the ultimate beneficiary. For these programs, the criteria that the intermediaries must satisfy are also indicated, along with intermediaries who are not eligible.

Example: To be eligible for staffing grants, applicants must be part of, or affiliated with, a community mental health center, unless there is no center serving the community. Applicants may then be any public or private nonprofit agency providing, or coordinating with programs which will provide a full range of mental health services for children and their families residing in the service area.

Beneficiary Eligibility — This section lists the ultimate beneficiaries of a program, the criteria they must satisfy and who specifically is not eligible. The applicant and beneficiary will generally be the same for programs that provide assistance directly from a Federal agency. However, financial assistance that passes through State or local governments will have different applicants and beneficiaries since the assistance is transmitted to private sector beneficiaries who are not obligated to request or apply for the assistance.

Example: Children and their families in the service area as well as personnel of schools and other community agencies serving children.

Credentials/Documentation — This is a brief description of the credentials or documentation required prior to, or along with, an application for assistance. The eligibility factors that must be proven, certified, or established are indicated in this section. This section also indicates whether OMB Circular No. A-87 requirements, "Cost Principles Applicable to Grants and Contracts with State and Local Governments," are applicable. In cases where specific Federal circulars or other regulatory requirements are not applicable to the program, disclaimer statements may be included referencing the requirement(s) from which the program is excluded, e.g., "This program is excluded from coverage under (applicable requirement)."

Example: Proof of nonprofit status is required of nonprofit organizations and institutions. This program is excluded from coverage under OMB Circular No. A-87.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination — This section indicates whether any prior coordination or approval is required with governmental or nongovernmental units prior to the submission of a formal application to the Federal funding agency. For example, programs may require: (1) State agency approval prior to the submission of an application to a Federal agency; (2) the submission of environmental impact information as required by the National Environmental Policy Act of 1969, and Executive Order 11514 of March 4, 1970; (3) coordination with the policies of the recently revised OMB Circular No. A-102, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments" (referenced here for construction, land acquisition, and land development projects for which Federal funding exceeds $100,000); (4) coverage for eligibility under Executive Order 12372, "Intergovernmental Review of Federal Programs"; or (5) a preapplication or preapplication conference. Applicants should also ascertain from the Federal agency the existence of other circular requirements not indicated by this section, and from the State, any State requirements which may be in effect. In cases where E.O. 12372 is not applicable to the program, a disclaimer statement is included referencing the exclusion, e.g., "This program is excluded from coverage under E.O. 12372."

Example: Preapplication consultation with the ADAMHA Branch of the HHS Regional Office is not mandatory. Application must be accompanied by evidence of approval and recommendation by the appropriate State agency or agencies. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. This program is excluded from coverage under E.O. 12372.

Application Procedure — This section discusses the basic procedural steps required by the Federal agency in the application process, beginning with the lowest level (e.g., State and local government units, institutions or organizations) and ending eventually with the Federal government. Each program will indicate whether applications are to be submitted to the Federal headquarters, regional or local office, or to a State or local government office. Numerous programs in the Catalog require the standard application forms in OMB Circular No. A-102 (Attachment M). Other applications may be in the form of a written request to the funding agency stating the need for assistance and requesting available services, or a formal proposal prepared in response to an announcement in the Federal Register or the Commerce Business Daily. Also indicated in this section is guidance concerning the applicability of OMB Circular No. A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations." In cases where specific Federal circulars or other regulatory requirements are not applicable to the program, disclaimer statements may be included referencing the requirement(s) from which the program is excluded, e.g., "This program is excluded from coverage under (applicable requirement)."

Example: Continuation Application Form ADM-115 should be used for staffing. Instructions and consultation may be obtained from the mental health section of the appropriate HHS Regional Office. Applications are sent to the Regional Office with copies to Acting Director, Division of Mental Health Service Programs, NIMH, 5600 Fishers Lane, Rockville, MD 20857. This program is subject to the provisions of OMB Circular No. A-110. This program is excluded from coverage under OMB Circular No. A-102.

Award Procedure — This section lists the basic procedural steps for awarding assistance, beginning with the organizational components of the Federal agency that has final approval authority for the application and ending with the lowest level at which Federal resources are expended. Also indicated is whether assistance passes through the initial applicant for further distribution by intermediate level applicants to groups or individuals in the private sector.

Accepted applications are subject to evaluation by the headquarters, regional, local or district office to determine the feasibility of the proposed project to include consistency with Federal and individual agency policies concerning its scope and purpose. Grant payments may be made by a letter of credit, advance by Treasury check, or reimbursement by Treasury check. Awards may be made by the headquarters office directly to the applicant, an agency field office, a regional office, or by an authorized county office.

Example: The Regional Health Administrator makes awards to approved applicants.

Deadlines — When available, this section indicates the deadlines for applications to the funding agency which will be stated in terms of the date(s) or between what dates the application should be received. Reference is made to new applications, continuations, renewals, and supplementals. Application deadline information is also indicated in the Deadlines Index, in the agency's program guidelines, or announced in the Federal Register. Where not available, applicants should contact the funding agency for deadline information.

Example: Staffing: Determined by award period (contact the Regional Office).

Range of Approval or Disapproval Time — This section informs the applicant of the representative range of time required for the application to be processed (in terms of days or months) at the Federal level.

Example: From 90 to 120 days.

Appeals — In some cases, there are no provisions for appeal. Where applicable, this section discusses appeal procedures or allowable rework time for resubmission of applications to be processed by the funding agency. Appeal procedures vary with individual programs and are either listed in this section or applicants are referred to appeal procedures documented in the relevant Code of Federal Regulations (CFR).

Example: Not applicable. (An appeal was not applicable in this case. A related program (13.231) allows applicants to reapply if revised applications are submitted.)

Renewals — This section advises the applicant as to whether renewals or extensions of applications are available and indicates the appropriate procedures to follow. In some instances, renewal procedures may be the same as for the application procedure, e.g., for projects of a non-continuing nature renewals will be treated as new, competing applications; for projects of an ongoing nature, renewals may be given annually.

Example: This program is renewed annually. Grantees are required to update their plan and submit a current year budget.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements — This section indicates the formula and matching requirements prescribed in the allocation of funds or maintenance of effort requirements. A formula may be based on population, per capita income, and other statistical factors. Applicants are informed whether there are any matching requirements to be met when participating in the cost of a project. In general, the matching share represents that portion of the project costs not borne by the Federal government. Usually, a minimum percentage for matching share is prescribed by program legislation, and matching share requirements are included in the grant agreement. Attachment F of OMB Circular No. A-102 sets forth the criteria and procedures for the evaluation of matching share requirements which may be cash or in-kind contributions made by State and local governments or other agencies, institutions, private organizations, or individuals to satisfy matching requirements of Federal grants or loans.

Cash contributions represent the grantees' cash outlay, including the outlay of money contributed to the grantee by other public agencies, institutions, private organizations, or individuals. When authorized by Federal regulation, Federal funds received from other grants may be considered as the grantees' cash contribution.

In-kind contributions represent the value of noncash contributions provided by the grantee, other public agencies and institutions, private organizations or individuals. In-kind contributions may consist of charges for real property and equipment, and value of goods and services directly benefitting and specifically identifiable to the grant program. When authorized by Federal legislation, property purchased with Federal funds may be considered as grantees' in-kind contribution.

Maintenance of effort (MOE) is a requirement contained in certain legislation, regulations, or administrative policies stating that a grantee must maintain a specified level of financial effort in a specific area in order to receive Federal grant funds, and that the Federal grant funds may be used only to supplement, not supplant, the level of grantee funds. Programs that have maintenance of effort requirements and have total allocations over $100 million (current FY) should have the following statement in this section: This program has maintenance of effort (MOE) requirements, see funding agency for further details.

Example: Staffing: Federal funds on a decreasing percentage basis over a period of 8 years 90 percent - 1st and 2nd years; 80 percent - 3rd year; 75 percent - 4th and 5th years; 70 percent - 6th, 7th and 8th years. Nonpoverty areas are entitled to: 80 percent - 1st and 2nd years; 75 percent - 3rd year; 60 percent - 4th year; 45 percent - 5th year; 30 percent - 6th, 7th and 8th years.

Length and Time Phasing of Assistance — This section indicates the time period during which the assistance is normally available, whether there are any restrictions placed on the time permitted to use the funds awarded, and the timing of disbursement of the assistance, e.g., lump sum, annually, quarterly, or as required.

Example: Staffing grants are limited to 8 years by law. Payments are made on a Monthly Cash Request System or under a Letter of Credit.

POST ASSISTANCE REQUIREMENTS:

Reports — This section indicates whether program reports, expenditure reports, cash reports or performance monitoring is required by the Federal funding agency, and specifies at what time intervals (monthly, annually, etc.) this must be accomplished.

Example: Interim progress reports must be submitted annually as part of a non-competing application; report of expenditures are due annually. Immediate reporting of any inventions is required.

Audits — This section discusses audits required by the Federal agency. The procedures and requirements for State and local governments are set forth in OMB Circular No. A-128, which supersedes the provisions of Attachment P of OMB Circular No. A-102 that formerly governed audit requirements for State and local governments. This pertains to awards made within the respective State's fiscal year – not the Federal fiscal year, as some State and local governments may use the calendar year or other variation of time span designated as the fiscal year period, rather than that commonly known as the Federal fiscal year (from October 1st through September 30th). The procedures and requirements for nonprofit organizations and institutions are set forth in OMB Circular No. A-133, "Audits of Institutions of Higher Education and Other Nonprofit Organizations," and should also be referenced here, as appropriate.

Example: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nonprofit grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133.

Records — This section indicates the record retention requirements and the type of records the Federal agency may require. Not included are the normally imposed requirements of the General Accounting Office. For programs falling under the purview of OMB Circular No. A-102, record retention is set forth in Attachment C. For other programs, record retention is governed by the funding agency's requirements.

Example: Records must be retained at least 3 years; records shall be retained beyond the 3-year period if audit findings have not been resolved.

FINANCIAL INFORMATION:

Account Identification — This 11-digit budget account identification code represents the account which funds a particular program. This code should be consistent with the code given for the program area as specified in Appendix III of the Budget of the United States Government. (See Appendix III for further information on the meaning of the 11 digits of this code.)

Example: 75-1361-0-1-550.

Obligations — The dollar amounts listed in this section represent obligations for the past fiscal year (PY), estimates for the current fiscal year (CY), and estimates for the budget fiscal year (BY) as reported by the Federal agencies. In each succeeding edition of the Catalog, the dollar amounts are revised to reflect changes which may result from supplemental appropriations or amendments. Each program indicates what the obligation figures represent in terms of the type of assistance provided. Obligations for nonfinancial assistance programs indicate the administrative expenses involved in the operation of a program as an indication of the magnitude of the services being provided, or the items involved in obligations.

Example: (Grants) PY $19,853,000; CY est $20,407,000; and BY est $14,830,000.

Range and Average of Financial Assistance — This section lists the representative range (smallest to largest) of the amount of financial assistance available. These figures are based upon funds awarded in the past fiscal year and the current fiscal year to date. Also indicated is an approximate average amount of awards which were made in the past and current fiscal years.

Example: Formula: $26,355 to $691,481; $235,305.

PROGRAM ACCOMPLISHMENTS — This section briefly describes the accomplishments of a program using quantitative data, focussing on program output, results achieved, or services rendered during the past fiscal year, the current fiscal year, and projections for the coming fiscal year.

Example: In the past fiscal year, 140 applications were received and 140 staffing awards were issued. Approximately 147 continuation grants were funded during the current fiscal year and 103 are estimated to be funded in the budget fiscal year.

REGULATIONS, GUIDELINES, AND LITERATURE — This section lists the title, number, and price of guidelines, handbooks, manuals, and other officially published information pertinent to a program. Since program regulations are published first in the Federal Register (FR) and later in the Code of Federal Regulations (CFR), citations to the CFR are listed.

Example: Interim guidelines available in application kits.

INFORMATION CONTACTS:

Regional or Local Office — This section lists the agency contact person, address and telephone number of the Federal Regional or Local Office(s) to be contacted for detailed information regarding a program such as: (1) current availability of funds and the likelihood of receiving assistance within a given period; (2) preapplication and application forms required; (3) whether a preapplication conference is recommended; (4) assistance available in preparation of applications; (5) whether funding decisions are made at the headquarters, regional or local level; (6) application renewal procedures (including continuations and supplementals) or appeal procedures for rejected applications; and (7) recently published program guidelines and material.

However, for most programs in the Catalog, this section will instruct the reader to consult Appendix IV of the Catalog (Agency Regional and Local Office Addresses) due to the volume of Regional and Local Office Contacts for most agencies. For those agencies with fewer contacts, the actual information will be provided in this section.

Example: ADAMHA Branch of the appropriate HHS Regional Office (see Appendix IV of the Catalog for listing).

(Appendix IV Listing) Region 1
(Connecticut, Maine, Massachusetts, New
Hampshire, Rhode Island, Vermont)
William Farrow
John F. Kennedy Federal Building
Government Center
Boston, MA 02203
(617) 123-4567
(Use same 7-digit number for FTS)

Headquarters Office — This section lists names and addresses of the office at the headquarters level with direct operational responsibility for managing a program. A telephone number is provided in cases where a Regional or Local Office is not normally able to answer detailed inquiries concerning a program. Also listed are the name(s) and telephone number(s) of the information contact person(s) who can provide additional program information to applicants.

Example: Dr. Steven Sharfstein, Acting Director, Division of Mental Health Service Programs, National Institutes of Mental Health, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 123-4567. (Use same 7-digit number for FTS.)

RELATED PROGRAMS — This section of the program description lists all programs in the Catalog that are closely related based on objectives and program uses. Applicants should also refer to these programs, as they may provide additional assistance in a related area of interest.

Example: 13.232, Maternal and Child Health Services; 13.233, Maternal and Child Health Training; 13.242, Mental Health Research Grants; 13.295, Community Mental Health Centers—Comprehensive Support; 13.630, Developmental Disabilities—Basic Support.

EXAMPLES OF FUNDED PROJECTS: This section indicates the different types of projects which have been funded in the past. Only projects funded under Project Grants or Direct Payments for Specified Use should be listed here. The examples give potential applicants an idea of the types of projects that may be accepted for funding. The agency should list at least five examples of the most recently funded projects.

Example: Awards are made only for staffing of facilities offering mental health services for children.

CRITERIA FOR SELECTING PROPOSALS: This section indicates the criteria used by the Federal grantor agency to evaluate proposals in order to inform potential applicants of the application review process and the criteria used to award funds for projects.

Example: The criteria for selecting proposals is based upon the extent the project will contribute to needed services and training, capability of applicant to provide services and training, more effective utilization of personnel providing mental health services, and development of new methods or information.

APPENDICES——The last section of the Catalog contains the following appendices: Programs Requiring Executive Order 12372 Review (Appendix I); Authorization Appendix (Appendix II); Budget Functional Code Appendix (Appendix III); Agency Regional and Local Office Addresses (Appendix IV); Sources of Additional Information Contacts (Appendix V); and in each Basic edition, Historical Profile of Catalog Programs (Appendix VI).

Appendix I — Programs Requiring Executive Order 12372 Review: This Appendix gives a brief description of Executive Order 12372. The description explains its purpose, identifies a listing of all Catalog program numbers and titles to which it applies, the general procedures to follow in applying for assistance, and the State Single Point of Contact List to which the States may refer for application coordination purposes.

EXECUTIVE ORDER 12372, INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS. Reference: Federal Register, Vol. 48, No. 123, June 24, 1983, Final Regulations.

Appendix II — Authorization Appendix: This appendix lists Acts, Executive Orders and Public Law numbers which mandate programs in the Catalog. Acts and Executive Order citations are listed in alphabetic sequence and Public Law citations are listed numerically by the Congress. The citations are followed by their corresponding program numbers.

Appendix III — Budget Functional Code Appendix: This appendix lists programs by the Budget functional classification. The three digits listed are the major and minor functional classifications used to identify the major purpose of the programs.

Appendix IV — Agency Regional and Local Office Addresses: This appendix lists the names, addresses and telephone numbers of the regional and local offices which should be contacted for detailed information concerning a program and for initiating the process for applying for assistance. In cases where a Federal agency does not have a regional or local office, the headquarters office listed in the program description should be contacted.

Appendix V — Sources of Additional Information Contacts: Additional information concerning Federal programs is available from Federal Information Centers and Federal Executive Boards as listed in this Appendix.

Appendix VI — Historical Profile of Catalog Programs: This appendix lists all programs that have been published in the Catalog of Federal Domestic Assistance beginning with the 1965 edition, and the subsequent action taken related to those programs. (Published in the Basic editions only.)

SUGGESTIONS FOR WRITING GRANT PROPOSALS

I. INTRODUCTION

This section is designed to assist persons and institutions seeking a grant from a Federal assistance program.

The ideas and suggestions in this section are not all-inclusive. They are intended to serve as general guidelines. The material applies to most assistance proposals. Applicants should remember that the basic requirements, application forms, information and procedures vary with the Federal agency making the grant award.

The legislative intent and the administrative guidelines of Federal programs (refer to the Authorization section of the Catalog program description) are useful as a starting point in considering if and how a proposal matches the needs of the Federal granting agency. The remaining sections of the Catalog program description further define features of the Federal program.

A telephone call or a letter to the Federal agency contact person (refer to the Information Contacts section of the Catalog program description) can provide invaluable help in the beginning stages of proposal development. The potential applicant should consult the program's information contact person before developing a proposal to determine whether an application should be made, if there is money available, applicable deadlines, and the process used by the agency in accepting applications. It is important to identify any priorities the Federal agency considers significant. Agencies often prepare guidelines for specific programs to assist applicants in proposal development. These guidelines should be requested by the applicant.

Individuals without prior grant writing experience may find it useful to attend a grantsmanship workshop. A workshop can amplify the basic information presented here. Applicants requiring additional readings on grantsmanship and proposal development should consult the references listed at the end of this section and other library resources.

II. INITIAL PROPOSAL DEVELOPMENT

A. The Concept Paper

After outlining the idea for a proposal, it is useful to develop a concept paper or preliminary proposal, perhaps one or two pages in length. The paper should attempt, at a minimum, to outline proposed goals, rationale, population to be served, estimate of cost, and expected program achievements. The author should periodically revise the paper as ideas about the proposal or grant requirements of the Federal program change.

The paper should be distributed to interested persons within appropriate governmental agencies and those in the affected community. They can be helpful by providing both review and comment on the proposal contents. Solicit opinions from persons who are familiar with the subject matter, as well as from persons who may not be so familiar with it. This procedure will serve to provide at least two perspectives on the contents: (1) a substantive review of the material; and (2) insight into the clarity of the writing style and grammatical accuracy. Further, a review by someone who has submitted a proposal to the funding source in the past will yield information regarding experience with the agency's proposal preferences. The concept paper may be used later, if necessary, for the proposal summary page of the application, which is usually one of the most important pages in the grant package. (Refer to the application kit for details on the development of the proposal summary page.)

When developing an idea for a proposal it is important to determine if the idea has been or is now being considered in the applicant's locality or State. A careful check should be made with legislators and area government agencies and related public and private agencies which may currently have, or have had grant awards or contracts to do similar work. If a similar program exists or has existed in the past, the applicant may need to reconsider submitting the proposed project particularly if duplication of effort is perceived. If significant differences or improvements in the proposed project's goals can be clearly established, it may be worthwhile to pursue Federal assistance. The applicant must strive to select a fundable project which can be supported in view of the local need. Alternatives, in the absence of Federal support, should be pointed out. The influence of the project both during and after the project period should be explained. The consequences of the project as a result of funding should be highlighted.

B. Community Support

Community support for most proposals is essential. Once an outline or concept paper has been developed, look for individuals or groups representing academic, political, professional, and lay organizations which may be willing to support the proposal in writing. The type and caliber of community support is critical in the initial and subsequent review phases. Numerous letters of support can be persuasive to a grantor agency. Do not overlook support from local government agencies and public officials. Letters of endorsement detailing exact areas of project sanction and commitment are often requested as part of a proposal to a Federal agency. Several months may be required to develop letters of endorsement since something of value (e.g., buildings, staff, services) is sometimes negotiated between the parties involved. Many agencies require, in writing, affiliation agreements (a mutual agreement to share services between agencies) and building space commitments prior to either grant approval or award. A useful method of generating community support may be to hold meetings with the top decision makers in the community who would be concerned with the subject matter of the proposal. The forum for discussion may include a query into the merits of the proposal, development of a contract of support for the proposal, to generate data in support of the proposal, or development of a strategy to create proposal support from a large number of community groups.

C. Identification of a Funding Resource

A chart is provided in the Introduction (see How to Use the Catalog) to guide users through Catalog sections and retrieve all pertinent program information available in the Catalog. For new Catalog users, this chart may be consulted first for an orientation to the suggested method for identifying Federal financial assistance in the Catalog. A review of the Objectives and Uses and Use Restrictions sections of the Catalog program description can point out which programs might provide funding for an idea. Do not overlook the related programs as potential resources. Both the applicant and the grantor agency should have the same interests, intentions, and needs if a proposal is to be considered an acceptable candidate for funding.

Once a potential grantor agency is identified, call the contact telephone number identified in Information Contacts and ask for a grant application kit. Later, get to know some of the grantor agency personnel. Ask for suggestions, criticisms, and advice about the proposed project. In many cases, the more agency personnel know about the proposal, the better the chance of support and of an eventual favorable decision. Sometimes it is useful to send the concept paper to a specific agency official in a separate cover letter, and ask for review and comment at the earliest possible convenience. Always check with the Federal agency to determine its preference if this approach is under consideration. If the review is unfavorable and differences cannot be resolved, ask the examining agency (official) to suggest another department or agency which may be interested in the proposal. A personal visit to the agency's regional office or headquarters is also important. A visit not only establishes face-to-face contact, but also may bring out some essential details about the proposal or help secure literature and references from the agency's library.

Federal agencies are required to report funding information as funds are approved, increased or decreased among projects within a given State depending on the type of required reporting. Also, consider reviewing the Federal Budget for the current and budget fiscal years to determine proposed dollar amounts for particular budget functions.

The applicant should carefully study the eligibility requirements for each Federal program under consideration (see the Applicant Eligibility section of the Catalog program description). The applicant may learn that he or she is required to provide services otherwise unintended such as a service to particular client groups, or involvement of specific institutions. It may necessitate the modification of the original concept in order for the project to be eligible for funding. Questions about eligibility should be discussed with the appropriate program officer.

Deadlines for submitting applications are often not negotiable. They are usually associated with strict timetables for agency review. Some programs have more than one application deadline during the fiscal year. Applicants should plan proposal development around the established deadlines.

The timing used by the applicant in implementing Part II, Section A, B and C above depends upon the stage of development of each section. The applicant should carefully balance the knowledge and understanding of each part prior to determining the first step and before proceeding to the formal development of the proposal.

III. WRITING AND DEVELOPING A PROPOSAL

A. Gathering Applicant Organizational Data

The applicant should gather data about its organization from all available sources. Most proposals require a description of an applicant's organization to describe its past and present operations. Some features to consider are:

1. A brief biography of board members and key staff members;
2. The organization's goals, philosophy, track record with other grantors, and any success stories.

The data should be relevant to the goals of the Federal grantor agency and should establish the applicant's credibility.

B. Problem Statement Development

One of the key elements of a proposal is a clear, concise, and well-supported statement of the problem to be addressed. The best way to collect information about the problem is to conduct and document both a formal and informal needs assessment for a program in the target or service area. There is a considerable body of literature on the exact assessment techniques to be used. Any local, regional, or State government planning office, or local university offering course work in planning and evaluation techniques should be able to provide excellent background references. Types of data that may be collected include: historical, geographic, quantitative, factual, statistical, and philosophical information, as well as studies completed by colleges, and literature searches from public or university libraries. Local colleges or universities which have a department or section related to the proposal topic may help determine if there is interest in developing a student or faculty project to conduct a needs assessment. It may be helpful to include examples of the findings for highlight in the proposal. The information provided should be both factual and directly related to the problem addressed by the proposal. Areas to document are:

1. The purpose for developing the proposal.
2. The beneficiaries – who are they and how will they benefit.
3. The social and economic costs to be affected.
4. The nature of the problem (provide as much hard evidence as possible).
5. How the applicant organization came to realize the problem exists, and what is currently being done about the problem.
6. The remaining alternatives available when funding has been exhausted. Explain what will happen to the project and the impending implications.
7. Most importantly, the specific manner through which problems might be solved. Review the resources needed, considering how they will be used and to what end.

IV. ACT OF WRITING

A. Preorganization

Prior to any formal development of a proposal the applicant should first complete the task of accumulating information, and then begin writing the proposal. The applicant should also have the grant application kit in hand.

One of the first steps in the development of an application is to identify a coordinating person and have this person thoroughly review the application kit. This task is best performed by the person with the major responsibility for the coordination of the proposal development tasks and may or may not be the person who knows the most about the proposal subject area. These are often two different persons. Make an outline of the forms, copy each one and put the originals in a secure file. Use these copies only when ready to type the final draft. Then substitute the filed copies in the application kit. It may be useful to develop a milestone chart (a type of schedule which charts significant events in the development of a proposal over time) to address and identify the implementation dates of the following:

1. Formatting the available information not requiring additional development.
2. Gathering data necessary for development of the proposal and where to get it.
3. Who and when staff will be available to assist with the project.
4. Item-by-item development of the first draft.
5. Schedule for the completion of the second and final drafts to be inspected by the coordinator.

Whenever steps in the milestone chart are delayed it is advisable to immediately negotiate the earliest possible new deadline with the affected parties. Care should be exercised to guarantee that the next selected date does not delay the entire project schedule. Most grant proposals will need to be copied four times or more. The original and copies will go to the Federal grantor agency's program and/or grant office. Other copies may go to single State agencies, regional and local government officials and board members (if any). If the copying is done internally it may be wise to identify a backup copy machine is case of mechanical failure. This may be critical when working against strict deadlines. Typists should be notified and scheduled in advance if possible. Prepare to commit enough financial resources to producing a proposal. It is difficult to gauge how much money, material and personnel will be needed, but some considerations are: person power (writers, typists, clerks, researchers, statisticians, and consultants), supplies (typewriter, paper, copy machine, postage, binders, pencils and pens, correction fluid, and types of stylus apparatus for charts), office space, a telephone, and office equipment.

B. Getting Organized to Write the Proposal

Throughout the proposal writing stage keep a notebook handy to write down ideas. Periodically, try to connect ideas by reviewing the notebook. Never throw away written ideas during the grant writing stage. Maintain a file labeled "Ideas" or by some other convenient title and review the ideas from time to time. The file should be easily accessible. The gathering of documents such as articles of incorporation, tax exemption certificates, and bylaws should be completed, if possible, before the writing begins.

C. A Note on Special Technical Services

States and political subdivisions can obtain technical information services from Federal agencies when preparing proposals. A written request from the chief executive officer (governor, mayor, or county executive) is required. Services are provided according to the Federal agency's special capabilities, mission, and authorization by law. Assistance may include: statistical or other studies and compilations, development projects, technical tests and evaluations, technical information, training activities, surveys, reports, and documents. All services must relate to either current or future needs of the Federal government. Some form of proof is required to ensure that these services can be procured reasonably and expeditiously by the requesting agency through ordinary business channels. Federal agencies may require considerable time in supplying information. Consider such possible time lags when requesting assistance.

The following information (Sections D, E, F, and Parts V and VI) is generally adaptable to all proposals, and will test both creativity and resourcefulness of the applicant.

D. Developing Program Objectives

Program objectives refer to specific activities in a proposal. It is necessary to identify all objectives related to the goals to be reached, and the methods to be employed to achieve the stated objectives. Consider quantities or things measurable and refer to a problem statement and the outcome of proposed activities when developing a well stated objective. The figures used should be verifiable. Remember, if the proposal is funded, the stated objectives will probably be used to evaluate program progress, so be realistic. There is literature available to help identify and write program objectives.

E. Writing the Solution — A Program Design

The program design refers to how the project is expected to work and solve the stated problem. Sketch out the following:

1. The activities to occur along with the related resources and staff needed to operate the project (inputs).

2. A flow chart of the organizational features of the project. Describe how the parts interrelate, where personnel will be needed, and what they are expected to do. Identify the kinds of facilities, transportation, and support services required (throughputs).

3. Explain what will be achieved through 1 and 2 above (outputs); i.e., plan for measurable results. Project staff may be required to produce evidence of program performance through an examination of stated objectives during either a site visit by the Federal grantor agency and or grant reviews which may involve peer review committees.

4. It may be useful to devise a diagram of the program design. For example, draw a three column block. Each column is headed by one of the parts (inputs, throughputs and outputs), and on the left (next to the first column) specific program features should be identified (i.e., implementation, staffing, procurement, and systems development). In the grid specify something about the program design, for example, assume the first column is labeled inputs and the first row is labeled staff. On the grid one might specify under inputs five nurses to operate a child care unit. The throughput might be to maintain charts, counsel the children, and set up a daily routine; outputs might be to discharge 25 healthy children per week. This type of procedure will help to conceptualize both the scope and detail of the project.

5. Wherever possible, justify in the narrative the course of action taken. The most economical method should be used that does not compromise or sacrifice project quality. The financial expenses associated with performance of the project will later become points of negotiation with the Federal program staff. If everything is not carefully justified in writing in the proposal, after negotiation with the Federal grantor agencies, the approved project may resemble less of the original concept. Carefully consider the pressures of the proposed implementation, that is, the time and money needed to acquire each part of the plan. A Program Evaluation and Review Technique (PERT) chart could be useful and supportive in justifying some proposals.

6. Highlight the innovative features of the proposal which could be considered distinct from other proposals under consideration.

7. Whenever possible use appendices to provide details, supplementary data, references, and information requiring in-depth analysis. These types of data, although supportive of the proposal, if included in the body of the design, could detract from its readability. Appendices provide the proposal reader with immediate access to details if and when clarification of an idea, sequence or conclusion is required. Time tables, work plans, schedules, activities, methodologies, legal papers, personal vitae, letters of support, and endorsements are examples of appendices.

F. Evaluating the Program

Most Federal agencies now require some form of program evaluation among grantees. The requirements of the proposed project should be explored carefully. Evaluations may be conducted by an internal staff member, an evaluation firm or both. The applicant should state the amount of time needed to evaluate, how the feedback will be distributed among the proposed staff, and a schedule for review and comment for this type of communication. Evaluation designs may start at the beginning, middle or end of a project, but the applicant should specify a start-up time. It is practical to submit an evaluation design at the start of a project for two reasons:

1. Convincing evaluations require the collection of appropriate data before and during program operations; and,

2. If the evaluation design cannot be prepared at the outset then a critical review of the program design may be advisable.

Even if the evaluation design has to be revised as the project progresses, it is much easier and cheaper to modify a good design. If the problem is not well defined and carefully analyzed for cause and effect relationships then a good evaluation design may be difficult to achieve. Sometimes a pilot study is needed to begin the identification of facts and relationships. Often a thorough literature search may be sufficient.

Evaluation requires both coordination and agreement among program decision makers (if known). Above all, the Federal grantor agency's requirements should be highlighted in the evaluation design. Also, Federal grantor agencies may require specific evaluation techniques such as designated data formats (an existing information collection system) or they may offer financial inducements for voluntary participation in a national evaluation study. The applicant should ask specifically about these points. Also, consult the Criteria For Funding Proposals section of the Catalog program description to determine the exact evaluation methods to be required for the program if funded.

V. BUDGET FORMULATION

A. Planning the Budget

Funding levels in Federal assistance programs change yearly. It is useful to review the appropriations over the past several years to try to project future funding levels (see Financial Information section of the Catalog program description).

However, it is safer to never anticipate that the income from the grant will be the sole support for the project. This consideration should be given to the overall budget requirements, and in particular, to budget line items most subject to inflationary pressures. Restraint is important in determining inflationary cost projections (avoid padding budget line items), but attempt to anticipate possible future increases. Some vulnerable budget areas are: utilities, rental of buildings and equipment, salary increases, food, telephones, insurance, and transportation. Budget adjustments are sometimes made after the grant award, but this can be a lengthy process. Be certain that implementation, continuation and phase-down costs can be met. Consider costs associated with leases, evaluation systems, hard/soft match requirements, audits, development, implementation and maintenance of information and accounting systems, and other long-term financial commitments.

A well-prepared budget justifies all expenses and is consistent with the proposal narrative. Some areas in need of an evaluation for consistency are: the salaries in the proposal in relation to those of the applicant organization should be similar; if new staff are being hired additional space and equipment should be considered, if necessary; if the budget calls for an equipment purchase it should be the type allowed by the grantor agency; if additional space is rented the increase in insurance should be supported; if an indirect cost rate applies to the proposal the division between direct and indirect costs should not be in conflict, and the aggregate budget totals should refer directly to the approved formula; if matching costs are required the contributions to the matching fund should be taken out of the budget unless otherwise specified in the application instructions.

It is very important to become familiar with government-wide circular requirements. The Catalog identifies in the program description section the particular circulars applicable to a Federal program, and summarizes circular requirements in Appendix I. The applicant should thoroughly review the appropriate circulars since they are essential in determining items such as cost principles and conforming with government guidelines for Federal domestic assistance.

VI. REVIEW

A. Criticism

At some point, perhaps after the first or second draft is completed, seek out a neutral third party to review the proposal working draft for continuity, clarity and reasoning. Ask for constructive criticism at this point, rather than wait for the Federal grantor agency to volunteer this information during the review cycle. For example, has the writer made unsupported assumptions or used jargon or excessive language in the proposal?

B. Signature

Most proposals are made to institutions rather than individuals. Often signatures of chief administrative officials are required. Check to make sure they are included in the proposal where appropriate.

C. Neatness

Proposals should be typed, collated, copied, and packaged correctly and neatly (according to agency instructions, if any). Each package should be inspected to ensure uniformity from cover to cover. Binding may require either clamps or hard covers. Check with the Federal agency to determine its preference. A neat, organized, and attractive proposal package can leave a positive impression with the reader about the proposal contents.

C. Mailing

A cover letter should always accompany a proposal. Standard U.S. Postal Service requirements apply unless otherwise indicated by the Federal agency. Make sure there is enough time for the proposals to reach their destinations. Otherwise, special arrangements may be necessary. Always coordinate such arrangements with the Federal grantor agency project office (the agency which will ultimately have the responsibility for the project), the grant office (the agency which will coordinate the grant review), and the contract office (the agency responsible for disbursement and grant award notices), if necessary.

VII. ADDITIONAL SOURCES OF INFORMATION

Below are resources for more detail about grants and grant writing. There are several very good private resources available which can be identified by consulting a public library.

A. Research Tools

THE FEDERAL REGISTER

The Federal Register, published daily, is the medium for making available to the public Federal agency regulations and other legal documents of the Executive Branch. These documents cover a wide range of government activities. Here, government requirements are published which involve environmental protection, consumer product safety, food and drug standards, occupational health and safety, and many more areas of concern to the public.

Perhaps more importantly, the Federal Register includes proposed changes in regulated areas. Each proposed change published carries an invitation for any citizen or group to participate in the consideration of the proposed regulation through the submission of written data, views, or arguments, and sometimes by oral presentations. Through the publication of proposed rules and notices of public meetings, citizens are given the opportunity to be informed about and participate in the workings of their government.

The Federal Register Index is based on a consolidation of entries appearing in the issues of the Federal Register together with broad references. It is published monthly and is cumulated for 12 months. All Federal Register publications are available for purchase from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations (CFR) is a codification of the general and permanent rules published in the Federal Register by executive departments and agencies of the Federal government. It includes all statutory regulations of Federal agencies, and is divided into 50 titles which represent broad subject areas of Federal regulations (e.g., Housing and Urban Development, Public Health, Public Welfare, or Transportation). Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas. The number preceding the CFR citation is the title or volume number. The CFR is kept up-to-date by the individual issues of the Federal Register, these two publications must be used together to determine the latest version of any given rule. Individual volumes of the CFR are revised at least once each calendar year and issued on a staggered quarterly basis. The CFR thus serves as a convenient reference for the citizen desiring a comprehensive source for general and permanent Federal regulations.

A General index to the entire Code of Federal Regulations, the CFR Index, is revised as of July 1 each year. The numerical Finding Aids, a cumulative list of CFR Sections affected is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

The Federal Register and the Code of Federal Regulations are available in Federal depository libraries and most major libraries or Federal bookstores. Individual copies may be purchased from the Government Printing Office.

THE FEDERAL BUDGET

The following four budget documents are briefly described below: The Budget of the U.S. Government, the Budget Appendix, The Budget in Brief, and the Special Analyses of the Budget. Budget documents are available for purchase from the Government Printing Office.

The Budget provides information on the President's budget proposals, ongoing programs, the budget system and summary tables on the budget. For program identification, the last three digits of the identification code in the Financial Information section of the program description in the Catalog is the functional code. The codes and functions are contained in the back section of the Budget (Budget Outlays by Function).

The Appendix provides detailed information on Federal programs, and identifies specific amounts (as shown in the budget) for each existing or proposed program. Supplemental proposals and amendments for the current year are also identified.

The Budget in Brief is designed for use by the general public. This document is a less technical overview of the budget, and provides graphic displays, a summary and historical tables on the Federal budget.

The Special Analyses, Budget of the U.S. Government contains analyses that are designed to highlight specific program areas or provide other significant presentations of Federal budget data.

C. Federal Register Resources

Statistical Abstract of the United States, Weekly Compilation of Presidential Documents, Federal Register, The Federal Register: What It Is and How To Use It.

D. Regional and Federal Depository Libraries

Regional libraries can arrange for copies of government documents through an interlibrary loan. All Federal Depository Libraries will receive copies of the Catalog directly. A list of depository and regional libraries is available by writing: Chief, Library Division, Superintendent of Documents, Stop SLL, Washington, DC 20402.

E. Other Resources

Copies of the documents identified above and many private sector publications devoted exclusively to the codification, analysis and dissemination of legislative information are available at most law libraries and State government libraries.

AGENCY INDEX SUMMARY

The following is a summary description of the functions and activities of Federal agencies responsible for administering programs listed in the Catalog. The programs (numbers) are also listed with the administering agency.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service (10.001) -- Conducts research to develop new knowledge and technology to ensure an abundance of high quality agricultural commodities and products at reasonable prices to meet the increasing needs of an expanding economy and to provide for the continued improvement in the standard of living of all Americans. It conducts basic, applied, and developmental research on animal and plant production; use and improvement of soil, water, and air; processing, storage, distribution, food safety, consumer services and human nutrition research, and food and agriculture sciences.

Animal and Plant Health Inspection Service (APHIS) (10.025-10.028) -- Conducts regulatory and control programs to protect and improve animal and plant health for the benefit of man and the environment.

Agricultural Stabilization and Conservation Service (ASCS) 10.051-10.071) -- Administers specified commodity and related land use programs designed for voluntary production adjustment, resource protection, and price, market, and farm income stabilization.

Office of Advocacy and Enterprise (OAE) (10.140) -- Provides overall policy and leadership, coordination and direction for the Departments of Civil Rights and EEO programs; Planning for and coordination of the participation of minor college and universities departmental programs; oversight of all procurement activities to assure maximum participation of small and disadvantage business in the procurement process; and direction in monitoring of agency compliance in promoting full and open competition in the departments contracting process.

Agricultural Marketing Service (AMS) (10.153-10.165) --Administers standardization, grading, voluntary and mandatory inspection, market news, marketing orders, regulatory, and related programs.

Cooperative State Research Service (10.200-10.217) --Participates in a nationwide system of agricultural research program planning and coordination between the States and the Department of Agriculture to encourage and assist in the establishment and maintenance of cooperation within and among the States and between the States and their Federal research partners. The primary function is to administer the Acts of Congress that authorize Federal appropriations for agricultural research carried on by the State agricultural experiment stations of the 50 States, Puerto Rico, Guam, the Virgin Islands, the District of Columbia, American Samoa, and Micronesia the Northern Marianas, approved schools of forestry, the 1980 land-grant institutions and Tuskegee University, colleges of veterinary medicine, and other eligible institutions.

Economic Research Service (10.250) -- The Economic Research Service produces economic and other social science information as a service to the general public and to help Congress and the administration develop, administer, and evaluate agricultural and rural policies and programs.

Agricultural Cooperative Service (10.350) -- Serves as the focal point of national activity involving agricultural cooperatives. The purpose of ACS is to help farmers help themselves by providing the assistance necessary to support and improve existing cooperatives and to help farmers organize new cooperatives. The studies conducted by ACS (some through joint Federal/State efforts) are intended to provide farmers with information on financial, organizational, legal, social and economic aspects of cooperative activity. In today's rapidly changing economic environment, ACS provides technical advice to assist farmer cooperatives in the development and operation of viable, profitable organizations serving the nation's small farmers.

Human Nutrition Information Service (10.375) -- Conducts applied research in food and nutrition--what foods Americans buy and eat, what nutrients are in the foods we eat, and how we can make informed food choices. HNIS research is used by policymakers to formulate research-based policies for nutrition and food intervention programs, consumer education, food fortification, and regulatory activities. HNIS reports the results of its work in both technical and popular publications and in forms that can be used by computers. Funds for grants and contracts are provided to universities and nonprofit organizations and institutions to perform analysis and research work in support of the system of National Food Consumption Surveys and in development of education materials and techniques to help Americans make the best decisions about food and diet.

Farmers Home Administration (FmHA) (10.404-10.440) -- Provides credit for farm and non-farm enterprises for those rural Americans who are unable to obtain credit from other sources at reasonable rates and terms.

Federal Crop Insurance Corporation (10.450) -- Promotes the general welfare and strengthens the financial position of farmers and the community by providing crop insurance against loss from unavoidable causes, such as weather, insects, and disease.

Food Safety and Inspection Service (10.475-10.477) -- Assures that meat and poultry products moving in interstate and foreign commerce are safe, wholesome, unadulterated and honestly and informatively labeled, as required by the Federal Meat Inspection Act and the Poultry Products Inspection Act. The Meat and Poultry Inspection Program provides continuous implant inspection of all domestic plants preparing meat and poultry products for sale or distribution in commerce; reviews inspection systems in foreign establishments that prepare meat or poultry products for export to the United States; and provides technical and financial assistance to States which maintain meat and poultry inspection programs equal to Federal inspection.

Extension Service (10.500) -- Coordinates and provides administrative, technical, and other services to a nationwide Cooperative Extension System, in partnership with State and local governments and the private sector. The primary function of this system is to take the research findings of the Department of Agriculture, the State Land-Grant Colleges and programs administered by the Department of Agriculture, and to develop and deliver informal, out-of-school educational programs. These programs communicate and demonstrate to people how they can apply research findings to identify and solve farm, home, and community problems. This work is carried out through extension offices in each State, Puerto Rico, Guam, the Virgin Islands, the District of Columbia, American Samoa, and Micronesia, plus 16 1890 land-grant universities and Tuskegee University as the State partner.

Food and Nutrition Service (FNS) (10.550-10.571) -- Administers programs to make food assistance available to people who need it. These programs are operated in cooperation with State and local governments.

Foreign Agricultural Service (FAS) (10.600-10.601) --The export promotion and service agency for the U.S. Department of Agriculture. Stimulates overseas markets for U.S. agricultural products. FAS fulfills its role as the promotional agency for the world's largest agricultural export business through its network of agricultural counselors, attaches, and trade officers stationed overseas and its backup team of analysts, marketing specialists, negotiators, and related specialists. FAS maintains a worldwide agricultural intelligence and reporting system through its attache service. FAS also has a continuing market development program to develop, service, and expand commercial export markets for U.S. agricultural products. By virtue of the Agricultural Trade Act of 1978, FAS received authority to open at least 6 and not more than 25 agricultural trade offices overseas to develop, maintain and expand international markets for U.S. agricultural commodities. Eleven of these offices have been established and are located in such key markets as West Germany, Saudi Arabia, Singapore, and Venezuela. To improve access for U.S. farm products abroad, FAS international trade policy specialists coordinate and direct USDA's responsibilities in international trade agreement programs and negotiations. FAS also manages the Public Law 480 Program, Titles I and III (Food for Peace Program), and the Commodity Credit Corporation (CCC) Export Credit Guarantee Programs. Public Law 480 is aimed at long-range improvement in the economies of developing countries. Commercial programs promote commercial agricultural exports by providing credit guarantees to exporters which are used to obtain additional U.S. exports. Title I, the concessional sales section of Public Law 480, provides for low-interest, long-term credit to recipients of U.S. farm commodities. The title II program authorizes the donation of agricultural commodities to foreign governments, voluntary relief agencies, or intergovernmental organizations. Title III permits multiyear programming and forgiveness of dollar payments, provided the recipient country undertakes specific agricultural and economic development projects for commodities delivered under title I agreements.

Forest Service (10.652-10.669) -- Promotes and achieves a pattern of natural resource uses that will best meet the needs of people now and in the future; generation of forestry opportunities to accelerate rural community growth; protection and improvement of the quality of air, water, natural beauty, and open space environment in urban and community areas; encouragement of growth and development of forestry-based enterprises and optimum forest land ownership patterns; expansion of environment conservation; involvement of the public in forestry policy and program formulation.

National Agricultural Library (10.700) - Disseminates useful information about agricultural and other related sciences to scientists and researchers, administrators and managers, farmers, and to the general public; provides library services, such as bibliographies, reference services and document delivery.

Packers and Stockyard Administration (10.800) -- Maintains effective competition and fair trade practices in the marketing of livestock, poultry for the protection of livestock and poultry producers.

Rural Electrification Administration (REA) (10.850-10.854) --Finances electric and telephone facilities in rural areas of the United States and its territories by providing, through self-liquidating loans and technical assistance, adequate and dependable electric and telephone service to rural people under rates and conditions that permit full and productive use of these utility services.

Soil Conservation Service (SCS) (10.900-10.910) -- Develops and carries out a national soil and water conservation program in cooperation with landowners, operators and other land users and developers, community planning agencies and regional resource groups, Federal, State, and local government agencies; also assists in agricultural pollution control, environmental improvement, and rural community development.

National Agricultural Statistics Service (10.950) -- Crop and livestock estimates involve collecting, analyzing, and publishing agricultural production and marketing data, including: number of farms and acreage in farms; crop acreage, yields, production, stocks, value, and utilization; inventories and production of livestock, poultry, eggs, and dairy products; prices received by farmers for products, prices paid for commodities and services for living and production, and related indexes; farm employment and wage rates; cold storage supplies; and other relevant aspects of the agricultural economy. Estimates for about 150 crops and 50 livestock items are published in about 500 Federal and 10,000 State-Federal reports each year. All information is made available to the news media and the public at scheduled release times. Statistical research and service is directed toward improving crop and livestock estimating techniques. Considerable emphasis is placed on improving sample survey designs as well as testing new forecasting and estimating techniques, such as using satellite data. Also included here are the review, coordination, and monitoring of the surveys conducted by the U.S. Department of Agriculture, and the review of all proposed statistical forms and survey plans prior to submittal to the Office of Management and Budget for clearance.

Office of International Cooperation and Development (OICD) (10.960-10.963) -- The programs of the Office of International Cooperation and Development (OICD) focus on sharing knowledge of agriculture through development assistance and cooperation with other countries. The Office's primary activities are providing technical assistance and training in agriculture to other countries, particularly the developing world; working with international food and agricultural organizations to solve world food problems; and sponsoring scientific exchanges and research that will help farmers both at home and abroad.

DEPARTMENT OF COMMERCE

Bureau of the Census (11.001-11.006) -- Conducts decennial censuses of population and housing; a mid-decade census of population to be taken initially in 1985 and every 10 years thereafter; quinquennial censuses of agriculture, State and local governments, manufacturers, mineral industries, distributive trades, construction industries, and transportation; current surveys which provide information on many of the subjects covered in the censuses at weekly, monthly, quarterly, annual, or other intervals; compilation of current statistics on U.S. foreign trade, including data on imports, exports, and shipping; conducts special censuses at the request and expense of State and local government units; publishes estimates and projections of the population and housing characteristics; issues current reports on manufacturing, retail and wholesale trade, selected services, construction, imports and exports, State and local government finances and employment, and other subjects; and makes searches of decennial census records and furnishes certificates to individuals for use as evidence of age, relationship, or place of birth.

Economics and Statistics Administration (ESA) (11.025) --Provides a clear picture of the U.S. economy through the preparation, development, and interpretation of the national income and product accounts, summarized by the gross national product (GNP); the wealth accounts, which show the business and other components of national wealth; the input-output accounts, which trace the interrelationships among industrial markets; personal income and related economic series by geographic area; the U.S. balance of payments accounts and associated foreign investment accounts; and measures relating to environmental change and to welfare within the framework of the national economic accounts. The data and analyses prepared are disseminated mainly through its monthly publications, the Survey of Current Business, and Business Conditions Digest.

International Trade Administration (ITA) (11.106-11.111) --Promotes world trade and strengthens the international trade and investment position of the United States.

Bureau of Export Administration (BXA) (11.150) -- The activities of the Bureau of Export Administration in the Department of Commerce are designed to enforce U.S. export trade laws consistent with national security, foreign policy, and short supply objectives. The program strives to achieve a balance between the interests of U.S. exporters, the U.S. economy and U.S. national security requirements.

Economic Development Administration (EDA) (11.300-11.312) --Aids the long-range economic development of areas with severe unemployment and low family income problems; aids in the development of public facilities and private enterprise to help create new, permanent jobs.

National Oceanic and Atmospheric Administration (NOAA) (11.405-11.433) -- Reports the weather of the U.S. and its possessions and provides weather forecasts to the general public, issues warnings against such destructive natural events as hurricanes, tornadoes, floods, and tsunamis and provides special services in support of aviation, marine activities, agriculture, forestry, urban air-quality control, and other weather-sensitive activities; monitors and reports all nonfederal weather modification activities conducted in the U.S.; conducts an integrated program of management, research, and services related to the protection and rational use of living marine mammals; prepares and issues nautical and aeronautical charts, provides the Nation's precise geodetic surveys, and conducts broad research programs in marine and atmospheric sciences, solar-terrestrial physics, and experimental meteorology, including weather modifications; predicts tides, currents, and the state of the oceans, conducts research and development aimed at providing alternatives to ocean dumping; provides Federal leadership in promoting wise and balanced management of the Nation's coastal zone; provides satellite observations of the environment by establishing and operating a national environmental satellite system; conducts integrated program of research and services relating to the oceans and inland waters, the lower and upper atmosphere, space environment, and the earth; acquires, stores, and disseminates worldwide environmental data through a system of meteorological, oceanographic, geodetic, and seismological data centers; develops a system of data buoys for automatically obtaining and disseminating marine environmental data; promotes the development of technology to meet future needs of the marine community.

National Telecommunications and Information Administration (NTIA) (11.550) -- Exercises significant responsibility in the areas of communication security, privacy protection, and the application of public service satellites, public telecommunications facilities planning and construction; formulates policies to support the development, growth and regulation of telecommunications, information, and related industries; furthers the efficient development and use of telecommunications and information services; provides policy and management for the use of electromagnetic spectrum; provides telecommunications facilities grants to public service users.

National Institute for Standards and Technology (NIST) (11.601-11.613) -- Provides the national system of physical, chemical, and materials measurement; coordinates the system with measurement systems of other nations and furnishes essential services leading to accurate and uniform physical and chemical measurement throughout the Nation's scientific community, industry, and commerce; conducts materials research leading to improved methods of measurement, standards, and data on the properties of materials needed by industry, commerce, educational institutions, and Government; develops, produces, and distributes standard reference materials; and provides calibration services. The National Engineering Laboratory provides technology and technical services to users in the public and private sectors to address national needs and to solve national problems in the public interest; conducts research in engineering and applied science in support of objectives in these efforts; develops engineering data and measurement capabilities; provides engineering measurement traceability services; develops test methods and proposes engineering standards and code changes; develops and proposes new engineering practices; and develops and improves mechanisms to transfer results of its research to the user. The Institute for Computer Sciences and Technology develops and recommends Federal information processing standards and participates in the development of voluntary commercial ADP standards; conducts research in the science and technologies of automatic data processing, computers, and related systems.

National Technical Information Service (NTIS) (11.650) --Simplifies and improves public access to Department of Commerce publications and to data files and scientific and technical reports sponsored by Federal agencies. NTIS is the central point in the United States for the public sale of Government-funded research and development reports and other analyses prepared by Federal agencies, their contractors, or grantees. The public may quickly locate abstracts of interest from among the 650,000 federally sponsored research reports completed and published from 1964 by using the agency's on-line computer search service (NTISearch). Current abstracts of new research reports and other specialized technical information in various categories of interest are published in some 26 weekly abstract newsletters. An all-inclusive biweekly journal (Government Reports Announcements and Index) is published for librarians, technical information specialists, and those requiring such comprehensive volumes.

Minority Business Development Agency (MBDA) (11.800-11.802) -- Assists minority businesses in achieving effective and equitable participation in the American free enterprise system and in overcoming social and economic disadvantages that have limited their participation in the past. The agency provides national policies and leadership in forming and strengthening a partnership of business, industry, and government with the Nation's minority businesses. Management and technical assistance is provided to minority firms on request, primarily through a network of local business development organizations funded by the Agency.

Patent and Trademark Office (PTO) (11.900) -- Examines applications for three kinds of patents: design patents(issued for 3 1/2, 7, or 14 years), plant patents (issued for 7 years), and utility patents (issued for 17 years). Also processes international applications for patents under the provisions of the Patent Cooperation Treaty. In addition to the examination of patent and trademark applications, issuance of patents, and registration of trademarks, the Office sells printed copies of issued documents; records and indexes documents transferring ownership; maintains a scientific library and search files containing over 20 million documents, including U.S. and foreign patents and U.S. trademarks; provides search rooms for the public to research their applications; hears and decides appeals from prospective inventors and trademark applicants; participates in legal proceedings involving the issue of patents or trademark registrations; helps represent the United States in international efforts to cooperate on patent and trademark policy.

Technology Administration (11.980) -- Provides a strong focus for coordination of the Department's science and technology activities and to improve the competitiveness and productivity of U.S. industry.

DEPARTMENT OF DEFENSE

Defense Logistics Agency (DLA) (12.001-12.002) -- Provides effective and economical support to the military services, other Department of Defense components, Federal civil agencies, foreign governments, and others as authorized, for assigned materiel commodities and items of supply, logistics services directly associated with the supply management function, contract administration services, and other support services as directed by the Secretary of Defense.

Department of the Army, Office of the Chief of Engineers (12.100-12.112) -- Civil functions of the Department of the Army include the Civil Works Program, the administration of Arlington and Soldiers' Home National Cemeteries, and other related matters. The Army's Civil Works Program, a responsibility of the Corps of Engineers is the Nation's major Federal water resources development activity and involves engineering works such as major dams, reservoirs, levees, harbors, waterways, locks, and many other types of structures. These works provide flood protection for cities and major river valleys, reduce the cost of transportation, supply water for municipal and industrial use, generate hydroelectric power, provide recreational opportunities for vast numbers of people, regulate the rivers for many purposes including the improvement of water quality and the enhancement of fish and wildlife, protect the shores of the oceans and lakes, and provide still other types of benefits. Planning assistance is also provided to States and other nonfederal entities for the comprehensive management of water resources, including pollution abatement works. In addition, through the Civil Works Program the Federal government protects the navigable waters of the United States under legislation empowering the Secretary of the Army to prohibit activities which would reduce the value of such waters to the Nation.

Department of the Army, National Guard Bureau (12.400) --Provides a combat-ready reserve force and facilities for training and administering the Army National Guard units in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico,and the Virgin Islands.

U.S. Soldiers' and Airmen's Home (12.500) -- Provides a permanent residence for the relief and support of certain retired soldiers of the regular Army and Airmen of the Air Force.

Community Planning and Development (14.218-14.236) -- The Assistant Secretary for Community Planning and Development is responsible for the following programs and activities: The primary objective of Title I of the Housing and Community Development Act of 1974 is the development of viable urban communities by providing decent housing and a suitable living environment and expanding economic opportunities principally for persons of low and moderate income. More specifically, objectives include: (1) elimination of slums and blight; (2) increase of the supply of low - and moderate-income housing; (3) elimination of conditions which are detrimental to health, safety, and welfare; (4) conservation of existing housing; (5) improvement of public services; (6) rational utilization of land; and (7) preservation of property with special values. Under Title I of the HOUSING COMMUNITY DEVELOPMENT ACT OF 1974, a 3-percent fund is reserved for secretarial discretion in making grants in behalf of the following activities: (1) new communities; (2) States and local units of government which join in carrying out programs on an areawide basis; (3) community development insular are as; (4) innovative community development projects; (5) innovative community development projects; (6) correction of iniquities resulting from allocation provisions; (7) community development for Indian tribes and Alaskan natives; and (8) technical assistance.

THE COMPREHENSIVE PLANNING ASSISTANCE PROGRAM as outlined in Section 701 of the Housing Act of 1954, as amended, assists State and local governments and entire areas having common or related planning and development programs.

THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970 (UNIFORM ACT) establishes policies and requirements to ensure the fair and equitable treatment of persons displaced by a federally assisted project and owners of property acquired for a project. The Office of Community Planning and Development develops HUD policies, standards, procedures, and advisory materials implementing the act and monitors HUD-assisted activities to ensure compliance with the law. The Assistant Secretary implements policies and procedures for the protection and enhancement of environmental quality pursuant to the National Environmental Policy Act of 1969 and the Housing and Community Development Act of 1974, as amended. Environmental activities encompass the development of standards, policies and procedures for environmental assessments and impact statements, historic preservation reviews, compliance with laws and Executive orders on archaeology, floodplains, wetlands, aquifers, and endangered species. Activities include the development and administration of strategies for the amelioration of environmental problems such as natural hazards and air and noise pollution. Emphasis is placed on environmental and land-use planning and environmental management practices, including urban environmental design and the quality of the built environment. The Assistant Secretary is responsible for the administration of projects not yet completed under programs that now have been replaced by Title I of the Housing and Community Development Act of 1974. Programs in that category are: Open Space; Water and Sewer; Neighborhood Facilities; Urban Renewal; Neighborhood Development Program; and Model Cities. Under Title VIII, Section 810 of the Housing and Community Development Act of 1974, as amended, HUD is authorized to transfer, without payment, to States, units of local government or their designated public agencies, Secretary-owned,unoccupied, unrepaired, one- to four-family residences for use in a HUD approved urban homesteading program. The legislation also authorizes the appropriation of funds to reimburse the Department for any properties transferred under Section 810. The Assistant Secretary has responsibility for assisting HUD and the administration in articulating national urban policy concepts, alternatives, and strategies. The Assistant Secretary also assists the Secretary in working with other agencies and the White House on urban policy issues and in implementing the President's national urban policy. The Assistant Secretary carries out activities to achieve maximum coordination of the programs of the various agencies of the Government which have a major impact on community development. This includes representing HUD on interagency community development commissions and task forces, including those pertaining to joint funding.

Office of Fair Housing and Equal Opportunity (14.400-14.411) -- Administers the fair housing program authorized by the Civil Rights Act of 1968, as amended; assuring that the programs and activities of the Department operate affirmatively to further the goals of equal opportunity; coordinating planning, monitoring, and reviewing programs to increase training, employment, and economic opportunities for lower-income and minority-group project area residents in HUD-assisted activities; and developing and monitoring the implementation of standards, procedures, and guidelines under Executive Order 11478, as amended, providing for equality of employment opportunity within the Department.

Office of Policy Development and Research (14.506-14.509) --Evaluates existing programs and policies and analyzes potential programs and policies by employing the independent and objective research capacities of its staff and its consultants. Undertakes programs of research, studies, testing, and demonstrations related to the HUD mission. These functions are carried out through grants, cooperative agreements, contracts with industry, nonprofit research organizations, educational institutions, and agreements with State and local governments, other Federal agencies, and private foundations. Research efforts have been narrowed and intensified to focus on the following priority subjects: urban economic development, public finance, and tax policy; housing for the elderly and handicapped; neighborhood reinvestment and revitalization and reversing decline in neighborhoods; financial institution regulation and alternative housing finance mechanisms; housing costs; and capacity building for State and local governments in financial management. There also are other programs of research in the following fields: housing assistance programs; housing management; residential safety and technology, including lead paint hazard abatement and mobile home safety; code administration; collection and analysis of economic and financial data about housing and community development, including the Annual Housing Survey; fair housing and equal opportunity; housing counseling and consumer assistance; housing rehabilitation and security; aid for financially distressed housing; environmental hazards; community growth and land use; energy conservation in buildings and community utility services; and the dissemination of research and evaluation results.

Public and Indian Housing (14.850-14.854) -- The Assistant Secretary for Public and Indian Housing is responsible for the departments public housing and Indian housing programs (including rental, Turnkey III and Mutual Help housing) administered under the United States Housing Act of 1937 which includes directing the insurance and bonding functions for these housing programs and the following other programs; slum clearance and urban renewal program under Title I of the Housing Act of 1949; Section 312 of the Housing Act of 1954; the new communities program under the Housing Act of 1968; the Urban Growth and New Community Development Act of 1970; and comprehensive planning (701 B) program under the Housing Act of 1954. The Assistant Secretary has the authority of the Public Housing Commission and of other officers of the Public Housing Administration under Section 5(a) of the Housing and Urban Development Act.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs (BIA) (15.103-15.145) -- Encourage and train Indian and Alaska Native people to manage their own affairs under the trust relationship to the Federal Government; to facilitate, with maximum involvement of Indian and Alaska Native people, full development of their human and natural resource potentials; to mobilize all public and private aids to the advancement of Indian and Alaska Native people for use by them; and to utilize the skill and capabilities of Indian and Alaska Native people in the direction and management of programs for their benefit.

Bureau of Land Management (BLM) (15.214-15.222) -- Has responsibility for the total management of 341 million acres of public lands located primarily in the Far West and Alaska and scattered parcels located in other States. In addition to minerals management responsibilities on the public lands and the Outer Continental Shelf, the Bureau is responsible for subsurface resource management of an additional 169 million acres where mineral rights have been reserved to the Federal Government. Resources managed by the Bureau include timber, minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas, and open space; provides for the protection (including fire suppression), orderly development, and use of public lands and resources under principles of multiple use and sustained yield. Land use plans are developed with public involvement to provide orderly use and development while maintaining and enhancing the quality of the environment; manages watersheds to protect soil and enhance water quality; makes land available through sale to individuals, organizations, local governments, and other Federal agencies when such transfer is in the public interest. Lands may be leased to State and local government agencies and to nonprofit organizations for certain purposes; the Bureau issues rights-of-way, in certain instances, for crossing Federal lands under other agencies' jurisdictions; is responsible for the survey of Federal lands and establishes and maintains public land records and records of mining claims; and also administers a program of payments in lieu of taxes based on the amount of federally owned lands in counties and other units of local government.

Office of Surface Mining Reclamation and Enforcement (15.250-15.252) -- Creation of a nationwide program that protects society and the environment from the adverse effects of coal mining operations, while ensuring an adequate supply of coal to meet the Nation's energy needs. Major objectives of the Office include establishment of minimum national standards for regulating the surface effects of coal mining, assistance to the States in developing and implementing regulatory programs, and promotion of the reclamation of previously mined areas.

Bureau of Mines (15.308) -- Primarily is a research and fact finding agency. Its goal is to help ensure that the Nation has adequate mineral supplies for security and other needs. Applied and basic research are conducted to develop the technology for the extraction, processing, use, and recycling of the Nation's mineral resources at a reasonable cost without harm to the environment or the workers involved. Typical areas of research are development of ways to use domestic low-grade ores as alternative sources of strategic and critical minerals that must currently be imported, mine health and safety, recycling of solid wastes, and abatement of pollution and land damage caused by mineral extraction and processing operations. The Bureau also collects, compiles, analyzes, and publishes statistical and economic information on all phases of mineral resource development, including exploration, production, shipments, demand, stocks, prices, imports, and exports.

Bureau of Reclamation (15.501-15.503) -- Locate, construct, operate, and maintain works for the storage, diversion, and development of waters for the reclamation of arid and semiarid lands in the Western States. The basic objectives of the Service's program are to assist the States, local governments, and other Federal agencies to stabilize and stimulate local and regional economies, enhance and protect the environment, and improve the quality of life through development of water, other renewable resources, and related land resources throughout the 17 contiguous Western States and Hawaii.

U.S. Fish and Wildlife Service (15.600-15.612) -- Responsible for wild birds, endangered species, certain marine mammals, inland sport fisheries, and specific fishery and wildlife research activities, assures maximum opportunity for the American people to benefit from fish and wildlife resources as part of their natural environment. Assists in the development of an environment stewardship ethic for our society based on ecological principles, scientific knowledge of wildlife, and a sense of moral responsibility; guides the conservation, development, and management of the Nation's fish and wildlife resources.

Geological Survey (15.805-15.808) -- Perform surveys, investigations, and researches covering topography, geology, and the mineral and water resources of the United States; classify land as to mineral character and water and power resources; enforces departmental regulations applicable to oil, gas, and other mining leases, permits, licenses, development contracts, and gas storage contracts; and publishes and disseminates data relative to the foregoing activities.

Indian Arts and Crafts Board (15.850) -- Encourages and promotes the development of Native American arts and crafts.

Office of Territorial and International Affairs (15.875) --Promotes the economic, social, and political development of the territories of Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands, which includes the Northern Mariana Islands.

National Park Service (15.904-15.918) -- Administers for the American people an extensive system of national parks, monuments, historic sites, and recreation areas. The objectives of the National Park Service are to administer the properties under its jurisdiction for the enjoyment and education of our citizens, to protect the natural environment of the areas, and to assist States, local governments, and citizen groups in the development of park areas, the protection of the natural environment, and the preservation of historic properties.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration (DEA) (16.001-16.005) --Enforces the controlled substances laws and regulations, and brings to the criminal and civil justice system of the United States or any other competent jurisdiction, those organizations, and principal members of organizations involved in the growing, manufacture, or distribution of controlled substances appearing in or destined for the illicit traffic in the United States. DEA's mission requires it to provide a leadership role in narcotic and dangerous drug suppression programs at the national and international level and, as the lead agency in Federal drug law enforcement, to develop the overall Federal drug enforcement strategy, programs, and plans to continuously assess their effectiveness and applicability.

Civil Rights Division (16.100-16.105) -- Enforces Federal civil rights laws which prohibit discrimination on the basis of race, national origin, religion, and in some instances sex, age, or handicap in the areas of voting, education, employment, housing, credit, the use of public facilities and public accommodations, and in the administration of federally assisted programs. With respect to employment, housing, and education, sex discrimination is also prohibited. The congressional statutes enforced are the Civil Rights Acts of 1957, 1960, 1964, 1968, the Voting Rights Act of 1965, and their amendments, and the Equal Credit Opportunity Act, as amended in 1976. The Civil Rights Division also has the obligation to enforce specific criminal statutes including those concerning willful deprivation of constitutional rights while acting under color of law or through conspiracy and violent interference with federally protected activities.

Community Relations Service (CRS) (16.200-16.201) -- Provides onsite dispute resolution assistance through its field staff of mediators and conciliators working out of 10 regional offices. Under its mandate CRS is not restricted to issues stemming from alleged violations of a particular antidiscrimination statute,but can offer assistance in resolving any problem relating to racial and ethnic discrimination. CRS not only aids in resolving disputes and difficulties as they erupt but also seeks to assist and support communities in developing local mechanisms to address future problems. Primary activities of CRS include the use of conciliation and/or mediation processes to settle differences through a common understanding and voluntary action. Each process is composed of certain specialized techniques designed to deal with complex racial and ethnic issues. The goal of each, however, is the immediate reduction of community tension and the establishment of viable alternatives for resolving difficulties, short of coercion or litigation.

Federal Bureau of Investigation (FBI) (16.300-16.305) --Investigates all violation of Federal laws with the exception of those which have been assigned by legislative enactment or otherwise to some other Federal agency. The FBI's jurisdiction includes a wide range of responsibilities in the criminal, civil, and security fields. Among these are espionage, sabotage, and other domestic security matters; kidnaping; extortion; bank robbery; interstate transportation of stolen property; civil rights matters; interstate gambling violations; fraud against the Government; and assault or killing the President or a Federal officer. Cooperative services of the FBI for other duly authorized law enforcement agencies include fingerprint identification, laboratory services, police training, and the National Crime Information Center.

Immigration and Naturalization Service (INS) (16.400) --Administers the immigration and naturalization laws relating to the admission, exclusion, deportation, and naturalization of aliens. Specifically, the Service inspects aliens to determine their admissibility into the United States; adjudicates requests of aliens for benefits under the law; guards against illegal entry into the

United States; investigates, apprehends, and removes aliens in this country in violation of the law; and examines alien applicants wishing to become citizens. Through offices in the United States and in other areas around the world, the Service provides information and counsel to those seeking U.S. citizenship. Wherever possible, the Service, in conjunction with public schools in this country, provides text books and other instructional services to those wishing naturalization. Through numerous enforcement activities, such as the Border Patrol, the Service protects the national security of the United States and the welfare of those legally residing here. In addition to citizenship and immediately related matters, the Service, in cooperation with other Federal, State, and local law enforcement agencies, works to stem the inflow of illegal drugs.

Office of Justice Programs (OJP) -- Provides policy coordination and general management authority over the Office of Justice Programs, which includes the Bureau of Justice Assistance, the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, and the Office for Victims of Crime. While each OJP Bureau and Office retains independent authority in awarding funds to carry out its programs, together these components function as a single agency whose goal is to promote innovative programs and to foster improvements in the Nation's criminal and juvenile justice systems.

Office of Juvenile Justice and Delinquency Prevention (OJJDP) (16.540-16.544) -- Establishes policies and operates programs to deter juvenile delinquency and improve State and local juvenile justice programs. This office is also responsible for coordinating all Federal juvenile delinquency prevention and control activities. It also establishes a source of funding for State efforts to streamline their juvenile justice systems and to combat the increase in serious and violent crimes committed by juveniles. The key elements of the program are the coordination of Federal delinquency programs, formula grants to States, special emphasis discretionary funds, technical assistance, research, the evaluation of juvenile justice programs, training, developing standards for juvenile justice, and the dissemination of delinquency and juvenile justice information. In addition, the office serves as the central focus for research, data collection, policy development, and information about missing and exploited children.

Bureau of Justice Statistics (16.550) -- Is the national center which provides information on crime and the operation of the criminal justice system to the President, the Congress, the Judiciary, State and local governments, and the general public. BJS maintains thirteen major statistical series for which criminal justice data are collected on a regular basis; facilitates the emerging capacity of State and governments to use data as a cornerstone of their criminal justice programs through its support of the Statistical Analysis Centers; and provides for the security and privacy of criminal justice statistics.

National Institute of Justice (NIJ) (16.560-16.562) -- Supports basic and applied research into crime justice issues. Innovative approaches to controlling criminal behavior and improving law enforcement and criminal justice are tested and evaluated. Research results are disseminated through a variety of mechanisms including the quarterly "NIJ Reports" and a Research in Brief series designed for policy makers and criminal justice professionals. The Institute maintains a national and international clearinghouse on criminal justice issues. Its services are available to policymakers, criminal justice professionals, and the general public.

Bureau of Justice Assistance (BJA) (16.571-16.583) Administers the Justice Assistance Program designed to improve the functioning of this Nation's criminal justice systems. The State and local Assistance for Narcotics Control Program, which was established by the Anti-Drug Abuse Act of 1986, and provides assistance in enforcing State and local drug laws, is also being implemented and administered by the Bureau. The Public Safety Officers' Death Benefits, the Emergency Federal Law Enforcement Assistance, the Regional Information Sharing Systems, the Mariel-Cuban Reimbursement, the Surplus Property, the Prison Industry Certification, and the Crime Prevention programs are also administered by the Bureau. Through its programs, BJA serves as an agent for change in State and local criminal justice systems. The research findings of organizations and the program successes of criminal justice agencies from across the country are tested, translated into implementation strategies, and operationalized through demonstration programs. Training and technical assistance on program development, implementation, and evaluation are available to State and local agencies initiating system improvement and narcotics control programs. The Bureau and the States have initiated many programs which are expected to significantly improve the functioning of the criminal justice system and reduce the level of crime in program jurisdictions. Mechanisms to assess the impact of these programs have been put in place and will be used to identify successful practices and programs. Jurisdictions throughout the country are encouraged to adopt these programs and practices which will use limited criminal justice resources to maximize the impact on the crime problem.

Bureau of Prisons (16.601-16.603) -- Responsible for the care and custody of those persons convicted of Federal crimes and sentenced by the courts to serve a period of time incarcerated in a Federal penal institution. The Bureau carries out this responsibility by operating a nationwide system of maximum, medium, and minimum security prisons, halfway houses (called Community program offices). The Central Office in Washington provides overall coordination of Bureau of Prisons operations on a nationwide basis, issues standards and policy guidelines, and retains responsibility for those activities not delegated to regional or field management levels. The Regional Offices, located in Philadelphia, Atlanta, Kansas City, Dallas, and Burlingame, California, near San Francisco, are responsible for the management of Bureau institutions and programs within each region.

DEPARTMENT OF LABOR

Bureau of Labor Statistics (BLS) (17.002-17.006) -- Collects, processes, analyzes, and disseminates data relating to employment, unemployment, and other characteristics of the labor force; prices and family expenditures; wages; other worker compensation, and industrial relations; productivity and technological change; and occupational safety and health. Most of the data are collected in surveys conducted by BLS, the Bureau of the Census (on a contract basis), or on a cooperative basis with State agencies. BLS strives to have its data satisfy a number of criteria, including relevance to current social and economic issues; timeliness in reflecting today's rapidly changing economic conditions; accuracy and consistently high statistical quality; and impartiality in both subject matter and presentation. The Bureau has no enforcement or regulatory functions. The basic data--practically all supplied voluntarily by business establishments and members of private households--are issued in monthly press releases, special publications, and in one of the following periodicals: The "Monthly Labor Review," the "Consumer Price Index," "Producer Prices and Price Indexes," "Employment and Earnings," "Current Wage Developments," "Occupational Outlook Handbook," and "Occupational Outlook Quarterly."

Bureau of Labor-Management Relations and Cooperative Programs (17.130) -- Provides information and assistance to industry, organized labor, government agencies and other public and private groups in developing sound labor-management relations through the implementation of voluntary cooperative labor-management programs. Protects the interests of employees affected by projects authorized under the Urban Mass Transportation Act, the Rail Passenger Service Act, Federal-Aid Highway Act, the Redwood National Park Expansion Act, Airline Deregulation Act and other statutes.

Office of Labor-Management Standards (LMS) (17.140) -- Administers provisions of the Labor-Management Reporting and Disclosure Act of 1959; section 1209 of the Postal Reorganization Act which affect labor organizations in the private sector and labor organizations composed of postal service employees; section 701 of the Civil Service Reform Act; and section 1017 of the Foreign Service Act (22 U.S.C. 4117), which affect labor organizations composed of employees of most agencies of the executive branch of the Federal Government and certain other Federal agencies subject to similar standards of conduct. These provisions regulate certain internal union procedures and protect the rights of members in approximately 48,000 unions and govern the handling of union funds; the reporting and disclosure of certain transactions and administrative practices of unions, union officers and employees, surety companies, employers, and labor relations consultants; the election of union officers; the imposition and administration of trusteeships; and other matters. Through technical assistance, the Office seeks to obtain voluntary compliance with the requirements of the law by labor organizations, employers, and other affected entities and individuals. Enforcement through the Federal courts also is available under the reporting and disclosures act procedures, while the standards of conduct are enforced by administrative action with a final decision by the Assistant Secretary.

Pension and Welfare Benefits Administration (17.150) -- The Employee Retirement Income Security Act of 1974 (ERISA), (88 Stat. 829; 29 U.S.C. 1001 note), requires administrators of private pension and welfare plans to provide plan participants with easily understandable summaries of plans; to file those summaries in the Office of Pension and Welfare Benefit Programs; and to report annually on the financial operation of the plans and bonding of persons charged with handling plan funds and assets. Plan Administrators must also meet strict fiduciary responsibility standards which are enforced by the Office of Pension and Welfare Benefit Programs. Vesting, participation, and funding standards are, for the most part, administered by the Internal Revenue Service.

Employment and Training Administration (ETA) 17.201-17.251) -- Through a variety of programs, ETA fulfills responsibilities assigned to the Secretary of Labor which relate to employment services, job training, and unemployment insurance. Component offices and services of ETA administer a Federal-State employment security system; fund and oversee programs to provide work experience and training for groups having difficulty entering or returning to the work force; formulate and promote apprenticeship standards and programs; and conduct continuing programs of research, development, and evaluation. The Office of Job Training Training Programs is responsible for the development and issuance of Federal procedures and policies pertaining to the operation of the Job Training Partnership Act (JTPA) programs. Under JTPA, the Secretary of Labor makes block grants to the 50 States, Guam, the Virgin Islands, Puerto Rico, the Commonwealth of the Northern Marianas, American Samoa, the Trust Territory of the Pacific Islands, and the District of Columbia. The goal of JTPA is to train or retrain and place eligible individuals in permanent, unsubsidized employment, preferably in the private sector. Eligible individuals are primarily economically disadvantaged individuals, in particular economically disadvantaged youth, who have been or are about to be displaced from their employment. JTPA also provides that fixed percentage of the block grant be used for programs for older individuals. JTPA may be used for a variety of purposes including classroom instruction in occupational skills and other job-related training; on-the-job training; recruitment; orientation; counseling; testing; and placements and supportive services. In addition to the block grants, JTPA provides for national programs for special target groups such as Native Americans and migrant and seasonal farmworkers. It also provides authority for the Job Corps, a residential training program for disadvantaged youth. JTPA is open-ended legislation and was signed into law on October 13, 1982. Implementing regulations for JTPA issued by the Department of Labor are contained in Title 20 of the Code of Federal Regulations, Parts 626-638 and 675-684. The Assistant Secretary for Employment and Training is responsible for ensuring that programs funded through ETA are free from unlawful discrimination, fraud, and abuse, It is the policy of ETA to ensure full compliance with constitutional, statutory, and regulatory provisions and to promote equal opportunity, affirmative action, and fund integrity in programs to which ETA extends financial assistance.

Employment Standards Administration (ESA) (17.301-17.308) --Administers and directs employment standards programs dealing with: minimum wage and overtime standards; registration of farm labor contractors; determining prevailing wage rates to be paid on Government contracts and subcontracts; nondiscrimination and affirmative action for minorities, women, veterans, and handicapped workers on Government contracts and subcontracts; and workers' compensation programs for Federal and certain private employers and employees.

Occupational Safety and Health Administration (OSHA) (17.500-17.501) -- Develops and promulgates occupational safety and health standards; develops and issues regulations; conducts investigations and inspections to determine the status of compliance with safety and health standards and regulations; and issues citations and proposes penalties for noncompliance with safety and health standards and regulations.

Mine Safety and Health Administration (MSHA) (17.600-17.602) -- Develops and promulgates mandatory safety and health standards, ensures compliance with such standards, assesses civil penalties for violations, investigates accidents, cooperates with and provides assistance to the States in the development of effective State mine safety and health programs, improves and expands training programs in cooperation with the States and the mining industry, and, in coordination with the Department of Health and Human Services and the Department of the Interior, contributes to the improvement and expansion of mine safety and health research and development. All of these activities are aimed at preventing and reducing mine accidents and occupational diseases in the mining industry.

Office of the Secretary, Women's Bureau (17.700) -- Formulates standards and policies that promote the welfare of wage earning women, improve their working conditions, increase their efficiency, advance their opportunities for profitable employment, and investigate and report on all matters pertinent to the welfare of women in industry.

Veterans' Employment and Training Service (VETS) (17.801-17.804) -- Formulates and implements Departmental policies, procedures, and regulations affecting veterans and is responsible for administering veterans employment and training programs and activities through the Service to ensure that legislative and regulatory mandates are accomplished. The Service carries out its responsibilities for directing the Department's veterans employment and training programs through a nationwide network that includes Regional Administrators, Directors (in each State) and Assistant Directors (one for each 250,000 veterans in each State) for Veterans' Employment and Training Service, Assistant Regional Administrators and Area Agents for Veterans' Reemployment Rights, Veterans' Program Specialists, and program support staff. The Service field staff works closely with and provides technical assistance to State Employment Security Agencies and Job Training Partnership Act grant recipients to ensure that veterans are provided the priority services required by law. They also coordinate with employers, labor unions, veterans service organizations, and community organizations through planned public information and outreach activities. Federal contractors are provided management assistance in complying with their veterans affirmative action and reporting obligations. Also administered by the Assistant Secretary through the Service is the Job Training Partnership Act, Title IV, Part C grant program designed to meet the employment and training needs of service-connected disabled veterans, Vietnam-era veterans, and veterans recently separated from military service. Training Partnership Act grants are awarded and monitored through the Services' national office and field staff. Certain other Service staff also administer the veterans reemployment rights program. They provide assistance to help restore job seniority, and pension rights to veterans following absences from work for active military service and to protect employment and retention rights of members of the Reserve or National Guard.

DEPARTMENT OF STATE

Office of the Legal Adviser (19.200-19.201) -- The Legal Adviser is the principal adviser to the Secretary and to the Department on all legal matters with which the Department and overseas posts are concerned.

Bureau of Personnel (19.202) -- Allows State and local governments and related organizations to utilize the experience and expertise of Foreign Service Officers and permits Foreign Service Officers approximately at the mid-career level to be assigned to positions with substantial program management responsibility and to become reacquainted with important domestic issues following long periods overseas and/or in the Washington area.

Bureau of Oceans and International Environmental and Scientific Affairs (19.204) -- Provides for the reimbursement of losses incurred as a result of the seizure of United States commercial fishing vessels by a foreign country in territorial waters or on the high seas not recognized by the United States.

DEPARTMENT OF TRANSPORTATION

United States Coast Guard (20.001, 20.005) -- Search and Rescue: Maintains a system of rescue vessels, aircraft and communications facilities to carry out its function of saving life and property in and over the high seas and the navigable waters of the United States. This function includes flood relief and removing hazards to navigation. Maritime Law Enforcement: The Coast Guard is the primary maritime law enforcement agency for the United States. It enforces or assists in the enforcement of applicable Federal laws and treaties and other international agreements to which the United States is party, on, over, and under the high seas and waters subject to the jurisdiction of the United States, and may conduct investigations into suspected violations of such laws and international agreements. The Coast Guard works with other Federal agencies in the enforcement of such laws as they pertain to the protection of living and nonliving resources and in the suppression of smuggling and illicit drug trafficking. Marine Inspection: The Coast Guard is charged with formulating, administering, and enforcing various safety standards for the design, construction, equipment, and maintenance of commercial vessels of the United States and offshore structures on the Outer Continental Shelf. The program includes enforcement of safety standards on foreign vessels subject to U. S. jurisdiction. Marine Licensing: The Coast Guard administers a system for evaluating and licensing of U. S. Merchant Marine personnel. This program develops safe manning standards for commercial vessels. The Coast Guard also maintains oversight and approval authority for the numerous mariner training programs. Great Lakes Pilotage: The Coast Guard administers the Great Lakes Pilotage Act of 1960 (46 U.S.C. 216), which regulates pilotage services on the Great Lakes. Marine Environmental Response: The Coast Guard is responsible for enforcing the Federal Water Pollution Control Act (33 U.S.C. 1251) and various other laws relating to the protection of the marine environment. Program objectives are to ensure that public health and welfare and the environment are protected when spills occur. Under these laws, U.S. and foreign vessels are prohibited from using U.S. waters unless they have insurance or other guarantees that potential pollution liability for cleanup and damages will be met. Port Safety and Security: This program is administered by the Coast Guard Captains of the Port. The Coast Guard is authorized to enforce rules and regulations governing the safety and security of ports and anchorages, and the movement of vessels and prevention of pollution in U.S. waters. Port safety and security functions include supervising cargo transfer operations, both storage and stowage, conducting harbor patrols and waterfront facility inspections, establishing security zones as required, and the control of vessel movement. Waterways Management: The Coast Guard has a significant role in the safe and orderly passage of cargo, people, and vessels on our nation's waterways. It has established Vessel Traffic Services in four major ports to provide for the safe movement of vessels at all times, but particularly during hazardous conditions, restricted visibility, or bad weather. The program's goal is to ensure the safe, efficient flow of commerce. The Coast Guard also regulates the installation of equipment necessary for vessel safety. Aids to Navigation: The Coast Guard establishes and maintains the U.S. aids to navigation system that included lights, buoys, daybeacons, fog signals, marine radiobeacons, racons, and long-range radionavigation aids. Long-range radionavigation aids include loran-C and OMEGA. Aids are established in or adjacent to waters subject to the jurisdiction of the United States, although OMEGA provides global coverage, and loran-C coverage has been established in parts of the Western Pacific, Europe, and the Mediterranean to meet Department of Defense requirements. These aids are intended to assist a navigator to determine a position or plot a safe course or to warn the navigator of dangers or obstructions to navigation. Other functions related to navigation aids include broadcasting marine information and publishing Local Notice to Mariners and Light Lists. Bridge Administration: The Coast Guard administers the statutes regulating the construction, maintenance, and operation of bridges and causeways across the navigable waters of the United States to provide for safe navigation through and under bridges. Ice Operations: The Coast Guard operates the Nation's icebreaking vessels (icebreakers and ice-capable cutters), supported by aircraft, for ice reconnaissance, to facilitate maritime transportation and aid in prevention of flooding in domestic waters. Additionally, icebreakers support logistics to U.S. polar installations and also support scientific research in Arctic and Anarctic waters. Deepwater Ports: Under the provisions of the Deepwater Port Act of 1974 (33 U.S.C. 1501), the Coast Guard administers a licensing and regulatory program governing the construction, ownership (international aspects), and operation of deepwater ports on the high seas to transfer oil from tankers to shore. Boating Safety: The Coast Guard develops and directs a national boating safety program aimed at making the operation of small craft in U.S. waters both pleasurable and safe. This is accomplished by establishing uniform safety standards for recreational boats and associated equipment; encouraging State efforts through a grant-in-aid and liaison program; coordinating public education and information programs; administering the Coast Guard Auxiliary; and enforcing compliance with Federal laws and regulations relative to safe use and safety equipment requirements for small boats. Coast Guard Auxiliary: The Auxiliary is a nonmilitary volunteer organization of private citizens who own small boats, aircraft, or radio stations. Auxiliary members assist the Coast Guard by conducting boating education programs, patrolling marine regattas, participating in search and rescue operations, and conducting courtesy marine examinations. Military Readiness: As required by law, the Coast Guard maintains a state of readiness to function as a specialized service in the Navy in time of war, or as directed by the President. Coastal and harbor defense, including port security, are the most important military tasks assigned to the Coast Guard in times of national crisis. Reserve Training: The Coast Guard Reserve provides qualified individuals and trained units for active duty in time of war or national emergency and at such other times as the national security requires. In addition to its role in national defense, the Reserve augments the active service in the performance of peacetime missions during domestic emergencies and during routine and peak operations. Marine Safety Council: The Marine Safety Council acts as a deliberative body to consider proposed Coast Guard regulations and to provide a forum for the consideration of related problems.

Federal Aviation Administration (FAA) (20.100-20.107) --Regulates air commerce in a manner that promotes its development and safety and fulfills the requirements of national defense; controls the use of navigable airspace of the United States and regulates both civil and military operations in such airspace in the interest of safety and efficiency; promotes, encourages, and develops civil aeronautics; consolidates research and development with respect to air navigation facilities; installs and operates air navigation facilities; develops and operates a common system of air traffic control and navigation for both civil and military aircraft; and develops and implements, programs and regulations to control aircraft noise, sonic boom, and other environmental effects of civil aviation.

Federal Highway Administration (FHWA) (20.205-20.218) --Coordinates highways with other modes of transportation to achieve the most effective balance of transportation systems and facilities under cohesive Federal transportation policies pursuant to the Act. FHWA is concerned with the total operation and environment of highway systems, including highway and motor carrier safety. In administering its highway transportation programs, it gives full consideration to the impacts of highway development and travel; transportation needs; engineering and safety aspects; social, economic, and environmental effects; and project costs. It ensures balanced treatment of these factors by utilizing a systematic, interdisciplinary approach in providing for safe and efficient highway transportation.

Federal Railroad Administration (FRA) (20.301-20.308) --Promulgates and enforces rail safety regulations, administer railroad financial assistance programs, conduct research and development in support of improved railroad safety and national rail transportation policy, provide for the rehabilitation of Northeast Corridor rail passenger service, and consolidate government support of rail transportation activities. Railroad Safety: The Administration administers and enforces the Federal laws and related regulations designed to promote safety on railroads; exercises jurisdiction over all areas of rail safety under the Rail Safety Act of 1970, such as track maintenance, inspection standards, equipment standards, and operating practices. It also administers and enforces regulations resulting from railroad safety legislation for locomotives, signals, safety appliances, power brakes, hours of service, transportation of explosives and other dangerous articles, and reporting and investigation of railroad accidents. Railroad and related industry equipment, facilities, and records are inspected and required reports reviewed. Research and Development: A ground transportation research and development program is administered to advance all aspects of intercity ground transportation and railroad safety pertaining to the physical sciences and engineering, in order to improve railroad safety and ensure that railroads continue to be a viable national transportation resource. Transportation Test Center: This 50-square-mile facility, located near Pueblo, CO, provides testing for advanced and conventional systems and techniques designed to improve ground transportation. The facility has been managed and staffed for the Administration by the Association of American Railroads since October 1, 1982. The United States and Canadian Governments and private industry use this facility to explore, under controlled conditions, the operation of both conventional and advanced systems. It is used by the Urban Mass Transportation Administration for testing of urban rapid transit vehicles. Policy: Program management for new and revised policies, plans and projects related to railroad transportation economics, finance, system planning, and operations is provided; appropriate studies and analyses are performed; relevant tests, demonstrations, and evaluations are conducted; and labor/management programs are evaluated. Analyses of issues before regulatory agencies are carried out and recommendations are made to the Secretary as to the positions to be taken by DOT. Passenger and Freight Services: The Administration administers a program of Federal assistance for national, regional, and local rail services. Programs include rail freight service assistance programs; rail service continuation programs and State rail planning; and rail passenger service on a national, regional, and local basis. The agency also administers programs to develop, implement, and administer rail system policies, plans and programs for the Northeast Corridor in support of applicable provisions of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 501), and related legislation.

Urban Mass Transportation Administration (UMTA) (20.500-20.513) -- Assists in the development of improved mass transportation facilities, equipment, techniques, and methods, with the cooperation of mass transportation companies both public and private; encourages the planning and establishment of areawide urban mass transportation systems needed for economical and desirable urban development, with the cooperation of mass transportation companies both public and private; and provides assistance to State and local governments and their instrumentalities in financing such systems, to be operated by public or private mass transportation companies as determined by local needs.

National Highway Traffic Safety Administration (20.600) --Carries out programs relating to the safety performance of motor vehicles and related equipment, motor vehicle drivers and pedestrians and a uniform nationwide speed limit under the National Traffic and Motor Vehicle Safety Act of 1966 (80 Stat. 718), as amended. Under the authority of the Motor Vehicle Information and Cost Saving Act (86 Stat. 947), as amended, the Administration carries out programs and studies aimed at reducing economic losses in motor vehicle crashes and repairs, through general motor vehicle programs; administers the Federal odometer law; and promulgates average fuel economy standards for passenger and nonpassenger motor vehicles. Under the authority of the Clean Air amendments of 1970 (84 Stat. 1700), the Administration certifies as to the consistency of Environmental Protection Agency State grants with any highway safety program developed pursuant to section 402 of Title 23 of the United States Code. The National Highway Traffic Safety Administration was established to carry out a congressional mandate to reduce the mounting number of deaths, injuries, and economic losses resulting from traffic accidents on the Nation's highways and to provide motor vehicle damage susceptibility and ease of repair information, motor vehicle inspection demonstrations, and protection of purchasers of motor vehicles having altered odometers, and to provide average standards for greater vehicle mileage per gallon of fuel for vehicle under 10,000 pounds (gross vehicle weight).

Research and Special Programs Administration (20.700) --Responsible for a number of programs involving safety regulation, emergency preparedness, and research and development. Emphasis is given to hazardous material transportation and pipeline safety, transportation emergency preparedness, safety training, and multimodal transportation research and development activities, and collection and dissemination of air carrier economic data.

Maritime Administration (20.801-20.812) -- Administers programs to aid in the development, promotion, and operation of the U.S. Merchant Marine; organizes and directs emergency merchant ship operations; administers subsidy programs, through the Maritime Subsidy Board, under which the Federal government, subject to statutory limitations, pays the difference between certain costs of operating ships under the U.S. flag and foreign competitive flags on essential services, and the difference between the costs of constructing ships in U.S. and foreign shipyards; provides financing guarantees for the construction, reconstruction, and reconditioning of ships; and enters into capital construction fund agreements which grant tax deferrals on moneys to be used for the acquisition, construction, or reconstruction of ships; constructs or supervises the construction of merchant-type ships for the Federal government; it helps industry generate increased business for U.S. ships and conducts programs to develop ports, facilities, and intermodal transport, and to promote domestic shipping. Administers a War Risk Insurance program insuring operators and seamen against losses caused by hostile action if domestic commercial insurance is not available; Under emergency conditions, charters Government-owned ships to U.S. operators, requisitions or procures ships owned by U.S. citizens, and allocates them to meet defense needs; It maintains a National Defense Reserve Fleet of Government-owned ships that it operates through general agents when required in national defense interests. An element of this activity is the Ready Reserve Force consisting of a number of ships available for quick-response activation; regulates sales to aliens and transfers to foreign registry of ships that are fully or partially owned by U.S. citizens; also disposes of Government-owned ships found nonessential for national defense; operates the U.S. Merchant Marine Academy, Kings Point, NY, where young people are trained to become merchant marine officers, and conducts training in shipboard firefighting at Earle, NJ, and Toledo, OH. It also administers a Federal assistance program for the maritime academies operated by California, Maine, Massachusetts, Michigan, New York, and Texas.

Office of the Secretary (20.900-20.902) -- Develops and evaluates public policy related to the transportation industries and their economic regulation; assures that the Department's regulatory programs remain consistent with established policy and maintains oversight of all departmental safety regulatory actions; proposes and coordinates on transportation-related legislation involving the private sector; provides analyses of current and emerging transportation policy issues to assess their economic and institutional implication, particularly with regard to Federal assistance, public trust funds, user charges, nondiscrimination of the handicapped in the provision of public transportation services, and energy and environmental aspects; undertakes studies and analyses to aid in the resolution of safety problems; develops policies to support the Department in aviation and maritime multilateral and bilateral negotiations with foreign governments and participates on the U.S. negotiating delegations; develops policies on a wide range of international transportation and trade matters; furnishes guidance to the United States Trade Representative's Trade Policy Committee in efforts to improve the U.S. balance of payments; coordinates efforts to combat transport-related terrorist acts and drug smuggling; arranges and coordinates cooperative agreements with foreign governments for the exchange of state-of-the-art scientific and technical information; provides assistance to the Agency for International Development's transportation programs in developing countries; and participates on the U.S.-Saudi Arabian Joint Commission for Economic Cooperation. The Assistant Secretary also: develops, coordinates, and carries out U.S. Government policy relating to the economic regulation of the airline industry, including licensing of U.S. and foreign carriers to serve in international air transportation and carrier fitness determinations; processes and resolves complaints concerning unfair competitive practices in international fares, rates, and tariff filings; establishes international and intra-Alaska mail rates; and determines the disposition of requests for approval and immunization from the antitrust laws of international aviation agreements. The Assistant Secretary also administers the essential air service program, which involves: establishing appropriate subsidy levels for subsidized carriers; processing applications to terminate, suspend, or reduce air service below the defined essential level; determining with carrier among various applicants should be selected to provide subsidized service; and continuously reviewing essential air service definitions for each community.

DEPARTMENT OF THE TREASURY

Internal Revenue Service (IRS) (21.003-21.007) -- Administers and enforces the Internal Revenue laws and related statutes, except those relating to alcohol, tobacco, firearms, and explosives. The IRS mission is to encourage and achieve the highest possible degree of voluntary compliance with the tax laws and regulations and to conduct itself so as to warrant the highest degree of public confidence in the integrity and efficiency of the Service. Accomplishment of this mission involves advising the public of its rights and responsibilities; communicating requirements of the law to the public; assisting taxpayers in complying with the laws and regulations, and taking those enforcement actions necessary for fair, effective, and impartial tax administration. Basic IRS activities include ensuring satisfactory resolution of taxpayer complaints, providing taxpayer service and education; determination, assessment, and collection of internal revenue taxes; determination of pension plan qualifications and exempt organization status; and preparation and issuance of rulings and regulations to supplement the provisions of the Internal Revenue Code.

Bureau of Alcohol, Tobacco and Firearms (21.052) --Enforces and administers firearms and explosives laws, as well as those covering the production, use, and distribution of alcohol and tobacco products. The objective of the Bureau's programs is to maximize voluntary compliance with these laws, and to minimize willful and involuntary violations of the laws. To achieve these goals, the Bureau is divided into two basic functions: criminal enforcement and regulatory enforcement. The objectives of the criminal enforcement activity are to eliminate illegal possession and use of firearms, destructive devices, and explosives; suppress the interstate trafficking in illicit distilled spirits; suppress the interstate trafficking in contraband cigarettes; and assist State and local law enforcement agencies in reducing crime and violence. The regulatory enforcement activity determines and assures full collection of revenue due from legal alcohol and tobacco industries; fulfills the Bureau's responsibility in the prevention of commercial bribery, consumer deception, and other improper trade practices in the distilled spirits industry; assists other Federal, State, and local governmental agencies in the resolution of problems relating to industrial development, ecology, and revenue protection; ensures that categories of persons prohibited by law from manufacturing, importing, or dealing in firearms and explosives do not obtain a license or permit; ensures that storage facilities for explosives are safe and secure, to avoid presenting a hazard to the public, and that explosives are properly stored in such facilities; and ensures that the audit trail is preserved to permit the tracing of firearms used in the commission of crimes and full accountability for explosive materials.

United States Secret Service (21.100) -- Detects and arrests any person committing any offense against the laws of the United States relating to coins, currency, and other obligations, and securities of the United States and of foreign governments; detects and arrests any person violating any of the provisions of

Sections 508, 509, and 871 of Title 18 of the United States Code; executes warrants issued under the authority of the United States; carry firearms; and perform such other functions and duties as are authorized by law. In addition, subject to the direction of the Secretary of the Treasury, the United States Secret Service is authorized to protect the person of the President of the United States, the members of his immediate family, the President-elect, the Vice President or other officer next in the order of succession to the Office of President, the immediate family of the Vice President, the Vice-President-elect, major Presidential and Vice-Presidential candidates, former Presidents and their wives during his lifetime, widows of former Presidents until their death or remarriage, and minor children of a former President until they reach age 16, and visiting heads of a foreign state or foreign government.

APPALACHIAN REGIONAL COMMISSION (23.001-23.013)-- The Appalachian Regional Commission is a Federal-State governmental agency concerned with the economic, physical, and social development of the 13-State Appalachian region, which includes parts of Alabama, Georgia, Kentucky, Maryland, Mississippi, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and all of West Virginia. The comprehensive goals of the Commission are to provide the people of Appalachia with the health and skills they need to compete for opportunities and to develop a self-sustaining economy and environment capable of supporting a population with rising incomes and standards of living and increasing employment opportunities. To accomplish this task, the Commission has concentrated on areas of development in which there remain great needs throughout the region: community development and housing, education, the environment, health and child development, industrial development and management, tourism, and transportation.

OFFICE OF PERSONNEL MANAGEMENT (OPM) (27.001-27.013) --Administers a merit system for Federal employment, which includes recruiting, examining, training, and promoting people on the basis of their knowledge and skills, regardless of their race, religion, sex, political influence, or other nonmerit factors. OPM's role is to ensure that the Federal government provides an array of personnel services to applicants and employees. Through a range of programs designed to develop and encourage the effectiveness of the Government employee, OPM supports Government program managers in their personnel management responsibilities and provides benefits to employees and to retired employees and their survivors.

COMMISSION ON CIVIL RIGHTS (CCR) (29.001) -- Collects and studies information on discrimination or denials of equal protection of the laws because of race, color, religion, sex, age, handicap, national origin, or in the administration of justice in such areas as voting rights, enforcement on Federal civil rights laws, and equality of opportunity in education, employment, and housing.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (EEOC) (30.001-30.010) -- Eliminates discrimination based on race, color, religion, sex, national origin, or age in hiring, promotion, firing, wages, testing, training, apprenticeship, and all other conditions of employment. The Commission also promotes voluntary action programs by employers, unions, and community organizations to make equal employment opportunity an actuality. EEOC also has oversight responsibility for all compliance and enforcement activities relating to equal employment opportunity among Federal employees and applicants, including discrimination against individuals with disabilities.

FEDERAL COMMUNICATIONS COMMISSION (FCC) (32.001) -- Regulates interstate and foreign communications by radio, television, wire, and cable. It is responsible for the orderly development and operation of broadcast services and the provision of rapid, efficient nationwide and worldwide telephone and telegraph services at reasonable rates. This also includes the promotion of safety of life and property through radio and the use of radio and television facilities to strengthen the national defense.

FEDERAL MARITIME COMMISSION (FMC) (33.001) -- Regulates the waterborne foreign and domestic offshore commerce of the United States, assures that United States international trade is open to all nations on fair and equitable terms, and protects against unauthorized, concerted activity in the waterborne commerce of the United States. This is accomplished through maintaining surveillance over steamship conferences and common carriers by water; assuring that only the rates on file with the Commission are charged; conducting analysis and appropriate disposition of agreements between persons subject to the Shipping Act of 1984 and the Shipping Act, 1916; guaranteeing equal treatment to shippers, carriers, and other persons subject to the shipping statutes; and ensuring that adequate levels of financial responsibility are maintained for indemnification of passengers.

FEDERAL MEDIATION AND CONCILIATION SERVICE (FMCS) (34.001-34.002) -- Represents the public interest by promoting the development of sound and stable labor-management relationships; preventing or minimizing work stoppages by assisting labor and management to settle their disputes through mediation; advocating collective bargaining, mediation, and voluntary arbitration as the preferred processes for settling issues between employers and representatives of employees; developing the art, science, and practice of dispute resolution; and fostering constructive joint relationships of labor and management leaders to increase their mutual understanding and solution of common problems.

FEDERAL TRADE COMMISSION (FTC) (36.001) -- Maintains competitive enterprise as the keystone of the American economic system. Although the duties of the Commission are many and varied, the foundation of public policy underlying all these duties is essentially the same: to prevent the free enterprise system from being fettered by monopoly or restraints on trade or corrupted by unfair or deceptive trade practices. In brief, the Commission is charged with keeping competition both free and fair.

GENERAL SERVICES ADMINISTRATION (GSA) (39.001-39.009) --Establishes policy and provides for the Government an economical and efficient system for the management of its property and records, including construction and operation of buildings, procurement and distribution of supplies, utilization and disposal of property, transportation, traffic, and communications management, stockpiling of strategic materials, and the management of the Government-wide automatic data processing resources program. GSA is organized much like a large corporation doing business in a number of different fields. It consists of operating services and supporting staff offices, with functions carried out at three levels of organization: The Central office, regional offices, and field activities. (See Appendix IV of the Catalog for a listing of these offices.) Various publications and catalogs published by GSA include: 1) The Catalog of Federal Domestic Assistance published jointly by GSA and the Office of Management and Budget. 2) the Consumer Information Catalog which lists selected Federal publications of interest to consumers. GSA also administers the Federal Information Centers (FIC) which are focal points for information about the Federal government's services, programs, and regulations (see Appendix V of the Catalog for more information on FIC's).

GOVERNMENT PRINTING OFFICE (GPO) (40.001-40.002) -- Executes orders for printing and binding placed by Congress and the departments and establishments of the Federal government. It furnishes blank paper, inks, and similar supplies to all governmental activities on order. It prepares catalogs and distributes and sells Government publications. GPO invites bids from commercial suppliers on a wide variety of printing and binding services, awards and administers contracts, and maintains liaison between ordering agencies and contractors. GPO sells through mail orders and Government bookstores approximately 20,000 publications that originate in various Government agencies, and administers the depository library program through which selected Government publications are made available in libraries throughout the country.

INTERSTATE COMMERCE COMMISSION (ICC) (41.001, 41.002) --Regulates interstate surface transportation, including trains, trucks, buses, water carriers, and freight forwarders, transportation brokers, and a coal slurry pipeline. The regulatory laws vary depending on the type of transportation; however, they generally involve certification of carriers seeking to provide transportation for the public, rates, adequacy of service, purchases, and mergers. The ICC assures that the carriers it regulates will provide the public with rates and services that are fair and reasonable.

LIBRARY OF CONGRESS (42.001-42.008) -- Under the organic law, the Library's first responsibility is service to Congress. One department, the Congressional Research Service, functions exclusively for the legislative branch of the Government. As the Library has developed, its range of service has come to include the entire governmental establishment in all its branches and the public at large, so that it has become a national library for the United States. The Library's extensive collections are universal in scope. They include books and pamphlets on every subject and in a multitude of languages. Among them are the most comprehensive collections of Chinese, Japanese, and Russian language books outside Asia and the Soviet Union; volumes relating to science and legal materials, outstanding for American and foreign law; the world's largest collection of published aeronautical literature; and the most extensive collection in the western hemisphere of books printed before 1501 A.D. The manuscript collections relate to manifold aspects of American history and civilization and include the personal papers of most of the Presidents from George Washington through Calvin Coolidge. The music collections contain volumes and pieces--manuscript and published--from classic works to the newest popular compositions. Other materials available for research include maps and views; photographic records from the daguerreotype to the latest news photo; recordings, including folksongs and other music, speeches, and poetry readings; prints, drawings, and posters; government documents, newspapers, and periodicals from all over the world; and motion pictures, microforms, and audio and video tapes. Admission to the various research facilities of the Library is free. No introduction or credentials are required for persons over high school age who wish to read in the general reading rooms; however, certain collections, like those of the Manuscript, Rare Book and Special Collections, Motion Picture, Broadcasting, and Recorded Sound Divisions, can be used only by those with a serious purpose for doing so. The Library is also responsible for copyrights, which are now registered by the Copyright Office. All copyrightable works, whether published or unpublished, are subject to a system of statutory protection that gives the copyright owner certain exclusive rights, including the right to reproduce the copyrighted work and distribute it to the public by sale, rental, lease, or lending. Works of authorship include books, periodicals, and other literary works, musical compositions, song lyrics, dramas and dramatico-musical compositions, pictorial, graphic, and sculptural works pantomimes and choreographic works, motion pictures and other audiovisual works, and sound recordings. The Library extends its service through an interlibrary loan system; the photoduplication, at reasonable cost, subject to conditions of law, copyright, and deposit, of books, manuscripts, maps, newspapers, and prints in its collections; the sale of sound recordings, which are released by its Recording Laboratory; the exchange of duplicates with other institutions; the sale of printed catalog cards and magnetic tapes, and the publication in book format or microform of cumulative catalogs, which make available the results of the expert bibliographical and cataloging work of its technical personnel; a centralized cataloging program whereby the Library of Congress acquires material published all over the world, catalogs it promptly, and distributes cataloging information in machine-readable form as well as by printed cards and other means to the Nation's libraries; a cooperative cataloging program, whereby the cataloging of data by name authority and bibliographic records, prepared by other libraries becomes part of the Library of Congress data base and distribute them through the MARC Distribution Service; a cataloging-in-publication program in cooperation with American publishers for printing and cataloging information in current books; the National Serials Data Program, a national center that maintains a record of serial titles to which International Standard Serial Numbers have been assigned and serves, with this file, as the United States Register; and the development of general schemes of classification (Library of Congress and Dewey Decimal), subject headings, and cataloging, embracing the entire field of printed matter. The American Folklife Center in the Library of Congress, has a coordinative function both in and outside the Federal establishment to carry out appropriate programs to support, preserve, and present American folklife through such activities as the collection and maintenance of archives, scholarly research, field projects, performances, exhibitions, festivals, workshops, publications, and audiovisual presentations. The Center for the Book was established in the Library of Congress to provide a program for investigating the transmission of human knowledge and to heighten public interest in the role of books and printing in the diffusion of knowledge. Drawing on the resources of the Library of Congress, the Center works closely with other organizations to explore important issues in the book and educational communities, to encourage reading, and to encourage research about books and about reading. Its goal is to serve as a useful catalyst by bringing together authors, publishers, librarians, booksellers, educators, scholars, and readers to discuss common concerns and work toward the solution of common problems. The Library provides technical information related to the preservation and restoration of library and archival material. A series of leaflets on various preservation and conservation topics has been prepared by the Preservation Office. Information and publications are available from the National Preservation Program Office, Library of Congress.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (NASA) (43.001, 43.002) -- Conducts research for the solution of problems of flight within and outside the Earth's atmosphere and develop, construct, test, and operate aeronautical and space vehicles; conducts activities required for the exploration of space with manned and unmanned vehicles; arranges for the most effective utilization of the scientific and engineering resources of the United States with other nations engaged in aeronautical and space activities for peaceful purposes.

NATIONAL CREDIT UNION ADMINISTRATION (NCUA) (44.001-44.002) --The National Credit Union Administration (NCUA) Board is responsible for chartering, insuring, supervising, and examining Federal credit unions and administering the National Credit Union Share Insurance Fund. The Board also manages the Central Liquidity Facility, a mixed-ownership Government corporation whose purpose is to supply emergency loans to member credit unions.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts (NEA) (45.001-45.023) -- Programs have five basic goals: to foster individual creativity and excellence; to foster institutional creativity and excellence; to preserve the artistic birthright of present and future generations of Americans by supporting survival of the best of all art forms that reflect the American heritage in its full range of cultural and ethnic diversity; to ensure that all Americans have a true opportunity to make an informed, educated choice to have the arts of high quality touch their lives; and with responsiveness to the needs of the field, to provide leadership on behalf of the arts.

National Endowment for the Humanities (NEH) (45.104-45.154) -- Promotes and supports the production and dissemination of knowledge in the humanities. The term "humanities" includes, but is not limited to, the study of the following: language, both modern and classical; linguistics; literature; history; jurisprudence; philosophy; archaeology; comparative religion; ethics; the history, criticism, and theory of the arts; and those aspects of the social sciences that employ historical or philosophical approaches. The Endowment makes grants to individuals, groups, or institutions--schools, colleges, universities, museums, public television stations, libraries, public agencies, and nonprofit private groups--to increase understanding and appreciation of the humanities.

Federal Council on the Arts and the Humanities (45.201) --Coordinates the activities of the two Endowments and related programs of other Federal agencies.

Institute of Museum Services (45.301) -- Programs assist museums in maintaining, increasing, and improving their services to the public. The Institute awards grants to support the efforts of museums to conserve the Nation's historic, scientific and cultural heritage; to maintain and expand their educational role; and to ease the financial burden borne by museums as a result of their increasing use by the public. The Institute awards grants to all types of museums, including but not limited to art, history, general, children's, natural history, science and technology, historic houses, zoos and aquariums, botanical gardens and arboretums, nature centers, and planetariums. Contracts and cooperative agreements are provided to national, regional, State or local private nonprofit professional museum organizations, and associations for proposals designed to strengthen museum services.

NATIONAL LABOR RELATIONS BOARD (NLRB) (46.001) -- Administers the Nation's principal law, the National Labor Relations Act. The NLRB is vested with the power to prevent or remedy unfair labor practices and to safeguard employees' rights to organize and determine through elections whether to have unions as their bargaining representatives.

NATIONAL SCIENCE FOUNDATION (NSF) (47.009-47.073) -- Promotes the progress of science and engineering through the support of research and education programs. Its major emphasis is on high quality, science-driven research, the search for improved understanding of the fundamental laws of nature upon which our future well-being as a nation depends. The National Science Foundation also supports applied research in several areas. Its educational programs are aimed at ensuring increasing understanding of science at all educational levels and an adequate supply of scientists and engineers to meet our country's needs.

PRESIDENT'S COMMITTEE ON EMPLOYMENT OF PEOPLE WITH DISABILITIES (53.001) -- Seeks to identify and eliminate barriers standing in the way of full social and vocational opportunities for people with physical and mental disabilities; promotes employment opportunities for people with physical and mental disabilities.

RAILROAD RETIREMENT BOARD (57.001) -- Administers comprehensive retirement-survivor and unemployment-sickness benefit programs for the Nation's railroad workers and their families, under the Railroad Retirement and Railroad Unemployment Insurance Acts. In connection with the retirement program, the Board has administrative responsibilities under the Social Security Act for certain benefit payments and railroad workers' Medicare coverage.

SECURITIES AND EXCHANGE COMMISSION (SEC) (58.001)-- Provides the fullest possible disclosure to the investing public and protects the interests of the public and investors against malpractice in the securities and financial markets.

SMALL BUSINESS ADMINISTRATION (SBA) (59.002-59.044) -- Aids, counsels, assists, and protects the interests of small business; ensures that small business concerns receive a fair proportion of Government purchases, contracts, and subcontracts, as well as of the sales of Government property; makes loans to small business concerns, State and local development companies, and the victims of floods or other catastrophes, or certain types of economic injury; and licenses, regulates, and makes loans to small business investment companies.

INTERNATIONAL TRADE COMMISSION (ITC) (61.001) -- Furnishes studies, reports, and recommendations involving international trade and tariffs to the President, the Congress, and other Government agencies. In this capacity, the Commission conducts a variety of investigations, public hearings, and research projects pertaining to the international policies of the United States.

TENNESSEE VALLEY AUTHORITY (TVA) (62.001-62.006) -- Conducts a unified program of resource development for the advancement of economic growth in the Tennessee Valley region. The Authority's program of activities includes flood control, navigation development, electric power production, fertilizer development, recreation improvement, and forestry and wildlife development. While its power program is financially self-supporting, other programs are financed primarily by appropriations from Congress.

DEPARTMENT OF VETERANS AFFAIRS

Veterans Health Services and Research Administration (64.001-64.022) -- Provides hospital, nursing home and domiciliary care, and outpatient medical and dental care to eligible veterans of military service in the Armed Forces. Dependents of certain veterans are provided with medical care supplied by non-VA institutions and physicians. The Department conducts both individual medical and health-care delivery research projects and multi-hospital research programs. It assists in the education of physicians and dentists, and with training of many other health care professionals through affiliations with educational institutions and organizations.

Veterans Benefits Administration (64.100-64.124) -- Conducts an integrated program of veterans benefits: The Compensation and Pension Service has responsibility for: claims for disability compensation and pension; automobile allowances and special adaptive equipment; claims for specially adapted housing; special clothing allowances; emergency officer's retirement pay; eligibility determinations based on military service for other VA benefits and services or those of other Government agencies; survivor's claims for death compensation, dependency and indemnity compensation, death pension, burial and plot allowance claims; claims for accrued benefits; forfeiture determinations; claims for adjusted compensation in death cases; and claims for reimbursement for headstones or markers. Vocational Rehabilitation and Education Service has responsibility for: rehabilitation of disabled veterans, readjustment educational benefits for veterans of post-Korean conflict service, and educational assistance for spouses, surviving spouses, and children of veterans who are permanently and totally disabled or die from disability incurred or aggravated in active service in the Armed Forces, or are prisoners of war or are missing in action. Special restorative training is also available to eligible children. The mission is also to provide credit assistance whereby the housing credit needs of eligible veterans and active duty service personnel may be satisfied by private capital on more liberal terms than generally available to non-veterans. Assistance is provided chiefly through substituting the Government's guaranty on loans made by private lenders in lieu of the downpayments, shorter terms, and other requirements generally required in conventional home mortgage transactions. Where private capital is not available in non-urban areas, direct loans may be made. In addition, a system of direct financial grants is operated to help certain permanently disabled veterans to acquire specially adapted housing. VA life insurance operations are for the benefit of service members, veterans, and their beneficiaries. In addition, the VA is responsible for: supervision of the Servicemen's Group Life Insurance (SGLI) and Veterans Group Life Insurance (VGLI) Programs for today's service members and veterans. The Veterans' Insurance Act of 1974 (88 Stat. 165; 38 U.S.C. 765-779), effective May 24, 1974, has substantially amended the law provided for the conversion of SGLI to a 5-year nonrenewable term policy known as Veterans Group Life Insurance (VGLI). At the termination of the 5-year term period, it may be converted to an individual policy with any one of the many participating commercial insurance companies. Supervision of the Veterans Mortgage Life Insurance Program for those disabled veterans who receive a VA grant for specially adapted housing--under the terms of contractual agreement with a Primary Insurer. VA guarantees the protection of commercial life insurance (up to $10,000) against premium payments for persons while in military or naval service, and 2 years thereafter. Through the Veterans Assistance Service, information, advice, and assistance are provided to veterans, their dependents and beneficiaries, representatives and others in applying for benefits administered by the Veterans Administration. Benefit information and readjustment assistance is provided to recently separated veterans, including professional guidance in resolving socioeconomic, housing, and other related problems. In addition, the Veterans Assistance Service cooperates with the National Alliance of Businessmen, Department of Labor, and other Federal agencies in developing employment opportunities for veterans, including on-the-job and apprenticeship training programs. This service is responsible for maintaining a benefits protection program (fiduciary activities) for minors and incompetent veterans and other incompetent adult beneficiaries. It also provides field-investigative services for other VA components. It ensures compliance by schools and training institutions with VA directives. The Veterans Assistance Service also has the responsibility of providing information regarding veterans benefits to veterans incarcerated in prison, the various branches of the Armed Forces here and abroad and to veterans residing in foreign countries through United States embassies and consular offices; and of coordinating veterans' activities with foreign governments.

National Cemetery System (64.201-64.203) -- Administers the National Cemetery system, which provides cemeterial services to veterans and other eligibles as prescribed by the Administrator of Veterans Affairs pursuant to the provisions of the National Cemeteries Act of 1973 and other statutory authority and regulations. These services also include providing headstones and markers graves of eligibles in national and private cemeteries and monetary aid to States for establishment, expansion, and improvement of veterans' cemeteries.

ENVIRONMENTAL PROTECTION AGENCY

Office of Air and Radiation (66.001-66.032) -- Develops national programs, technical policies, and regulations for air pollution control; develops national standards for air quality, emission standards for new stationary sources, and emission standards for hazardous pollutants; technical direction, support, and evaluation of regional air activities; and provision of training in the field of air pollution control. Related activities include technical assistance to States and agencies having radiation protection programs, including radon mitigation programs; a national surveillance and inspection program for measuring radiation levels in environment.

Office of Water (66.418-66.461) -- Develops national programs, technical policies, and regulations for water pollution control and water supply; ground water protection; marine and estuarine protection; enforcement of standards; water quality standards and effluent guidelines development; technical direction, support, and evaluation of regional water activities; development of programs for technical assistance and technology transfer; and provision of training in the field of water quality.

Office of Research and Development (66.500-66.508) -- The Office of Research and Development is responsible for a national research program in pursuit of technological controls of all forms of pollution. It directly supervises the research activities of EPA's national laboratories and gives technical policy direction to those laboratories that support the program responsibilities of EPA's regional offices. Close coordination of the various research programs is designed to yield a synthesis of knowledge from the biological, physical, and social sciences that can be interpreted in terms of total human and environmental needs. General functions include management of selected demonstration programs, planning for Agency environmental quality monitoring programs, coordination of Agency monitoring efforts with those of other Federal agencies, the States, and other public bodies, and dissemination of Agency research, development, and demonstration results.

Office of Administration (66.600) --Provides for support grants as an alternative grant delivery mechanism to allow a State or local agency responsible for continuing pollution control programs to develop an integrated approach to pollution control.

Office of Pesticides and Toxic Substances (66.700-66.705) --Develops national strategies for the control of toxic substances; directing the pesticides and toxic substances enforcement activities; developing criteria for assessing chemical substances, standards for test protocols for chemicals, rules and procedures for industry reporting and regulations for the control of substances deemed to be hazardous to man or the environment; and evaluating and assessing the impact of existing chemicals, new chemicals, and chemicals with new uses to determine the hazard and, if needed, develop appropriate restrictions. Additional activities include control and regulation of pesticides and reduction in their use to ensure human safety and protection of environmental quality; establishment of tolerance levels for pesticides that occur in or on food; monitoring of pesticide residue levels in food, humans, and nontarget fish and wildlife and their environments; and investigation of pesticide accidents. It also coordinates activities under its statutory responsibilities with other agencies for assessment and control of toxic substances and pesticides.

Office of Solid Waste and Emergency Response (66.801-66.808) -- Provides policy, guidance, and direction for EPA's hazardous waste and emergency response programs. The functions of these programs include development of policies, standards, and regulations for hazardous waste treatment, storage, and disposal; national management of the Superfund toxic waste cleanup program; development of guidelines for the emergency preparedness and "Community Right To Know" programs; development of guidelines and standards for underground storage tanks; enforcement of applicable laws and regulations; analysis of technologies and methods for the recovery of useful energy from solid waste; and provision of technical assistance in the development, management, and operation of waste management activities.

Office of Policy, Planning and Evaluation (66.900-66.901) --Formulates and recommends the overall national environmental policy, coordinates the analysis and evaluation of policies and programs, and conducts a continuing assessment of the national environmental situation.

NATIONAL GALLERY OF ART (NGA) (68.001) -- The National Gallery's collections embrace every major school of western European art from the 13th century to the present and of American art from colonial days to the present. A professor-in-residence position is filled annually by a distinguished scholar in the field of art history; graduate and postgraduate research is conducted under a fellowship program; programs for school children and the general public are conducted daily; and an Extension Service distributes on loan, throughout the world, audiovisual materials, including films, slide lectures, and slide sets.

OVERSEAS PRIVATE INVESTMENT CORPORATION (OPIC) (70.002-70.005) -- Offers United States investors assistance in finding investment opportunities, insurance, and loans and loan guaranties to help finance their projects in developing countries. It encourages investment projects that will help the social and economic development of these countries.

ACTION (72.001-72.015) -- Administers and coordinates the domestic volunteer programs sponsored by the Federal government, which are linked by a commitment to a "bottoms-up", locally initiated development process which fosters self-reliance and utilizes available human and economic resources to overcome conditions of poverty. Through special demonstration grants and programs, ACTION also tests new ways of bringing volunteer resources to bear on human, social, and economic problems. It identifies and develops the widest possible range of volunteer service opportunities for Americans of all ages and ethnic backgrounds. The agency actively encourages private-sector involvement in support of its goals and programs. ACTION includes Volunteers in Service to America (VISTA), the Foster Grandparent Program (FGP), the Retired Senior Volunteer Program (RSVP), the Senior Companion Program (SCP), the Demonstration Grant Program, the Mini-Grant Program, the Technical Assistance Program, and the State offices of voluntarism.

NUCLEAR REGULATORY COMMISSION (NRC) (77.001-77.005) -- Licenses and regulates the civilian uses of nuclear energy to protect the public health and safety and the environment. It does this by licensing persons and companies to build and operate nuclear reactors and other facilities and to own and use nuclear materials. The NCR makes rules and sets standards for these types of licenses. The NRC also carefully inspects the activities of the persons and companies licensed to ensure that they do not violate the safety rules of the Commission.

COMMODITY FUTURES TRADING COMMISSION (CFTC) (78.004) --Promotes healthy economic growth, protects the rights of customers, and ensures fairness and integrity in the marketplace through regulation of futures trading. To this end it also engages in the analysis of economic issues affected by or affecting futures trading.

DEPARTMENT OF ENERGY (DOE) (81.003-81.097) -- Provides the framework for a comprehensive and balanced national energy plan through the coordination and administration of the energy functions of the Federal government. The Department is responsible for long-term, high-risk research and development of energy technology; the marketing of Federal power; energy conservation; the nuclear weapons program, energy regulatory programs; and a central energy data collection and analysis program. The Secretary and Deputy Secretary are the principal officers of the Department. They are responsible for the overall planning, direction, and control of departmental activities. The Under Secretary has the primary responsibility for developing the Department's overall policies regarding energy conservation and renewable energy technology and for encouraging nonfederal entities to engage in imaginative and progressive utilization of conservation and renewable forms of energy. Supporting DOE in matters of departmentwide scope are support offices, including the Offices of the Assistant Secretaries for Management and Administration; Environment, Safety and Health; International Affairs and Energy Emergencies; Congressional, Intergovernmental, and Public Affairs; the Director of Policy, Planning and Analysis; the General Counsel; the Inspector General; the Director of Minority Economic Impact; the Director of Small and Disadvantaged Business Utilization; the Director of Hearings and Appeals; and the Chairman of the Board of Contract Appeals. Program requiring large budget outlays are the responsibility of the Director of Energy Research, the Director of the Office of Civilian Radioactive Waste Management, and four program Assistant Secretaries (Fossil Energy; Nuclear Energy; Conservation and Renewable Energy; and Defense Programs). The Department's organization also includes the Economic Regulatory Administration, the Energy Information Administration, and the Federal Energy Regulatory Commission, which is an independent regulatory organization within the Department. In addition to headquarters components, the Department has an extensive field structure that plays an integral part in the implementation and management of departmental projects and programs.

UNITED STATES INFORMATION AGENCY (USIA) (82.001-82.002) -- USIA conducts a wide variety of communication activities--from academic and cultural exchanges to press, radio, television, film, seminar, library, and cultural center programs abroad in order to strengthen foreign understanding of American society, obtain greater support of U.S. policies, and increase understanding between the United States and other countries. USIA reports to the President and the Secretary of State, on worldwide public opinion as it is relevant to the formulation and conduct of U.S. foreign policy.

FEDERAL EMERGENCY MANAGEMENT AGENCY

United States Fire Administration (83.007-83.008) -- Administers the Coordination and Conduction of the Federal government's response to the nation's fire problems. Maintains offices and conducts programs in the following areas: fire policy and coordination, firefighter health and safety, fire data and analysis, and fire prevention and arson control. The Administration works closely with the Nation's fire service; fire service organizations; Federal, State, and local governments; and the private sector in developing and implementing programs aimed at lowering the level of loss of life and property due to fire.

Federal Insurance Administration (FIA) (83.100) --Administers the National Flood Insurance program which makes flood insurance available nationwide on an equitable basis and works closely with government officials at all levels to help reduce the potential for future damage in identified flood hazard areas. The Administration assists State insurance authorities and the property insurance industry to carry out programs that will make necessary property insurance more readily available for properties meeting reasonable underwriting standards. The Administration also provides a Federal reinsurance program against property insurance losses resulting from riots and other civil disturbances and provides direct insurance to properties for which statewide programs and Federal reinsurance either do not make crime insurance available or offer it only at prohibitive cost.

Office of Training (83.400-83.413) -- The Office of Training provides training and education programs for Federal, State, and local personnel in hazard mitigation, emergency preparedness, fire prevention and control, disaster response, and long-term disaster recovery. Training is carried out through a resident program at a central campus facility, the National Emergency Training Center, located in Emmitsburg, MD, and through a nationwide outreach program that makes courses available at State and local levels. The Office encompasses the Emergency Management Institute, which provides training in the areas of national security, technological and natural hazards, and emergency processes; and the National Fire Academy, which provides training in the fire prevention management, fire prevention and loss control, and fire service technology.

State and Local Programs and Support (83.502-83.525) --Administers support programs to State and local governments and the private sector which are designed to improve emergency planning, preparedness, mitigation, response, and recovery capabilities. It develops Federal plans to mitigate hazards and respond to natural and non-war related manmade disasters. The Directorate also administers the President's Disaster Relief Program that provides for supplemental Federal assistance in declared disasters and emergencies.

DEPARTMENT OF EDUCATION

Office of the Secretary (ED) (84.002-84.232) -- The Secretary of Education advises the President on education plans, policies, and programs of the Federal government. The Secretary directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives. The Secretary also carries out certain Federal responsibilities for four federally aided corporations: The American Printing House of the Blind, Gallaudet University, Howard University, and the National Technical Institute for the Deaf. The Under Secretary, the Deputy Under Secretaries, the Assistant Secretaries, the Inspector General, and the General Counsel aid the Secretary in the overall management of the Department.

Under Secretary -- The Under Secretary serves as Acting Secretary in the absence of the Secretary and performs on behalf of the Secretary such functions and duties as the Secretary may designate and coordinates Federal-State relations.

Intergovernmental and Interagency Affairs -- The Deputy Under Secretary for Intergovernmental and Interagency Affairs is responsible for providing overall leadership in coordinating regional and field activities as well as establishing and directing intergovernmental and interagency services for the Department. This includes communicating with a wide variety of intergovernmental, interagency, and public advocacy groups and constituencies affected by Department policy, programs, and operations. The office is also responsible for hearings and appeals related to departmental programs.

Inspector General -- The Inspector General is responsible for conducting and supervising audits and investigations relating to programs and operations of the Department. The Office provides leadership, coordination, and policy recommendations to promote economy, efficiency, and effectiveness; and to prevent and detect fraud and abuse in the administration of the Department's programs and operations. The office also provides a means for keeping the Secretary and Congress fully and currently informed about problems and deficiencies relating to the administration of such programs and operations, and the necessity of corrective action.

General Counsel -- The General Counsel provides legal advice to the Secretary and to the components of the Department.

Bilingual Education -- The Director of the Office of Bilingual Education and Minority Languages Affairs ensures access to equal educational opportunity and improves the quality of programs for limited English proficiency and minority languages populations by providing support for programs, activities, and management initiatives meeting the special educational needs of those populations. The Office also provides assistance for the development, adoption, and implementation of plans for the desegregation of public schools.

Management -- The Deputy Under Secretary for Management provides advice and guidance to the Secretary on administrative and financial management and provides for the direction and coordination of these activities throughout the Department on a day-to-day basis. These activities include financial management, personnel, training, grants and procurement management, management evaluation, ADP, and other support functions.

Planning, Budget, and Evaluation -- The Deputy Under Secretary for Planning, Budget, and Evaluation coordinates Department activities in the preparation of the departmental budget, program analysis, and planning activities, and ensures that Department policy and program planning appropriately reflects the results of these activities. The Office also conducts activities designed to inform the general public and the Nation's educational community about Department programs and activities.

Legislation -- The Assistant Secretary for Legislation serves as the principal adviser to the Secretary on matters concerning the Department's legislative program and congressional relations.

Civil Rights -- The Assistant Secretary for Civil Rights is responsible for the administration and enforcement of civil rights laws related to education and the handicapped. The Office is responsible for ensuring compliance in programs and activities receiving Federal financial assistance and by employers holding Federal contracts.

Elementary and Secondary Education -- The Assistant Secretary for Elementary and Secondary Education formulates policy for, directs, and coordinates the activities relating to preschool, elementary, and secondary education in the Department. Included are programs of grants to State educational agencies and local school districts for Indian and migrant education, programs of financial and technical assistance to school districts to meet special needs incident to the elimination of racial segregation and discrimination, and grants for the education of neglected and delinquent students.

Educational Research and Improvement -- The Assistant Secretary for Educational Research and Improvement administers functions of the Department concerning research, statistics, development, demonstration, dissemination, and assessments. The Office also administers a wide variety of discretionary grant programs to maximize individual program impact on school improvement.

Vocational and Adult Education -- The Assistant Secretary for Vocational and Adult Education administers programs of grants, contracts, and technical assistance for vocational and technical education, education professions development, community schools, and comprehensive employment and training. The Office is also responsible for providing a unified approach to rural and rural family education through the coordination of programs within the Department.

Special Education and Rehabilitative Services -- The Assistant Secretary for Special Education and Rehabilitative Services is responsible for special education programs and services expressly designed to meet the needs and develop the full potential of handicapped children; and comprehensive rehabilitation service programs specifically designed to reduce human dependency, to increase self-reliance, and to fully utilize the productive capabilities of all handicapped persons. Programs include support for training of teachers and other professional personnel; grants for research; financial aid to help States initiate, expand, and improve their resources; and media services and captioned films for the deaf.

Postsecondary Education -- The Assistant Secretary for Postsecondary Education formulates policy, directs, and coordinates programs for assistance to postsecondary educational institutions and students pursuing a postsecondary education. Programs include assistance for the improvement and expansion of American educational resources for international studies and services, grants to improve instruction in crucial academic subjects, and construction assistance for academic facilities. Also included are programs of student financial assistance, including Pell Grants, Supplemental Educational Opportunity Grants, Grants to States for State Student Incentives, Direct Loans to Students in Institutions of Higher Education, Work-Study, Cooperative Education, Insured Loans to Students in Health Professions Schools, and the Guaranteed Student Loan Program.

Regional Offices-- Each regional office serves as a center for the dissemination of information and provides technical assistance to State and local educational agencies and other institutions and individuals interested in Federal education activities. At present, offices are located in 10 cities: Atlanta, Boston, Chicago, Dallas, Denver, Kansas City, New York, Philadelphia, San Francisco, and Seattle.

HARRY S TRUMAN SCHOLARSHIP FOUNDATION (85.001) -- Awards college scholarships of up to $5 thousand annually for 4 years to persons who demonstrate outstanding potential for and who are preparing to pursue a career in public service.

PENSION BENEFIT GUARANTY CORPORATION (PBGC) (86.001) -- The Pension Benefit Guaranty Corporation guarantees payment of nonforfeitable pension benefits in covered, private-sector-defined benefit pension plans. Title IV of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1301 et seq.) provides for coverage of most private-sector-defined benefit pension plans that provide a benefit based on factors such as age, years of service, and average or highest salary. The Corporation administers two benefit insurance programs separately covering single-employer and multi-employer plans. Nearly 40 million workers participate in more than 112,000 covered plans. Single-Employer Insurance: Under the single-employer program, the Corporation guarantees payment of a covered plan's basic benefits if that plan terminates without sufficient assets to pay those guaranteed benefits. Multi-employer Insurance: Under Title IV of the Act, as originally enacted, the Corporation guaranteed nonforfeitable benefits for multi-employer plans in a similar fashion as for single-employer plans. However, the payment of guaranteed benefits was at the agency's discretion under the provisions of the law that remained in force until August 1, 1980. The Multi-employer Pension Plan Amendments Act of 1980 (29 U.S.C. 1001) revised the law applicable to multi-employer pension plans by changing the insurable event from plan termination to plan insolvency. In accordance with the Act, the Corporation provides financial assistance to plans that are unable to pay basic benefits. The plans are obligated to repay such assistance. The act also made employers withdrawing from a plan liable to the plan for a portion of its unfunded vested benefits. Premium Collections: All defined benefit pension plans covered by Title IV of Employee Retirement Income Security Act are required to pay premiums under prescribed rates to the Corporation.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB) (88.001) -- Ensures compliance to Federal laws requiring accessibility for physically handicapped persons in certain federally funded buildings and facilities throughout the Nation. This includes setting guidelines and requirements for accessibility standards prescribed by Federal agencies, providing technical assistance to organizations agencies and individuals requesting help in solving accessible design and construction problems, and conducting research to determine appropriate specifications for accessibility.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA) (89.001-89.003) -- Establishes policies and procedures for managing the records of the United States Government. NARA assists Federal agencies in adequately documenting their activities, administering their records management programs, scheduling their records, and retiring their noncurrent records to Federal Records Centers. The agency also accessions, arranges, describes, preserves, and makes available to the public the historically valuable records of all three branches of the Government. Managing the Presidential Libraries system, assisting the National Historical Publications and Records Commission in its grant program for State and local records and edited publications of prominent Americans, and publishing the laws, regulations, Presidential, and other public documents are also key functions of the National Archives and Records Administration.

COMMISSION ON THE BICENTENNIAL OF THE U.S. CONSTITUTION (90.001 and 90.002) --Promotes, coordinates, and develops activities to commemorate the bicentennial of the Constitution, which was adopted at the Constitutional Convention on September 17, 1787. Additionally, the Commission serves as a clearinghouse for the collection and dissemination of information about bicentennial events and plans. The celebration of the 200th anniversary of the Constitution will continue through 1991.

UNITED STATES INSTITUTE OF PEACE (91.001-91.002) -- The United States Institute of Peace was established as an independent, Federal, nonprofit corporation by act of October 19, 1984 (22 U.S.C. 4603). It was established to strengthen the Nation's capacity to promote international peace and the peaceful resolution of conflicts among the peoples and nations of the world. The purpose of the Institute is to develop and disseminate knowledge about the peaceful resolution of international conflict. To accomplish this the Institute has set the following goals: To provide creative practical insights through research, education, and training on negotiation, mediation, and other skills to those actively engaged in resolving international conflicts; to expand the body of knowledge about the nature and processes of peace, war, and international conflict management; and to disseminate information to the public about these subjects. Among the Institute's instruments are grants, fellowships, a library, and in-house projects. The grants program provides financial support to nonprofit organizations, including private colleges and universities; official public institutions, including public schools, colleges, universities, libraries, and Federal, State, and local agencies; and individuals, whether or not they are associated with nonprofit or official public institutions. The Jennings Randolph Program for International Peace provides fellowships to scholars and leaders in peace to undertake research and other appropriate forms of communication on issues of international peace and the management of international conflict. The Fellowship Program has three levels: Jennings Randolph Distinguished Fellows, persons whose careers show extraordinary accomplishment concerning questions of international peace; United States Institute of Peace Fellows, persons also of accomplishment but somewhat less eminence; and United States Institute of Peace Scholars, persons working on doctoral dissertations in the field. The Jeannette Rankin Library Program is developing four main components on international peacemaking: a specialized research library; a network with and support for other libraries, both specialized and public; an oral history resource; and bibliographic as well as other data bases. Institute-directed projects under the Education and Public Information Program include an educational TV program and cassette programs on such topics as U.S.-Soviet summitry and a National Peace Essay Contest for high school students. The in-house Research and Studies is completing a broad, systematic examination of peace and conflict management theories and features workshops and seminars. Institute publications include biennial report to Congress and the President; a newsletter, The Untied States Institute of Peace Journal; and short issue papers, in brief.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service (PHS) (93.103-93.399, 93.820-93.995) --Promotes and assures the highest level of health attainable for every individual and family in America, and to develop cooperation in health projects with other nations. The major functions of PHS are to: stimulate and assist States and communities with the development of local health resources and further the development of education for the health professions; assist in the improvement of the delivery of health services to all Americans with reinforced emphasis upon assisting the health care needs of the nation's homeless population; conduct and support research in medical and related sciences and disseminate scientific information; protect the health of the Nation against impure and unsafe foods, drugs and cosmetics, and other potential hazards; provide national leadership for the prevention and control of communicable diseases, most especially the acquired immunodeficiency syndrome (AIDS); and other efforts to improve the quality of public health. PHS is comprised of eight major components structured to meet specialized public health needs: Alcohol, Drug Abuse and Mental Health Administration, Centers for Disease Control, Agency for Toxic Substances and Disease Registry, Food and Drug Administration, Health Resources and Services Administration, National Center for Health Services Research and Health Care Technology Assessment, Indian Health Service, and the most expansive component, National Institutes of Health. Each has its own unique mission in the arena of public health. Alcohol, Drug Abuse and Mental Health Administration (ADAMHA) - To provide a national focus for the Federal effort to expand and foster knowledge and effective strategies to cope with the health problems and issues associated with the use and abuse of alcohol and drugs and with mental illness and mental health. ADAMHA is supported by three major Institutes. Centers for Disease Control (CDC) - To protect the public health of the nation by conducting studies and activities towards the goal of the prevention and control of diseases and other preventable conditions and responding to public health emergencies. CDC is composed of nine major operating components. Agency for Toxic Substances and Disease Registry - To carry out the health-related responsibilities of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986, the Resource Conservation and Recovery Act, and provisions of the Solid Waste Disposal Act relating to sites and substances found thereby, and other forms of uncontrolled releases of toxic substances into the environment. The Agency provides leadership and direction to programs and activities designed to protect both the public and workers from exposure and/or the adverse health effects of hazardous substances in storage sites or released in fires, explosions, or transportation accidents. Food and Drug Administration (FDA) - To protect the health of the nation against contaminated and hazardous foods, drugs, and cosmetics, and other potential threats to the quality of health. FDA is supported by six specialized Centers and a network of Regional Operations. Health Resources and Services Administration (HRSA) - To provide leadership in the Public Health Service for general health services and resource issues relating to access, equity, quality, and cost of health care. HRSA is supported by three Bureaus. National Center for Health Services Research and Health Care Technology Assessment - To plan, develop, and administer research, evaluations, and research training on the financing, organization, quality, and utilization of health services, including both intramural and extramural research throughout the nation. Indian Health Service - To provide a comprehensive health service delivery system for American Indians and Alaska Natives with the opportunity for greatest tribal involvement in developing and managing programs to meet their health needs, with the key goal towards obtaining an ideal level of health of the Indian and Alaska Native people. National Institutes of Health (NIH) - To improve the health of the American people by conducting and supporting biomedical research focusing upon the causes, prevention, and cure of diseases; supporting research training and the development of research resources; and making use of modern methods to communicate biomedical information. The National Institutes of Health is comprised of 14 Institutes, four Divisions, and three specialized units.

Office of Human Development Services (OHD) (93.550-93.551 and 93.600-93.674) -- Administers a broad range of human services and human development programs designed to deal with the problems of specific populations, including the elderly, children of low-income families, persons with mental or physical handicaps, runaway youth, and Native Americans. It also serves as an advocate within the Department for the needs of these special groups. The Administration on Aging (AOA), a component of OHD, identifies the needs, concerns, and interests of older persons and is also responsible for carrying out the programs of the Older Americans Act. AOA is also the principal agency for promoting coordination of Federal resources available to meet the needs of older persons. AOA administers a program of formula grants to State agencies on aging to serve as advocates for the elderly and to assist in the establishment of comprehensive, coordinated service systems for older persons at the community level. State agencies designate and fund area agencies on aging, which serve as advocates for the elderly within their communities. In addition, area agencies plan and manage the delivery of a variety of social services and nutrition services which are authorized under Title III of the Older Americans Act of 1965. AOA may make direct grants to qualified Indian tribal organizations to support social and nutrition services for older Native Americans. AOA awards grants for research, demonstrations, and manpower development projects. In addition, AOA operates the National Information and Resource Clearinghouse for the Aging. The Administration for Children, Youth, and Families, (ACYF) consists of two principal program units, the Family and Youth Services Bureau and the Office of Developmental Services, and two smaller units, the Office for Families and the Office on Domestic Violence. The Office of Developmental Services emphasizes programs that maximize positive development of young children, especially those receiving out-of-home care during some portion of the day. The Family and Youth Services Bureau (FYSB) administers programs which provide social services to children and their families and serves as an advocate for the needs of children and youth. Among the activities of FYSB is an adoption program intended to facilitate the adoption or foster care placement of children with special needs, both within and across State lines, providing model legislation States may use and setting up mechanisms to facilitate adoption or foster care placement. Of particular note are two FYSB programs developed to address the spiraling trend toward drug experimentation and abuse by our children and youth, especially those who are runaways and homeless, and those who become entrapped in youth gang activities. Drug Abuse Prevention and Education for Runaway and Homeless Youth (93.657) and

Drug Abuse Prevention and Education Relating to Youth Gangs (93.660) focus upon specific needs that communities across the nation are trying to combat. The Office on Domestic Violence provides a central focus for policy planning, provision of information, and coordination of activities within the Department related to domestic violence. ACYF also serves as a coordination point for all Federal programs for children and their families and as an advocate for the children and youth of the Nation by bringing their needs to the attention of the Government and the public. It operates federally-funded programs for children, such as Head Start and Parent and Child Centers; administers the National Center on Child Abuse and Neglect and Child Welfare services program; and coordinates intradepartmental activities in the field of runaway youth. ACYF also awards grants for the training of child welfare workers and for research and demonstration projects in the fields of child, youth, and family services. OHD's Administration for Native Americans and provides a departmental focus for the special concerns of American Indians, Alaskan Natives, and Native Hawaiians. It assists Native Americans in achieving the goal of economic and social self-sufficiency by providing direct and flexible funding to Indian tribes and other organizations through which Native Americans establish their own priorities as well as control and direct the institutions and programs which affect their lives. A major goal of ANA is to strengthen the capability of Native American organizations and instruments of government, so they can respond to the complex demands and increased responsibilities being placed upon them, provide community services, and obtain resources and benefits for which Native Americans are eligible as American citizens. In addition, ANA has an advocacy responsibility to develop policy and legislative guidance, to advise the Secretary, and to provide liaison with other Federal agencies on Native American affairs. A primary mechanism for achieving this responsibility is the Intra-Departmental Council on Indian Affairs. The Office of Community Services (OCS) administers community-oriented services and programs formerly administered under the Community Services Administration which was abolished in 1981. (OCS is a separate operating division independent of OHD.)

Office of the Secretary (93.001 and 93.002) -- The Secretary of HHS advises the President on health, welfare, and income security plans, policies, and programs of the Federal government. The Secretary directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives. The Secretary administers these functions through the four Principal Operating Components (POC's): the Office of the Secretary and specialized units, such as the Office for Civil Rights and the Office of Consumer Affairs. The Secretary and the top staff also prepare special reports on national problems which are available to the public through the Department and the Government Printing Office. In addition, the Secretary submits to the President and the Congress periodic reports required by law that further explain how tax money was spent, progress was achieved, and social problems were resolved.

Health Care Financing Administration (HCFA) (93.773-93.779) -- Places under one Administration the oversight of the Medicare and Medicaid programs and related Federal medical care quality control staffs. The Medicare program provides basic health benefits to recipients Social Security and is funded through the Social Security Trust Fund. HCFA is concerned with the development of policies, procedures, and guidance related to the program recipients the providers of services such as hospitals, nursing homes, and physicians, the intermediaries who adjudicate claims, and the effective coordination with related Department programs, activities, and organizations which are closely related to the Medicare program. The Medicaid program through grants to States provides medical services to the needy and the medically underserved. HCFA is responsible for developing approaches toward meeting the needs of those who cannot afford adequate medical care; providing technical assistance to States and local organizations to extend the scope and content and improve the quality of medical care programs for the needy; and serves as the clearinghouse for information relating to the program.

Family Support Administration (FSA) (93.020-93.035) -- FSA was created in April 1986 to serve as the advising organization to the Secretary and Under Secretary for Health and Human Services. The mission of FSA is to serve the nation's families and children, with special emphasis towards low-income families, by providing direction for family support programs, and improving the coordination of family support programs of HHS, other Federal, State and local agencies, as well as those of private sector organizations. FSA directs and coordinates programs with the Assistant Secretary of Labor for Employment and Training to implement the Work Incentive Program (WIN) (93.790); provides leadership in the planning and development of FSA program objectives; supervises the use of research and evaluation funds; and controls equal employment opportunity programs for FSA. Many of the programs now administered by FSA are programs previously administered by the Office of Human Development Services, the Office of the Secretary, and the Social Security Administration. The four principle programs units of FSA are: the Office of Family Assistance (OFA), the Office of Child Support Enforcement (OCSE), the Office of Community Services (OCS), and the Office of Refugee Resettlement (ORR). OFA has been designated to administer grants to States for Aid to Families with Dependent Children (AFDC) program under Title IV of the Social Security Act; and for financial aid to the needy aged, blind, and disabled in Puerto Rico, the Virgin Islands, and Guam, under other provisions of the Act (93.020, Assistance Payments—Maintenance Assistance and 93.022, Assistance Payments—Research). Subsidies are provided for children in the case of parental death or absence, and in some States, parental unemployment. OFA also administers the Job Opportunities and Basic Skills Training program (93.021), which assists needy families in securing the education, training, and employment needed to avoid long-term welfare dependence; and the Low-Income Home Energy Assistance Program (LIHEAP) (93.028), which provides assistance for home energy costs to low-income households. OSCE implements programs and activities which require States to enforce support obligations to children owed by absent parents by locating absent parents, establishing paternity when necessary, and obtaining child support (93.024 and 93.025). OCS administers the community services block grant programs, the Community Services Block Grant (93.031), Community Services Block Grant Discretionary Awards (93.032), the Community Services Block Grant Food and Nutrition Discretionary Awards (93.033), and the Community Services Block Grant Discretionary Awards program. In addition, to address the plight of the nation's ever-increasing homeless population, FSA has created the Emergency Community Services for the Homeless (93.034), to assist communities in implementing practical strategies for economic and social rehabilitation of those who are already homeless, and others who are at-risk of becoming homeless. ORR administers refugee assistance programs which assist in the effective assimilation of refugees and Cuban and Haitian entrants into American society (93.026 and 93.027). These programs provide cash, medical, and social services assistance to refugees and entrants.

Social Security Administration (SSA) (93.802-93.812) --Administers a national program of contributory social insurance whereby employees, employers, and the self-employed pay contributions which are pooled in special trust funds. When earnings cease or are reduced because the worker retires, dies, or becomes disabled, monthly cash benefits are paid to replace part of the earnings the family has lost. Part of the contributions go into a separate hospital insurance trust fund, so that when workers and their dependents become 65 years old they will have help with their hospital bills. They may also elect to receive assistance with medical expenses by paying a percentage of supplementary medical insurance premiums, while the Federal government pays the remainder. Together, these two programs are often referred to as "Medicare." Under certain conditions, Medicare protection is also provided to people who are receiving Social Security or monthly Railroad Retirement benefits based on a disability. The principal functions of the Social Security Administration include: research and recommendations oriented to the problems of poverty, and health care for the aged, blind, and disabled; the planning, design, and development, on a long-range basis, of SSA administrative plans, including those for future automated data processing systems to be used in establishing and maintaining the basic records essential to SSA-administered programs; statistical measurement and systematic evaluation of the quality of SSA programs; development of programs and materials to assure that Congress, Federal and State governmental agencies, and the general public have an adequate knowledge and understanding of the protections, rights, and responsibilities under SSA administered-programs; policy guidance for the administration of the retirement, survivors, and disability insurance programs, as well as the supplemental security income program. In addition, the Social Security Administration, through a nationwide field organization of 10 regional offices, six SSA program service centers, and over 1,300 local offices, guides and directs all aspects of the cash benefit program operations of SSA, and directs the activities of those offices responsible for the various program operations.

AGENCY PROGRAM INDEX

The alphabet(s) in parentheses following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows: A—Formula Grants; B—Project Grants; C—Direct Payments for Specified Use; D—Direct Payments with Unrestricted Use; E—Direct Loans; F—Guaranteed/Insured Loans; G—Insurance; H—Sale, Exchange, or Donation of Property and Goods; I—Use of Property, Facilities, and Equipment; J—Provision of Specialized Services; K—Advisory Services and Counseling; L—Dissemination of Technical Information; M—Training; N—Investigation of Complaints; O—Federal Employment.

APPLICANT ELIGIBILITY INDEX

Program Description	Individual	Local	Nonprofit	State	U.S. Territories	Federal Tribal Governments

The alphabet(s) in parenthesis following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows: A—Formula Grants; B—Project Grants; C—Direct Payments for Specified Use; D—Direct Payments with Unrestricted Use; E—Direct Loans; F—Guaranteed/Insured Loans; G—Insurance; H—Sale, Exchange, or Donation of Property and Goods; I—Use of Property, Facilities, and Equipment; J—Provision of Specialized Services; K—Advisory Services and Counseling; L—Dissemination of Technical Information; M—Training; N—Investigation of Complaints; O—Federal Employment.

Definitions of the types of applicants used in this Index are given below.

Individual - Any person or persons,as individuals, groups, or profit making organizations. Such persons and groups do not represent Federally Recognized Indian Tribal Governments. Includes Indians or other Native Americans who apply as individuals rather than as a member of a tribe or other Indian organization.

Local - Agencies or instrumentalities of political subdivisions within a State, to include cities, towns, townships, parishes, municipalities, villages, counties, school districts,and other special local districts. Included under local are Indian tribes on State reservations, Indian bands and group, Pueblos, Indian school boards, and State designated Indian tribes. Local does not include institutions of higher education and hospitals.

Nonprofit - A public or private agency or organization established by charter to perform specialized functions or services for the benefit of all or part of the general public. Functions or services are provided without charge or at cost, and earn no profit. The agency or organization has no shareholders to receive dividends.

State - Any agency or instrumentality of the fifty States of the United States, and the District of Columbia. State does not include the political subdivisions of the State, but does include institutions of higher education and hospitals.

U.S. Territories - Any agency or instrumentality of the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territories of the Pacific Islands, and Mariana Islands. Included are the political subdivisions of the territories, institutions of higher education, and hospitals.

Federally Recognized Indian Tribal Organizations - The governing body or a governmental agency of an Indian Tribe, nation, or other organized group or community recognized and certified by the Secretary of the Interior. Included are Native villages as defined in the Alaska Native Claims Settlement Act.

(Note: The information contained in this Index was taken from the Applicant Eligibility section of the program descriptions and from other sources. As a potential applicant, if you feel you also qualify to apply for assistance under a particular program but the Index says otherwise, always contact the agency contact persons. As regarding whether or not a potential applicant is eligible for a program, the agency is always the best source.

DEADLINES INDEX

The Deadlines Index lists those programs shown in the Catalog which have application deadlines that applicants must adhere to in order to ensure timely consideration of their activities. The programs listed following each date or month are those for which applications must be received by the Federal agency administering the program by the date indicated. The program deadlines are listed in ascending date order. Currently funded programs that are listed in the Catalog but are not shown in this index either do not have a deadline or the deadline(s) has not been determined.

The information contained herein was taken from the Deadlines section of the program descriptions. As a potential applicant, contact the agency contact persons for any changes in scheduling or incomplete information. Regarding deadline dates, the agency is always the best source.

The alphabet(s) in parenthesis following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows: A - Formula Grants; B - Project Grants; C - Direct Payments for Specified Use; D - Direct Payments with Unrestricted Use; E - Direct Loans; F - Guaranteed/Insured Loans; G - Insurance; H - Sale, Exchange, or Donation of Property and Goods; I - Use of Property, Facilities, and Equipment; J - Provision of Specialized Services; K - Advisory Services and Counseling; L - Dissemination of Technical Information; M - Training; N - Investigation of Complaints; O - Federal Employment.

SUMMARY LIST OF MODIFIED PROGRAMS

This is a summary list of program numbers of those programs contained in the Basic 1990 Catalog that have significant modifications. We have decided for this update to reflect these modifications by using "pen and ink" changes.

A listing follows of the modifications in each program that has been modified. The modifications are shown by program number, program title and title of the section of the program description being changed. It is recommended that this portion be retained with the rest of the 1990 Catalog of Federal Domestic Assistance in the front or the back of your Catalog as a total change reference package and checked whenever a specific program is being looked up in detail.

10.051 COMMODITY LOANS AND PURCHASES

USES AND USE RESTRICTIONS:

Price support loans and purchases give farmers a ready means of promoting more orderly marketing. Price support loans to producers are "nonrecourse which means that producers have the option of forfeiting the collateral to CCC at loan maturity if market prices fall below the support level." If market prices are above the support level, producers can repay their loans and market their commodities. If the commodity is stored on the farm, the farmer is responsible for maintaining the condition of the commodity. Eligible commodities are feed grains, wheat, rice, rye, soybeans, honey (loans only), upland cotton, extra-long staple cotton, dairy products (purchases only), peanuts, tobacco, and sugar. Effective with the 1986 crop, the Secretary of Agriculture has the authority to permit commodity loan repayments at less than the original loan principal under the "marketing loan" provision. Loan deficiency payments will be offered for 1990-crop upland cotton and rice if the loan repayment rates for these commodities are less than the established loan levels. For 1990-crop cotton, producers can forego loan eligibility on a bale-by-bale basis. For both cotton and rice, applications for payment must be filed before title to the commodity has passed, and the payment rate will equal the difference between the loan rate and the loan repayment rate in effect during the week in which the application is filed. Upland cotton and rice loan deficiency payments, and any gain realized from repaying a loan at a level lower than the original loan level (marketing loan) are subject to the $250,000 payment limitation. For honey only, beginning with the 1989 crop, the value of loan forfeitures or deliveries may not exceed $250,000.

FINANCIAL INFORMATION:

Obligations:

(Commodity purchases) FY 89 $1,098,232,228; FY 90 est $840,883,000; and FY 91 est $751,893,000. (Loans) FY 89 $7,067,551,000; FY 90 est $5,945,943,000; and FY 91 est $5,788,974,000.

PROGRAM ACCOMPLISHMENTS:

A total of 293,907 new loans were made in fiscal year 1989. The dollar volume of commodity loans and purchase transactions for fiscal year 1989 totaled $8,165,783,228 (comprised of loans made - $7,067,551,000, and purchase of commodities - $1,098,232,228). As of June 30, 1990, a total of 183,093 new loans were made in fiscal year 1990. The dollar volume of commodity loans and purchase transactions as of June 30, fiscal year 1990, totaled $5,912,243,000 (comprised of loans made - $5,245,894,000, and purchase of commodities - $666,349,000).

10.052 COTTON PRODUCTION STABILIZATION

APPLICATION AND AWARD PROCESS:

Deadlines:

The 1990 program sign-up was from January 16, 1990 through April 13, 1990 for upland and ELS cotton. Producers reported acreages and compliance with program requirements by specified dates, which varied by State and within States. Producers signed a contract before any payments were made. Final deficiency payments will be made after February 1, 1991 for upland cotton and May 1, 1991 for ELS cotton. Contact State or county ASCS offices for applicable deadlines.

FINANCIAL INFORMATION:

Obligations:

(Direct cash and certificate payments) FY 89 $1,214,799,053; FY 90 est $402,814,000; and FY 91 est $306,043,000.

Range and Average of Financial Assistance:

$3 to $250,000 per person. As of July 31, 1990, the average deficiency payment per producer for the 1989 upland cotton crop was $6,887. (Cotton, feed grain, wheat and rice deficiency and diversion payments, in total, may not exceed $50,000 to any one person for the 1986 through 1990 crop years. In addition, the total of any (1) gains realized by repaying a loan at a level lower than the original loan level; (2) disaster payments; (3) deficiency payments for wheat or feed grains attributable to a reduction in the statutory loan level; (4) loan deficiency payments; (5) inventory reduction payments; and (6) payments representing compensation for resource adjustment (other than diversion payments) or public access for recreation, combined with the total deficiency and diversion payments, may not exceed $250,000 for the 1987 through 1990 crops.)

PROGRAM ACCOMPLISHMENTS:

For the 1989 upland cotton crop, there were 102,043 participating farms which received total deficiency payments of $674,599,000, and for the 1989 ELS cotton crop, there were 26 participating farms which received total deficiency payments of $6,000 (all in cash) through July 31, 1990. As of July 31, 1990, upland cotton farmers received $574,865,000 in 1989 crop cash deficiency payments and $99,734,000 in 1989 crop deficiency certificates. For the 1990 upland cotton crop, there were 96,199 enrolled farms which received total deficiency payments of $208,056,000 (all in cash) through July 31, 1990.

10.053 DAIRY INDEMNITY PROGRAM

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, 112 dairy farmers in 11 States filed claims totaling $271,888 under the Dairy Indemnity Program. These farmers' claims resulted from losses incurred due mostly to aflatoxin contamination and various other contaminants discovered in their cattle's milk. As of September 30, 1989, a total of $230,101 had been paid to producers under the program. It is estimated that during fiscal year 1990, $100,495 in payments will be paid to producers who have suffered losses due to these contamination problems. Payments are estimated to total $100,000 in fiscal year 1991.

10.054 EMERGENCY CONSERVATION PROGRAM

FINANCIAL INFORMATION:

Obligations:

(Direct payments) FY 89 $6,514,926; FY 90 est $21,332,000; and FY 91 est $14,701,000.

PROGRAM ACCOMPLISHMENTS:

As a result of natural disasters in fiscal year 1989, $7,893,738 in cost-share assistance was provided to 42 States to help rehabilitate farmland, of this amount $5,777,123 was provided to drought stricken landowners in 22 States. It is estimated that $21.3 million in cost-share assistance will be paid to farmers and ranchers to rehabilitate approximately 1,919,000 acres of farmland damaged by natural disasters in fiscal year 1990.

10.055 FEED GRAIN PRODUCTION STABILIZATION

USES AND USE RESTRICTIONS:

To be eligible for 1990 crop program benefits, program participants agreed to reduce their historical plantings--crop acreage base--of corn, sorghum, and barley by at least 10 percent and oats by 5 percent. The acreage removed from feed grain production must be maintained in approved conservation uses. Benefits include target price protection with deficiency payments. Deficiency payments are made whenever market prices received by producers during the months of September through January for corn and sorghum and June through October for barley and oats average below the respective target prices. The 1990 target prices per bushel were as follows: Corn $2.75; sorghum $2.61; barley $2.36; and oats $1.45. In addition, to compensate for adjusted commodity loan rates, emergency compensation payments may be made, if the season average price falls below the basic loan rate, to provide the same total return to the producer as if loan rates had not been adjusted. The maximum combined payment rate per bushel (deficiency plus emergency compensation) is the difference between the target price and the national average loan rate. Producers who requested such payments received 40 percent of the estimated deficiency payment, less reductions required by the Omnibus Budget Reconciliation Act of 1989, and the Balanced Budget and Emergency Deficit Control Act of 1985 in cash after a program contract was signed and before compliance with program requirements were met. Program contracts are binding and liquidated damages will be assessed for failure to fulfill the terms of the contract.

APPLICATION AND AWARD PROCESS:

Deadlines:

The 1990 program sign-up was from January 16, 1990 through April 13, 1990. Producers reported acreages and compliance with program requirements by specified dates which vary by State and within States. Producers signed a contract before any payments were made. Contact State or county ASCS offices for applicable deadlines.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Payment by check or commodity certificate, based on compliance with the contract, is made after it is determined a payment is required. Advance payments were made after the producer signed up and requested an advance payment.

FINANCIAL INFORMATION:

Obligations:

(Direct cash and certificate payments) FY 89 $5,244,347,943; FY 90 est $2,688,211,000; and FY 91 est $1,805,809,000.

Range and Average of Financial Assistance:

$3 to $250,000 per person. As of July 31, 1990, the average deficiency payment per producer for the 1989 feed grain crop was $4,377. (Feed grain, wheat, cotton and rice deficiency and diversion payments, in total, may not exceed $50,000 to any one person for each of the 1986 - 1990 crop years. In addition, the total of any (1) gains realized by repaying a loan at a level lower than the original loan level; (2) disaster payments; (3) deficiency payments for wheat or feed grain attributable to a reduction in the statutory loan level; (4) loan deficiency payments; (5) inventory reduction payments; and (6) payments representing compensation for resource adjustment (other than diversion payments) or public access for recreation, combined with the total deficiency and diversion payments, may not exceed $250,000 for each of the 1987 through 1990 crops.)

PROGRAM ACCOMPLISHMENTS:

For the 1989 feed grain crop, there were 893,847 participating farms which received total deficiency payments of $3,960,241,000 through July 31, 1990. Farmers received $3,435,672,000 in 1989 crop cash deficiency payments, and $524,569,000 in 1989 crop deficiency certificates through July 31, 1990. For the 1990 feed grain crop, there were 872,083 enrolled farms which received total deficiency payments of $2,128,374,000 through July 31, 1990. All 1990 crop deficiency payments are being made in cash.

10.058 WHEAT PRODUCTION STABILIZATION

USES AND USE RESTRICTIONS:

To be eligible for 1990 crop program benefits, producers agreed to reduce their historical plantings of wheat (average of previous 5 years) by at least 5.0 percent. In addition, producers modified their contracts and planted wheat in excess of 95 percent of the base, not to exceed 105 percent. The acreage removed from wheat production must be maintained in approved conservation uses. Benefits include target price "deficiency" payments which are made if wheat prices during the months of June through October average below the target price of $4.00 per bushel. Since the Secretary adjusted loan rates below the basic level, emergency compensation (also known as "Findley") payments may be made, if the season average price falls below the basic loan rate, to provide the same total return as if loan rates were not adjusted. The maximum payment rate per bushel is the difference between the target price and the national average loan price. Producers who requested such payments received 40 percent of the estimated deficiency payment in cash, less reductions required by the Omnibus Budget Reconciliation Act of 1989 and the Balanced Budget and Emergency Deficit Control Act of 1985, after a program contract was signed and before compliance with program requirements was met. Program contracts are binding and liquidated damages will be assessed for failure to fulfill the terms of the contract.

APPLICATION AND AWARD PROCESS:

Deadlines:

The 1990 program sign-up was from January 16, 1990 through April 13, 1990. Producers must have reported acreages and compliance with program requirements by specified dates which vary by State and within States. All interested producers must have signed a contract for payment before any payments are made.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Payment by check or commodity certificate, based on compliance with the contract, is made after it is determined a payment is required. Advance payments were made after the producer signed up and requested an advance payment.

FINANCIAL INFORMATION:

Obligations:

(Direct cash and certificate payments) FY 89 $689,457,137; FY 90 est $716,789,000; and FY 91 est $1,972,000,000.

Range and Average of Financial Assistance:

Up to $250,000 per person. As of July 31, 1990, the average deficiency payment per producer for the 1989 crop was $1,235. (Cotton, feed grain, wheat, and rice deficiency and diversion payments, in total, may not exceed $50,000 to any one person for each of the 1986 through 1990 crop years. In addition, the total of any (1) gains realized by repaying a loan at a level lower than the original loan level; (2) disaster payments; (3) deficiency payments for wheat or feed grains attributable to a reduction in the statutory loan level; (4) loan deficiency payments; (5) inventory reduction payments; and (6) payments representing compensation for resource adjustment (other than diversion payments) or public access for recreation, combined with total deficiency and diversion payments, may not exceed $250,000 for each of the 1987 through 1990 crops.)

PROGRAM ACCOMPLISHMENTS:

As of July 31, 1990, cumulative data for the 1989 crop included 433,758 participating farms receiving deficiency payments of $588,713,000. Farmers received $530,996,000 in 1989 cash deficiency payments and $57,717,000 in 1989 crop deficiency certificates through July 31, 1990. For the 1990 crop, 468,880 farms enrolled 66,756,294 million acres (82.93 percent of the total acreage base) of wheat base into the acreage reduction program. Producers were required to reduce their acreage base by 5.0 percent to gain program benefits. Through July 31, 1990, these 468,880 enrolled farms received total deficiency payments of $653,217,000. All 1990 crop deficiency payments are being made in cash.

10.059 NATIONAL WOOL ACT PAYMENTS

FINANCIAL INFORMATION:

Obligations:

(Direct payments) FY 89 $87,817,389; FY 90 est $105,200,000; and FY 91 est $157,600,000.

Range and Average of Financial Assistance:

Wool - $1 to $172,100; Mohair - $1 to $565,970. In fiscal year 1990, the average wool payment was $602 and the average mohair payment was $3,858. (In fiscal years 1989 and 1990 the respective maximum per-pound sales value on which wool and mohair payments were made was 4 times the 1988 and 1989 calendar year national average market price received for wool and mohair, respectively. The maximum per-unit payment for 1990 marketings has not yet been determined.)

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, $39,396,841 was paid to wool producers and $48,420,548 was paid to mohair producers for calendar year 1988 marketings. Approximately $54,900,000 will be paid to wool producers and $50,300,000 to mohair producers in fiscal year 1990 for calendar year 1989 marketings.

10.062 WATER BANK PROGRAM

FINANCIAL INFORMATION:

Obligations:

(Direct payments) FY 89 $9,153,700; FY 90 est $13,495,378; and FY 91 est $10,498,000.

10.063 AGRICULTURAL CONSERVATION PROGRAM

EXAMPLES OF FUNDED PROJECTS:

In 1990, $11.93 million was allocated for ACP water quality special projects. Tangipahoa parish in Louisiana received $604,000 for addressing animal waste problems in the Tangipahoa River Basin. This project was originally approved in 1989 and continues through 1990. The South Fork Palouse River Water Quality Special Project in Washington received $500,000 to treat the sediment problems affecting the Palouse River and its tributaries. Approximately $7.9 million was allocated to fund priority water quality initiatives including $889,000 for eight USDA demonstration projects and $7.0 million for 37 USDA non-point source hydrologic units.

10.065 RICE PRODUCTION STABILIZATION

USES AND USE RESTRICTIONS:

The 1990 crop rice program includes a 20 percent acreage reduction program. To be eligible for 1990 crop program benefits, producers agreed to limit 1990 rice acreage to no more than 80 percent of the farms rice base. The acreage removed from rice production must be maintained in approved conservation uses. Benefits include target price "deficiency payments" which are made if rice prices during the first five months of the marketing year (August-December) average below the target price. The target price for the 1990 crop is $10.71 per hundredweight. The maximum deficiency payment rate is the difference between the target price and the national average loan and purchase rate. The national average loan and purchase rate for the 1990 crop is $6.50 per hundredweight. Producers who requested such payments received 40 percent of the estimated deficiency payment in cash, less deductions required by the Omnibus Budget Reconciliation Act of 1989, and the Balanced Budget and Emergency Deficit Control Act of 1985 after a program contract was signed and before compliance with program requirements was met. Producers may repay loans at a rate which is the lower of the loan rate or the higher of the world price of such rice, as determined by the Secretary, or the loan level times 70 percent. Producers who elect to forego obtaining a loan or purchase agreement on eligible production are eligible to receive loan-deficiency payments. The payment rate, the difference between the loan rate and world price of the rice, is available on eligible production not to exceed the farm program acreage times the farm program payment yield. Generic commodity certificates may be paid to producers if the world price is below the minimum loan repayment level at the time the rice is sold or redeemed from a price support loan. Program contracts for the 1990 crop are binding and liquidated damages will be assessed for failure to fulfill the terms of the contract.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Farm operator visits ASCS office prior to a prescribed final date to sign application Form ASCS-477, contracting to participate and share in planted acres, and to report planted acreage for harvest on Form ASCS-

578. This program is excluded from coverage under OMB Circular No. A-110.

Deadlines:

The 1990 program signup was from January 16, 1990 through April 13, 1990. Producers must have reported acreages and compliance with program requirements by specified dates which vary by States. Producers must have signed a contract before any payments were made. The final portion of deficiency payments will be paid after February 1, 1991. Marketing certificate payments must be requested within 30 days from the day the rice was sold or redeemed from loan. Loan deficiency payments may be requested only for rice which meets all requirements for price support loan eligibility. Contact State or county ASCS offices for applicable deadlines.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Payment by check or commodity certificate, based on compliance with the contract, is made after it is determined a payment is required. Advance payments are made after the producer signs up and requests an advance payment.

FINANCIAL INFORMATION:

Obligations:

(Direct cash and certificate payments) FY 89 $668,409,570; FY 90 est $473,200,000; and FY 91 est $510,700,000.

PROGRAM ACCOMPLISHMENTS:

As of July 31, 1990, cumulative data for the 1989 crop included 18,575 participating farms which received total deficiency payments of $471,252,000. Farmers received $417,847,000 in 1989 crop cash deficiency payments and $53,405,000 in 1989 crop certificate deficiency payments through July 31, 1990. In fiscal year 1990, 18,581 enrolled farms received $218,102,000 in 1990 crop deficiency payments through July 31, 1990. All 1990 crop deficiency payments are being made in cash.

10.066 EMERGENCY LIVESTOCK ASSISTANCE

APPLICATION AND AWARD PROCESS:

Application Procedure:

(1) Applicants visit the county ASCS office in the eligible county to make application and report feed loss, feed available, and eligible livestock related to the disaster occurrence; and (2) applicants also receive authority to participate in the program as provided by the approving official. This program is excluded from coverage under OMB Circular No. A-110.

Deadlines:

(1) Feeding periods for livestock feed programs shall begin the later of the date the county is approved or the date the owner applies; (2) applications for livestock feed programs or livestock emergencies determined to exist after January 1, 1989, must be filed by December 31, of the applicable calendar year in which the livestock emergency occurred. Applications in a county contiguous to a county approved for disaster assistance must be filed during the 8-month period beginning on the date the livestock emergency is determined to exist in the approved county except for the livestock preservation donation program for which contiguous counties are not eligible; and (3) assistance under the crash feed donation program shall be from the time of a sudden natural disaster and cannot exceed the number of days specified by the ASCS Deputy Administrator for State and county operations.

Range of Approval/Disapproval Time:

Approval is 60 days or less in most cases if complete information is furnished by the applicant.

Appeals:

Applicants may appeal or request reconsideration of a determination of the county ASCS office.

Renewals:

Applicants may have their eligibility extended beyond the current application by filing a subsequent application or if additional feed does not become available as anticipated or in the case of the crash feed donation program if the emergency continues to exist.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Payment is made by: (1) Check for emergency feed and prickly pear cactus program upon presenting satisfactory evidence of cost of feed purchased except for advance payments, or the butane, propane, or kerosene used to burn spines from prickly pear cactus; (2) applicants pay the county ASCS office 50 percent of the posted county price for the CCC-owned grain within 5 days of the request to purchase feed grain under the emergency feed assistance program. Purchased grain must be picked up by the purchaser within 10 days.

FINANCIAL INFORMATION:

Obligations:

(Direct cash and certificate payments) FY 89 $526,326,271; FY 90 est $175,000,000; and FY 91 est $75,000,000.

PROGRAM ACCOMPLISHMENTS:

Payments made under the Emergency Feed Program totaled $526,326,271 in fiscal year 1989, and helped purchase 14,071,430,000 pounds of feed for 22,565,587 units of livestock. Under the Emergency Feed Assistance Program, 820,944,327 pounds of CCC-owned grain was sold at subsidized prices during fiscal year 1989. From October 1, 1989 through June 30, 1990, $127,132,225 in assistance was provided under the Emergency Feed Program. Under the Emergency Feed Assistance Program an additional 68,833,604 pounds of CCC-owned grain was sold at subsidized prices during this period.

10.067 GRAIN RESERVE PROGRAM

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Applicants must have been the producer of the commodity and hold title to an eligible authorized crop. This program is excluded from coverage under OMB Circular No. A-87.

APPLICATION AND AWARD PROCESS:

Award Procedure:

This program is on a first come, first served basis. Agreements are approved after storage has been provided for in the case of warehouse loans, and after an inspection of the commodity in the case of farm stored loans. Producers must meet commodity eligibility requirements, except that producers are not required to participate in ARP in the year reserve is entered unless immediate reserve entry is authorized.

FINANCIAL INFORMATION:

Obligations:

(Direct payments) FY 89 $174,280,988; FY 90 est $175,150,000; and FY 91 est $26,501,000.

PROGRAM ACCOMPLISHMENTS:

Through August 15, 1990, 125,400,000 bushels of wheat, 700,000 bushels of barley, 12,300,000 bushels of sorghum, and 388,100,000 bushels of corn were in the reserve.

10.068 RURAL CLEAN WATER PROGRAM

EXAMPLES OF FUNDED PROJECTS:

The RCWP provided technical and cost-share funds for the installation of Best Management Practices to reduce bacterial count, control sediment, nutrients, pesticides, animal waste and similar pollutants. Examples of selected projects are: Westport River Watershed, Massachusetts, $648,283 to treat 473 critical acres; Rock Creek Project, Idaho, $5,242,467 to treat 28,159 critical acres; Highland Silver Lake, Illinois Project, $3,889,208 to treat 6,525 critical acres which contribute to pollute the 600 acre lake.

10.069 CONSERVATION RESERVE PROGRAM

FINANCIAL INFORMATION:

Obligations:

FY 89 $1,372,204,507; FY 90 est $1,589,837,000; and FY 91 est $1,821,629,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal years 1986 through 1989, contracts were signed through the ninth signup covering 33.9 million acres. Each contract covers an average of 102 acres with an average rental rate of $48.93. Acres enrolled for crop years as follows: 1986 - 2 million acres; 1987 - 13.7 million acres; 1988 - 8.8 million acres; 1989 - 5.4 million acres; and 1990 crop acres through the ninth signup - 4.1 million acres. An average of 19 tons of soil per acre will be saved on land entered in the CRP.

10.070 COLORADO RIVER SALINITY CONTROL

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, $3.4 million in cost-share assistance was provided to participants in Utah, Colorado, and Wyoming. It is estimated that approximately $5.9 million in cost-share assistance will be paid to participants in fiscal year 1990 and $8.6 million will be paid in fiscal year 1991.

10.140 MINORITY RESEARCH AND TEACHING PROGRAMS GRANTS

PROGRAM ACCOMPLISHMENTS:

Received twelve applications and funded eight in 1990.

10.202 COOPERATIVE FORESTRY RESEARCH

PROGRAM ACCOMPLISHMENTS:

Sixty-three State colleges and universities participated in the program in fiscal year 1990. Important results reported included contributions to knowledge on forest pest control, soil chemistry, impacts on forest vegetation and wildlife, models for predicting forest growth and associated economic return, effective use of "low grade" hardwoods, use of former waste products in products with commercial potential, new approaches to cleaning up pulp mill effluent, and reduction in the impact of timber harvest on the environment.

10.206 GRANTS FOR AGRICULTURAL RESEARCH— COMPETITIVE RESEARCH GRANTS

INFORMATION CONTACTS:

Headquarters Office:

Chief Scientist, Competitive Research Grants Office, U.S. Department of Agriculture, Aerospace Building, Room 323, 14th and Independence Ave., SW, Washington, DC 20250-2200. Telephone: (202) 401-5022. (FTS 441-5022.)

10.212 SMALL BUSINESS INNOVATION RESEARCH

USES AND USE RESTRICTIONS:

The selected areas for research are forests and related resources; plant production and protection; animal production and protection; air, water and soils; food science and nutrition; rural and community development; aquaculture; and industrial applications. The Small Business Innovation Research Program will be carried out in three separate phases: Phase I, USDA anticipates making awards during fiscal year 1991 to small businesses in amounts ranging up to $50,000 over periods normally not to exceed six months each. Phase I is to determine, if possible, the scientific or technical feasibility of ideas submitted by proposers on the selected research areas; Phase II, awards will be made during fiscal year 1991 to firms with approaches that appear sufficiently promising as a result of phase I studies. Only those small businesses previously receiving phase I awards in fiscal years 1989 and 1990 are eligible to submit phase II proposals in fiscal year 1991. Phase II projects are limited to $250,000 with the average award being about $200,000, for a period not to exceed 24 months; phase III, to be conducted by the small business firm (including joint ventures or research and development partnerships), will be non-federally funded through the exercising of a follow-on funding commitment. The purpose of the phase III is to stimulate technological innovation and the national return on investment from research through the pursuit of commercial objectives resulting from the USDA supported work carried out in phases I and II.

APPLICATION AND AWARD PROCESS:

Deadlines:

Deadlines are announced in the Federal Register and SBIR Program Solicitation for each fiscal year. Deadlines for submission for fiscal year 1991, Phase I and Phase II proposals are August 31, 1990 and January 16, 1991, respectively.

10.216 1890 INSTITUTION CAPACITY BUILDING GRANTS

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Each applicant must provide assurances specified in the solicitation of applications and a letter from one or more of USDA's agencies that has agreed to cooperate in the undertaking.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

All proposals/solicitations are published in the Federal Register. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Formal proposals should be submitted to the Awards Management Division, OGPS, CSRS, as outlined in the solicitation of applications. Application procedures are contained in the program regulations and required forms are contained in the Grant Application Kit. This program is subject to the regulatory provisions of USDA's, 7 CFR Part 3015, et seq., and all successor regulations.

Deadlines:

All deadlines are announced in the Federal Register. Deadline for submission of fiscal year 1990 proposals was May 29, 1990.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, 130 applications were received and 29 awards were granted.

10.217 HIGHER EDUCATION CHALLENGE GRANTS

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Each first-time recipient must furnish organizational management information requested by the funding agency, and each applicant must provide assurances specified in the annual solicitation of applications.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

All proposals/solicitations are published in the Federal Register. This program is excluded from coverage under E.O. 12372.

Application Procedure:

10.410 VERY LOW AND LOW INCOME HOUSING LOANS

OBJECTIVES:

To assist lower-income rural families to buy, build, rehabilitate, or improve decent, safe, and sanitary dwellings and related facilities for use by the applicant as a permanent residence. Subsidized funds are available only for low and very low-income applicants. Nonsubsidized funds are available to low-and very low-income borrowers who do not qualify for interest credit assistance and to moderate-income borrowers only for: 1) Subsequent loans for repair and rehabilitation; and 2) subsequent loans for the payment of equity, in connection with transfers by assumption or credit sales.

USES AND USE RESTRICTIONS:

The loans may be used for construction, repair or purchase of housing; to provide adequate sewage disposal facilities and/or safe water supply for the applicant's household; for weatherization; to purchase or install essential equipment if the equipment is normally sold with dwellings in the area; to buy a minimum adequate site on which to place a dwelling for the applicant's own use; and under certain conditions to finance a manufactured home and its site. Housing debts may under certain circumstances be refinanced. Dwellings financed must be modest in size, design and cost and located in a place that is rural in character and does not exceed 10,000 population or in a place whose population exceeds 10,000 but is not in excess of 20,000, provided the place is not in a Metropolitan Statistical Area (MSA) and has a serious lack of mortgage credit for low- and moderate-income families as determined by the Secretary of Agriculture and the Secretary of Housing and Urban Development. Assistance is available in the States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Northern Marianas, and the Trust Territories of the Pacific Islands. Loans are made at the interest rate(s) specified in FmHA Instruction 440.1, Exhibit B (available in any FmHA county office) for the type of assistance involved, and are repaid over an amortization period of up to 33 years for regular loans and 38 years for loans to applicants whose adjusted annual income do not exceed 60 percent of the area median income, if necessary to show repayment ability. Interest credits are granted annually which reduce the effective interest rate to as low as one percent, depending on the loan amount, the size and income of the family. Interest credit is subject to recapture by the government upon liquidation of the account.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Applicants must be without adequate resources to obtain housing, or related facilities. The applicants must be unable to secure the necessary credit from other sources at prevailing terms and conditions for residential type financing; be a natural person (individual) who resides as a citizen in the United States or its territories after having been legally admitted for permanent residence or on indefinite parole; have adequate and dependable available income to meet family living expenses, including taxes, insurance and maintenance, and repayments on debts including the proposed loan. Applicants must be eligible for interest credit and income may not exceed the low-income limits set forth in FmHA Instructions. Low-income limits, based on 80 percent of an area's median income, range from $11,500 to $18,000, except in the high cost area of Alaska where the range is from $24,000 to $27,000. The income limits are according to the size of household as is established by the Department of Housing and Urban Development (HUD) for the county or MSA where the property is or will be located.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Applicants must file loan applications at the FmHA county office serving the county where the dwelling is or will be located. This program is excluded from coverage under OMB Circular No. A-110.

Range of Approval/Disapproval Time:

From 30 to 60 days subject to availability of funds, from the time the application is filed if no backlog of applications exists.

Appeals:

Applicants may request reconsideration at the local FmHA county office or may appeal adverse actions on loan application to the National appeals staff in accordance with FmHA appeal procedure. Appeals may be filed within 30 days after notification of the adverse decision is received by the loan applicant.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

This assistance is available throughout the year by means of quarterly allocations of funds to county offices. Funds may be disbursed at loan closing or deposited in a supervised bank account for purchase of a building site, and purchase or repair of a dwelling, or in multiple advances for construction.

10.850 RURAL ELECTRIFICATION LOANS AND LOAN GUARANTEES

RELATED PROGRAMS:

10.854, Rural Economic Development Loans and Grants.

10.851 RURAL TELEPHONE LOANS AND LOAN GUARANTEES

USES AND USE RESTRICTIONS:

Long-term insured loans to qualified organizations for the purpose of financing the improvement, expansion, construction, acquisition, and operation of telephone lines, facilities, or systems to furnish and improve telephone service in rural areas. REA also guarantees private sector loans for the same purpose. "Rural area" is defined as any area of the United States, its territories and possessions not included within the boundaries of any city, village, or borough having a population in excess of 1,500 inhabitants. Rural areas include both farm and nonfarm populations.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application is submitted on REA Form 490, Application for Telephone Loan or Loan Guarantee. Detailed information on applying for an REA telephone loan or loan guarantee is in 7 CFR 1749, available from REA upon request. This program is excluded from coverage under OMB Circular No. A-110.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Insured loans are generally made for 35 years. Provision is normally made for advances to be completed within 5 years, but this period is subject to extension if required. Advances of funds are made as required by the borrower. The terms and conditions of guaranteed loans are negotiated between the borrower and the non-REA lender, subject to REA approval.

RELATED PROGRAMS:

10.852, Rural Telephone Bank Loans; 10.854, Rural Economic Development Loans and Grants.

In fiscal year 1990, 13 projects were approved for planning. A total of 540 projects were at the construction stage. Projects with construction completed under the program totaled 712.

EXAMPLES OF FUNDED PROJECTS:

To date, Federal assistance for installation has been authorized on 1,496 watershed projects. This program provides technical and financial assistance to State agencies and units of local government in solving problems caused by flooding, erosion and sediment damage, conservation, development, utilization, and disposal of water, including the development of multipurpose facilities for such uses as recreation, improvement of fish and wild-life habitat, irrigation, and water supply to municipal and industrial users.

10.905 PLANT MATERIALS FOR CONSERVATION

PROGRAM ACCOMPLISHMENTS:

Over 300 cultivars of grasses, legumes, forbs, shrubs, and trees have been developed and released for commercial increase through this program. Uses include erosion control and sediment reduction, roadside and stream bank protection, surface-mined land reclamation, and wildlife food and cover. The annual commercial production of SCS released grasses, legumes and woody plants by commercial seed growers and nurserymen is equivalent to the amount required to establish vegetative cover on over 2,000,000 acres of land.

10.906 RIVER BASIN SURVEYS AND INVESTIGATIONS

PROGRAM ACCOMPLISHMENTS:

USDA has cooperated with local, State, and concerned Federal agencies in the preparation and updating of State water resource plans and other water, land, and related studies. The USDA helps States coordinate upstream and downstream elements of water, land, and related resource planning activities. Between 1961 and 1990, the Department has participated in 372 cooperative surveys and has completed 305. Floodplain management studies under which technical assistance is provided to local governments in implementing their floodplain management programs is underway in 38 States. SCS has participated in 571 floodplain management studies between 1968 and 1990, of which 495 have been completed.

EXAMPLES OF FUNDED PROJECTS:

1) Arizona water resources study to evaluate opportunities to increase water yield on public lands. The State of Arizona will evaluate the alternatives and adopt one as their implementation program; 2) Connecticut floodplain management study to identify flood problems in fine rural upstream communities and to prepare resource plan evaluating alternatives to reduce flooding. The local government will adopt the most applicable alternative as their locally implemented resource plan.

11.106 ANTIDUMPING DUTIES

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Any interested party who has information that merchandise is being, or is likely to be, imported into the United States under such circumstances as to bring it within the purview of the Tariff Act of 1930 as amended, may on behalf of the industry in the United States which produces like merchandise, communicate such information to the Import Administration, International Trade Administration, U.S. Department of Commerce.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Within 20 days of receipt of a proper petition, an investigation is initiated by the Department of Commerce, and a notice is published in the Federal Register. Within 45 days, the International Trade Commission (ITC) must determine whether there is a reasonable indication of injury to the domestic industry. If sales are found to have been made at less than fair value, the Secretary of Commerce issues a determination to that effect. The case is then sent back to the International Trade Commission (ITC) for a final determination as to whether or not the dumped imports are causing, or are likely to cause, material injury to the industry in the United States. If the ITC determination is affirmative, the Secretary of Commerce issues an anti-dumping duty order and special dumping duties are assessed against that merchandise which is being sold in the United States at less than fair value.

Deadlines:

A preliminary determination normally must be published by the Department of Commerce 160 to 210 days (depending on the complexity of the case) from the date of receipt of the petition. A final determination will be due 75 or 135 days as appropriate after the preliminary determination. Pursuant to the statute, the International Trade Commission investigation must be completed within 45 days after the determination of sales at less than fair value.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

A finding of dumping may be revoked after three years if it can be shown that no sales at less than fair value have taken place or after five years if no interested parties requested that the duties be updated over that five-year period.

FINANCIAL INFORMATION:

Obligations:

(Operations and administration) FY 89 $12,402,620; FY 90 est $13,466,007; and FY 91 est $15,514,109.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 80 antidumping investigations were initiated. In fiscal year 1990 it is estimated that 70 antidumping investigations will be initiated. In fiscal year 1991, it is estimated that 80 antidumping investigations will be initiated.

11.107 COUNTERVAILING DUTY ON IMPORTS

OBJECTIVES:

To protect U.S. industry from unfair import competition resulting from unfair subsidies bestowed by foreign governments.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Any interested party who has information that merchandise is being, or is likely to be, imported into the United States under such circumstances as to bring it within the purview of the Tariff Act of 1930 as amended, may, on behalf of the industry in the United States which produces like merchandise, communicate such information to the Import Administration, International Trade Administration, U.S. Department of Commerce.

Credentials/Documentation:

Communications must contain: The names and addresses of the petitioning industry; the names and addresses of all known foreign firms believed to be exporting subsidized products to the U.S.; a full statement of the reasons for the belief; a detailed description or sample of the merchandise; all pertinent facts obtainable concerning the subsidy being paid or bestowed in connection with such merchandise; and, where required, information indicating that an industry in the U.S. is being injured by the allegedly subsidized imports.

APPLICATION AND AWARD PROCESS:

Deadlines:

A preliminary determination normally must be published within 85 or 150 days of receipt (depending on the complexity of the case) of the petition and final determination in general within 75 days from the date of the preliminary determination.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

A countervailing duty finding may be revoked after three years of no subsidy by the foreign government or five years of non-application if no interested parties requested that the duties be updated over that five year period.

FINANCIAL INFORMATION:

Obligations:

(Operations and administration) FY 89 $6,200,380; FY 90 est $6,731,993; and FY 91 est $7,755,891.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, 30 investigations were initiated. In fiscal year 1990, 30 investigations were initiated, and in fiscal year 1991, it is estimated that 35 investigations will be initiated.

11.108 EXPORT PROMOTION SERVICES

USES AND USE RESTRICTIONS:

Services include: 1) Export awareness counseling and publications designed to stimulate U.S. business to initiate and increase export activities; 2) information on overseas trade opportunities; 3) guidance to U.S. business on the use of market identification, market assessment, and contact information; 4) non-financial assistance in display and sales promotion (trade and industrial exhibits, export development offices, trade missions and delegations, catalog and video-catalog shows, and product promotions through catalog-magazine listings); 5) support to State and private sector organizers of selected domestic and overseas trade fairs and missions through foreign buyer shows, certified trade fairs and State/industry organized Government approved missions; 6) information on trade statistics, foreign tariffs, customs regulations and procedures, market potential in individual countries, and other related activities; and 7) advice and counseling on foreign trade and individual overseas markets.

PROGRAM ACCOMPLISHMENTS:

11.111 FOREIGN-TRADE ZONES IN THE UNITED STATES

USES AND USE RESTRICTIONS:

Zone procedures help firms reduce business and production costs on imports. The procedures are available at facilities designated as foreign trade zones and subzones under the sponsorship of local public and quasi-public corporations.

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Foreign Trade Zone's (FTZ) are required to operate like public utilities, providing access to zone procedures on a nondiscriminatory basis to businesses and manufactuers. Zone procedures are available at any of the operating FTZ's, subject to customs requirements, a review process to determine that manufacturing activity is in the public interest, and the specific requirements of the local zone project.

Credentials/Documentation:

Applications contain: A cover letter detailing corporation's eligibility to apply; type of authority requested; a site and facility description; project background; the need for a zone; the relationship of the zone project to the overall community economic development plans; and how the project will be operated and financed. When manufacturing activity is involved, the application must also contain information on the activity, including products and components, tariff rates, benefits to the operator, and public benefits (e.g., employment retention/creation).

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Draft applications are recommended. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Applications for zone authority are submitted by eligible applicants and investigated under the regulations of the FTZ Board. The Board (Secretaries of Commerce (Chairman), Treasury and Army) can approve or deny the application, or approve it with restrictions. Applications are processed for the Board by the FTZ Staff/Import Administration/International Trade Administration, U.S. Department of Commerce.

Award Procedure:

Upon filing of an application, after a prefiling review, an examiners committee is appointed to investigate the proposal and make recommendations. Hearings are held in cases of new zones and public comments invited in all cases. When the Foreign-Trade Zones Board makes a decision an order is issued and published in the Federal Register.

Appeals:

A negative decision can be appealed by reapplication to the FTZ Board when warranted by evidence and circumstance.

POST ASSISTANCE REQUIREMENTS:

Reports:

Annual reports on zone operations are submitted by grantees.

FINANCIAL INFORMATION:

Obligations:

(Operations and administration) FY 89 $440,550; FY 90 est $469,673; and FY 91 est $552,156.

PROGRAM ACCOMPLISHMENTS:

The Board issues approximately 60 formal orders a year covering zones, subzones, and expansion applications.

REGULATIONS, GUIDELINES, AND LITERATURE:

Commerce Regulations, 15 CFR, Part 400 (15 CFR 400).

14.119 MORTGAGE INSURANCE—HOMES FOR DISASTER VICTIMS

USES AND USE RESTRICTIONS:

HUD insures lenders against loss on mortgage loans. These loans may be used to finance the purchase or reconstruction of a one-family home that will be the principal residence of a borrower that is a victim of a major disaster. The maximum insurable loan for such an occupant mortgagor is the same as prescribed for Section 203(b) (14.117). Disaster victims are not required to meet the 3 percent minimum investment requirements. In order to qualify for assistance, the formerly occupied home must have been in an area designated by the President as a disaster area, and it must have been destroyed or damaged to such an extent that reconstruction or replacement is necessary.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Anyone that is a victim of a major disaster as designated by the President is eligible to apply.

Beneficiary Eligibility:

Families or individuals that are victims of a major disaster as designated by the President.

APPLICATION AND AWARD PROCESS:

Application Procedure:

An FHA-approved lender submits the application for review and approval or disapproval to the local HUD Field Office. This program is excluded from coverage under OMB Circular Nos. A-102 and A-110.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The maximum amount of the loan is 100 percent of the HUD estimated value. No downpayment is required. A one-time mortgage insurance premium must be paid at closing and may be financed by adding it to the loan amount. The origination charge by the mortgagee varies, but may not normally exceed one percent of the total mortgage. Mortgagors may be charged appraisal and inspection fees in accordance with fee schedules established by HUD.

14.123 MORTGAGE INSURANCE—HOUSING IN OLDER, DECLINING AREAS

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Mortgages for housing eligible under the special program may be insured under any one of several HUD programs. The maximum amount of the loan, the downpayment, and other mortgage terms vary according to the HUD program under which the mortgage is insured. The mortgage insurance premium is one-half percent per year on the outstanding loan balance. Fees are established under the applicable HUD program. This program has maintenance of effort (MOE) requirements; see funding agency for further details.

POST ASSISTANCE REQUIREMENTS:

Reports:

Defaults in meeting the mortgage terms must be reported. All approved lenders at any time upon request by HUD, must furnish a copy of their latest financial statement.

Audits:

The Department of Housing and Urban Development reserves the right to audit the account of the lender to determine its compliance and conformance with HUD regulations and standards.

14.151 SUPPLEMENTAL LOAN INSURANCE—MULTIFAMILY RENTAL HOUSING

USES AND USE RESTRICTIONS:

HUD insures lenders against loss on loans made either (1) to finance additions and improvements of multifamily housing projects, nursing homes, hospitals and group practice facilities already subject to HUD/FHA insured mortgages or mortgages held by HUD, or (2) to finance energy conservation improvements. The proceeds of a loan involving an insured nursing home, hospital or a group practice facility may also be used to purchase equipment to be used in the operation of such nursing home or facility. The maximum insurable loan for an insured project is an amount which, when added to the outstanding balance of the existing insured mortgage, does not exceed the amount insurable under the program pursuant to which the mortgage covering such project or facility is insured. Where the project is covered by a mortgage held by the Secretary the principal amount of the loan shall be in an amount acceptable to the Secretary. Congress expanded the Section 241 program in 1987 to provide equity loan insurance for projects insured under the Section 236 and 221(d)(3) BMIR programs.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1990 (through 8/31/90), 8 projects with 2,227 beds were insured for a value of $396,974,600. Cumulatively through August 31, 1990, 168 projects with 28,177 beds were insured for a value of $689,292,475.

Director, Title I Insurance Division, Department of Housing and Urban Development, Washington, DC 20410. Telephone: (202) 708-2680.

14.163 MORTGAGE INSURANCE—SINGLE FAMILY COOPERATIVE HOUSING

OBJECTIVES:

To provide insured financing for the purchase of the Corporate Certificate and Occupancy Certificate for a unit in a cooperative housing project. Ownership of the corporate certificate carries the right to occupy the unit located within the cooperative project.

USES AND USE RESTRICTIONS:

HUD insures lenders against loss on mortgage loans. These insured loans may be used to assist individuals or families in acquiring corporate certificates and occupancy certificates in a cooperative housing project that either is covered by a blanket mortgage insured under the National Housing Act or has been completed more than one year as of the date of application. The maximum insurable mortgage loan is limited to the maximum limit under Section 203(b) minus the portion of the unpaid balance of the project mortgage attributable to the dwelling unit.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

For most families, the maximum potential amount of the mortgage loan is 97 percent of the first $25,000 of estimated value plus 95 percent of the remainder, plus closing costs. If the estimated value plus closing costs is $50,000 or less, the maximum potential amount of the loan is 97 percent; the unit's share of the project mortgage is deducted from the maximum potential amount to determine the maximum Section 203(n) loan. The one-time mortgage insurance premium is required at the time of loan origination. The origination charge by the mortgagee varies, but may not normally exceed one percent of the total mortgage amount.

Length and Time Phasing of Assistance:

The maximum mortgage term is 30 years or the remaining term of the blanket mortgage covering the cooperative development, whichever is less.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1990 (through 8/31/90), 8 projects with 1,710 units were insured for a value of $9,285,600. Cumulatively through August 31, 1990, 100 operating loss loans covering 19,517 units were insured for a value of $47,885,936.

INFORMATION CONTACTS:

Headquarters Office:

Office of Insured Multifamily Housing Development, Insurance Division Housing, Telephone: (202) 755-1223. Director, Office of Multifamily Housing Management, Department of Housing and Urban Development, Washington, DC 20410. Telephone: (202) 708-3730.

14.168 LAND SALES—CERTAIN SUBDIVIDED LAND

USES AND USE RESTRICTIONS:

Developers that sell, or lease, or offer to sell or lease, land divided into 100 or more nonexempt lots, using any means or instruments of transportation or communication in interstate commerce or the mails must register with the Department of Housing and Urban Development and must provide all purchasers with a copy of a Property Report which sets forth salient facts about the development and the developer. Failure to provide a Property Report prior to the purchaser signing a purchase agreement subjects the developer to statutory and regulatory penalties. Anti-fraud provisions of the Act are applicable to subdivisions of 25 lots or more. Failure to comply with the anti-fraud provisions subjects developers to civil and criminal penalties. The Act also provides for statutory and regulatory exemption from full disclosure where a subdivision meets strict eligibility requirements. Other consumer protection provisions include a seven day cooling-off period and required contractual provisions.

APPLICATION AND AWARD PROCESS:

Appeals:

Any developer receiving a deficiency notice, notice of proceeding, suspension order, notice of exemption eligibility termination or notice of civil money penalties may request a formal hearing.

PROGRAM ACCOMPLISHMENTS:

Approximately 1,900 filings of initial, consolidated, and amended registration statements, exemption advisory opinion, requests and other exemption filings were received and processed in fiscal year 1989. Approximately 10,000 consumer complaints, inquiries and developer responses are handled each year.

14.169 HOUSING COUNSELING ASSISTANCE PROGRAM

TYPES OF ASSISTANCE:

Project Grants.

USES AND USE RESTRICTIONS:

To provide housing counseling grants to HUD-approved counseling agencies. Grants provide housing counseling services for single family home buying, homeownership, mortgage default, and rental delinquency under HUD, VA and conventional housing and mortgage programs.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

An applicant for a housing counseling grant must 1. Be a HUD-approved housing counseling agency; 2. Submit an application for a counseling grant to the HUD Regional Office; and 3. Obtain a comparatively high score on the application to be selected by the HUD Regional Office for a housing counseling grant. Applications for housing counseling grants are sent only to the HUD-approved housing counseling agencies by the HUD Regional Offices.

Credentials/Documentation:

To become a HUD-approved housing counseling agency, applicant must 1. Meet the requirements of the Housing Counseling Handbook 7610.1 Rev 2; 2. Contact the HUD Field Office and confer on the eligibility requirements for becoming HUD-approved; and 3. Obtain an application to become HUD-approved and complete and return it to the HUD Field Office, which approves or disapproves the application. This program is excluded from coverage under OMB Circular No. A-87.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The HUD Regional Offices will obtain a list of HUD-approved housing counseling agencies from the HUD Field Offices, and will forward applications for housing counseling grants to the HUD-approved housing counseling agencies. HUD-approved housing counseling agencies must meet the requirements contained in the application for a housing counseling grant; 1. The application must reach the HUD Regional Office on or prior to the final date for receipt of applications; 2. The applicant must have an ongoing housing counseling program; and 3. The applicant must be capable of starting counseling on the effective date of the grant award. The standard application forms as furnished by HUD and required by OMB Circular No. A-102 must be used for this program. This program is exempt from E.O. 12372, "Intergovernmental Review of Federal Programs". Because agencies approved by HUD are nonprofit or public organizations, the housing counseling application process for grants is exempt from State review.

Application Procedure:

The applications for housing counseling grants will be reviewed and scored by the HUD Regional Offices. They will select the applicants for grant awards based on high score and other criteria, and determine the grant amounts subject to Headquarters approval. This program is subject to the provisions of OMB Circular No. A-110. The standard applications forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. The applicants compete for housing counseling grants within the Region, and not all applicants receive housing counseling grants.

Award Procedure:

Grants are awarded by the HUD Regional Offices subject to Headquarters approval. Grant agreements are issued by the HUD Regional Offices to the successful applicants.

Deadlines:

Due date for the receipt of applications for housing counseling grants are set by each HUD Regional Office and are specified in the application.

Range of Approval/Disapproval Time:

Housing counseling grants must be awarded on or prior to the end of the fiscal year.

Appeals:

Applicants for housing counseling grants may appeal their denial of a grant award or the insufficiency of the grant amount to the Regional Contracting Officer in HUD Regional Office. Applicants may also appeal their denial of an application for a housing counseling grant.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

This program has no statutory formula. Grantees need to obtain funding from other resources, as HUD funding can only partially support the costs of housing counseling activities of the grantees. This program has no matching requirements.

POST ASSISTANCE REQUIREMENTS:

Audits:

A performance review once every two years is required and made by HUD Field Office. No other audits required, but may be performed by Regional Office or Headquarters, HUD Office of Inspector General or General Accounting Office.

Records:

As required in grant document and Housing Counseling Handbook, HUD 7610.1 REV 2.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

Maximum grant for an agency certified by HUD for three or more years is increased from $40,000 to 50 percent of the total allocation of housing counseling funds to the Region. Maximum grant for an agency certified by HUD for less than three years is $20,000.

REGULATIONS, GUIDELINES, AND LITERATURE:

Housing counseling regulations are being prepared and the Housing Counseling Handbook 7610.1 Rev 2 is being processed for approvals.

14.179 NEHEMIAH HOUSING OPPORTUNITY GRANT PROGRAM

APPLICATION AND AWARD PROCESS:

Award Procedure:

Nonprofit organizations will be selected in a funding competition using threshold and ranking criteria. The ranking criteria are: (1) the extent to which public or private entities will contribute the land necessary to make the program feasible; (2) the extent to which financial and other contributions will reduce the cost to families purchasing homes; (3) the degree to which each proposal will produce the maximum number of homes for the least amount of assistance; (4) the degree of physical and economic blight in the neighborhood; (5) the degree to which innovative construction methods reduce the cost of the dwelling below the average cost in the area; and (6) the extent to which the program involves local resident involvement. Through a competitive review and selection process, the Nehemiah Housing Opportunity Grants are awarded to eligible nonprofit organizations. The Office of Insured Single Family Housing will receive and review the applications and select eligible nonprofit organizations with the final selections made by the Assistant Secretary of Housing. All nonprofit corporations will be notified of the approval or disapproval of their applications. All approved nonprofit corporations will be required to sign a grant agreement stipulating the amount of the grant and the distribution procedure.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/ STATE'S PROGRAM

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

(1) Allocations to States are based on a dual formula under Section 106 of the Act (24 CFR 570, Subpart B) using statistical factors. Allocations for each State based on an amount equaling the greater of the amounts calculated under two formulas. The factors involved in the first formula are population, extent of poverty and extent of overcrowding, weighted 0.25, 0.50, and 0.25, respectively. The factors involved in the second formula are population, poverty, and age of housing, weighted 0.20, 0.30, and 0.50, respectively. The statistical factors used for fund allocation are (1) total resident population for all places in nation from the Census Bureau's P-25 report series; (2) number of persons with incomes below the poverty level from the source 1980 Census; (3) number of housing units with 1.01 or more persons per room from the source 1980 Census; (4) age of housing; number of year-round housing units built in 1939 or earlier from the source 1980 Census. The statistical factors for each State have been reduced to reflect only the non-entitled area; that is, the State area excluding metropolitan cities and urban counties. Address questions concerning the formula to John Nagoski, Division of Data Systems and Statistics, Office of Management, Community Planning and Development, 451 7th Street, SW, Washington, DC 20410. Telephone: (202) 708-0790. (The amount of nonentitlement funds allocated to a State is not affected by whether the State or HUD administers the fund in that State.)

15.904 HISTORIC PRESERVATION FUND GRANTS-IN-AID

AUTHORIZATION:

National Historic Preservation Act of 1966, as amended, 16 U.S.C. 470 et seq, 16 U.S.C. 470.

USES AND USE RESTRICTIONS:

Matching grants can directly finance State staff salaries, equipment, and materials, and travel necessary to accomplish program purposes. States may transfer funds to third parties for architectural plans and specifications, historic structures reports, and engineering studies necessary to restore properties listed on the National Register of Historic Places, and at their discretion, for limited acquisition or development of these properties. Projects must comprise one or more of the seven allowable treatments defined in the Secretary of the Interior's "Standards for Historic Preservation Projects" (36 CFR 78). These treatments are acquisition, protection stabilization, preservation, restoration, rehabilitation, and reconstruction. Major reconstruction is not eligible. In fiscal year 1990, $500,000 was earmarked as direct grants for Indian Tribal preservation. In 1990, $600,000 from the President's Unanticipated Needs for Natural Disaster Account was made available to California, Puerto Rico, South Carolina and the U.S. Virgin Islands for damage to historic resources resulting from the Loma Prieta earthquake and Hurricane Hugo.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Eligible applicants are the National Trust for Historic Preservation and States and Territories as defined in the National Historic Preservation Act operating programs administered by a State Historic Preservation Officer appointed by the Governor or according to State law and which are otherwise in compliance with the requirements of the Act. According to their own priorities and plans, States and the National Trust may subgrant to public and private parties, including local governments, federally recognized Indian tribal governments, nonprofit and for-profit organizations, and/or individuals to accomplish program objectives. At least ten percent of each year's appropriation is reserved for subgrants to local government certified eligible to carry out preservation functions according to 36 CFR 61.

Beneficiary Eligibility:

Subrecipients eligible are State and local governments, public and private nonprofit organizations, and individuals.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Fifty percent State (public and/or private funds and/or allowable in-kind donations) 50 percent Federal, except for State and local historic resource survey and inventory activities for which the Federal share is 70 percent. American Samoa, Guam, Commonwealth of Northern Mariana Islands, Federated States of Micronesia, Republic of Palau, Republic of Marshall Islands and Virgin Islands are exempt from matching shares per Public Law 96-205.

POST ASSISTANCE REQUIREMENTS:

Records:

PROGRAM ACCOMPLISHMENTS:

The Historic American Buildings Survey (HABS) and Historic American Engineering Record (HAER) archives are the largest collections of their kind in the world. They contain 47,183 measured drawings, 132,000 photographs, and 78,000 pages of written data for over 25,000 buildings and structures. In fiscal year 1988, documentation on 960 buildings and structures was added to the archival collections at the Library of Congress. All of this material is reproducible and copyright free by application to the Prints and Photographs Division, Library of Congress. In fiscal 1989, over 400 buildings and structures were included in the collections. It is estimated that a similar number of structures will be recorded in succeeding years.

15.910 NATIONAL NATURAL LANDMARKS PROGRAM

USES AND USE RESTRICTIONS:

Information on designated and potential natural landmarks is made available to Federal agencies, State and local governments, private organizations, and individuals on request to assist in land use planning and decision making. No financial assistance accompanies designation of an area as a natural landmark. NPS may withhold location information on specific landmarks because of owner request and/or the fragility of the resources.

APPLICATION AND AWARD PROCESS:

Award Procedure:

The National Park Service conducts natural region studies to identify potential natural landmarks. For sites where landowners have indicated their consent to having their property so considered, follow-up-onsite evaluation studies of potential landmarks are made by expert natural scientists. Sites that appear to qualify as natural landmarks are nominated to the Secretary of the Interior by the Director of the National Park Service for designation. Owners of designated sites are eligible to receive a bronze plaque and a certificate when they make a voluntary commitment to preserve the landmark's nationally significant features.

16.581 DRUG LAW ENFORCEMENT PROGRAM—PRISON CAPACITY

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $0; FY 90 est $124,849; and FY 91 est $0. (Funds were available in FY 89 for prison capacity program under 16.574.)

PROGRAM ACCOMPLISHMENTS:

Prison Capacity: A technical assistance grant and 14 direct grants were made in fiscal years 1988 and 1989, to continue support for the 14 States which were funded in fiscal year 1987, to pursue a five step, eleven topic approach to resolving capacity problems. Although they are at different points in program execution, participating States as a group have been able to expand capacity at a rate of 16.41 percent, as compared with population growth at a rate of 13.89 percent. This has been accomplished through sentencing reforms, administrative changes and new legislation. A program brief defining the elements of a successful program is in preparation and should guide the addition of six new States in fiscal years 1990 and 1991.

16.582 CRIME VICTIM ASSISTANCE/DISCRETIONARY GRANTS

OBJECTIVES:

One percent of first $100 million and 5 percent of the amount above $110 million deposited into the Crime Victims Fund is statutorily reserved by the Office for Victims of Crime for grants to provide (a) training and technical assistance services to eligible crime victims assistance programs; and (2) for the financial support of services to victims of Federal crime by eligible crime victim assistance programs, 42 U.S.C. Section 10603. The purpose of the training and technical assistance grants is to improve the overall quality of services delivered to crime victims through the provision of training and technical assistance to providers. Additionally, the funds are designed to improve the Federal and State response to victims of Federal crime.

USES AND USE RESTRICTIONS:

Funds are available specifically for (a) training and technical assistance service to eligible crime victim assistance programs; and (b) for the financial support of services to victims of Federal crime by eligible crime victim assistance programs. For the purpose of these grants an eligible crime victim assistance program is defined as: (a) operated by a public agency or a nonprofit organization, or a combination of such agencies or organizations or both such agencies and organizations, and providing service to victims of crime; (b) demonstrating (i) a record of providing effective services to victims of crime and financial support from sources other than the Fund; or (ii) substantial financial support from sources other than the Fund; (c) utilizing volunteers in providing such services, unless to the extent the chief executive determines that compelling reasons exist to waive this requirement; (d) promoting within the community served coordinated public and private efforts to the crime victims; and (e) assisting potential recipients in seeking crime victim compensation benefits. For the purpose of these grants, services to victims of Federal crimes means: services to victims of crime with respect to Federal crime, and includes (a) training of law enforcement personnel in the delivery of services to victims of Federal crime; (b) preparation, publication, and distribution of informational materials (i) setting forth services offered to victims of crime; and concerning services to victims of Federal crime for use by Federal law enforcement and other responsible Federal officials; and (c) salaries of personnel who provide services to victims of crime, to the extent that these personnel provide such services.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Applications from the designated State agency for this program must be on Standard Form 424 at a time specified by the Office for Victims of Crime, Office of Justice Programs and must contain the following certification and assurances: (1) that funds awarded to eligible crime victim assistance programs will not be utilized to supplant State and/or local funds that would otherwise be available for crime victim assistance; (2) assure that the State will provide such accounting, auditing, monitoring and evaluation procedures as may be necessary, and keep such records as the Office of Justice Programs may prescribe, to assure fiscal control, proper management and efficient disbursement of Federal funds; (3) certify that the State shall give priority to programs aiding victims of sexual assault, spousal abuse, or child abuse; (4) assure that the States will submit to the Office of Justice Programs a semiannual performance report such data and information as required; (5) assure that the State will adhere to the audit and financial management requirements set forth in the effective edition of M7100.1, "Financial and Administrative Guide for Grants;" (6) assure that the State will comply with all applicable nondiscrimination requirements; and (7) certify that the State will comply with all Drug-Free Workplace Requirements (OJP Form 4061/3); (8) State must supply OJP form 4061/2 providing certification regarding delinquent, suspension and other responsibility matters; (9) assures that the State will comply with Section 319 of Public Law 101-121 as provided for in the "Government Guidance for New Restrictions on Lobbying, Interim Final Guidance," published in the December 20, 1989, "Federal Register"; and, (10) certify that the information in the application is correct and that the State will comply with all applicable provisions of the Victims of Crime Act and other Federal laws, regulations, and circulars. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. Applicants from other types of agencies will use forms to be provided by OVC.

17.207 EMPLOYMENT SERVICE

USES AND USE RESTRICTIONS:

The Wagner-Peyser Act of 1933 established a Federal-State Employment Service consisting of a nationwide network of public employment offices. The United States Employment Service, through grant agreements with the States, supports the system to serve persons seeking or needing employment and employers seeking workers. This public employment service system focuses on providing job finding and placement services to job seekers and recruitment services to employers with job vacancies. Veterans receive priority referral to jobs as well as special employment services and assistance. Handicapped workers are also entitled to special employment services. Also available may be job search training or assistance, job counseling and testing services to job seekers, as planned by each State. The services offered to employers, in addition to referral of applicants to job openings, include matching job requirements with worker skills and assistance in job modification to help fill hard-to-fill openings. The Employment Service system may provide specialized services such as the following: 1) Services to special applicant groups such as veterans, migrant and seasonal farmworkers, ex-offenders, handicapped job seekers, disadvantaged job seekers, youth, minorities and older workers. This may include special emphasis on job counseling and referral of such workers to services which help overcome barriers to employment which are unrelated to job performance. 2) A nationwide computerized interstate job listing of hard-to-fill employer openings distributed to all Employment Service local offices. 3) The development and distribution of State and local labor market information which allow job seekers, employers, and providers and planners of job training and economic development, to obtain information pertaining to job opportunities, labor supply, labor market trends, the job market situation in particular industries.

POST ASSISTANCE REQUIREMENTS:

EXAMPLES OF FUNDED PROJECTS:

The Employment and Training Administration awards grants to 43 States, the District of Columbia, Puerto Rico, Palau, the Northern Mariana Islands, American Samoa, Guam and Virgin Islands along with nine national organizations and the U.S. Forest Service. A variety of organizational arrangements are used to administer the SCSEP projects. Most of the sponsors have contractual relationships and agreements with local service organizations. In many cases the SCSEP program is operated by a unit within the State aging agency and within sub-State areas by area agencies on aging. Some of the national sponsoring organizations administer the SCSEP local projects directly through their affiliates while other subgrant funds to local agencies. Each local project is required to coordinate its activities with local Job Training Partnership Act (JTPA) Projects, the State employment service, and the State Office of the Aging. All of the projects operated under the auspices of the Senior Community Service Employment Program are basically the same in that services are provided through host agencies to the community at large or to the elderly community. Some of the activities have included transportation for the elderly, housing programs that have included winterization as well as weatherization, serving the community as librarians, teachers aides, nutritional aides, etc. Transition to unsubsidized employment of participants is another aspect of the SCSEP.

17.700 WOMEN'S SPECIAL EMPLOYMENT ASSISTANCE

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1990, the Women's Bureau continued to address issues and concerns of working women in a changing economy. Through its regions, the Women's Bureau is assisting State welfare reform programs funded under the Family Support Act by analyzing the design of these programs to incorporate a holistic approach to meeting women's transition needs. Work and Family Projects -- The Women's Bureau continues to assist employers through the Work and Family Clearinghouse to seek ways to help employees balance work and family responsibilities. Data bases include dependent care, alternative work schedules, flexible benefit plans, and employer model programs illustrating work force quality. The Clearinghouse referral network including State resources continues to be expanded. The Bureau continues to work with the Displaced Homemakers Network to train displaced homemaker service providers through the new State Technical Assistance and Training Effort (STATE) Program. Work Force 2000 -- the Women's Bureau continues its monthly forums throughout the regions on various Work Force 2000 issues such as the contingent work force; Work Force 2000 cities already experiencing labor shortages; and attracting girls and women to nontraditional careers in math and science, aerospace, and the skilled trades. International Program -- The Bureau director continues in her role as U.S. delegate to the Organization for Economic Cooperation and Development's Manpower and Social Affairs Committee's Working Party on the Role of Women in the Economy. Other international initiatives include the OAS, ILO the UN Commission on the Status of Women, and an ongoing international visitors program. Data unavailable for fiscal year 1991.

EXAMPLES OF FUNDED PROJECTS:

Four types of inspection programs are funded - one for track safety standards, one for freight car locomotion safety standards, one for signal and train control standards and one for operating practices standards. States may apply for one program or for all. At present in fiscal year 1990, no Federal funds are available, but there are 31 States in track, 16 in freight car, and nine in operating practices, and three in signal and train control. Of the 31 States aboard: there are in all four saety disciplines, six are in three safety disciplines (track, freight car and operating practices), seven are in both track and freight car.

20.308 LOCAL RAIL SERVICE ASSISTANCE

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $3,035,000; FY 90 est $7,152,000; and FY 91 $0.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 7 applications for rail assistance were submitted and approved in the amount of $627,255. In fiscal year 1990, 22 planning applications totaling $789,624 have been approved and 25 project applications totaling $6,362,376 have been approved. Data unavailable for fiscal year 1991.

CRITERIA FOR SELECTING PROPOSALS:

The local rail freight assistance program is an entitlement program that allocates a specific funding level to each State based on the State's eligible mileage. The order of priority for projects is established by each State in their rail plan. Upon the approval of the rail plan, each State may apply for a project that is contained in the approved plan. (Discretionary funding is also available.) Statutory discretionary considerations are the percent of rail lines filed with the Interstate Commerce Commission for abandonment or potential abandonment in the State, the likelihood or future abandonments, benefit-cost ratio of the project, the likelihood the related line will continue operating with freight assistance, and the impact of rail bankruptcies, rail restructuring and mergers on the State.

20.511 HUMAN RESOURCE PROGRAMS

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For universities and nonprofit organizations, this shall be done in accordance with the provisions of OMB Circular A-110; for direct contracts, in accordance with Federal Acquisition Regulations issued by the General Services Administration.

INFORMATION CONTACTS:

Regional or Local Office:

EXAMPLES OF FUNDED PROJECTS:

(1) Transit agencies' technical assistance programs to enhance the participation of disadvantaged (including women-owned) business enterprises (DBE) in transit construction projects and other contracting opportunities to develop the DBE economic infrastructure, business performance, and competitive posture in the transit marketplace; (2) transit industry career development/employment programs for advancement of minorities and women; and (3) special initiatives to encourage the involvement of the DBE community in entrepreneurial opportunities of the transit industry.

20.700 PIPELINE SAFETY

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

This program has no statutory formula. The Act authorizes Federal reimbursement of up to 50 percent of a State's expenditure during the year for personnel, equipment, and activities reasonably required by the State agency for the conduct of its pipeline safety program. The Act further stipulates that the State expenditures in any given year, without Federal assistance, cannot be less than the average amount expended by the State for gas pipeline safety during fiscal years 1967 and 1968 and for the last 2 fiscal years preceding the date of enactment of the Hazardous Liquid Pipeline Safety Act of 1979. The State agency must also agree to provide the remaining cost of the safety program(s). Within these limitations, the formula used to allocate the majority of available funds assigns a preliminary allocation based on a percentage factor inversely related to the size of the requested funding. These amounts are modified by subtracting an amount calculated by multiplying the difference between the total requests and the primary portion of available funds by the result of dividing each State's shortfall (the difference between the request and the preliminary allocation) by the total shortfall. This produces a primary allocation. A secondary allocation is determined by assigning point values to the States for having achieved certain levels of program participation, dividing this point score by the sum of the States' point scores, and multiplying this ratio by the amount available for the distribution. RSPA distributed the remaining funds according to certain criteria designed to seek improvements in State programs. The criteria used by RSPA were jurisdiction, inspector qualifications, recommended number of inspection person-days, underground utility damage prevention and other relevant criteria. In 1990, the Federal allocations represented 25 percent of the estimated State request in the natural gas program (range: 15 to 49 percent) and the Federal allocations represented 9 percent of the estimated State request in the hazardous liquid program (range: 5 to 50 percent).

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $4,391,000; FY 90 est $4,329,000; and FY 91 est $5,000,000.

PROGRAM ACCOMPLISHMENTS:

Forty-nine State agencies requested and received allocations for fiscal year 1989 for gas and/or liquid grant funds. No eligible State applicant was rejected. State agencies are increasing their knowledge and activities to help operators in their State in operating and maintaining safe pipeline systems. Forty-eight State agencies requested and received allocations for fiscal year 1990.

20.902 UNIVERSITY TRANSPORTATION CENTERS PROGRAM

APPLICATION AND AWARD PROCESS:

Application Procedure:

Notice of availablity of pre-announcement was published in the Commerce Business Daily and the Federal Register. The schools responding to the pre-announcement were screened for eligibility. Sixty-eight schools were eligible to receive the final announcement issued on January 4, 1988. The program is subject to the provisions of OMB Circulars No. A-110, No. A-113 and No. A-21. This program is excluded from coverage under OMB Circular No. A-102.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The Federal share of a grant shall be 50 percent of the costs of establishing and operating the regional transportation center and related research and education activities carried out by the grant recipient; not less than 5 percent of the funds shall be used to carry out technology transfer activities; the Secretary shall allocate funds equitably among the Federal regions.

POST ASSISTANCE REQUIREMENTS:

Audits:

Federal audits will be made in accordance with the policies of OMB Circular No. A-133 to ensure that funds have been applied efficiently, effectively, and economically.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $10,000,000; FY 90 est $9,970,000; and FY 91 est $10,000,000.

PROGRAM ACCOMPLISHMENTS:

The University Transportation Centers Program started in fiscal year 1988. The Program staff, in coordination with FHWA and UMTA, has completed the process of reviewing the Centers first year's efforts. The second year funding was approved for all 10 Centers. In response to DOT guidance for third-year operation of the program, the UTCP Centers have adopted themes to better focus their research and educational activities. Another major development involves the establishment of "Advanced Institutes" designed to strengthen the educational component of the UTCP. Each "institute" will include undergraduate and graduate level study consistent with the overall theme adopted by the lead Center.

GENERAL SERVICES ADMINISTRATION

39.002 DISPOSAL OF FEDERAL SURPLUS REAL PROPERTY

USES AND USE RESTRICTIONS:

Surplus real and related personal property may be conveyed for: public park or recreation use and public health or educational purposes at discounts up to 100 percent; public airport purposes, wildlife conservation, correctional facility, replacement housing and for historic monument purposes without monetary consideration; and for general public purposes without restrictions at a negotiated price of not less than the estimated fair market value of the property. Properties are made available for discount conveyance where the public purposes to be served reflect the highest and best use of the property. Properties determined suitable by the Department of Housing and Urban Development may be made available by lease for homeless assistance use. Restrictions: Surplus real property conveyed for public park or recreation use, historic monument, public airport use, correctional facility use and wildlife conservation use must be used for the purposes so conveyed in perpetuity. Property conveyed for health or education use must be used for those purposes for a period of not less than 30 years. Properties made available for homeless use must be used for that purpose for a period of not less than one year. Surplus real property which is not deeded to public bodies or made available for homeless purposes is generally offered for sale to the public on a competitive bid basis.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State and local government agencies are eligible to apply for surplus real property for park, recreation, correctional facility, historic monument, public airport, health, educational, homeless, replacement housing, and general public purposes. Eligibility for property for wildlife conservation use, other than for migratory birds, is limited to the States. Tax-supported and nonprofit medical and educational institutions which have been held exempt from taxation under 501(c) (3) of the Internal Revenue Code are also eligible to apply for property for health, educational and homeless use.

39.003 DONATION OF FEDERAL SURPLUS PERSONAL PROPERTY

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

(a) State participation is contingent upon the acceptance by the General Services Administration (GSA) of a State plan of operation as being in conformance with Public Law 94-519. This State plan must establish a State agency which is responsible for the distribution of Federal surplus personal property to eligible recipients within the State on a fair and equitable basis. Eligible donee categories for the distribution of property through the State Agencies for Surplus Property are defined as: (1) Public agencies which include any (i) State or department, agency, or instrumentality thereof; (ii) political subdivision of the State, including any unit of local government or economic development district, or any department, agency or instrumentality thereof; (iii) instrumentality created by compact or other agreement between a State or political subdivision; (iv) multijurisdictional sub-State district established by or pursuant to State law; and (v) Indian tribe, band, group, pueblo, or community located on a State reservation. Eligibility for public agencies is determined by the State agency for surplus property. (2) Nonprofit, tax-exempt activities such as schools, colleges, universities, public libraries, schools for the mentally retarded or physically handicapped, educational radio or TV stations, day care centers, museums, medical institutions, hospitals, health centers, clinics, providers of assistance to the homeless, and programs for older individuals. Eligibility for nonprofit institutions and organizations is determined by the State Agency for Surplus Property. (b) Service educational activities, including the American Red Cross, Center for Excellence in Education, Boy Scouts of America, Boys' Clubs of America, Camp Fire Incorporated, Girl Scouts of the United States of America, Big Brothers/Big Sisters of America, National Ski Patrol System, Naval Sea Cadet Corps, Operation Raleigh, United Service Organizations, United States Olympic Committee, Little League Baseball, National Association for Equal Opportunity in Higher Education, Armed Services YMCA of the USA, Young Marines of the Marine Corps League, and schools with military-connected programs. Eligibility is determined by the Assistant Secretary of Defense (Production and Logistics). (c) Public airports. Eligibility is determined by the Federal Aviation Administration. (d) Non-eligible institutions and organizations include institutions such as animal hospitals, summer camps or playgrounds that are not part of a public agency or a school, Sunday schools, churches and nonprofit tax-exempt public health and education money-funding organizations that provide grants, scholarships and funds to support approved or accredited public health and educational institutions but do not themselves operate such programs.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, surplus personal property with an original government acquisition cost of $473.1 million was donated. Fiscal year 1990 is estimated at $550.0 million. Fiscal year 1991 is estimated at $750.0 million.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

43.002 TECHNOLOGY UTILIZATION

USES AND USE RESTRICTIONS:

Discoveries, innovations, inventions, and improvements developed throughout the space program are brought to the attention of private industry, academic institutions, and Federal, State and local government organizations in several ways. NASA Tech Briefs is a monthly periodical with a readership of approximately 200,000 containing articles which describe such innovations. Subscription is currently free to qualified engineers, scientists and business people in U.S. industry and to technology transfer agents. NASA-sponsored Industrial Application Centers offer specialized technical information search services tailored to meet the needs of U.S. industry, and NASA's Computer Software Management and Information Center (COSMIC) offers Government computer programs for secondary use in the public and private sectors. In addition, Technology Application Teams under contract to NASA, work with private companies, medical institutions, industry associations and others to identify problems suitable for joint/NASA industry applications engineering projects in which existing aerospace technology is reengineered to meet identified non-aerospace needs.

PROGRAM ACCOMPLISHMENTS:

The NASA Technology Utilization Program has helped many industrial, educational, and government organizations develop new products, increase productivity, and reduce costs. Typically, the Technology Utilization Program provides user access to aerospace technology in support of technical problem-solving. For example, sensor technology, microelectronics and telemetry systems have been adapted and applied in the development of a range of biomedical implantable devices to control or otherwise administer corrective treatment of diseases or bodily functions or ailments, such as diabetes or intractable pain. NASA computer programs are routinely adapted and used by hundreds of U.S. companies, with substantial savings in software development costs. During the past year, over 200,000 individuals and firms were given access to new ideas and improvements from NASA resulting in new products and processes. Over 24,000 technical innovations from the space program have been published and are now available for use by American industry by subscribing to NASA Tech Briefs.

45.127 PROMOTION OF THE HUMANITIES—ELEMENTARY AND SECONDARY EDUCATION IN THE HUMANITIES

USES AND USE RESTRICTIONS:

Grant funds may be used to conduct summer institutes in the humanities and follow up activities; to establish collaborative relationships between schools and colleges; to conduct masterwork study projects on topics and texts in humanities disciplines; to support conferences. Funds are not available for ongoing work, construction costs, educational research, production costs of books or journals, or equipment. The program's central purposes are carried out through the support of activities focusing on the examination of materials in the humanities: (A) Institutes for teachers and administrators support intensive residential study focusing on the teaching of basic humanities disciplines in an atmosphere that promotes collegial exchange and fosters intellectual renewal that leads to revitalizing teaching. (B) Ongoing partnerships between schools and nearby institutions of higher learning, libraries, museums, and other cultural organizations are promoted; teachers' knowledge of the humanities are strengthened, fostered, and developed improved humanities curricula in schools. Planning grants are also available to support the early stages of work in developing a collaborative project. (C) Masterwork study grants provide opportunities for small groups of teachers and administrators to study important texts and topics in the humanities with scholars from a local college or university. Masterwork study grants take place during the academic year. (D) Conferences to bring together teachers, professors, school administrators, or other educational leaders to discuss important humanities topics and issues and to explore ways of improving humanities instruction in the schools are held. Conferences may be sponsored by colleges, school systems, professional associations, or other kinds of educational or cultural institutions.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

Institutes generally will not exceed $170,000 in NEH funds; collaborative projects generally will not exceed $200,000 in NEH funds; masterwork study grants average $20,000 in NEH funds.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, 41 grants selected from 137 applications were made. It is estimated that 38 awards selected from 160 applications will be made in fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE:

45.134 PROMOTION OF THE HUMANITIES—CONFERENCES

OBJECTIVES:

To support conferences enabling scholars to discuss and advance the current state of research in a field or topic of major importance in the humanities. Recurrent meetings of associations, societies, and professional organizations are not eligible for funding in this category; special meetings on a specific topic can be considered. Although international scholarly conferences held in the United States are encouraged, proposals for meetings in foreign locations are rarely funded.

USES AND USE RESTRICTIONS:

Grants support the basic costs of symposia, scholarly workshops, or conferences, including a modest amount of release time for the project director(s), administrative assistance, travel and perdiem for presenters, duplication costs, office supplies, and publicity. Costs of permanent equipment and long-term operating expenses are not allowable; support for post-project, prepublication costs are acceptable as requests for released time and administrative assistance only. The program supports research in the humanities that is interdisciplinary, valuative, interpretive, comparative, or coordinative. Projects must address research questions or assess research methodologies.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 27 grants were awarded from 113 applications received. In fiscal year 1990, 12 grants were awarded from 105 applications received. In fiscal year 1991, approximately 14 grants will be awarded from 90 anticipated applications.

Applications for planning are accepted quarterly: February 1, May 3, August 2, November 1, 1991, February 7, May 1, August 7, and November 6, 1992.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $2,799,000; FY 90 est $2,761,000; and FY 91 est $2,600,000.

REGULATIONS, GUIDELINES, AND LITERATURE:

45 CFR 1100 and 1105. Applications and guidelines as well as a publication entitled "Overview of Endowment Programs, July 1990" are available upon request from the National Endowment for the Humanities, Room 409, Washington, DC 20506. Available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, is the Endowment's official publication, "Humanities" by subscription (6 issues annually, $9.00 domestic, $11.25 foreign).

EXAMPLES OF FUNDED PROJECTS:

A country library system sponsored a series of scholar-led reading and discussion programs at public library and senior citizen sites in a three-county area. Theme units available to host sites included "Morality and the Muse: Ethics and Literature" in which philosophical readings by such thinkers as Immanuel Kant, Thomas Hobbes, J.S. Mills, and Ruth Benedict were paired with literary works including "Antigone", "Billy Budd", "The Handmaid's Tale", and "Lord of the Files". A second theme package, entitled "The Twenties and Thirties: Literature Mirror History," introduced participants to some of the central historical trends of the United States in the 1920's through 1930's (economic depression, racial discord, approach of war, changing social values) in volumes such as "Only Yesterday", "Babbitt", "Inherit the Wind", "The Grapes of Wrath", and Gwendolyn Brooks' book of poems, "A Street in Bronzeville". Other theme units available to project sites included "Let's Talk About It" themes previously developed by the American Library Association including "Destruction or Redemption: Images of Romantic Love," and "Not For Children Only". Having targeted senior citizens as a primary audience, the project director endeavored to recruit some senior and emeritus scholars who could relate to these participants as peers. She also introduced reading and discussion programs to a medium-size city where none had been organized previously. At the conclusion of the project a scholar directory was complied to be disseminated via the State humanities council to those who wished to conduct future programs on the same, or similar, topics. (2) A library at a small liberal arts college in a midwestern town conducted a series of programs on the Victorian era, with particular emphasis on the place of Robert Browning in Victorian letters. The college and the town's public library exhibited one of the world's most important collections of materials by and about Browning and his family. Formal lectures and dramatic readings of Browning's poetry were presented at the public library; reading and discussion programs on selected Victorian works illuminated three themes important to Victorians: "love and marriage," "war and politics," and "art and artists." (3) A medium-size suburban public library led a local consortium which included a college and a small historical society in implementation of a lecture series, an exhibition, book discussions, and a symposium about Thomas Paine and the influence of his writings on the American and French revolutions. Community oriented book discussions led by scholars centered around Eric Foner's "Tom Paine and Revolutionary America", Edmund Burke's "Reflection on the Revolution in France", and Paine's "The Rights of Man". A four month lecture series featured nationally prominent historians addressing such topics as Paine's role as the "intellectual" of the common man; Paine as radical pamphleteer; and Paine's political legacy. The participating historical society hosted a small exhibition of rare books by Paine and his contemporaries. Care was taken to represent works by Edmond Burke and others who opposed Paine's ideas so that visitors could consider multiple viewpoints on the philosophical and political issues raised. Project leaders met with local school officials to arrange student tours of the exhibition. Interpretive labeling featured noteworthy quotations from the works on display to permit eighteen-century authors to "speak for themselves" whenever possible. A one-day symposium presented four historical talks on various aspects of Paine's thinking. Ample time was scheduled for audience questions during both the lecture series and the symposium. (4) A State historical society created one stationary and one traveling exhibition, a companion lecture series, and related educational materials about the history of medicine in the State from 1600 to 1900. Both exhibitions were organized to reveal how Native American, Afro-American, and white cultures dealt with illness, self-treatment, and professional healers over three centuries. Epidemics and the medical ramifications of the Columbian Encounter were elucidated, as were differences in the medical care received by various economic classes as well as in urban and rural settings. Exhibition items for the main exhibition included rare books, manuscripts, broadsides, and antique medical equipment selected for its interpretive value. The grantee selected four venues for the traveling photo-panel exhibition in population centers in each geographical section of the State. Host institutions were provided with promotional literature and encouraged to develop related programs locally. Lecturers were leading medical historians from around the United States. They were provided to exhibition sites and covered Afro-American physicians at the turn of the twentieth century, child bearing from 1750 to 1950, the influence of the Civil War on medicine, folk medicine, and quackery. Promotional literature distributed through exhibition sites, the State library association, and local historical organizations, included a press kit, a poster, a self-mailing brochure, and a bibliography of related reading geared to the general public.

45.140 PROMOTION OF THE HUMANITIES—INTERPRETIVE RESEARCH/COLLABORATIVE PROJECTS

OBJECTIVES:

To advance important, original research in all fields of the humanities. Collaborative, multi-year projects involving the efforts of several individuals at the professional, postdoctoral, and research assistant levels are supported. Foreign and domestic archaeology projects are also supported in the program.

APPLICATION AND AWARD PROCESS:

Deadlines:

Pre-proposals are strongly encouraged and should be submitted by August 7. For formal proposals, the annual deadline is October 15 for projects that begin after July 1 of the following year.

PROGRAM ACCOMPLISHMENTS:

45.143 PROMOTION OF THE HUMANITIES—FELLOWSHIPS FOR COLLEGE TEACHERS AND INDEPENDENT SCHOLARS

OBJECTIVES:

To provide opportunities for college teachers and independent scholars to pursue independent study and research that will enhance their capacities as teachers, scholars, or interpreters of the humanities and enable them to make significant contributions to thought and knowledge in the humanities. These fellowships are intended for faculty members of two-year and four-year colleges and universities that do not grant the Ph.D., individuals affiliated with institutions other than colleges and universities, and scholars and writers working independently. This program is designed to support both beginning and experienced scholars engaged in a range of activities from general study to specialized research. Fellowships are normally awarded for full-time study, but part-time awards will be made in exceptional cases. In connection with this program, the Endowment is offering support for projects in the area of the special NEH initiative on the Columbian Quincentenary. The annual application deadline is June 1 for fellowship tenure that can begin as early as the following January 1; results are announced in December, and the maximum award is $30,000. The National Endowment for the Humanities also announces the continuation of the Faculty Graduate Study Program for teachers at historically Black colleges and universities. The Faculty Graduate Study Program is a special competition designed to strengthen the teaching of the humanities at historically Black colleges and universities by providing one year of support for teachers at these institutions to work toward the completion of a Ph.D. in the humanities. The annual application deadline is March 15 for fellowships for study in the following academic year; results will be announced each September, and the maximum award is $30,000. The uses of the awards, eligibility requirements, selection criteria, and stipend allowances for this program are all specific to this program and different from those for Fellowships for College Teachers and Independent Scholars. Interested applicants should write to the headquarters office for further information.

PRESIDENT'S COMMITTEE ON EMPLOYMENT OF PEOPLE WITH DISABILITIES

53.001 EMPLOYMENT PROMOTION OF PEOPLE WITH DISABILITIES

OBJECTIVES:

To promote employment opportunities for people with disabilities.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State Governors' Committees on Employment of People with Disabilities, and other groups and individuals interested in promoting the employment of persons with disabilities.

PROGRAM ACCOMPLISHMENTS:

In the past 43 years, the President's Committee was instrumental in bringing about improved national acceptance for employment of people who are physically disabled, mentally restored and mentally retarded. Also, it was a prime mover in a national effort to eliminate architectural and transportation barriers to people who are physically disabled. Established the Job Accommodation Network (JAN), a computerized system for obtaining information about practical accommodations that employers can made to enhance job opportunities for employees with disabilities. Throughout the legislative process to enact American with Disabilities Act, provided technical assistance to the public and Congress regarding issues addressed in the legislation. Since enactment provided information materials on its provisions to the public.

REGULATIONS, GUIDELINES, AND LITERATURE:

"Worklife," a periodical publication; pamphlets on the establishment and maintenance of governors and local committees on employment of people with disabilities; educational/information materials dealing with employment, vocational rehabilitation, architectural and transportation barriers, homemaker rehabilitation, facilities, education/employment preparation, sheltered workshops, the mentally restored, the mentally retarded and the physically handicapped.

INFORMATION CONTACTS:

59.008 PHYSICAL DISASTER LOANS

USES AND USE RESTRICTIONS:

Loans made to homeowners, renters and businesses to repair and/or replace damaged and/or destroyed real property and/or personal property to its pre-disaster conditions. Credit elsewhere test required for all applicants to determine interest rates. Loans to homeowners/tenants made up to 30 years. Limit of $100,000 for repair/replacement of real property; $20,000 for repair/replacement of personal property, or a combined maximum of $120,000. The loan limit may be increased by 20 percent to provide protective measures from damages caused by physical disasters. The interest rate for homeowners/tenants who have credit available elsewhere is determined by a formula based on the cost of money to the U.S. Government, but not to exceed 8 percent. The interest rate for homeowners/tenants who do not have credit available elsewhere is 1/2 of the formula rate, but not to exceed 4 percent. Loans to business may not exceed $500,000. For businesses determined to be able to obtain credit elsewhere, the interest rate is based on a formula, but not to exceed 8 percent, with maturities not to exceed 3 years. For nonprofit organizations determined to be able to obtain credit elsewhere, the interest rate is based on a formula, but not to exceed 9.25 percent, with maturities not to exceed 30 years. For businesses and nonprofit organizations determined to be unable to obtain credit elsewhere, the interest rate may not exceed 4 percent, with maturities up to 30 years. Under certain circumstances, homeowners and businesses may be eligible for refinancing of existing liens. In the case of a Major Source of Employment, the $500,000 limitation on physical disaster loans may be waived. Provisions of Flood Disaster Protection Act of 1973 apply.

POST ASSISTANCE REQUIREMENTS:

Reports:

The educational allowance will not be paid if the participant does not pursue his or her course in accordance with established policies and regulations of the educational institution he or she attends, and is not making satisfactory progress as required by law and VA Regulations. Certification by the educational institution as to the participant's enrollment must be made for each period for which assistance is sought. Certifications for course enrollment and pursuit not leading to a standard college degree must be made monthly by the participant; for courses leading to a standard college degree, verifications of pursuit are required.

64.122 VOCATIONAL REHABILITATION FOR SERVICE-DISABLED VETERANS RECEIVING UNEMPLOYABILITY VA COMPENSATION

USES AND USE RESTRICTIONS:

The program provides for direct payment to service providers for the entire cost of tuition, books, fees, supplies, and other services. Counseling services are provided to the individual throughout his or her participation in the program. A veteran is eligible for counseling placement and post-placement services even if found ineligible for other vocational rehabilitation services. In addition to individual unemployability compensation, the veteran receives a monthly subsistence allowance during the training phase of the rehabilitation program. Advances of up to $666 may be made to veterans to meet unexpected financial difficulties. These advances do not bear interest and are repaid out of future subsistence allowance payments. Although no set repayment period is established, the advances are expected to be repaid. In general, a new advance may not be made until a previous advance has been fully repaid. Usually the training phase of the rehabilitation program may not exceed 4 years. Veterans achieving employability because of services received which includes a training phase may receive an employment adjustment allowance equal to 2 months of subsistence. Veterans may also receive up to 18 months of counseling, job placement and post-placement services either in addition to the training phase or as the total program. Veterans who meet certain requirements may receive an initial supply of goods and commodities to start a small business. A program participant must work in a substantially gainful occupation for at least 12 consecutive months before VA can consider the job placement in any decision affecting the veteran's entitlement to total compensation based on individual unemployability.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Veterans must be awarded individual unemployability prior to February 1, 1992, (i.e., awarded a total disability rating due to inability to secure or maintain a substantially gainful occupation due to service-connected disability). Veterans may be eligible for employment services as a total program if VA determines them to be employable. To be eligible for training, rehabilitation, and employment services, VA must determine the veterans have an employment handicap and are able to achieve a vocational goal.

Beneficiary Eligibility:

Veterans must be awarded individual unemployability prior to February 1, 1992, (i.e., awarded a total disability rating due to inability to secure or maintain a substantially gainful occupation due to service-connected disability). Veterans may be eligible for employment services as a total program if VA determines them to be employable. To be eligible for training, rehabilitation and employment services veterans must be determined to have an employment handicap and determined to be able to achieve a vocational goal.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Veterans awarded individual unemployability benefits either during or before the program period February 1, 1985 through January 31, 1992, must file a claim with any VA to be considered for participation in the program. The claim form is VA Form 28-1900, Disabled Veterans Application for Vocational Rehabilitation.

Appeals:

Available through special board; Average time to process an appeal is 206 days. In the event of a denial, claimants are advised of appeal rights and procedures at the time of notification.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

64.123 VOCATIONAL TRAINING FOR CERTAIN VETERANS RECEIVING VA PENSION

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Veterans who are awarded a VA pension on or before February 1, 1992, who are in receipt of VA pension at the time they apply for vocational training, and for whom VA determines the achievement of a vocational goal is reasonably feasible. Veterans under age 45 are required to participate in an evaluation to determine the reasonable feasibility of achieving a vocational goal if their pension was awarded on or after February 1, 1985. Veterans under age 45 may request an evaluation to determine the reasonable feasibility of achieving a vocational goal if their pension was awarded before February 1, 1985. Those veterans age 45 and over may request an evaluation to determine the reasonable feasibility of achieving a vocational goal.

Beneficiary Eligibility:

Veterans who are awarded a VA pension on or before February 1, 1992, who are in receipt of VA pension at the time they apply for vocational training, and for whom VA determines the achievement of a vocational goal is reasonably feasible. Veterans under age 45 are required to participate in evaluations to determine the feasibility of achieving a vocational goal if their pension was awarded on or after February 1, 1985. Those veterans age 45 and over may request an evaluation to determine the reasonable feasibility of achieving a vocational goal.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Deadlines:

Generally, a veteran must begin a program of vocational training and employment assistance between February 1, 1985 and January 31, 1992, the official period of this temporary program. If the initial award of VA pension during the program period occurs 120 days or less from January 31, 1992, program entrance may be delayed subject to certain restrictions.

Appeals:

Available through special board; Average time to process and appeal os 206 days. In the event of a denial, claimants are advised of appeal rights and procedures at the time of notification.

POST ASSISTANCE REQUIREMENTS:

Reports:

The veteran's progress is monitored throughout the training program to assure that goals and objectives of the veteran's Individualized Written Rehabilitation Plan (IWRP) are carried out. The IWRP extends throughout the veteran's training program to include, when applicable, the securing of and adjusting to employment.

PROGRAM ACCOMPLISHMENTS:

During the initial program period February 1, 1985 through January 31, 1989, 470 veterans entered a program of training or employment services. Data are unavailable for later years.

64.124 ALL-VOLUNTEER FORCE EDUCATIONAL ASSISTANCE

USES AND USE RESTRICTIONS:

The veteran may select a program of education to assist him or her in attaining an educational, professional, or vocational objective at any approved educational institution he or she chooses which will accept him or her as a student. The Chief Benefits Director will not approve enrollment in certain courses, such as those he or she finds avocational or recreational in character. An individual must have met the requirements of a secondary school diploma or the equivalent before completing the initial obligated period of active duty. Individuals may pursue certain flight training effective September 30, 1990 and ending September 30, 1994. Benefits may not be paid for farm cooperative courses.

64.203 STATE CEMETERY GRANTS

USES AND USE RESTRICTIONS:

Monetary assistance is provided under this program to construct, expand, and improve State veterans' cemeteries. Cemeteries must be State-owned and operated solely for the interment of eligible veterans and their dependents and/or spouses. Construction cost means the amount found necessary to convert a tract of land to an operational cemetery. The cemeteries are operated and maintained by the States.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Consultation or assistance is available from VA Central Office personnel to aid in the preparation of an application. The standard application forms as furnished by the VA and required by OMB Circular No. A-102 must be used for this program (Standard Form 424, Application for Federal Assistance, with attachments). An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure:

Submit Standard Form 424, Application for Federal Assistance for Construction Programs, with attachments, to the Director, State Cemetery Grants Program (40G), Department of Veterans Affairs, 810 Vermont Avenue, N.W., Washington, DC 20420. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

Formal notification of the award to the State is made by the Director, National Cemetery System.

Deadlines:

To coincide with State Legislature sessions, a deadline of June 16 is established for the filing of applications in the year prior to the fiscal year in which funding is requested.

POST ASSISTANCE REQUIREMENTS:

66.600 ENVIRONMENTAL PROTECTION CONSOLIDATED GRANTS—PROGRAM SUPPORT

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $42,413,000; FY 90 est $39,600,000; and FY 91 est $40,000,000. (Note that these amounts do not represent additional appropriations, but levels of consolidated effort within Agency's total grant appropriation.)

Range and Average of Financial Assistance:

FY 89 range of assistance: $332,000 to $2,195,000. Average assistance: $361,390.

PROGRAM ACCOMPLISHMENTS:

Consolidated grants for fiscal year 1989 ranged from $332,000 to $2,195,000. There were 44 consolidated grant awards in fiscal year 1989 for a total of $42,413,000. This represents an average award of $936,931. There is not a separate consolidated grant appropriation. Therefore, the funds identified here are the aggregate of the individual program funds awarded through consolidated grants.

66.700 CONSOLIDATED PESTICIDE COMPLIANCE MONITORING AND PROGRAM COOPERATIVE AGREEMENTS

FINANCIAL INFORMATION:

Obligations:

(Grants) Enforcement: FY 89 $8,755,200; FY 90 est $12,444,000; and FY 91 est $15,003,400. Certification: FY 89 $1,820,000; FY 90 est $2,320,000; and FY 91 est $3,570,000. Initiatives: FY 89 $0; FY 90 est $7,000,000; and FY 91 est $7,750,000.

Range and Average of Financial Assistance:

Enforcement/States: $133,200 to $617,600; $243,000. Certification: $22,200 to $104,100; $63,150. Initiatives: $22,000 to $226,600; $124,300.

PROGRAM ACCOMPLISHMENTS:

As of August 1990, 52 Pesticide Certification grants and 63 Pesticide Enforcement grants have been awarded. Agencies participating in the Federal cooperative agreement program receive funds to support and strengthen pesticide applicator certification, pesticide compliance monitoring, inspection, and enforcement activities. Typical program activities for certification grants include certification of new applicators, recertification of existing applicators and upgrading of programs to meet changing requirements. Typical program activities for enforcement grants, which are generally common to all cooperative agreements, include inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices, inspections of pesticide products at producing facilities and in the retail marketplace to ensure industry compliance with registration, classification, and labeling requirements, and initiation of appropriate enforcement action when violations are detected including civil and criminal prosecution, stop sale orders, seizures, recalls, and warning notices. The States will also develop implementation plans for special pesticide initiatives. States will be responsible for dissemination of information and materials related to these pesticide initiatives. Anticipate 50 pesticide program applications and expect 50 awards to be made by the Agency.

Telephone: (202) 382-3807. (Use same 7-digit number for FTS.)

EXAMPLES OF FUNDED PROJECTS:

State agencies participating in the Federal/State cooperative agreement program receive funds to support and strengthen their pesticide programs, including pesticide compliance monitoring, inspection and enforcement activities as well as pesticide applicator certification activities and special pesticide initiatives activities. Typical program activities, which are generally common to all cooperative agreements, include inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices, inspections of pesticide products at producing facilities and in the retail marketplace to ensure industry compliance with registration, classification, and labeling requirements, and initiation of appropriate enforcement action when violations are detected including civil and criminal prosecution, stop sale orders, seizures, recalls and warning notices. Activities also include certification of new applications, recertification of existing applications, and upgrading of programs to meet changing requirements. The special pesticide initiatives are new projects, which include the development of State management plans for the protection of groundwater and endangered species from pesticides and development of water protection programs.

66.701 TOXIC SUBSTANCES COMPLIANCE MONITORING PROGRAM

OBJECTIVES:

To (a) assist States in developing and enhancing comprehensive Toxic Substance enforcement programs, (b) sponsor cooperative surveillance, monitoring and analytical procedures, and (c) encourage regulatory activities within the States.

USES AND USE RESTRICTIONS:

Available for costs specifically incurred in purchasing inspectional supplies and equipment; reimbursing State travel and per diem expenses associated with the performance of grant outputs; purchasing essential laboratory equipment and supplies; paying salaries for personnel performing inspectional, analytical, managerial or other functions related to grant activities, and for administrative costs associated with the performance of grant outputs.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $2,165,200; FY 90 est $3,110,300; and FY 91 est $5,010,300.

Range and Average of Financial Assistance:

$70,000 to $400,000; $170,000.

PROGRAM ACCOMPLISHMENTS:

Thirty-five to forty cooperative agreements are expected to be awarded in fiscal year 1991. Agencies participating in the Federal enforcement cooperative agreement program receive funds to support and enhance toxic substance compliance monitoring, inspection, and enforcement activities. Typical program activities, which are generally common to all cooperative agreements, include coordinated inspections and observations at facilities which manufacture, process, use or dispose of chemical substances in a State, and initiation of appropriate enforcement action or referral to EPA for appropriate enforcement action when violations are detected. Other program activities include the development of state enabling enforcement legislation, case development programs and coordinated inspection programs where they did not exist before.

INFORMATION CONTACTS:

Headquarters Office:

For program information: Connie Musgrove, Acting Director, Office of Compliance Monitoring, Office of Pesticides and Toxic Substances, (EN-342), EPA, Washington, DC 20460. Telephone: (202) 382-3807. (Use same 7-digit number for FTS.)

EXAMPLES OF FUNDED PROJECTS:

State agencies participating in the Federal/State enforcement cooperative agreement program receive funds to support and enhance compliance monitoring, inspection, and enforcement activities. Examples of program activities, which may be funded include development of State enabling legislation for enforcement, coordinated inspections and observations to ensure industry compliance, initiation of appropriate enforcement action when violations are detected and development of compliance monitoring strategies, case development programs and integrated state toxics enforcement programs.

66.702 ASBESTOS HAZARDS ABATEMENT (SCHOOLS) ASSISTANCE

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

If funds appropriated in fiscal year 1991 for ASHAA, assistance will be awarded to Local Educational Agencies (LEA's) on a project-by-project basis based upon a national priority list created by EPA. Awards will be used to fund priority projects in financially eligible school systems.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant would have to consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Deadlines:

If funds are appropriated for fiscal year 1991, LEA's will be notified of the schedule for submitting their applications to their ASHAA State designee and the date the applications are due to EPA from the State designees.

Range of Approval/Disapproval Time:

The decision to approve/ disapprove applications will be made in a time frame determined once appropriations are received.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Grants and/or loans would normally be funded on a one month to two year basis. All funded abatement projects must be completed by August 30, 1992.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $19,600,000; FY 90 est $13,600,000; and FY 91 est $15,000,000. (Loans) FY 89 $25,400,000; FY 90 $29,800,000; and FY 91 est $30,000,000.

PROGRAM ACCOMPLISHMENTS:

During the 1990 award cycle, offers of assistance were made to: 129 LEAs for 206 projects in 168 schools. Those offers totaled $43.4 million. Applications were received from 863 LEAs for 3,352 projects.

Available for the allowable direct cost expenditures incident to program performance plus allocable portions of allowable indirect costs of the institution, in accordance with established EPA policies. Projects can include the following types of activities: training, surveys, public education programs, studies, and demonstrations; but assistance to such projects shall not include any element of constructon, or any acquisition of land or interest in land, or any subsidy for the price of recovered resources. Financial assistance to States, local, regional, and interstate authorities for the development and implementation of plans approved by the Administrator under subtitle D of the Solid Waste Disposal Act is not allowed.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Discussion with EPA Headquarters or the appropriate EPA Regional Office is advisable. (See Appendix IV of the Catalog for list of Regional Contacts). The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Deadlines:

Varies from Region to Region. Contact appropriate Regional Office for details.

FINANCIAL INFORMATION:

Obligations:

(Grants and Cooperative Agreements) FY 89 $2,986,198; FY 90 est $5,304,358; and FY 91 est $4,000,000.

Range and Average of Financial Assistance:

FY 89 $2,500 to $170,240; $66,360. FY 90 $5,000 to $200,000; $74,709.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 45 awards were made. In fiscal year 1990, 71 awards will be made. The estimate of projects in fiscal year 1991 is 65.

RELATED PROGRAMS:

66.504, Solid Waste Disposal Research.

EXAMPLES OF FUNDED PROJECTS:

(1) National Solid Waste Information Clearinghouse: Provides information to the nation on solid waste management alternatives. (2) Targeted Media Recycling Outreach: Funded television and radio commercials that received over $20,000,000 in free airplay. (3) Peer Match Program: Provides technical assistance to local government by matching local government experts with local governments requesting assistance. (4) Siting Workshops: Funded workshops for the siting of solid waste management facilities for local government decision makers. (5) Decision-Making Guide for Recycling Plastics: Funded production of a guidance document that will aid municipalities in the State of Oregon in recycling plastic waste.

ACTION

72.001 FOSTER GRANDPARENT PROGRAM

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, there were approximately 17,800 ACTION-funded volunteer service years (VYSs) budgeted in 264 ACTION- funded Foster Grandparent Program (FGP) projects, serving some 62,000 children. In addition, there were approximately 2,400 non-ACTION-funded volunteer service years assigned to approximately 8,400 children. Foster Grandparent services in fiscal year 1990 continued to focus on children with special or exceptional needs such as the abused and neglected, juvenile offenders, teen mothers, and the physically handicapped. In fiscal year 1990, special emphasis was given to providing assistance to "at-risk" children and those having drug abuse problems. In fiscal years 1991 and 1992, it is estimated that a total of 27,100 Foster Grandparents will serve in 264 community-based projects. They will serve approximately 73,000 children with exceptional or special needs. Again, special emphasis will be placed on child abuse and/or neglect, juvenile delinquency, teenage pregnancy, and drug abuse prevention, as well as literacy enhancement and runaway youth.

INFORMATION CONTACTS:

Headquarters Office:

Program Officer, Foster Grandparent Program, ACTION, 1100 Vermont Avenue, NW., Washington, DC 20525. Telephone: (202) 634-9349.

CRITERIA FOR SELECTING PROPOSALS:

1. Equitable distribution between residents of rural and urban areas; 2. Opportunity for minority, ethnic, and disabled participation; 3. Cost effectiveness; 4. Evidence of availability of eligible volunteers; 5. Availability of children (under 21 except for mentally retarded persons) with either exceptional or special needs for Foster Grandparents to serve; 6. Workable, affordable transportation plan for Foster Grandparents to and from volunteer stations; 7. Community support; 8. Existence of project Advisory Council to ensure community participation; 9. A well-developed work plan for achieving program goals and objectives.

72.002 RETIRED SENIOR VOLUNTEER PROGRAM

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$3,950 to $32,000; $41,535.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 408,665 ACTION-funded RSVP volunteers in 752 ACTION-funded and seven non-ACTION-funded projects contributed over 73,000,000 hours of service to 43,000 local organizations. Special programming areas included increased activity in intergenerational activities, especially with "at-risk" children and youth. In an effort to provide increased services to latchkey children, ACTION and the National Commission on Libraries and Information Services launched the RSVP Intergenerational Library Assistance Project. Over 35 libraries in 29 locations utilized the services of RSVP volunteers in a variety of after-school programs designed to promote literacy and increase utilization of library services. The national RSVP literacy network has grown to over 450 RSVP projects. In fiscal year 1990, it is estimated that approximately 410,000 older Americans will participate in RSVP's 752 projects and will contribute an estimated 74,000,000 hours of service. Service opportunities will be expanded through the development of additional volunteer placements in such areas as services to youth, drug abuse prevention, shelter for the homeless, literacy, in-home care, consumer education, crime prevention, and skilled volunteer programming. To ensure maximum utilization of program resources RSVP will provide guidance and technical assistance to other agencies to expand opportunities available to older people.

REGULATIONS, GUIDELINES, AND LITERATURE:

45 CFR Part 1209; ACTION Handbook 2650.2, Grants Management Handbook for Grantees; ACTION Handbook 4700., Retired Senior Volunteer Program Operations Handbook; "RSVP - Retired Senior Volunteer Program" (ACTION Pamphlet); "Some of the most productive people are........Retired." (ACTION Flyer).

72.003 VOLUNTEERS IN SERVICE TO AMERICA

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1990, approximately 2,800 VISTA Volunteers served on nearly 718 sponsoring organizations in 50 States, the District of Columbia, and Puerto Rico, in a variety of poverty-related programs. The programs focused upon substance abuse prevention and education, hunger, homelessness, unemployment, health, illiteracy, unemployment and economic development. Approximately 50 percent of VISTA's resources were focused on the problems of disadvantaged youth, who comprise the largest category, by age, of America's poor. Many of these activities addressed the problems of substance abuse, delinquency, teenage unemployment, youthful runaways, and child abuse. During fiscal year 1990, in accordance with statutory requirements in support projects a volunteer placement office was established within national headquarters, headed by a national Administrator of Recruitment and Placement. VISTA resources were allocated among ACTION Regional and State offices with stricter adherence to poverty indices within those areas. During fiscal year 1991, VISTA will produce 3,000 volunteer service years, on nearly 730 project resources focused on the problems of hunger, homelessness, illiteracy, drug abuse, and unemployment. VISTA projects will assist in institutionalizing the volunteers' activities through the generation of private sector financial and material support and recruitment of part-time and local volunteers. Volunteers will be recruited from all walks of life, age groups, economic levels, and geographic areas. In addition, recruitment efforts will ensure that at least 20 percent of all volunteers are 55 and older and 20 percent of the volunteers are between ages 18 and 27, as required by the Agency's authorizing legislation. In fiscal year 1992, VISTA will produce 3,200 volunteer serviced years on approximately 700 projects, focusing on the functional areas highlighted above. These efforts will include the distribution of food to the hungry, literacy training, job development and training programs for the unemployed, drug prevention education activities for low-income youth, and assistance in the development of shelters for the homeless, runaways, and low-income youth. Data unavailable for fiscal year 1991.

72.005 STUDENT COMMUNITY SERVICE PROGRAM

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Federal, State, or local government agencies and private nonprofit organizations or foundations which use student volunteers to address problems of low-income individuals; student volunteers must be in secondary, secondary vocational, and post-secondary schools.

72.008 SENIOR COMPANION PROGRAM

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, approximately 7,800 Senior Companion Volunteer Service Years (VSYs) were budgeted in 143 ACTION-funded projects serving approximately 27,300 adults weekly. In addition, 1,800 VSY's in 28 Non-ACTION-funded SCP projects served 6,300 clients. A $1.5 million demonstration grant was awarded to the Visiting Nurses Associations of America to provide increased home health care to frail elderly persons in eighteen sites, nationwide. The Administration on Aging (AoA) and SCP/ACTION have entered into a three-year partnership demonstration program to jointly fund 11 grants to State Agencies on Aging. AoA, in turn will award sub-grants to SCP projects that will target volunteer service assignments to homebound older persons. The partnership program will expand resources available to both networks. Technical assistance is available to help SCP projects gain private sector support to continue the sub-grants after the three year demonstration program ends. A total of 36 SCP projects received funds to support 171 additional VSYs in Programs of National Significance that: 1) Assist individuals with chronic and debilitating illnesses; 2) Decrease drug and alchol abuse; 3) Provide respite care for caregivers of frail elderly individuals. Special populations who benefitted from public and or private partnership grants in fiscal year 1990 included Alzheimer's Disease victims and visually impaired older persons. Major emphasis areas in Senior Companion Projects, nationwide, are: acute care hospital discharge assistance, respite care, services to the mentally ill, substance abuse asistance, care of the terminally ill, assistance to the visually impaired and assignments to homebound elderly persons living alone.

EXAMPLES OF FUNDED PROJECTS:

1) A 72 year old visually impaired hispanic woman daily commutes 12 miles by bus to serve three other visually impaired clients. All are homebound and have central vision loss (macular degeneration). The companion is assigned to one of the four sites that operate public private partnership programs between ACTION and the American Foundation for the Blind. Under the supervision of the El Paso Lighthouse for the Blind, the volunteer provides peer counseling and enhances independent living skills throught exercise therapy, meal preparation, gardening and reinforcement of home management adaptive techniques. The Companion says the program has given her the incentive to "get out of the house and make new friends." 2) In another situation, a Companion assisted a bedfast client who had recently undergone a series of hip operations. She prepared meals and assisted a regular nurse with massage therapy and a range of motion exercises. Through the Companion's assistance, the client is now able to utilize a wheelchair and walk with a cane. She regulary attends Senior Companion activities with minimal assistance needed. 3) Many Companions provide critical assistance to clients in rural areas. A 70 year old Companion is assigned to two homebound women who live alone. One suffers from emphysema and anurism. She relies on her Companion to replenish oxgen supplies, buy groceries, and provide needed emotional support. The other helps her with reality orientation exercises and speech pathology training. Without the Companion, both women would be institutionalized. 4) Fourteen Senior Companions serve elderly veterans who have the potential to be discharged from the James Van Zandt Veterans Administration Medical Center. They continue to serve the veterans in-home by providing personal care, assistance with therapy, encouragement and companionship. 5) A 63 year old Senior Companion provides Alzheimer's respite care to an older couple through a public/private partnership program between ACTION and the local Alzheimer's Disease and Related Disorders (ADRA) chapter. Caregiving is directed to a 66 year old woman who has suf-

fered from Alzheimer's Disease for five years. The Companion assists with feeding, dressing and toileting, and the consistent, caring presence of the volunteer has reduced the client's episodes of night wandering and agitation. The program has enabled the client's husband to resume his interest in gardening and enroll in caregivers' training provided by the ADRA chapter.

72.010 MINIGRANT PROGRAM

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 see program 72.014; FY 90 est see program 72.014; and FY 91 est see program 72.014. (This program was funded in FY 1990 and will be funded in FY 1991 and FY 1992 from the Supplemental Drug Abuse Prevention Program appropriation, and will be entirely directed toward illicit drug abuse prevention activity. See ACTION's Drug Alliance program, 72.014.)

72.012 VOLUNTEER DEMONSTRATION PROGRAM

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $691,000; FY 90 $0; and FY 91 $0. (Funding for this program, 72.012, was not provided by the Congress in FY 1990, nor are funds being requested in FY 1991 and FY 1992.)

72.013 TECHNICAL ASSISTANCE PROGRAM

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $60,000; FY 90 $0; and FY 91 $0; (Funding for this program, 72.013, was not provided by the Congress in FY 1990, nor are funds being requested in FY 1991 and FY 1992.)

72.014 DRUG ALLIANCE

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $1,573,000; FY 90 est $2,793,000; and FY 91 est $2,245,000.

Range and Average of Financial Assistance:

From $9,000 to $250,000; $35,000.

PROGRAM ACCOMPLISHMENTS:

For fiscal year 1990, 83 grants were awarded focusing on drug use prevention and education activities. It is estimated that 61 Drug Alliance grants will be awarded in fiscal year 1991 and 65 in 1992 for drug use prevention.

RELATED PROGRAMS:

None.

EXAMPLES OF FUNDED PROJECTS:

Drug Alliance Grants have supported the following strategies to involve volunteers in illicit drug prevention activities: 1) Positive peer prevention activities for youth; 2) organization of parent groups; 3) the development of technical assistance materials; 4) the organization of youth groups; 5) the development of coalitions and partnerships; and 6) adult and older youth mentors for at-risk youth.

CRITERIA FOR SELECTING PROPOSALS:

Drug Alliance grants must show: 1) promise of developing innovation or knowledge in areas of priority that are significant to national program development; 2) carefully formulated, time phased, measurable, objectives and feasible of methods for achieving these objectives; 3) relative capability of proposed staff; 4) likelihood of completing the project within the proposed timetable; 5) feasibility of the proposed budget; 6) potential for replication of the project model, plans for implementation and dissemination of results of project, including any manuals or other guidance for implementing program products for use by others; 7) evidence of the commitment from collaborating agencies and organizations when such could be expected to contribute to the success of the project; 8) adequacy of plans for data gathering and evaluation; 9) plans for achieving self-sufficiency following termination; and 10) effectiveness of the program and the services provided in addressing a specific problem that lends itself to the use of volunteers.

72.015 LITERACY CORPS

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, VISTA Literacy Corps produced 325 volunteer service years on approximately 80 projects throughout the Nation, designed to develop, strengthen, and expand the efforts of public and nonprofit organizations to overcome the problems of illiteracy in areas with the highest concentration of low-income individuals who are illiterate or functionally illiterate. VISTA Literacy Corps Volunteers have been involved in the recruitment of students and tutors, training of tutors, fund raising, and increasing public awareness of the problems of illiteracy. In fiscal year 1991, the Literacy Corps will produce approximately 575 volunteer service years on approximately 130 projects throughout the country. Special emphasis will be placed on assigning volunteers to areas with the highest concentrations of illiteracy and of low-income individuals and families. Literacy Corps Volunteers will attempt to mobilize private sector support and part-time volunteer resources in combatting illiteracy in areas of greatest need. For fiscal year 1992, 575 volunteer service years are planned for approximately 130 projects nationwide.

EXAMPLES OF FUNDED PROJECTS:

In Cleveland, Ohio, Literacy Corps Volunteers are organizing neighborhood literacy centers that provide basic reading instruction to low-income adults and youth who read at the third grade level and below.

NUCLEAR REGULATORY COMMISSION

77.001 RADIATION CONTROL—TRAINING ASSISTANCE AND ADVISORY COUNSELING

FINANCIAL INFORMATION:

Obligations:

(Course costs, travel and per diem expenses) FY 89 $584,000; FY 90 $806,500; and FY 91 est $825,000.

77.003 ENHANCE TECHNOLOGY TRANSFER AND DISSEMINATION OF NUCLEAR ENERGY PROCESS AND SAFETY INFORMATION

USES AND USE RESTRICTIONS:

The program includes grants for support of professional meetings, symposia, conferences, national and international commissions, and publications for the expansion, exchange and transfer of knowledge, ideas and concepts directed toward the research necessary to provide a technology base to assess the safety of nuclear power. The NRC specifically encourages educational institutions to submit proposals in the following areas: 1. Severe accident evaluation including high temperature chemistry of severe accident reactor radionuclides; advanced thermal hydraulic modeling of fluids including combustible gases and molten core materials in reactor primary systems during severe accidents; 2. High temperature material interactions during severe accidents (e.g., core/concrete, core debris/used components); 3. Steam explosions in reactors during severe accidents; 4. Human factors criteria and guidelines to reduce the risk from Nuclear Power Plant operations and maintenance; 5. Methods for the nuclear industry to use available human performance data; 6. Development of methodology for Risk and Reliability Analysis of closed loop control systems including advanced digital based control systems; 7. Develop and codify pragmatic, statistically valid, methods for updating severe accident frequency and consequence analysis to reflect results of new operational, experimental, and calculational data; 8. Develop merit of methods and procedures for establishing the degree to which Probabilistic Risk Assessment (PRA) results converge with operational data; 9. Development of methods to analyze and understand aging effects, improved examination and testing methods for determining condition of structures and components, and methods to assess residual lifetime of structures and components; 10. Development of methods for assuring component structural reliability, realistic methods to define the probabilities of radioactive release due to earthquakes; 11. Development of methods for assuring integrity of the primary system, i.e., pressure vessels, piping, steam generator tubing; 12. Development of methods to establish and validate decommissioning criteria; 13. Research on the safe containment of high and low-level waste at waste disposal sites; 14. Design of concepts to increase the safety of industrial radiography devices; 15. Development of comprehensive bibliography and analysis of data/study results on personnel dosimetry defining quantitative relationship between individual absorbed dose and dosimeters' measured dose; 16. Development of bases for a mandated or regulated periodic maintenance and replacement program for industrial radiography devices based on type of device, type of operation and operational environment; 17. Development of improved instrumentation or techniques for measuring activities, radiation dose, and dose rates, especially from small radioactive particles; 18. Development of methods for contamination prevention, measurement and control; and improved radiological air sampling methodology; 19. Investigation of the types, sensitivity and linearity of various biological effects of radiation that could be used as biological dosimeters; 20. Research on the metabolism of radionuclides and their compounds relative to calculation of internal dose; 21. Investigation of placental transfer of, and fetal doses from radionuclides incorporated by the pregnant worker; 22. Investigation of the efficacy of radio protective agents; 23. Development of methods to establish and validate individual and population impacts of the disposal of very low levels of hazardous materials through normal disposal practices; 24. Development of methods to manage severe accidents beyond the design basis; 25. Understanding of thermal-hydraulic phenomena in advanced light-water reactors; 26. Neutron polarization effects on reactivity control for advanced reactor application.

APPLICATION AND AWARD PROCESS:

Range of Approval/Disapproval Time:

Approximately six months.

FINANCIAL INFORMATION:

Obligations:

(Grants) To educational institutions: FY 89 $1,174,000; FY 90 est $1,200,000; and FY 91 est $1,165,000. The FY 1991 ceiling for research grants to educational institutions is approximately $1,165,000. Of this amount, approximately $770,000 will be available for new grants to educational institutions.

Range and Average of Financial Assistance:

Average funding for meeting symposia type grants will be approximately $5,000 to $25,000 per project; average funding for research grants with educational institutions will be restricted to about $75,000 per year with total project funding not exceeding $150,000 or a two year period.

77.005 FINANCIAL ASSISTANCE FOR NRC LOCAL PUBLIC DOCUMENT ROOMS (LPDRS)

CRITERIA FOR SELECTING PROPOSALS:

A proposal is judged for: (1) whether institution is an established document repository with a history of impartially serving the public located within 50 miles of the nuclear facility; (2) adequacy of physical facilities for shelving, equipment, and patron work areas; (3) adequacy of public accessibility to the library in terms of parking, ground transportation, hours of operation, open stacks, etc.; (4) proximity of library to groups known to use the LPDR collection and principal population centers; (5) proximity to the nuclear facility; (6) capability of the library staff to maintain the LPDR collection and serve patrons using the collection; (7) nature and type of related research resources such as government documents, especially NRC publications placed in Government depository libraries; and (8) accessibility of handicapped persons to the NRC document collection; and (9) reasonableness of estimated cost.

DEPARTMENT OF ENERGY

81.003 GRANTING OF PATENT LICENSES

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1990, five licenses have been granted. Ten to fifteen licenses are expected to be granted in fiscal years 1991 and 1992.

81.022 USED ENERGY-RELATED LABORATORY EQUIPMENT GRANTS

PROGRAM ACCOMPLISHMENTS:

The number of awards made depends on the amount and type of equipment excessed during the year. In fiscal year 1989, approximately 850 pieces of equipment were awarded to institutions of higher learning which totaled approximately $5,368,000 for original acquisition cost.

81.036 ENERGY-RELATED INVENTIONS

APPLICATION AND AWARD PROCESS:

Range of Approval/Disapproval Time:

The NIST evaluation time averages 5 to 8 months. DOE subsequent evaluation, negotiations, and procurement processing average 6 to 12 months.

81.039 NATIONAL ENERGY INFORMATION CENTER

PROGRAM ACCOMPLISHMENTS:

NEIC responded to approximately 39,000 inquiries for energy data and information during the most recent fiscal year.

81.041 STATE ENERGY CONSERVATION

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $9,519,000; FY 90 est $9,555,000; and FY 91 est $0.

REGULATIONS, GUIDELINES, AND LITERATURE:

Revised program regulations issued in the Federal Register on August 30, 1983 and December 27, 1988.

81.047 PRE-FRESHMAN ENRICHMENT

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Applications will be accepted only from U.S. colleges and universities granting baccalaureate degrees in at least one of the following disciplines: biological sciences; computer sciences; engineering and engineering technologies; natural resources; physical sciences; and mathematics. Nonprofit organizations, scientific and professional societies, science museums and science centers, two year colleges, profit industries, and Federal laboratories may participate in cooperative or joint PREP projects providing the application is submitted by a four-year U.S. college or university.

Beneficiary Eligibility:

Must be a citizen of the U.S. or permanent resident alien and meet the selection requirements of the college or university administering the program.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

The schedule of DOE payments is arranged at the time of grant negotiation. Grant duration is two years.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

Average award is $40,000.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1990, 25 individual grants were made in support of PREP objectives.

CRITERIA FOR SELECTING PROPOSALS:

(1) The extent the application demonstrates evidence of institutional commitment to PREP objectives and evidence that the institution will support the project; (2) the cost-sharing proposed is adequate to run an effective program; (3) the degree the proposed plans are clear and complete with expected impacts clearly noted; (4) the degree the DOE investment in this project makes a significant difference in increasing the science, engineering, and mathematics student population; (5) the proposed program is educationally sound and prepares students in science-based subject matter; (6) the degree, expertise, and breadth of the project personnel and the facilities of the institution appear adequate and appropriate for the task; (7) the extent the project will reach under represented groups in science, math, and engineering fields; and (8) the extent plans have been made to follow student progress after they have participated in the PREP project.

81.048 PRIORITIES AND ALLOCATIONS FOR ENERGY PROGRAMS AND PROJECTS

PROGRAM ACCOMPLISHMENTS:

DOE had eight requests for priority rating authority during fiscal year 1989.

INFORMATION CONTACTS:

Headquarters Office:

George L. Cooperrider, Director, Property and Equipment Management Division, PR-162, DOE, Washington, DC 20585. Telephone: (202) 586-4920.

81.050 ENERGY EXTENSION SERVICE

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $3,844,000; FY 90 est $3,983,000; and FY 91 est $0.

INFORMATION CONTACTS:

Headquarters Office:

James Demetrops, Acting Director, State Energy Programs Division, Department of Energy (CE-522), Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585. Telephone: (202) 586-2300.

81.052 ENERGY CONSERVATION FOR INSTITUTIONAL BUILDINGS

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $30,134,926; FY 90 est $32,767,736; and FY 91 est $0.

PROGRAM ACCOMPLISHMENTS:

This program began with the first grant issued May 31, 1979. Over one hundred grants were awarded to State Energy Agencies for preliminary energy audits. Over twenty-three thousand awards were made to institutions for energy conservation activities through August 31, 1990.

81.057 UNIVERSITY COAL RESEARCH

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $5,503,000; FY 90 est $5,675,000; and FY 91 est $5,361,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 299 grant applications were received and 31 were selected for awards in June 1989. In fiscal year 1990, 268 applications were received and 31 awards were announced in May 1990. In fiscal year 1991, it is anticipated that 275 applications will be received and 30 awards will be made.

REGULATIONS, GUIDELINES, AND LITERATURE:

A formal competitive solicitation for proposals is anticipated to be issued in December 1990 for the fiscal year 1991 program.

81.064 OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION

FINANCIAL INFORMATION:

Obligations:

(Salaries and expenses) FY 89 $16,500,000; FY 90 est $14,790,000; and FY 91 est $15,000,000.

PROGRAM ACCOMPLISHMENTS:

Over 3.7 million energy-related research and development information record items in data files at the end of fiscal year 1990. An estimated 200,000 energy research and development items added annually to data bases; 20,000 scientific and technical reports received and processed annually; 24,000 DOE research-in-progress files containing current descriptions of an ongoing energy research and development projects; 23,000 requests for public energy information filled; 22,000 scientific and technical reports distributed in microfiche.

81.065 NUCLEAR WASTE DISPOSAL SITING

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $8,714,000; FY 90 est $12,610,000; and FY 91 est $17,600,000.

81.078 INDUSTRIAL ENERGY CONSERVATION

AUTHORIZATION:

Department of Energy Organization Act of 1977, as amended, Public Laws 95-91 and 97-377.

FINANCIAL INFORMATION:

Obligations:

(Cooperative agreements) FY 89 $3,000,000; FY 90 est $3,500,000; and FY 91 est $4,000,000.

PROGRAM ACCOMPLISHMENTS:

Four grants were awarded in fiscal year 1989 and five grants were awarded in fiscal year 1990.

81.096 CLEAN COAL TECHNOLOGY PROGRAM

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. This program is excluded from coverage under E.O. 12372.

FINANCIAL INFORMATION:

Obligations:

(Cooperative Agreements) FY 89 $31,291,153; FY 90 est $130,161,000; and FY 91 est $181,491,000.

Range and Average of Financial Assistance:

Awards made in fiscal year 1989 ranged from $97,157 to $19,920,000; $5,215,192. Fiscal year 1990 awards are expected to range from $14,400 to $13,353,500. The average award is expected to be $5,191,828. Fiscal year 1991 awards are expected to range from $374,000 to $31,311,700; $6,722,000.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations pertinent to this program are to be set forth in a Program Opportunity Notice (PON), to be released during fiscal year 1991.

EXAMPLES OF FUNDED PROJECTS:

Tidd PFBC (pressurized fluidized-bed combustion) demonstration project; Prototype Commercial Coal/Oil Project; LIMB Demonstration Project Extension, NUCXA CFB Demonstration Project; and Coal Waste Recovery Demonstration Project.

CRITERIA FOR SELECTING PROPOSALS:

Criteria will be set forth in the solicitation when issued in late 1990 or early 1991.

81.097 SCIENCE AND ENGINEERING RESEARCH SEMESTER

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 221 honors level undergraduate science and engineering students participated in hands on research and instruction at six DOE laboratories. In fiscal year 1990, approximately 315 talented undergraduate students will participate in research opportunities at six of the DOE national laboratories. It is anticipated that in fiscal year 1991 as many as 350 students will participate.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The standard application forms as furnished by the Federal agency and required by 44 CFR 13 must be used for this program.

FINANCIAL INFORMATION:

Obligations:

(Grants to States through Regions) FY 89 $5,342,385; FY 90 est $9,127,850 (includes $3,381,000 material funds); and FY 91 est $5,864,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, there were approximately 600,069 participants in 6,689 training activities.

83.405 NATIONAL FIRE ACADEMY—TRAINING ASSISTANCE

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

For the train-the-trainer and in-service instructor trainees nominations are sought from State Fire Training Directors and Metropolitan Fire Department Chiefs. Once nominations are made and individuals selected, the stipend for processing the students is basically the same as for any other NFA applicant. This program is excluded from coverage under OMB Circular No. A-102 and E.O. 12372.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Students are required to pay for their meals which is about $13.30 daily.

FINANCIAL INFORMATION:

Obligations:

(Direct payments) FY 89 $1,207,315; FY 90 est $1,260,000; and FY 91 est $1,260,000.

83.411 NATIONAL FIRE ACADEMY EDUCATIONAL PROGRAM

FINANCIAL INFORMATION:

Obligations:

(Direct Program Expenditure) FY 89 $3,853,000; FY 90 est $3,998,000; and FY 91 est $4,195,000.

83.412 EMERGENCY MANAGEMENT INSTITUTE (EMI)—HOME STUDY PROGRAM

OBJECTIVES:

To enhance public and selected audience knowledge of emergency management practices among State and local government managers in response to emergencies and disasters. The program currently consists of six courses. They are HS-1, Emergency Program Manager; HS-2, Emergency Management, USA; HS-3, Radiological Emergency Management; HS-4, Preparedness Planning for a Nuclear Crisis: HS-5, Hazardous Materials: A Citizen's Orientation; and HS-6, Portable Emergency Data System.

APPLICATION AND AWARD PROCESS:

Range of Approval/Disapproval Time:

Within ten working days of receipt of request, unless unexpected delays occur in processing.

FINANCIAL INFORMATION:

Obligations:

(Training) FY 89 $108,000; FY 90 $105,000; and FY 91 est $141,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, there were 15,912 enrollments; the fiscal year 1990 estimate is for 21,000 enrollments, and fiscal year 1991 estimate is 21,000 enrollments.

83.413 EMERGENCY MANAGEMENT INSTITUTE (EMI)—RESIDENT EDUCATIONAL PROGRAM

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 et seq.; National Security Act of 1947, 50 U.S.C. 401 et seq.; Defense Production Act of 1950, as amended, 50 U.S.C. FINANCIAL INFORMATION:

Obligations:

(Direct program expenditure) FY 89 $4,146,000; FY 90 est $4,417,000; and FY 91 est $4,236,000.

83.503 CIVIL DEFENSE—STATE AND LOCAL EMERGENCY MANAGEMENT ASSISTANCE

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $58,116,090; FY 90 est $60,182,000; and FY 91 est $60,128,000.

83.504 OTHER STATE AND LOCAL DIRECTION, CONTROL AND WARNING

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $1,461,000; FY 90 $1,901,000; and FY 91 est $3,000,000.

Range and Average of Financial Assistance:

$1,000 to $50,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, required training on a computerized inventory and maintenance scheduling system was provided which will facilitate long-term planning based on predetermined maintenance and service requirements and cost estimates.

EXAMPLES OF FUNDED PROJECTS:

(1) Maintenance costs on EOC generators; (2) Replace underground full storage tank; (3) Repair of malfunctioning EOC communications equipment.

83.505 STATE DISASTER PREPAREDNESS GRANTS

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act 42 U.S.C. 5121 et seq.; Executive Orders 12148 and 12673.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application to indicate designated State agency to be involved and designated State disaster preparedness coordinator. The State submits Standard Form 424 and documentation specified by 44 CFR 13 as part of an application for a Comprehensive Cooperative Agreement. (A Comprehensive Cooperative Agreement is a single instrument for multiple programs.) Forms are furnished by and applications are submitted to the appropriate FEMA Regional Office. This program is excluded from coverage under OMB Circular No. A-110.

FINANCIAL INFORMATION:

Obligations:

(Improvement Grants) FY 89 $1,800,000; FY 90 est $2,500,000; and FY 91 est $2,950,000.

Range and Average of Financial Assistance:

The average Federal funding for this program is approximately $38,000, with grants ranging from $12,000 to $50,000.

PROGRAM ACCOMPLISHMENTS:

All States received development grants except the Canal Zone, which declined. Each produced a State emergency plan for disaster assistance (or equivalent) as well as other preparedness measures. Improvement Grants: fiscal year 1988 54, fiscal year 1989 54, fiscal year 1990 is 51. The improvement grants have produced a variety of products such as revisions to basic State emergency plans, local basic plans (actual or model), natural hazard contingency plans, vulnerability analyses and guidebooks on disaster assistance for State and local governments.

83.512 STATE AND LOCAL EMERGENCY OPERATING CENTERS

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $4,720,000; FY 90 $4,824,000; and FY 91 est $5,000,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, funds were used to develop 8 State EOCs in locations outside the nuclear attack threat area as identified in the Federal Emergency Management Agency's "Nuclear Attack Planning Base - 1990 (NAPB-90).

83.513 STATE AND LOCAL WARNING AND COMMUNICATION SYSTEMS

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $859,000; FY 90 $1,116,000; and FY 91 est $3,150,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, $907,500 in matching funds was available.

83.514 POPULATION PROTECTION PLANNING

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$38,000-$496,000; $149,100.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, State planners assisted State and local jurisdictions to develop 206 EOP's and updated 144 previously developed EOP's. Each EOP detailed the provisions for response to and recovery from disasters or emergencies associated with nuclear attack, natural hazards, and technological accidents. The State planners conducted 350 exercises. Each exercise provided a means to evaluate response procedures detailed in the EOP's and to validate the jurisdiction's emergency response capability. Further, the planners taught 125 multi-hazard planning workshops. These workshops provide a forum to bring together the local emergency services personnel that are responsible for developing the jurisdiction and to build a viable planning team. During fiscal year 1990, this planning effort will accomplish the development of approximately 50 EOP's and the update of approximately 250 previously developed EOP's. Also, the State planners will conduct approximately 300 exercises and 150 multi-hazard planning workshops. In fiscal year 1991, planners will update and improve approximately 320 EOP's. They will conduct approximately 320 exercises and approximately 150 workshops relating to emphasized planning objectives.

83.515 EMERGENCY BROADCAST SYSTEM GUIDANCE AND ASSISTANCE

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

Range: $1 to $200,000; $100,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, protection of 99 emergency broadcast stations received $3,394,397 in funding assistance.

83.516 DISASTER ASSISTANCE

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 et seq.; Executive Order 12148; Reorganization Plan No. 3 of 1978; Executive Order 12673.

USES AND USE RESTRICTIONS:

Public Assistance in the form of cost-sharing grants to States, local governments, federally recognized Indian tribal governments, U.S. territories and possessions, and eligible private nonprofit organizations as follows: (1) Following a Presidential declaration of an emergency, assistance may include (a) removal of wreckage and debris and (b) performance of emergency protective measures on private and public lands; (c) emergency transportation assistance; (d) emergency communications; (e) restoration of eligible facilities; and (f) loans to local governments suffering substantial loss of tax and other revenue. (2) Hazard mitigation grants are cost shared with States, local governments and eligible private, non-profit organizations, with the Federal share limited to 10 percent of the eligible Public Assistance Permanent Restoration Grants. The hazard mitigation grants are used to fund State and local post-disaster mitigation measures. Without a Presidential declaration, grants may be made to States for the suppression of forest and grassland fires which threaten to become major disasters. Individual Assistance for individuals and families adversely affected by declared disasters or emergencies may be provided as follows: (1) Temporary housing; (2) Assistance to the unemployed; (3) Crisis counseling; (4) Individual and Family Grants for disaster-related necessary expenses, and (5) Legal services.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Cost will be determined in accordance with FEMA Disaster Assistance Regulations 44 CFR Part 205 for disasters declared prior to November 23, 1988, and FEMA Disaster Assistance Regulations 44 CFR Part 206 for disasters declared on or after November 23, 1988.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Funds are allocated from the President's Disaster Relief Fund for use in a designated emergency or major disaster area. In the case of Public Assistance and Hazard Mitigation, the FEMA Regional Director then approves grants from this allocation on the basis of project applications for eligible applicants. States are responsible for distributing funds to subgrantees. As a condition of grants or loans under the Act, applicants are encouraged to take measures, including land use construction modification and to mitigate natural hazards. Individuals receive assistance directly from FEMA or other appropriate Federal, State and local government agencies.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, 29 major disasters were declared involving 18 States and 2 territories, and the District of Columbia; 3 fire suppression grants were made.

REGULATIONS, GUIDELINES, AND LITERATURE:

Federal Disaster Assistance Regulations, 44 CFR 205 for disasters declared prior to November 23, 1988; Federal Disaster Assistance Regulations, 44 CFR 206 for disasters declared on or after November 23, 1988; "Handbook for Applicants", DR&R-1; "Eligibility Handbook", DR&R-2; "Insurance Handbook for Public Assistance", DAP-3; "Fire Suppression Assistance Handbook", DR&R-4; "Community Disaster Loan Handbook", DAP-5; "Environmental Review Handbook", DR&R-6; "Your Disaster Assistance Center", DR&R-10; "Floodplain Management", DR&R-11; "Duplication of Benefits Handbook", "Making Mitigation Work: A Handbook for State Officials", DAP 12; DR&R-17; "Digest of Federal Disaster Assistance Programs", DAP-19; Program Guide: Disaster Assistance Programs, DAP-21.

83.517 ELECTROMAGNETIC PULSE (EMP) TECHNICAL SUPPORT

FINANCIAL INFORMATION:

Obligations:

FY 89 $513,000; FY 90 $837,000; and FY 91 est $1,300,000.

REGULATIONS, GUIDELINES, AND LITERATURE:

44 CFR Parts 13 and 14, CPG 2-1A4, May 1982, FEMA Attack Environment Manual, chapter 4, What The Planner Needs to Know About Electromagnetic Pulse. FEMA Manual 9300.1, April 1990; from Manual 9300.2, April 1985; and Electromagnet Pulse Protection Guidance CPG 2-17, January 1986.

83.519 HAZARD MITIGATION ASSISTANCE

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act; Public Law 93-288, as amended, 42 U.S.C. 5121 et seq.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, seventeen projects were funded. These included the development of flood mitigation plans, hazard mitigation workshops, public awareness campaigns, and multi-hazard analyses.

CRITERIA FOR SELECTING PROPOSALS:

Eight factors will be used to evaluate proposals. Projects must, at a minimum, satisfy the first four (1) Serious or repetitive hazard vulnerability; (2) Demonstrated commitment to mitigation on the part of the State or local government; (3) Compliance with all regulatory requirements of the National Flood Insurance Program, Section 406 of Public Law 93-288, as amended, and Executive Order 11988 if applicable; (4) Potential for long term benefit; (5) Capability to involve the general public and private sector; (6) Transferability of project to other localities; (7) Vulnerability to multiple hazards; (8) Active community development program.

83.520 HURRICANE PREPAREDNESS GRANTS

AUTHORIZATION:

DEPARTMENT OF EDUCATION

84.002 ADULT EDUCATION—STATE-ADMINISTERED BASIC GRANT PROGRAM

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$19,592 to $12,877,789; $2,768,514 (fiscal year 1990 figures).

84.003 BILINGUAL EDUCATION

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$5,000 to $500,000; $160,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal year 1990 funds supported 798 classroom instructional elementary and secondary school projects.

84.004 DESEGREGATION ASSISTANCE, CIVIL RIGHTS TRAINING, AND ADVISORY SERVICES

USES AND USE RESTRICTIONS:

The Assistant Secretary makes awards to desegregation assistance centers and State educational agencies to provide race, sex, and national origin desegregation technical assistance and training at the request of public elementary and secondary school districts. These awards are intended to facilitate the desegregation of public elementary and secondary schools, by supporting technical assistance training and advisory services to help solve problems related to race, sex, and national origin desegregation. Each desegregation assistance center serves one of ten geographic regions.

APPLICATION AND AWARD PROCESS:

Renewals:

Desegregation assistance centers receive three-year awards if they meet the criteria for annual continuation in the regulations. SEA's receive one-year awards.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Funds are appropriated on an annual basis; payments are normally made on a quarterly basis.

84.009 EDUCATION OF HANDICAPPED CHILDREN IN STATE OPERATED OR SUPPORTED SCHOOLS

FEDERAL AGENCY:

SPECIAL EDUCATION AND REHABILITATIVE SERVICES, DEPARTMENT OF EDUCATION

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, Title I, Chapter 1, Part D, Subpart 2, Public Law 89-10, 20 USC 2791.

OBJECTIVES:

To provide programs that supplement services to handicapped children enrolled in State operated or State supported schools and programs to handicapped children enrolled in local educational agencies that have transferred from a State school or program.

USES AND USE RESTRICTIONS:

Funds may be used for projects providing supplementary educational and related services such as employment of special personnel, training in the use and provision of assertive devices and other specialized equipment, teacher and teacher aide training, and acquisition of equipment and instructional materials. The construction of facilities is prohibited.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State educational agencies in the 50 States, District of Columbia, Puerto Rico, and the Territories (American Samoa, Guam, The Commonwealth of the Northern Marianas, the Virgin Islands, and Palau) are eligible for participation. Local educational agencies may participate on behalf of children who were formerly served in State agencies for at least one school year and counted in average daily attendance and then transferred from the State agency to a local educational agency.

Beneficiary Eligibility:

Handicapped children aged birth to 21 that a State agency is responsible for providing free public education or early intervention services, and by reason of their handicap requires special education and related services, or in the case of children aged birth through two years, require early intervention services. Those classifications include mentally retarded, hard of hearing, deaf, speech or language impaired, visually handicapped, seriously emotionally disturbed, orthopedically handicapped, other health impaired, specific learning disabled and multi-handicapped children, including those that are deaf-blind.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

A State agency must provide a State educational agency with the required information. This program is excluded from coverage under E.O. 12372.

Application Procedure:

State educational agencies apply to the Department of Education. State disability agencies eligible LEAs apply to SEAs for a subgrant lasting for a period of up to three years.

Deadlines:

Child counts taken on December 1, are due from the SEA by February 1. The application deadline for SEAs is established by the Department of Education. Deadlines for subgrants from the SEA are established by the SEA.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The State educational agency grant is determined by a formula. The statistical factors used for fund allocation are: The State total number of handicapped children in average daily attendance (birth to 21) counted as served on December 1 of the fiscal year that the award is made; multiplied by 40 percent of the average per pupil expenditure for each State (or not less than 80 percent nor more than 120 percent of the national coverage per pupil expenditure). The source is the "Revenues and Expenditures Annual," ratably reduced. NCES statistical factors used for eligibility do not apply to this program. Project monies are granted by the SEA on the basis of the number of handicapped children served, merit of the project design, and the provision of required assurances. There are no matching requirements. This program has maintenance of effort (MOE) requirements, see funding agency for further details.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the Education Department General Administration Regulations in the Appendix to 34 CFR 80, State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with the Appendix to Part 80, or in accordance with Federal laws and regulations governing the programs in which they participate.

Records:

In accordance with the General Education Provisions Act and the Education Department General Administrative Regulations (34 CFR, 76, and 80), certain project records must be maintained for five years.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

In 1990, the range is $66,141 to $24,727,529.

PROGRAM ACCOMPLISHMENTS:

This program supports a wide variety of educational efforts on behalf of handicapped children in State operated and State supported schools and programs. In fiscal year 1989, all eligible applicants were funded and are expected to be funded in fiscal year 1990.

REGULATIONS, GUIDELINES, AND LITERATURE:

45 CFR 121a. Regulations implementing the program, as amended by Public Law 100-297, were published in the Federal Register on August 24, 1990.

84.010 CHAPTER 1 PROGRAMS—LOCAL EDUCATIONAL AGENCIES

OBJECTIVES:

To improve the educational opportunities of educationally deprived children by helping them succeed in the regular school program, attain grade level proficiency, and improve achievement in basic and more advanced skills.

USES AND USE RESTRICTIONS:

Primarily for provision of compensatory instructional activities to educationally deprived children that reside in low-income areas and have been selected on the basis of a needs assessment. Services must supplement, not supplant, those normally provided by State and local educational agencies.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State educational agencies (SEAs) and the Secretary of the Interior may apply. Local educational agencies (LEAs) and Indian tribal Schools are subgrantees.

Beneficiary Eligibility:

Educationally deprived children living in low-income areas and are selected for participation by LEAs.

Credentials/Documentation:

None.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

SEAS submit, on a one time basis, assurances to the Department that they comply with Section 200.10 of the program regulations. LEAs submit applications to SEAs. Forms for these applications are developed by each State. To be eligible the application must conform with the Act, regulations, and criteria established by the SEA.

Award Procedure:

The Department of Education awards grants to SEAs by employing a statutory formula. Each SEA makes suballocations to school districts on formula basis and releases funds to local school districts under the Electronic Transfer System procedure after it has received and approved an application from a local school district.

Deadlines:

There is no deadline at the Federal level. Deadlines for LEA applications are established by each State.

Appeals:

If an LEA's application is disapproved by the SEA it may appeal to the SEA and then to the Department of Education under Section 425 of the General Education Provision Act.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The formula for allocating Basic Grants is in Section 1005 and for concentration grants in Section 1006 of the Elementary and Secondary Education Act of 1965. Basic Grants are allocated to school districts by formula, based on a State's per pupil expenditure for education and the number of school-aged children from low-income families. Concentration Grants are allocated to counties and LEAs having at least 6,500 children from low-income families or a poverty rate of at least 15 percent. In cases where counties and LEAs qualify under the 15 percent poverty rate threshold, the statute requires all children from low-income families to be counted for allocation purposes; in counties and LEAs that qualify only under the 6,500 children threshold, only low-income children in excess of that number are counted. The law also provides a minimum

State allocation for Concentration Grants. The Outlying Areas do not receive funding. Within LEAs, school officials target funds in schools with the greatest numbers of poor children. Although Basic Grants and Concentration Grants are allocated to LEAs through different formulas, school districts combine these funds for use as a single program. There is no matching requirement. This program has maintenance of effort (MOE) requirements; see funding agency for further details.

POST ASSISTANCE REQUIREMENTS:

Reports:

States submit annual performance reports.

Audits:

In accordance with the Education Department General Administration Regulations in the Appendix to 34 CFR 80, State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with the Appendix to Part 80, or in accordance with Federal laws and regulations governing the programs in which they participate.

Records:

In accordance with the General Education Provisions Act, and the Education Department General Administration regulations, States must maintain certain program records for five years.

Compensatory Education Programs, Office of Elementary and Secondary Education, Department of Education, 400 Maryland Avenue, SW., Room 2043, Washington, DC 20202-6132. Contact: Mary Jean LeTendre. Telephone: (202) 401-1682.

84.011 MIGRANT EDUCATION—BASIC STATE FORMULA GRANT PROGRAM

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, Title I, Chapter 1, Part D, Subpart 1, 20 U.S.C. 2781 et seq.

USES AND USE RESTRICTIONS:

Program funds are used for compensatory education programs for migratory children.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

States are responsible for ensuring that information documenting a child's eligibility is recorded on a certificate of eligibility.

APPLICATION AND AWARD PROCESS:

Application Procedure:

State educational agencies submit applications to the Department of Education that meet the requirements of Section 1202(a) of the Elementary and Secondary Education Act and Section 201.11 of the program regulations.

Range of Approval/Disapproval Time:

Approximately three months.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Funds are allocated through a statutory formula based on each State's per pupil expenditure and the number of eligible full-time equivalent migrant students aged three through twenty-one residing within the State. In determining the full-time equivalent number of migratory children who are in a State during the summer months, the Secretary adjusts the number to take into account the special needs of those children for summer programs and the additional costs of operating such programs during the summer. Counts of migratory children are as determined through the Migrant Student Record Transfer System (MSRTS) of the Arkansas State Department of Education. State per pupil expenditure rates are determined by the National Center for Education Statistics (NCES). This program has MOE requirements; see funding agency for details. This program has no matching requirements.

84.013 CHAPTER 1 PROGRAM FOR NEGLECTED AND DELINQUENT CHILDREN

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, Title I, Chapter 1, Part D, Subpart 3, 20 U.S.C. 2801 et seq.

OBJECTIVES:

To meet the special educational needs of children in institutions or community day care programs for neglected or delinquent children, and children in adult correctional institutions.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State educational agencies (SEAs) may apply. State agencies responsible for the education of neglected or delinquent children may apply to SEA's for subgrants.

Beneficiary Eligibility:

Children under 21 years of age that have been placed in a State institution for neglected or delinquent children, or in an adult correctional institution, or a community day program operated by a State agency will benefit.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

None. This program is excluded from coverage under E.O. 12372.

Application Procedure:

State agencies desiring subgrants submit applications for their institutions to the State educational agency. Applications must conform to the Act, regulations, and criteria established by the State educational agency. State educational agencies submit assurances specified in 34 CFR 203.10 to the Department of Education.

Award Procedure:

The Department of Education's Office of Elementary and Secondary Education awards grants to State educational agencies, that in turn, awards subgrants to the State agencies that have submitted applications.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The amount each State agency is eligible to receive is determined in accordance with Sections 1241 and 1291 of the Elementary and Secondary Edcuation Act of 1965 and Sections 203.20 and 203.21 of the program regulations. The statistical factors used for fund allocation include: the average daily attendance in the State agencies' schools for neglected and delinquent children; the State's average per pupil expenditure; and the amount of the appropriation. There is no matching requirement. This program has maintenance of effort (MOE) requirements; see funding agency for further details.

POST ASSISTANCE REQUIREMENTS:

84.027 HANDICAPPED—STATE GRANTS

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State education agencies in the 50 States, District of Columbia, Puerto Rico, American Samoa, Commonwealth of the Northern Mariana Islands, Guam, Virgin Islands, and the Republic of Palau Islands may apply to the Department of Education for participation in the Part B, EHA program under Section 611. The Department of the Interior, Bureau of Indian Affairs, is eligible for a grant. Local education agencies apply to their State educational agency for funds.

Beneficiary Eligibility:

Children that are mentally retarded, hard of hearing, deaf, speech or language impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired, specific learning disabilities, including deaf-blind children, or multihandicapped, also children requiring special education and related services will benefit.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Funds for the 50 States, the District of Columbia, and Puerto Rico, are allotted on the basis of a certified count of the number of handicapped children aged 3 through 21 years, receiving special education and related services on December 1 of the fiscal year that the grant is made. Funds to the outlying areas are allotted on the basis of their respective need not to exceed one percent of the aggregate amounts available to States in a fiscal year, as determined by the Secretary of Education. The Department of the Interior receives 1.25 percent of the amounts available to States. There are non-supplanting and excess cost requirements. The statistical factors used for fund allocation are: 1) The total number of handicapped children receiving special education (3 through 21 years old) by a State: the sources are the unpublished reports from the State educational agencies; 2) the average national per pupil expenditure; and 3) "Revenues and Expenditures," CES. Statistical factors used for eligibility do not apply to this program. This program has maintenance of effort (MOE) requirements, see funding agency for further details.

84.032 GUARANTEED STUDENT LOANS

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Generally, for the Stafford, SLS, and PLUS programs, any U.S. citizen, national, or person in the United States for other than a temporary purpose, who is enrolled or accepted for enrollment in a degree or certificate program on at least a half-time basis as an undergraduate, graduate, professional or vocational student at a participating postsecondary school. If a student is enrolled in a non-degree/non-certificate course of study, the student may receive a Stafford Loan or SLS for one twelve month period, if the school determines that the course of study is necessary in order for the student to enroll in a program leading to a degree or certificate. A student enrolled on at least a half-time basis in a program that is required by a State for a professional credential or certificate for employment or a teacher in an elementary or secondary school located in that State are eligible to receive aid under the Stafford Loan, SLS, and the PLUS programs. However, students that are enrolled in institutions with student loan default rates that exceed 30 percent are not eligible to receive SLS loans. Consolidation loan borrowers need not be enrolled in any school to be eligible.

FINANCIAL INFORMATION:

Obligations:

(Loan volume disbursed) FY 89 $10,938,000,000; FY 90 est $10,964,000,000; and FY 91 est $11,019,000,000.

Range and Average of Financial Assistance:

Under the Stafford Loan program the maximum may not exceed $2,625 for each of the first two academic years of undergraduate education, and $4,000 for each remaining year of undergraduate education; total loans outstanding may not exceed $17,250. Graduate and professional students may borrow up to $7,500 annually for a maximum outstanding of $54,750 (includes amounts borrowed as an undergraduate student under the Stafford Loan program, and any portion of a Consolidation Loan that was used to repay a Stafford, SLS, or PLUS Loan). Under the SLS program, a graduate or professional student, or an undergraduate student may borrow up to $4,000 per academic year, with an aggregate loan maximum of $20,000. The annual loan limit for SLS borrowers is reduced if the course of study is less than an academic year. Under the PLUS program, parents may borrow up to $4,000 per academic year for each dependent student, with an aggregate loan maximum of $20,000 per student.

PROGRAM ACCOMPLISHMENTS:

Loans were made by about 13,000 lenders. The annual number of loans disbursed to students was 4.1 million in fiscal year 1989. The annual number of loans disbursed to students is projected to be 4.1 million in fiscal year 1990 and 4.2 million in fiscal year 1991.

84.034 PUBLIC LIBRARY SERVICES

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

General public, in localities having no library service or inadequate library service, and residents in State institutions.

APPLICATION AND AWARD PROCESS:

Application Procedure:

To qualify for a grant, States must submit for approval by the Secretary of Education a basic State Plan (State/Federal agreement) as defined in Section 3(11) of the Act. This plan includes the State's assurance of its capabilities for administering the program, as well as specific policies, criteria, and priorities for implementing programs as defined in the Act. Annually, each State must: (1) Review and amend the approved basic State plan; (2) review and revise its long-range program; and (3) submit an annual program consisting of projects to be funded. All plans and programs must be developed with the advice of the State Advisory Council on Libraries and in consultation with the representative of the Secretary of Education.

Award Procedure:

Grants are awarded to State library administrative agencies, using some of the funds at the State level and award competitive subgrants with the remaining funds.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Grants to States are based on the most recent total resident population data from the Bureau of the Census, but with a $200,000 minimum for the 50 States, District of Columbia, and Puerto Rico, and a $40,000 minimum for the other outlying areas. Federal share ranges from 33 percent to 66 percent except for the Republic of Palau, which is 100 percent. Matching requirements are in proportion to the State's per capita income, based on data from the Bureau of Economic Analysis.

Length and Time Phasing of Assistance:

All funds are awarded to each State upon approval of the State plan, including the annual program. Funds must be expended by the end of the fiscal year following the year of allotment.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $79,324,038; FY 90 est $80,854,900; and FY 91 est $0.

PROGRAM ACCOMPLISHMENTS:

In 1989, 37 percent of the funds were used for improving inadequate public library services or providing access to those without services; 25 percent for targeted populations, including the handicapped, State institutionalized, and elderly; 25 percent for State administration and strengthening State library administrative agencies; and 13 percent for other areas; including the set-aside funds for major urban resource libraries.

84.035 INTERLIBRARY COOPERATION

APPLICATION AND AWARD PROCESS:

Deadlines:

State plans including the annual program are due by October 1 of the year of appropriation.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Grants to States are based on the most recent total resident population data from the Bureau of the Census, but with a minimum of $40,000 for the 50 States, District of Columbia, and Puerto Rico, and a minimum of $10,000 for the other outlying areas. The Federal share is 100 percent. No matching is required.

Length and Time Phasing of Assistance:

All funds are awarded to each State upon approval or the State plan, including the annual program. Funds must be expended by the end of the fiscal year following the year of allotment.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $18,719,960; FY 90 est $19,159,980; and FY 91 est $19,964,560.

PROGRAM ACCOMPLISHMENTS:

In 1989, over 470 projects were supported.

84.036 LIBRARY CAREER TRAINING

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title II-B, Section 222, 20 U.S.C. 1032.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Eligible institutions submit applications to the Department of Education on behalf of the individuals to be trained.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

At least 50 percent of the program funds must be used for fellowships or traineeships.

84.038 PERKINS LOAN PROGRAM—FEDERAL CAPITAL CONTRIBUTIONS

USES AND USE RESTRICTIONS:

Institutions use funds to make loans to needy, eligible students for meeting educational expenses. An institution is entitled to an administrative cost allowance for an award year if it advances funds to students in that year under the Perkins Loan program, for expenditures which equal five percent of the first $2,750,000, plus four percent for expenditures greater than $2,750,000 but less than $5,500,000, plus three percent for expenditures in excess of $5,500,000. For 1991, no funds are proposed for this program.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Funds are allocated to institutions on the basis of award year 1985-86 expenditures and demonstrated need for funding. Institutions award funds to students on the basis of financial need as determined by the Congressional Methodology specified in statute. Institutions must supply at least $1 for each $9 in Federal funding.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

For award period 1989-90: Institutional, $200 to $2,471,775; Student, no minimum to $18,000 (cumulative maximum); institutional average, $59,089; average annual loan to students, $1,262.

PROGRAM ACCOMPLISHMENTS:

During the award period 1988-89 (latest available figures), 3,296 institutions loaned $874,528,653 of NDSL funds to 692,709 students.

84.039 LIBRARY RESEARCH AND DEMONSTRATIONS

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Applications for grants may be submitted by an institution of higher education or a public or private agency, institution or organization.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Eligible institutions should submit applications directly to the Department of Education.

Deadlines:

For fiscal year 1991, the closing date for proposals is February 4, 1991.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $308,975; FY 90 est $285,000; and FY 91 est $285,000.

CRITERIA FOR SELECTING PROPOSALS:

(1) Plan of operation; (2) quality of key personnel; (3) budget and cost-effectiveness; (4) evaluation plan; (5) adequacy of resources; (6) significance of proposed project; and (7) likelihood of dissemination and continuation.

84.040 IMPACT AID—CONSTRUCTION

OBJECTIVES:

To provide assistance for the construction of urgently needed minimum school facilities: in school districts that have had substantial increases in school membership as a result of new or increased Federal activities (Section 5); for children residing on Federal property where State or local funds cannot be spent on the education of federally connected children (Section 10); for school districts comprised mainly of Indian lands or that provide a free public education to children who reside on Indian lands (Section 14(a) and (b)) and districts that are comprised mainly of Federal property and that have inadequate facilities (Section 14 (c)); and where reconstruction of facilities is necessary because of a Presidentially declared disaster (Section 16).

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Section 5 provides construction assistance if a school district has experienced or will be experiencing a substantial increase in the number of federally connected children during a four-year increase period. Section 10 requires the Department of Education to provide school facilities for federally connected children when State or local laws preclude the expenditure of State and local funds for providing school facilities on Federal property. Section 14(a) provides construction assistance to school districts if (1) At least 15 of the school district's children, constituting at least one-third of the school district's total membership, reside on Indian lands, (2) Indian lands constitute at least one-third of the land area of the school district, or (3) the school district provides free public education for at least 100 children who reside on Indian land outside of the school district; the tax-exempt status of Indian land substantially and continually impairs the school district from financing needed school facilities; the school district makes a reasonable tax effort to raise funds for financing school facilities and to take advantage of State and other sources of financial assistance for this purpose; and the school district has insufficient funds available from all sources to provide classrooms and classroom equipment for at least five percent of its enrollment. Section 14(b) provides construction assistance to school districts if (1) At least 15 of the district's children, constituting at least 10 percent of the total membership in the school district, reside on Indian lands, (2) Indian lands constitute 10 percent of the land area of the school district, or (3) the school district educates at least 100 children who reside on Indian land outside of the school district; and the tax-exempt status of Indian land substantially and continually impairs the school district from financing needed school facilities. Section 14(c) provides construction assistance to school districts if (1) At least 20 of the district's children, representing at least thirty-three and one-third percent of its total membership, are unhoused; Federal property constitutes at least thirty-three and one-third percent of the land area of the school district; the nontaxable status of Federal property within the district substantially and continually impairs the district's ability to finance school facilities; the school district makes a reasonable tax effort to raise funds for school facilities and to take advantage of State and other sources of assistance for this purpose; and the school district has insufficient funds from all other sources to provide minimum school facilities for at least five percent of its membership. Section 16 authorizes the Department of Education to replace or restore school facilities destroyed or seriously damaged by major disasters, once the school district has exhausted all other funding sources.

APPLICATION AND AWARD PROCESS:

Deadlines:

Established each year by notices published in the Federal Register, usually on or about June 30; 90 days following publication in the Federal Register of a Presidential disaster declaration.

Range of Approval/Disapproval Time:

Varies from two months to one year after filing date; approval is dependent upon meeting eligibility criteria and availability of funds. Disaster assistance applications are required by statute to be approved or disapproved within 90 days of filing.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Section 5 payments are based on a percentage of the State's average per pupil cost of school construction in the second year of the four year increase period covered by the project request. Awards under other sections of the Act may not exceed the cost of constructing minimum school facilities for federally connected children. See CFR 221.60 through 221.63 for additional details.

Length and Time Phasing of Assistance:

Except for Section 10, after firm preliminary sketches and other requirements of the Act have been met, a project is approved and 10 percent of the total approved amount is paid. When the basic contract has been let, an additional 50 percent is certified for payment and 30 percent additional is paid when the project is approximately 50 percent completed. The remaining 10 percent is paid after the project has been completed. Except for the initial 10 percent payment, applicants must request additional payments at the appropriate stage of the project. Under Section 10, the Department generally makes payments directly to contractors.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, regular program funds will initiate 16 new construction projects, including life safety repairs and replacements.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations are in Title 34 CFR 219 and 221.

INFORMATION CONTACTS:

Headquarters Office:

Program Operations, Impact Aid Program, Office of Assistant Secretary for Elementary and Secondary Education, Department of Education, 400 Maryland Ave., SW., Washington, DC 20202-6244. Contact: Charles E. Hansen. Telephone: (202) 732-3637.

EXAMPLES OF FUNDED PROJECTS:

Additions of classrooms to existing buildings. Repairs of schools to incorporate access to the physically handicapped and ensure the safety of building users. Construction of school facilities on Indian lands. Repair and replacement of buildings destroyed by disasters.

CRITERIA FOR SELECTING PROPOSALS:

Except for Sections 10 and 16, based on priority indices established by a combination of: 1) Ratio of federally connected children eligible for payment to the total membership in the district; and 2) ratio of the number of children unhoused (without school facilities) to the total membership. For Section 10, projects are funded according to relative urgency of need. All eligible projects under Section 16 are funded each year.

84.041 IMPACT AID—MAINTENANCE AND OPERATIONS

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Local educational agencies that provide free public elementary or secondary education may apply under the authorities of Sections 2, 3, and 4. Section 2 provides assistance if ten percent or more of the assessed valuation of all real property in the school district has been acquired by the Federal government since 1938 and causes a substantial and continuing financial burden. Section 3 provides assistance to districts where three percent or 400 in number of total average daily attendance (ADA) of pupils either live on Federal property and/or have a parent who works on Federal property or is on active duty in the uniformed services. Section 4 authorizes assistance when there is a sudden and substantial increase in enrollment as a result of Federal activities. Section 7 provides assistance for current school expenditures in cases of Presidentially declared major disasters if a school district requires additional assistance equal to at least $10,000 or five percent of the LEA's current operating expenditures for the fiscal year preceding the year in which the disaster occurred, whichever is less.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Funds for Sections 2 and 3 are generally distributed through several partial payments during the fiscal year. Section 7 Disaster Assistance payments are generally paid in installments for costs incurred on a reimbursable basis.

Appeals:

Subject to an administrative law hearing under Section 5 (g) of Public Law 81-874.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Section 2 -- The Department's estimated assessed valuation of the property acquired by the Federal government times the LEA's tax rate equals the maximum entitlement. Continuing need or burden are also included in the formula. Source of data: Assessed valuation, records of tax rates, etc., are obtained from local or county tax assessors/collectors. Burden or needs data are obtained from school district fiscal records. Section 3 -- Average daily attendance of federally connected students times per pupil expenditure average from the second preceding year times the weight in the statute for some categories of students times the formula in the statute, with adjustments specified in some appropriations bills. Source of data: Attendance and membership figures from applications school district pupil accounting records, or from the SEA; eligible federally connected pupils from actual pupil/parent survey forms; expenditure data from National Center for Education Statistics or SEAs. Section 7 -- See 34 CFR 219. Disaster funds make up the difference between insurance and other resources available to the district and the total cost of repairs.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. The program staff conducts on-site reviews to verify application data and collect additional required information.

84.063 PELL GRANT PROGRAM

AUTHORIZATION:

Higher Education Act of 1965, Title IV, Part A, Subpart I, as amended.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Undergraduate students enrolled as regular students in an eligible program at an eligible institution of higher education on at least a half-time basis and are making satisfactory academic progress. The applicants must be U.S. citizens or eligible non-citizens and have a high school diploma, a GED, or demonstrate the ability to benefit from the program offered.

Beneficiary Eligibility:

Undergraduate students that are U.S. citizens or eligible non-citizens and meet financial need criteria. Students must be enrolled in institutions of higher education and at least on a half-time basis and make satisfactory academic progress. They must sign a statement of educational purpose, not owe a refund on a Title IV grant, and not be in default on a Title IV loan. Students also sign a statement of updated information and an Anti-Drug Abuse Act Certification. Eligible males that are at least 18 years old and born after December 31, 1960, can receive aid only if they have registered with the Selective Service.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Institutions act as disbursing agents for the Department of Education. The institution that the student attends calculates and disburses the Pell Grant, using a payment schedule developed by the Department of Education and based on the student's financial need, cost of attendance, and enrollment status.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

The 1990-91 Pell Grant Family Contribution Schedule specifications are set forth in Sections 411A through 411F of the Higher Education Act of 1965, as amended. This national need analysis formula determines financial eligibility for Pell Grants and is applied uniformly to all applicants. This national need analysis formula determines a students's "expected family contribution" (EFC). The fundamental elements in this need analysis formula are the parent's and/or the student's income and assets, the family's household size, and the number of family members attending postsecondary institutions. The EFC is determined as the sum of: (1) A percentage assessment of net income (remaining income after subtracting allowances for basic living expenses) plus (2) a percentage assessment of net assets (remaining assets after subtracting an asset protection allowance).

84.117 EDUCATIONAL RESEARCH AND DEVELOPMENT

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

None.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Standard Form 424, "Application for Federal Assistance," an application narrative, and required certifications must be submitted to the Application Control Center at the address and by the deadline specified in the Application Notice published in the Federal Register. This notice is published between 30 and 90 days before the deadline.

Award Procedure:

Applications are approved by the Assistant Secretary, OERI, after a review by staff and nongovernmental experts applying the selection criteria in the program regulations and in some cases additional criteria specified in a notice published in the Federal Register. Applications selected for funding are subject to final negotiations.

Deadlines:

Deadlines for the receipt of applications are published in the Federal Register. Contact the headquarters office for application deadlines.

Appeals:

None.

Renewals:

Multi-year awards may be made. Procedures for continuation awards within a multi-year project period are governed by the Education Department's General Administrative Regulations. Continuation awards are dependent upon satisfactory progress by the grantee and the availability of appropriations. Continuation applications may be required.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $18,821,000; FY 90 est $19,411,000; and FY 91 est $41,739,000.

PROGRAM ACCOMPLISHMENTS:

In preparation for the upcoming competition for new research and development centers, the Office of Research solicited advice directly from a cross-section of persons in the field and held two research agenda planning conferences with invited policymakers, education practitioners, researchers, and parent and community leaders. These activities were helpful in determining the final list of research and development centers to be included in the 1990 competition. The Office of Research continued to support several significant studies and published a variety of reports including: Effective Programs for Students at Risk: A Sourcebook and Strategies to Reduce Student Misbehavior. For fiscal year 1990, a competition was held for 18 university based research and development centers. The centers focus on such priority areas as: families, communities, children's learning, education in the inner cities, and adult literacy. The awards for the new research and development centers will be made in fiscal year 1991. A total of 95 applications were received for the 18 centers. No additional center competitions will be held in 1991. In 1990, 240 applications were received, and 12 awards were made to individual researchers for field initiated research projects. A similar number of applications are anticipated in 1991, between 15 and 18 awards may be made.

EXAMPLES OF FUNDED PROJECTS:

The educational research and development centers are responsible for conducting research and development in areas or topics of national concern and for disseminating their findings and products nationally. In fiscal year 1990, centers conducted research and development in the following areas: teacher education, student testing, evaluation, standards, reading, writing, learning, elementary and middle schools, secondary schools, postsecondary governance and finance, postsecondary teaching and learning, education and employment, State and local policy development, context of secondary teaching, teaching of elementary subjects, and school leadership. Other activities include educational research projects covering a wide range of topics initiated by individual researchers.

84.126 REHABILITATION SERVICES—BASIC SUPPORT

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. A copy of the initial application for construction of facilities will be transmitted to the appropriate State clearinghouse and metropolitan or regional clearinghouse. The standard application forms as furnished by the Federal agency and required by 34 CFR Part 80 must be used for this program.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Under the Rehabilitation Act of 1973, Public Law 93-112, Title I, Part A, Section 110, as amended, Federal funds are distributed (80 percent Federal and 20 percent State) based on population weighted by per capita income. The State share for payments made in future years over the 1988 allotments will increase by one percent each year up to 25 percent in fiscal year 1993. For fiscal year 1991, the State share will be 20 percent of the 1988 base and 23 percent for any increase above that base. Funds become available for obligations on October 1, of the fiscal year for which they are appropriated and remain available for 12 months. The statistical factors for fund allocation are: 1) The per capita income three year average by State and the source is the Survey of Current Business, Bureau of Economic Analysis; 2) the U.S. total population and State population and the source is the Population Estimates Annual, Bureau of the Census; Bureau of Labor Statistics. Statistical factors used for eligibility do not apply to this program. This program has maintenance of effort (MOE) requirements, see funding agency for further details.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

In fiscal year 1989, $158,936 to $116,239,977; in fiscal year 1990, $150,593 to $123,014,633.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, States served 928,998 persons and vocationally rehabilitated 220,408 of them. The large majority of the remaining cases were still receiving rehabilitation services as of September 30, 1989. About two-thirds of all persons served and rehabilitated were severely disabled. Record high numbers of severely disabled persons served and rehabilitated were reached in fiscal year 1989. It is anticipated that in fiscal years 1990 and 1991, there will be a slight increase in the number of persons served by State agencies, especially those persons who are severely disabled.

84.128 REHABILITATION SERVICES—SERVICE PROJECTS

USES AND USE RESTRICTIONS:

American Indians, projects with industry, special demonstrations, supported employment, migrant workers and seasonal farmworkers and recreational programs. Grants must substantially contribute to solution of vocational rehabilitation problems common to special groups of individuals with handicaps. For example: Projects to prepare individuals with handicaps for gainful employment in the competitive labor market; payment to cover cost of establishing programs to expand or improve rehabilitation services for the severely handicapped.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Projects with industry grants are awarded to employers/labor union profit making and nonprofit organizations, and State vocational rehabilitation agencies, special demonstrations and recreation projects are awarded to public or private nonprofit institutions or organizations. Grants cannot be made directly to individuals. Migratory worker projects are funded by grants to State rehabilitation agencies (including territories/possessions) and American Indian services are funded by grants to governing bodies of Indian tribes or consortia thereof on Federal or State reservations. Eligible applicants for supported employment projects include public and nonprofit organizations and designated State vocational rehabilitation agencies.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Awards are made on approval of the Commissioner of Rehabilitation Services for new projects and the Regional Commission of Rehabilitation Services for continuation projects under the Migratory Worker program.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Project support varies from a maximum of three to five years depending upon the grant program. Funds are granted on a twelve month basis.

PROGRAM ACCOMPLISHMENTS:

Rehabilitation service projects complement the basic State Grant Program. For 1989, 84 severely disabled service projects including 13 spinal cord injury centers were continued; 39 new projects were funded. Thirty-eight new recreation projects were funded in 1990; 112 continuation PWI projects were funded in 1990; five continuation and six new migrant worker projects were funded in 1990; four new and ten continuation Native American projects were funded in fiscal year

1990. In 1990, 29 supported employment projects were continued (17 statewide demonstrations and 12 community based) and two new national technical assistance projects were funded.

CRITERIA FOR SELECTING PROPOSALS:

Special demonstration projects for individuals with severe handicaps must expand and improve rehabilitation services for single or multiple disabilities. Funding priorities are announced in the Federal Register. Grants for migrant seasonal farm workers projects are made only to State rehabilitation agencies. Individuals with handicaps served by projects with industry must be certified as eligible for services by the State rehabilitation agency and the projects must provide supportive rehabilitation services in addition to vocational training in a realistic work setting leading to competitive employment. Supported employment projects must expand or improve the provision of supported employment services to individuals with severe handicaps. Applications for discretionary grants are subjected to peer review procedures leading to recommendations for approval or disapproval by Federal and nonfederal experts. Criteria for evaluating applications are published in program regulations (34 CFR 369-379).

84.129 REHABILITATION TRAINING

PROGRAM ACCOMPLISHMENTS:

Approximately 13,650 persons were trained under the program during the 1989-90 academic year. Approximately 337 projects were funded in fiscal year 1989. For fiscal year 1989, approximately 77 new long-term, 42 new in-service, 3 new continuing education, and 4 new experimental and innovative projects were funded.

84.132 CENTERS FOR INDEPENDENT LIVING

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

The principal eligible applicant is the State vocational rehabilitation agency (including territories/possessions); however, if a State agency fails to apply for a grant within three months after they are available or indicates in writing an intention not to do so, any local public or private nonprofit agency or organization may apply directly.

Beneficiary Eligibility:

Individuals with handicaps who are so limited by the severity of their disabilities that independent living services are necessary to attain independence in home or community, or where appropriate, to secure and maintain employment.

APPLICATION AND AWARD PROCESS:

Award Procedure:

New awards are made on approval of the Commissioner of Rehabilitation Services Administration based on a nonfederal review of findings of Federal and nonfederal reviews using selection criteria published in the Federal Register (34 CFR 367).

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

No minimum share is required, but each applicant is encouraged to furnish as large a part of the total cost as possible.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 141 continuation grants were funded for the operation of 192 centers. All current projects will be continued in fiscal year 1990. A competition for three new awards will take place in 1990.

EXAMPLES OF FUNDED PROJECTS:

Provided services will vary from one center to another. Centers provide a combination of services, including: intake counseling; referral and counseling with respect to attendant care; counseling and advocacy services with respect to legal and economic rights and benefits; independent living skills training; housing, community living, and transportation referral and assistance; health maintenance programs; peer counseling; and attendant care and training of personnel to provide such services.

CRITERIA FOR SELECTING PROPOSALS:

Priority is given to geographic areas currently not served or underserved by independent living centers.

84.133 NATIONAL INSTITUTE ON DISABILITY AND REHABILITATION RESEARCH

OBJECTIVES:

To support and coordinate research and its utilization to improve the lives of people of all ages with physical and mental disabilities, especially persons with severe disabilities through: (1) Identifying and eliminating causes and consequences of disability; (2) maximizing the health, physical, and emotional status of persons with disabilities and their functional ability, self-sufficiency, self-development and personal autonomy; (3) preventing or minimizing personal and family, physical, mental, social, educational, vocational, and economic effects of disability; and (4) reducing and eliminating physical, social, educational, vocational, and environmental barriers to permit access to services and assistance and to use their abilities in daily life.

USES AND USE RESTRICTIONS:

Grants, cooperative agreements, and contracts are awarded for research, demonstrations, dissemination/utilization projects of national significance, and career training projects. All applications must meet standards of excellence in research and evaluation design. Fellowships support individual investigators in pursuing research in rehabilitation.

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Persons of all ages with disabilities will benefit.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $53,913,000; FY 90 est $54,318,000; and FY 91 est $54,318,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 10 fellowships were awarded; 22 continuations and 11 new field-initiated grants were supported. Forty-one innovation grants were funded; 33 rehabilitation research and training centers were maintained and six new ones were funded; 16 rehabilitation engineering centers were maintained; 13 spinal cord model systems projects were maintained; 27 research and demonstration projects were continued and four new projects were funded; eight utilization projects were continued and three new projects were funded; eight research training grants were continued and three new grants were funded.

84.141 MIGRANT EDUCATION—HIGH SCHOOL EQUIVALENCY PROGRAM

OBJECTIVES:

To assist students who are engaged, or whose families are engaged, in migrant and other seasonal farm work to obtain the equivalent of a secondary school diploma and subsequently to gain employment or be placed in an institution of higher education or other postsecondary education or training.

USES AND USE RESTRICTIONS:

Project funds may be used to recruit and provide academic and support services (including counseling, health services, stipends, and placement) to migrant students to obtain the equivalent of a secondary school diploma and to subsequently gain employment or be placed in an institution of higher education or other postsecondary education or training.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

To be eligible to participate in HEP, a migrant or other seasonal farm worker or dependent must: (1) Not have earned a secondary school diploma or its equivalent; (2) not be currently enrolled in an elementary or secondary school; (3) be above the age of compulsory school attendance in the State where the project is located; and (4) be determined by the grantee to need the academic and supporting services and financial assistance provided by the project.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application forms are available from the Department of Education. An applicant submits its application to the Department of Education no later than the date announced by the Department in the Federal Register. An application must be prepared and submitted in accordance with the regulations, instructions, and forms included in the grant application package. Applications are reviewed and evaluated by a panel for selection of possible funding.

Award Procedure:

The Department of Education notifies a successful applicant of its award. Actual negotiation and awarding of grants is done by the Department of Education's, grant and contract services.

Deadlines:

Contact the Department of Education for application deadlines.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

84.169 COMPREHENSIVE SERVICES FOR INDEPENDENT LIVING

APPLICATION AND AWARD PROCESS:

Application Procedure:

In order to be eligible for an allocation under this program, States must submit a three year State plan for independent living services (meeting requirements established under the Rehabilitation Act of 1973, as amended) no later than July 1, of the year proceeding the first fiscal year of the three-year period that the plan is submitted. The plan is updated whenever necessary to reflect a material change in the administration of the plan. The State may choose to submit a consolidated three year rehabilitation plan that includes independent living rehabilitation services and either vocational rehabilitation services or both the State's rehabilitation plans and the State's plan for services for persons with developmental disabilities developed under the Developmental Disabilities Act. State vocational rehabilitation agencies submit State plans to the appropriate ED Regional Office. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

A notice of annual allotment to the State is issued. Initial distributions are subject to reallocation at the end of the fiscal year. States receive quarterly grant award notices and funds may be withdrawn under the Electronic Transfer System.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Federal funds are distributed based on the percentage each State's population constitutes of the total population of the United States. The source is the Population Estimates Annual, Bureau of the Census. The Federal share for any fiscal year is 90 percent of the eligible expenditures incurred by the State, except for the cost of construction of rehabilitation facilities, where the Federal share may be no more than 50 percent.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, funds under this program were distributed to 79 State agencies. The total number of active cases for persons served was 17,283 for 1989.

84.173 HANDICAPPED—PRESCHOOL GRANTS

OBJECTIVES:

To provide grants to States to assist them in providing a free appropriate public education to preschool handicapped children aged three through five years.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

State education agencies in the 50 States, the District of Columbia, Puerto Rico, American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, Virgin Islands, and the Republic of Palau may apply to the Department of Education for participation.

Beneficiary Eligibility:

Three through five year old children that are mentally retarded, hard of hearing, deaf, blind, speech or language impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired preschool children having specific learning disabilities, including deaf-blind and multihandicapped children that require special education and related services.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Once the State program plan and preschool grant application are submitted and approved, a grant award representing the total preschool grant amount for that fiscal year (if under a continuing resolution, a portion of the grant amount) is forwarded to the State's department of education. During the three year cycle, amendments may be required in order to maintain the fully approved application. The preschool grant is an award separate from Part B award under Section 611 and is awarded on the basis of an annual application until 1990. By 1991 a State must serve all preschool children with handicaps if the State wants to continue participating in this program and receive funds for three through five year olds served under the Handicapped State Grants and State Supported programs.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Grants to States are determined by an annual count of handicapped children aged three through five years who are receiving special education and related services on December 1 of the fiscal year that funds have been appropriated. In addition, for fiscal years 1987-1989, States received bonus grants based on the estimated increase in three through five year old children with handicaps to be served by the next December 1.

HARRY S TRUMAN SCHOLARSHIP FOUNDATION

85.001 HARRY S TRUMAN SCHOLARSHIP PROGRAM

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Undergraduate junior level students at four year colleges and universities and sophomore level college students from two year higher education institutions who are properly nominated by accredited colleges or universities recognized by the Department of Education.

Beneficiary Eligibility:

U.S. citizens or nationals, college sophomores or juniors.

Credentials/Documentation:

Enrolled, matriculated in a degree program at an accredited U.S. college; Pursuing a bachelor's degree as a full-time student during the forthcoming academic year; ranked in the upper third of her or his class; U.S. citizen or national; selected field of study that will permit admission to a graduate or professional program allowing better preparation for a career in public service.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

Each July the chief executive offices of all accredited U.S. colleges and universities are invited to appoint a Truman Scholarship Faculty Representative to manage the selection and nomination of up to four students for the forthcoming year's Truman Scholarships. The standard nomination forms with instructions will be provided in September to the designated faculty representatives of all such institutions whose presidents or chancellors inform the Foundation of their intent to participate.

Application Procedure:

The faculty representative of an institution is the key person in the Truman Scholarship selection process and serves as liaison between her or his institution and the Foundation. The faculty representative is responsible for publicizing the Truman Scholarship on campus, soliciting recommendations on students with significant potential for leadership in government from members of the faculty, conducting a competition on campus in order to determine the candidates best qualified to be nominated by the institution, helping prepare the nominees for the competition, and insuring that the institution's official nomination or nominations are forwarded to the Truman Scholarship Review Committee by the stated deadline. The following information, on the official nominating materials, must be included with each Scholarship nomination: 1. The nomination and supporting information for the Harry S Truman Scholarship Program must include a certification that the student is a candidate for a Truman Scholarship; a statement that the student plans to pursue a career in public service; a list of the student's public service activities such as those associated with government agencies, community groups, and political campaigns; a list of leadership positions the student has held during high school and during the first two years of undergraduate study; a statement of interest in a career in public service that specifies how the student's educational plans will provide preparation for that career; and a statement that the student is willing to participate in an internship or seminar sponsored by the Foundation. 2. It must also contain an essay of 800 words or less written by the student that discusses some public policy issue chosen by the student; transcripts of the student's high school and college grades; and three letters of recommendation. One of the letters must be written by a faculty member in the student's field of study, one by another person who can discuss the student's leadership potential and abilities, and the third letter may be from any person of the nominee's choosing.

Award Procedure:

1. Initial evaluation: Students nominated for consideration as Harry S Truman Scholars will be evaluated on the basis of: a. the extent to which the student has shown an outstanding potential for leadership in public service, b. the extent of participation in community and public service activities, c. the appropriateness of the candidate's intended plan of study to prepare him/her for a career in public service, d. the student's academic performance. 2. Interviews: Finalists selected as a result of the initial evaluation of the credentials of all nominees are interviewed by Regional Review Panels, composed primarily of prominent scholars and public officials. Finalists from two year higher education institutions will be interviewed by a National Review

Panel. Each Review Panel will recommend from among the qualified applicants one person from each State or district for appointment by the Board of Trustees as a Truman Scholar, plus up to four additional persons in rank order for Scholarships at large from each region. In the case of the Finalists from two year institutions, the Review Panel will recommend the names of two to five candidates for selection as Truman Scholars. The Review Panels will concentrate their evaluation on the nominees' demonstrated interest in the public service, their relative potential for leadership in government, their analytical abilities, their commitment to careers in public service, and the quality of their submitted materials. Among the characteristics they will assess in making this judgment are the following: analytic ability, communication skills, independence, initiative, integrity, self-confidence, sensitivity to others, ability to explain with clarity a complex situation, a demonstrated interest in public service, and a commitment to future public service. 3. Final Selection: From among the candidates recommended by the Review Panels, the Board of Trustees will name up to 82 winners of Harry S Truman Scholarships. Other finalists may be named as official alternates and will be eligible to receive that year's Scholarship if the winner originally named from the same State or district is not able to begin studies as a Truman Scholar.

Range of Approval/Disapproval Time:

1. January, each year - Scholarship nominees are evaluated and Finalists selected. 2. February-March, each year - Truman Scholarship Finalists are interviewed. 3. April, each year - The Truman Scholars and alternates are selected by the Board of Trustees of the Harry S Truman Scholarship Foundation.

Renewals:

1. It is the intent of the Foundation to renew Scholarship awards made to college juniors for a period not to exceed three academic years of graduate study, in accordance with the regulations established by its Board of Trustees, and subject to an annual review for compliance with these requirements. For scholarships to students at two year institutions, it is the intent to renew the award for the senior year of college and for a period not to exceed two academic years of graduate study. 2. The Foundation may terminate a Scholarship: a. when a student has not maintained, satisfactory proficiency, or b. when the student is no longer enrolled in a program preparing her or him specifically for public service as specified by the Foundation. 3. A Scholar may seek postponement of her or his award because of ill health or other mitigating circumstances, upon application to the Executive Secretary.

PROGRAM ACCOMPLISHMENTS:

Since 1977, the year of the Program's inception, 1,229 (of a total of 13,543 nominees) college students studying for careers in public service have received Scholarship assistance. The first five classes of Truman Scholars are progressing well toward their goals of preparation for public service by gaining acceptance to high quality postgraduate programs, by pursuing Foundation-assisted or self-initiated internship opportunities, and by securing positions in government at the Federal, State, and local levels.

93.020 FAMILY SUPPORT PAYMENTS TO STATES—ASSISTANCE PAYMENTS

OBJECTIVES:

To set general standards for State administration; provide the Federal financial share to States and U.S. Territories for Aid to Families with Dependent Children (AFDC); provide related work activities to assist recipients in becoming self-sufficient; provide child care so individuals can participate in approved education and training activities and to accept or maintain employment; provide temporary emergency assistance to families with children; provide assistance to repatriated U.S. citizens and Nationals; provide aid to the aged, blind, and the permanently and totally disabled in Guam, Puerto Rico, and the Virgin Islands; and monitor the performance and administration of these programs.

USES AND USE RESTRICTIONS:

Cash payments are made directly to eligible needy families with dependent children and to needy aged, blind, or disabled persons in Guam, Puerto Rico, and the Virgin Islands. These payments are to cover costs for food, shelter, clothing, and other daily living needs recognized as necessary by each State's program. Payments in the form of cash or vendor payments assist needy families or individuals (as well as repatriated U.S. citizens) for monthly income maintenance and child care or, for certain families with children in emergency or crisis situations, to prevent destitution. Funds for State and local administration of programs are for costs of interviewing public assistance applicants for eligibility determination and validation of eligibility; costs of providing child care; costs of State and local personnel engaged in program direction and management; and other on-going costs and activities related to administering the programs. Special enhanced matching rates are available to States for the development of automated State-wide AFDC management information systems which are certified as providing more efficient, economical and effective administration of the program. Special matching rates are also available for certain fraud control activities. States must implement guaranteed transitional child care beginning April 1, 1990.

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Needy families with dependent children deprived of parental support or care, and families with children needing emergency welfare assistance; former AFDC recipients who lost eligibility due to increased hours of work or income, or expiration of time-limited earned income disregards; aged, blind or permanently and totally disabled persons in Guam, Puerto Rico, and the Virgin Islands, and U.S. citizens and Nationals certified as eligible by the Department of State.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Once an application is approved, States are awarded funds quarterly based on FSA-approved estimates of maintenance assistance and administrative costs. Notification of awards must be made to the designated State agency. Individuals eligible for AFDC receive monthly subsistence checks from State or local welfare agencies. Child care costs may be paid directly to participant or to the provider or through use of the child care disregard. Under the Repatriate Program State agencies are reimbursed for actual expenditures.

Deadlines:

Individuals may apply anytime to State or local welfare agencies for Aid to Families with Dependent Children.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

States have two options for matching rates. If a State does not have an approved medical plan, the statistical factors used for Federal sharing in assistance payments are: Grant funds pay five-sixths of the first $18 of the average paid monthly per person on AFDC and then 50 percent to 65 percent of the balance within the Federal average per person maximum of $32.00. The maximum is $100 per recipient for AFDC children in foster care. If the State has an approved Medicaid Plan, it may elect to use the Medicaid formula with no maximum (provided the State has an approved Medicaid Plan) which may range from 50 to 83 percent Federal funds for total benefits paid, depending upon State per capita income levels. Under the Medicaid formula the Federal share of payments for AFDC and the adult categories in Guam, Puerto Rico, and the Virgin Islands, is 75 percent (subject to statutory ceilings). The Federal matching rate for State and local administration and training costs is 50 percent. The Federal matching rate for allowable costs of State-wide management information systems meeting statutory criteria is 90 percent. The Federal matching rate is 90 percent for certain fraud control activities, and 100 percent for certain activities to verify the legal status of resident aliens. Under the Repatriate Program, State agencies are reimbursed for actual expenditures. Child care costs are funded under Title IV-A and are matched at the FMAP rate, with the exception of child care costs in Puerto Rico, Guam, the Virgin Islands and American Samoa. Costs in Territories are matched at 75 percent under their funding caps. States are subject to fiscal disallowances for exceeding the national average error rate for all States in a given year or 4 percent, whichever is higher. States are liable for erroneous overpayments which exceed the 3 percent tolerance level.

Length and Time Phasing of Assistance:

Individuals receive support from the State or local welfare agency until they no longer meet the eligibility requirements of the State. Eligibility for transitional child care is limited to 12 consecutive months, beginning with the month in which AFDC eligibility is lost due to either an increase in hours of work or earned income, or expiration of time-limited earned income disregards. Grant funds are awarded to States quarterly. The Electronic Transfer System will be used by States for monthly cash draws on the Federal Reserve Bank.

93.021 JOB OPPORTUNITIES AND BASIC SKILLS TRAINING

OBJECTIVES:

To assure that needy families with children obtain the education, training, and employment that will help them avoid long-term welfare dependency. In addition, to enable needy individuals to participate in the program under Part F of the Social Security Act, each State agency must provide payment or reimbursement for such transportation and other work-related expenses as is necessary to enable such participation. Child care must be guaranteed if necessary to enable participation in Job Opportunity and Basic Skills Training (JOBS) or work activity.

USES AND USE RESTRICTIONS:

Funding to States, federally-recognized Indian Tribes, and Alaska Native organizations is to establish and operate JOBS programs and to provide payment or reimbursement for such transportation and other work-related expenses as is necessary to enable such participation. Child care for JOBS participants, participants in other approved activities, and for eligible former AFDC recipients who meet eligibility criteria is funded out of the Title IV-A program.

ELIGIBILITY REQUIREMENTS:

Beneficiary Eligibility:

Welfare recipients and approved applicants, specifically those receiving Aid to Families with Dependent Children (AFDC) benefits or AFDC/Unemployed Parents benefits.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

States and Territories must submit a JOBS plan to the State Job Training Coordinating Council and make it available to the public 60 days before submittal to the Secretary, DHHS. Tribal governments and Alaska Native Organizations must make their final JOBS plan available for public comment and submit it to the State welfare agency 30 days before submittal to the Secretary, DHHS. Assistance in preparing JOBS plans and Indian Program applications is available from Regional agency officials. This program is excluded from coverage under E.O. 12372.

Range of Approval/Disapproval Time:

A State should submit a JOBS plan at least 45 days prior to the State's proposed implementation of the program. Similarly, eligible Indian Tribal governments or Alaska Native Organizations should submit their final JOBS documentation at least 45 days prior to the applicant's proposed implementation of the program.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Funding under the JOBS provisions will be available for a State with its implementation of an approvable JOBS program. JOBS Allocations to States: A State's JOBS program is entitled to funding under two main provisions: (1) an amount equivalent to the amount allotted to the State under WIN or WIN Demonstration authority in fiscal year 1987, with FFP at 90 percent, and the State's share made up of cash and/or in kind fairly evaluated; (2) an allotment percentage of the remainder of the specified annual limit ($800 million for fiscal year 1990) proportionate to the State's percentage of the national total of adult AFDC recipients. The FFP rates for these funds are as follows: (a) at 50 percent for: indirect personnel costs which are excluded from JOBS matching at the FMAP rate (or 60 percent); nonpersonnel services costs associated with these indirect personnel costs; the costs of such items as JOBS program planning, monitoring, letting contracts, systems, Title IV-F fair hearing activities, and other indirect costs of providing JOBS services and activities; and for transportation, work-related expenses, and work-related supportive services as provided under the requirements of 45 CFR 255; and (b) at the higher of 60 percent FFP or the State's Federal Medical Assistance Percentage (FMAP) for: personnel costs (salaries and benefits) for full-time staff working full time in any capacity in the JOBS program; and all direct costs associated with providing JOBS program services to individuals, including assessment, development of the employability plan, case management, and JOBS component activities. For any period prior to October 1, 1990, a State that has implemented JOBS will be entitled to quarterly pro rata allotments of the total annual amounts, as determined above. Adjustments for Indian Programs: For any State in which a JOBS program is separately established and funded for a Tribal government or an Alaska Native Organization, pursuant to Section 482(i) of the Social Security Act, the State's quarterly allocation for JOBS will be reduced by the amount of funds granted to such Tribe(s) in that State. Funds for Tribal and Alaska Native programs do not require nonfederal matching. Child care and transitional child care costs are matched at the FMAP rate, except in Puerto Rico, Guam, the Virgin Islands and American Samoa, and are included under Title IV-A funding. Territorial child care costs are matched at 75 percent and are included in the cap.

REGULATIONS, GUIDELINES, AND LITERATURE:

FSA regulations were published in the Federal Register, 45 CFR 250, 255, and 256 on October 13, 1989 (54 FR 42146-42261). 93.022 ASSISTANCE PAYMENTS—RESEARCH

APPLICATION AND AWARD PROCESS:

Application Procedure:

This program is subject to the provisions of OMB Circular No. A-102. The standard application forms, as furnished by DHHS and required by OMB Circular No. A-102, must be used for this program. Application kits which contain the prescribed application forms and supplemental descriptive information on the priority projects are available from: Family Support Administration, 370 L'Enfant Promenade, SW., Washington, DC 20447. Contact: Charlene Tompkins. Telephone: (202) 252-4583. To be considered for a grant award, all applications must be submitted to the Grants Management Branch. The application shall be executed by an individual authorized to accept the obligations imposed by the terms and conditions of the grant. As part of the project title (page 1 of the application form, Form FSA-95, item 7) the applicant must clearly indicate whether the application submitted is in response to a priority project identified in a program announcement and must reference the unique project identifier (e.g., FSA-89-1) for which the application is to compete. Applications are initially screened for relevance to program interests. Irrelevant applications will be returned to the applicant. Relevant applications are reviewed and evaluated by a review panel of not less than three experts. Applicants may also submit proposals for projects not specifically identified in a program announcement but which are relevant to the FSA and OFA program goals. These applications will be designated as nonpriority but will also be subject to the panel review process. A limited number of projects may be approved pending available funds and will compete with other nonpriority projects. Written assessment of each application is made. This program is excluded from coverage under OMB Circular No. A-110.

93.023 CHILD SUPPORT ENFORCEMENT

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Federal financial participation is 64.846 percent in fiscal year 1990 of the administrative costs incurred by the State pursuant to an approved Title IV-D State plan. This includes costs incurred by certain court and law enforcement officials pursuant to cooperative agreements with the IV-D agency. Incentive payments are made to States from the Federal share of AFDC recoupments. For certain developmental and operational costs of child support automatic data processing (ADP) systems, the Federal financial participation is 88.427 percent in fiscal year 1990, upon prior approval by OCSE. Including incentive payments, the Federal government pays an average of 86 percent of State costs, with some States receiving over 100 percent of costs.

93.024 CHILD SUPPORT ENFORCEMENT RESEARCH

APPLICATION AND AWARD PROCESS:

Application Procedure:

This program is subject to the provisions of OMB Circular Nos. A-102 and A-110, as appropriate. The standard application forms, as furnished by DHHS and required by OMB Circular No. A-102, must be used for this program. Application kits which contain the prescribed application forms and supplemental descriptive information on the priority projects are available from: Family Support Administration, Office of Financial Management, Division of Grants Management, 6th Floor, 370 L'Enfant Promenade, SW., Washington, DC 20447. Telephone: (202) 252-4620. Contact: Charlene Tompkins, Acting Deputy Associate Administrator, Division of Grants Management. To be considered for a grant award, all applications must be submitted on the prescribed application forms and submitted to the Division of Grants Management. The application shall be executed by an individual authorized to act for the applicant agency or organization and to assume for the agency or organization the obligations imposed by the terms and conditions of the grant. As part of the project title (page 1 of the application form, Form SSA-96, item 7) the applicant must clearly indicate whether the application submitted is in response to a priority project identified in a program announcement and must reference the unique project identifier (e.g., OCSE-84) for which the application is to compete. Applications are initially screened for relevance to program interests of the Office of Child Support Enforcement (OCSE). Inappropriate applications will be returned to the applicant. Relevant applications are reviewed and evaluated by a review panel of not less than three knowledgeable people. Applicants may also submit proposals for projects not specifically identified in a program announcement, but which are relevant to the OCSE program goals. These applications will be designated as nonpriority, but will also be subject to the panel review process. A limited number of projects may be approved pending available funds and will compete with other nonpriority projects. Written assessment of each application is made.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, one new grant funded from special program funds, and several continuations were supported. In fiscal year 1990, three new grants and one new contract are expected to be awarded from special program funds. No information is available for fiscal year 1991.

93.025 STATE LEGALIZATION IMPACT ASSISTANCE GRANTS

AUTHORIZATION:

Immigration Reform and Control Act of 1986, Section 204, Public Law 99-603, 100 Stat. 3405-11, 8 U.S.C. 1255a; 42 U.S.C. 1381, 1382, 1396, as amended; Immigration Nursing Relief Act of 1989, Public Law 101-238, 8 U.S.C. 1255a Note, Section 402, 43 (a) (b).

USES AND USE RESTRICTIONS:

Funds may be used to pay for costs incurred by State or local governments in providing the following assistance and services for eligible legalized aliens: (1) cash and medical assistance and other public assistance that is generally available to citizens of the State for basic subsistence needs, and for which eligibility is determined by some measure of need; (2) public health services, including those generally available to the public and for which State and/or local funds are expended; and (3) educational services, including English language instruction and instruction in other skills required for eligible legalized aliens to adjust to permanent resident alien status; (4) education and outreach effort utilizing State Legalization Impact Assistance Grants (SLIAG) funds regarding unfair discrimination in employment practices based on national origin or citizenship status. Funds also are available for costs incurred by State or local government in providing public health services to applicants for status under Sections 210, 210A, and 245A of the Immigration and Nationality Act. Under current law, five annual appropriations have been made; States may retain their Federal grant authority through FY 1994.

93.026 REFUGEE AND ENTRANT ASSISTANCE—STATE ADMINISTERED PROGRAMS

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

Subsidies depend on the number of refugees and Cuban and Haitian entrants in a given State, the extent of financial and medical care use among the refugees, and State standards of assistance. For the State with highest number of refugees and Cuban and Haitian entrants, about $155 million was awarded for fiscal year 1989; the smallest amount awarded was approximately $124,000.

PROGRAM ACCOMPLISHMENTS:

Approximately 107,000 refugees were admitted in fiscal year 1989; 125,000 refugees are authorized for admission in fiscal year 1990. Decisions on refugee admissions have not yet been made for fiscal year 1991. About 48.5 percent of those in the U.S. less than 24 months were receiving welfare assistance as of September 30, 1989. At the end of fiscal year 1989, 49 States and the District of Columbia had approved plans for refugee resettlement. In addition, 33 States and jurisdictions currently provide assistance and services on behalf of Cuban and Haitian entrants.

93.032 COMMUNITY SERVICES BLOCK GRANT—DISCRETIONARY AWARDS

USES AND USE RESTRICTIONS:

Federal funds awarded under the Secretary's Discretionary Authority may be used for activities that: improve the quality of the economic and social environment of low-income residents by providing resources to eligible applicants, by arresting tendencies toward dependency, chronic unemployment and community deterioration in urban and rural areas; address the two major needs of housing, repair and rehabilitation, and water and waste-water treatment; focus on the special needs of migrant and seasonal farmworkers to improve their quality of life and advance self-sufficiency; provide national or regional recreational programs for low-income youth; and involve significant new combinations of resources. (1) Projects must result in direct benefits targeted toward low-income people as defined in the most recent Department of Health and Human Services Annual Revision of Poverty Income Guidelines, which are published in the Federal Register. (2) Generally, the project must be capable of being completed within 17 months of the award of the grant. However, depending upon the characteristics of any individual project, a grant which involves construction may be made for a period of up to 2 years. Each project will have an expiration date. (3) OCS will give favorable consideration to projects which document public/private partnership which mobilize cash and/or in-kind contributions.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Awards are granted on a competitive basis. Announcements concerning the availability of funds, requests for applications, along with application form and assurance documents, are published in the Federal Register. Applications to the Office of Community Services for grants under the announcement should be addressed to: Discretionary Grant Program, Office of Grants

Management, Family Support Administration, 6th Floor, 370 L'Enfant Promenade, SW., Washington, DC 20447. Applicants are urged to inform and coordinate application submissions with State and local governments where such information and coordination is appropriate or necessary for the success of the program. This program is subject to the provisions of Title 45 CFR, Part 74. All applications for assistance under this program must contain: (1) SF-424, Application for Federal Assistance; (2) SF-424A, Budget Information; (3) SF-424B, Assurances-Non- Construction Programs; (4) Certificate Regarding Drug Free Workplace Requirements; (5) Certification Regarding Debarment, Suspension, and Other Responsibility Matters; and (6) Certification Regarding Lobbying. These must be accompanied by a detailed budget, and a program narrative submitted in accordance with the format detailed in the program announcement.

CRITERIA FOR SELECTING PROPOSALS:

The review criteria for the Discretionary Grant program are as follows: ORGANIZATIONAL CAPABILITY AND CAPACITY: (1) Organizational Experience: Each applicant must document competence in the specific program priority area under which an application is submitted. (2) Management History: The applicant must fully document a history of sound and effective management practices, and if he or she has been the recipient of other Federal or other governmental grants, they must also document that they have consistent compliance with financial and program progress reporting and audit requirements must also be documented. (3) Staffing and Resources: The application must fully describe the experience and skills included in the resume of the project director, showing that he or she is not only well qualified but that his or her professional capabilities are relevant to the successful implementation of the project and that the assigned responsibilities of the staff are appropriate to the tasks identified for the project. It must show clearly that sufficient time of senior staff will be budgeted to assure timely implementation and cost-effective management of the project. SIGNIFICANT AND BENEFICIAL IMPACT: Projects funded must produce permanent and measurable results that will reduce the incidence of poverty in the areas targeted. Results should be quantifiable in terms of program expectations. PROJECT IMPLEMENTATION AND EVALUATION: Project Implementation: The application must contain a detailed and specific work plan that is both sound and feasible. It must set forth realistic quarterly time targets by which the various work tasks will be completed. BUDGET: The proposed request for funds must be commensurate with the level of effort necessary to accomplish the goals and objectives of the project. It must include a detailed breakout for each of the budget categories. The estimated cost to the government of the project must also be reasonable in relation to the value of the anticipated results.

93.033 COMMUNITY SERVICES BLOCK GRANT DISCRETIONARY AWARDS—COMMUNITY FOOD AND NUTRITION

USES AND USE RESTRICTIONS:

(1) States receive supplements to their Community Services Block Grants (CSBG) for Statewide Community Food and Nutrition initiatives, which must be subgranted to eligible agencies. (2) Federal funds are competitively-awarded to eligible agencies for statewide and local program activities which address one or more of the above objectives and also include outreach and public education efforts designed to inform low-income individuals and displaced workers of the nutrition services available to them under the various federally-assisted nutrition programs. Of the amounts appropriated under Public Law 99-500, 60 percent is for allotment by statutory formula to eligible agencies for statewide programs, and 40 percent is available for competitive awards to eligible agencies for local and statewide programs. (3) Projects must result in direct benefits targeted toward low-income individuals (within 100 percent of Federal poverty guidelines) as defined in the most recent "Annual Revision of Poverty Income Guidelines," which are published in the Federal Register. (4) Projects are normally funded for 1 year and each project will have an expiration date; however, at the Director's discretion, competitively-awarded grants may support projects for shorter or longer periods, i.e., up to 17 months. (5) States may not use their formula grant supplement for State-level administrative costs.

APPLICATION AND AWARD PROCESS:

Application Procedure:

(1) Formula Grants: None is required for the formula grant awards, since they are made as supplements to the existing Community Services Block Grant awards; however, if the intended use of funds is not consistent with its current block grant application, the State must submit an appropriate plan revision to OCS. (2) Direct Grants: Applications to OCS for competitively-awarded direct grants should be addressed to: Office of Grants Management, Family Support Administration (FSA), Department of Health and Human Services (DHHS), 370 L'Enfant Promenade, SW., Washington, DC 20447. All applications for assistance under this program component must contain: (1) SF-424, Application for Federal Assistance; (2) SF-424A, Budget Information; (3) a program narrative, submitted in accordance with the following format: (a) analysis of need; (b) project design/work program; (c) evaluation component; (d) organizational experience in program area; (e) management history; (f) staffing and resources; and (g) staff responsibilities; (4) SF-424B, Assurances-Non-Construction Programs; (5) Certificate Regarding Drug Free Workplace Requirements; (6) Certification Regarding Debarment Suspension, and Other Responsibility Matters; and (7) Certificate Regarding Lobbying.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

(1) Formula Grants: Section 406 of the Human Services Reauthorization Act of 1986 (Public Law 99-425, 42 U.S.C. 9904) prescribes that, from 60 percent of the amount appropriated for Section 681A of the Community Services Block Grant Act (Public Law 97-35, 42 U.S.C. 9910a), grants shall be awarded to eligible agencies for Statewide programs in each State in an amount which bears the same ratio to 60 percent of such appropriations as the low-income and unemployed populations of such State bear to the low-income and unemployed population of all the States. There is no matching requirement. (2) Direct Grants: Section 406 of the Human Services Reauthorization Act of 1986 provides that 40 percent of the amount appropriated for Section 681A of the Community Services Block Grant Act (see citations above) be awarded as direct grants to eligible agencies for local and statewide programs. These awards are made on a competitive basis. There is no matching requirement.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, 55 formula grant supplements were awarded to CSBG recipients and 22 direct grants were competitively awarded.

REGULATIONS, GUIDELINES, AND LITERATURE:

(1) Formula Grants: "Block Grant Programs," Federal Register, Part III, July 6, 1982 (45 CFR 16, 74 and 96). (2) Direct Grants: Office of Community Services, Program Announcement, published in the Federal Register.

93.034 EMERGENCY COMMUNITY SERVICES FOR THE HOMELESS

USES AND USE RESTRICTIONS:

(1) States receive block grants to provide services to homeless individuals. (2) Of the funds appropriated, not less than 1.5 percent is set aside for federally-recognized Indian tribes. (3) Awards under this program can be used only for the following purposes: (a) expansion of comprehensive services to homeless individuals to provide follow-up and long-term services to enable homeless individuals to make the transition from poverty; (b) provision of assistance in obtaining social and maintenance services and income support services for homeless individuals; (c) promotion of private sector and other assistance to homeless individuals; or (d) after October 1, 1988, provide assistance under certain conditions to individuals who have received a notice of foreclosure, eviction, or termination of utility services, in order to prevent them from becoming homeless. (4) States are required to use 100 percent of their allocations for grants or contracts to "eligible entities" as defined in the Community Services Block Grant Act and organizations serving migrant and seasonal farmworker organizations. Ninety percent of these funds must be awarded to such agencies or organizations that, as of January 1, 1987, were providing services to meet the needs of the homeless. (5) No funds may be used for State administrative costs. (6) Not more than 25 percent of a State's annual grant may be used for the prevention of homelessness. (7) Funds awarded to States must be obligated by the States by September 30, 1990 for FY 1989 funds and by September 30, 1991 for FY 1990 funds. States should obligate funds within 60 days of receiving Federal funds.

93.035 COMMUNITY SERVICES BLOCK GRANT DISCRETIONARY AWARDS—DEMONSTRATION PARTNERSHIPS

APPLICATION AND AWARD PROCESS:

Application Procedure:

Awards are granted on a competitive basis. Announcements concerning the availability of funds and requests for applications are published in the Federal Register. Applications submitted to the Office of Community Services for grants under the announcement should be addressed to: Family Support Administration, Office of Grants Management, 370 L'Enfant Promenade, SW., Washington, DC 20447. Applicants are urged to inform, and coordinate application submissions with, State and local governments where such information and coordination is appropriate or necessary for the success of the program. Applicants which are private, nonprofit organizations are subject to the provisions of Title 45 CFR, Part 74. Applicants which are agencies of State or local governments, e.g., "public" community action agencies, are subject to the provisions of 45 CFR, Part 1050. All applications for assistance under this program must contain: (1) SF-424, Application for Federal Assistance; SF-424A, Budget Information; SF-424B, Assurances-Non-Construction Programs, accompanied by (a) a detailed budget; and (b) documentation of required matching funds; (2) an evaluation component in accordance with the format detailed in the program announcement; (3) a statement on organizational history and management capability; (4) DHHS Certification Regarding Drug-Free Workplace Requirements: (5) Certification Regarding Debarment Suspension, and Other Responsibility Matters; and (6) Certification Regarding Lobbying.

FINANCIAL INFORMATION:

93.110 MATERNAL AND CHILD HEALTH FEDERAL CONSOLIDATED PROGRAMS

AUTHORIZATION:

Social Security Act, as amended; Omnibus Budget Reconciliation Act of 1989, Title V, Section 502(a)(1), Public Law 101-239, 42 U.S.C. 702.

USES AND USE RESTRICTIONS:

Training grants are made to institutions of higher learning for training personnel for health care and related services for mothers and children. Research grants are for the purpose of research activities which show promise of a substantial contribution to the advancement of service programs. Genetic grants are for genetic disease testing, counseling and information development and dissemination. Hemophilia grants are for the support of centers which provide hemophilia diagnostic and treatment services. Other special project grants are designed to support activities of a demonstration nature which are designed to improve services for mothers and children. Whenever the total appropriation for a year exceeds $600 million, 12.75 percent of the amount over $600 million is used to fund six categories of projects, including (1) home visitation, (2) increased participation of obstetricians and pediatricians, (3) integrated service delivery systems, (4) maternal and child health centers for women and infants, (5) services for rural populations, and (6) community-based leased services for children with special health care needs.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Training grants may be made to public or nonprofit private institutions of higher learning. Research grants may be made to public or private nonprofit institutions of higher learning and public or private nonprofit private agencies and organizations engaged in research or in Maternal and Child Health (MCH) or Children with Special Health Care Needs (CSHCN) programs. Any public or private entity is eligible for hemophilia and genetics grants and other special projects grants.

Beneficiary Eligibility:

For training grants: (1) trainees in the MCH health professions related to MCH; and (2) mothers and children who receive services through training programs. For research grants: public or private nonprofit agencies and organizations engaged in research or in MCH or CSHCN programs. For hemophilia, genetics and special projects: (1) public or private agencies, organizations and institutions; and (2) mothers and children and persons with hemophilia (any age) who receive services through the programs.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Informal inquiries regarding the program and intent to submit an application should be directed to the Headquarters Office. The standard application form PHS 5161, as furnished by DHHS and required by 45 CFR, Part 92, must be used for this program. Application procedures differ by subprogram category and may be obtained from the Headquarters Office (see listing below for address). This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and Circular No. A-110 for nonprofit organizations.

Award Procedure:

Project applications are reviewed by members of the staff of DHHS and/or by a nongovernmental review committee of experts. Applications are reviewed based on their merit, are then recommended for approval or disapproval, and are ranked according to a point score. Final decisions regarding approval are made for the Secretary by the Director of the Maternal and Child Health Bureau.

Appeals:

None.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

93.116 PROJECT GRANTS AND COOPERATIVE AGREEMENTS FOR TUBERCULOSIS CONTROL PROGRAMS

AUTHORIZATION:

Public Health Service Act, Section 317(a), 42 U.S.C. 247b(a), as amended; Health Services and Centers Amendments of 1978, Public Law 95-626; Omnibus Budget Reconciliation Act of 1981, as amended, Public Law 97-35; Preventive Health Amendments of 1984, Public Law 98-555; Public Health Service Act of 1987, as amended, Public Law 100-177; TB Prevention Amendments of 1990, as amended, Public Law 101-368.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, 47 applications were received and $6,126,606 was awarded to 46 State and local health departments primarily to hire and train outreach workers to carry out the interruption of tuberculosis transmission activities in high incidence areas. Over 22,000 new cases of tuberculosis are reported each year. In fiscal years 1990 and 1991, support will continue for cooperative agreements targeted primarily towards the nation's inner cities where most of the tuberculosis morbidity occurs.

REGULATIONS, GUIDELINES, AND LITERATURE:

Subpart A of 42 CFR 51b is applicable, including all regulations incorporated by reference under Section 51b.105. PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990, is available.

CRITERIA FOR SELECTING PROPOSALS:

Applications will be evaluated in 1991 based on 1989 and 1990 data including the total number of cases reported, the number of reported bacteriologically confirmed cases reported, the bacteriologically substantiated incidence rate of disease, the number of tuberculosis cases among racial and ethnic minorities, significant tuberculosis problems among the homeless, and cumulative number of TB/AIDS cases, and significant increases in tuberculosis morbidity. The number of tuberculosis cases with organisms resistant to one or more antituberculosis drugs and which are under current supervision will also be considered in evaluating and prioritizing projects for funding. In addition, the overall potential effectiveness of the applicant's plan of operation in meeting the objectives of proposed project will be considered in evaluating and prioritizing projects.

INFORMATION CONTACTS:

Headquarters Office:

Program Contact: Ted Jones (for Research Grants), Howard Hill (Injury Control Research Centers and Program Project Grants), and James S. Belloni (for Surveillance Grants). Division of Injury Epidemiology and Control, Center for Environmental Health and Injury Control, Centers for Disease Control, Public Health Service, Department of Health and Human Services, Atlanta, GA 30333. Telephone: (404) 488-4690 or FTS 236-4690. Grants Management Contact: Mr. Henry Cassell, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, Public Health Service, Department of Health and Human Services, 255 E. Paces Ferry Road, NE., Atlanta, GA 30305. Telephone: (404) 842-6630 or FTS 236-6630.

EXAMPLES OF FUNDED PROJECTS:

(1) Injury Control Research Centers (ICRC) have undertaken a broad range of work. For example, the John Hopkins University ICRC has sponsored a National Conference on Black Homicide and Summer Training Institutes for injury control researchers and practitioners. The New England ICRC (Harvard) has been a key planning, training, and program resource for injury control programs in the New England States. The Wayne State University ICRC has developed

basic methods for studying neural trauma biomechanics and for evaluating new pharmacological methods to treat brain trauma. Work at the University of North Carolina ICRC has led to the creation of an injury control unit in the North Carolina State Health Department. The University of Washington ICRC serves as a State and regional resource in trauma and burn care and is a leader of efforts to reduce pedestrian injuries and injuries associated with motorcycles and bicycles. (2) Funded Injury Prevention and Control Research Projects address priority research concerns encompassing acute care, biomechanics, prevention, epidemiology, and rehabilitation. As an example, researchers at Vanderbilt University are investigating medication use by the elderly and the prevention of fall injuries. Information being developed may lead to reduced fall injuries based on changes geriatric care providers can make in their use of antipsychotic medications. (3) Applied Methods in Surveillance Projects Address E-coding, Trauma Registry Evaluation, Lead and Spinal Cord Surveillance, Farm Injuries and Gunshot and Stab Wound Surveillance. State and Community-Based Injury Control Projects, that were funded in late fiscal year 1989 will enable State and local health departments to build capacity needed to identify priority injury problems and their causes, design interventions, and measure their effectiveness.

Telephone: (301) 443-2720. (Use same 7-digit number for FTS.)

EXAMPLES OF FUNDED PROJECTS:

(1) University of North Dakota Rural Health Research Center which primarily focuses on two areas: state-level rural health policy; and rural nursing manpower. A supplemental grant was provided to study tractor rollover devices. (2) The Wisconsin Rural Health Center's first year of Federal funding focused on the implications of Medicare payment policies for rural health and on access to primary care for uninsured and low-income rural residents. In keeping with national rural health priorities, the Center has expanded its scope to incorporate research activities related to agricultural health and safety. (3) University of North Carolina Rural Health Research Program is a multidisciplinary research, policy analysis, technical assistance, and information unit in the Health Services Research Center of the University of North Carolina at Chapel Hill. This Program seeks to address the problems and prospects of assuring equitable access to quality health care services for rural residents, as well as stimulating programs for the promotion and protection of the personal health status of this population. Specific studies include: access to obstetrical care in North Carolina; subsidized rural primary care program; hospital trend report; case studies on the availability of rural health care; rural occupational epidemiology/agrimedicine; emergency medical services; health professions distribution, training, and service models to meet rural health care needs; and rural health care cooperatives. (4) WAMI Rural Health Research Center is based in the Department of Family Medicine at the University of Washington School of Medicine. It has close working relationships with the other health science schools at the university as well as the other major universities in the four WAMI states (Washington, Alaska, Montana, and Idaho). The Center has initiated the following studies: Rural Hospital Closure and Physician Supply; rural hospital linkage; taxonomy of rural hospitals; transferability of the interventions of the rural hospital project; obstetrical insurance/malpractice; rural obstetrical process of care and outcome of care; none-obstetrical process of care and outcome of care; and content of rural ambulatory practice. (5) Southwest Border Rural Health Research Center, University of Arizona, has as its fundamental mission, increased access to health services and concomitant improved health status of people living in the southwest border region. Projects currently underway: Border Utilization study; ob/gyn malpractice liability study; AIDS research; prenatal care; health service districts; primary health care review; and cultural awareness of border health providers.

93.156 GRANTS FOR FACULTY TRAINING PROJECTS IN GERIATRIC MEDICINE AND DENTISTRY

USES AND USE RESTRICTIONS:

Geriatric training is to be provided through one or both of the following projects: (1) a one-year retraining program in geriatrics for physicians who are faculty members in departments of internal medicine, family medicine (including osteopathic general practice), gynecology, geriatrics, or psychiatry at schools of medicine or osteopathic medicine, and dentists who are faculty members at schools of dentistry or at hospital departments of dentistry; and (2) a one-year or two-year internal medicine, family medicine or a department of geriatrics fellowship program with emphasis in geriatric research for physicians who have completed graduate medical education programs in internal medicine, family medicine (including osteopathic general practice), psychiatry, neurology, gynecology, or rehabilitation medicine, and dentists who have completed postdoctoral dental education programs. The Act further requires each project for which a grant is made under this provision to: (1) be staffed by full-time teaching physicians who have experience or training in geriatric medicine; (2) be staffed by full-time or part-time teaching dentists who have experience or training in geriatric dentistry; (3) be based in a graduate medical education program in a department of internal medicine or family medicine, or a department of geriatrics in existence as of December 1, 1987; (4) provide participants in the project with exposure to a diversified population of elderly individuals; and (5) provide training in geriatrics and exposure to the physical and mental disabilities of elderly individuals through a variety of service rotations, such as geriatric consultation services, acute care services, dental services, geriatric psychiatry units, day and home care programs, rehabilitation services, extended care facilities, geriatric ambulatory care and comprehensive evaluation units, and community care programs for elderly mentally retarded individuals.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Grants will be made to accredited public or private nonprofit schools of medicine, schools of osteopathy, teaching hospitals, and graduate medical education programs. Public Law 100-607 amends the Public Health Service Act to change authority for this program from 788(e) to Section 789(b). The Amendment also clarifies that an applicant could enter into an agreement with another institution for the provision of necessary staffing by teaching dentists.

APPLICATION AND AWARD PROCESS:

Range of Approval/Disapproval Time:

From 4 to 6 months.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $3,279,682; FY 90 $4,224,000; and FY 91 est $0. (NOTE: No funds were requested for FY 91.)

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 23 continuation awards were funded. In fiscal year 1990, 23 continuations were funded. In May 1990, application kits were mailed for a competitive cycle for grants to be awarded in fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE:

Program Guide "Grants for Faculty Training Projects in Geriatric Medicine and Dentistry." Final proposed rules were published in the Federal Register on November 3, 1988, with public comment period ending January 3, 1989. PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990.

EXAMPLES OF FUNDED PROJECTS:

Grants are made to accredited public or private nonprofit schools of medicine, teaching hospitals, schools of osteopathic medicine and graduate medical education programs for postdoctoral training.

CRITERIA FOR SELECTING PROPOSALS:

Competing applications are initially reviewed by nonfederal consultants whose recommendations are considered by the National Advisory Council on Health Professions Education (NACHPE). After consultation with the NACHPE, the Secretary of the Department will approve projects which best promote the purposes of Section 789(b) of the Public Health Service Act. The Secretary will consider, among other factors: (1) the extent to which the proposed training program will prepare physicians and dentists to perform the research, teaching, administrative and clinical duties of a faculty member specializing in geriatrics; (2) the degree to which the project plan adequately provides for meeting the requirements set forth in Section 57.4105; (3) the administrative, management and resource capability of the applicant to carry out the proposed project in a cost-effective manner; (4) the potential for the applicant to continue the program without Federal support after completion of the requested project period; and (5) the extent to which the project will increase the number of geriatric fellowship and retraining positions available for individuals who want to prepare for academic careers in geriatric medicine and dentistry.

EXAMPLES OF FUNDED PROJECTS:

Projects funded in fiscal year 1990 submitted long-range plans to achieve institutional improvements. In addition, all four funded grants proposed to improve the institution's ability to recruit and retain faculty. The range of activities include hiring new faculty, financial support of current faculty, provision of training opportunities, purchase of equipment, improvements in the work environment, development of an academic computing system, and promoting computer literacy. All four grants also proposed to improve the information resources of the institution through such activities as modernizing/computerizing the library and increasing library holdings. Three of the projects proposed to improve student performance through increased clinical experiences, development of faculty preceptorship programs, updating facilities and equipment, improving academic and counseling services. One project will also focus on improving the quality of their applicants by working with in-state high school students.

93.159 HEALTH CARE SERVICES IN THE HOME

93.169 MODEL PROJECTS FOR PREGNANT AND POSTPARTUM WOMEN AND THEIR INFANTS (SUBSTANCE ABUSE)

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for other nonprofit organizations, as applicable. For all nonprofit grantees, costs will also be determined by HHS Regulations 45 CFR, Part 74, Subpart Q. For-profit organizations' costs are determined in accordance with Subpart 48 CFR, 31.2 of the Federal Acquisition Regulations.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Applicants may contact the Division of Demonstrations and Evaluation, Office for Substance Abuse Prevention (OSAP) for consultation on the application process. The standard application form PHS 5161-1, as furnished by PHS must be used by all applicants. Application kits containing the necessary forms and instructions may be obtained by contacting: The National Clearinghouse for Alcohol and Drug Information, P.O. Box 2345, Rockville, MD 20857. Telephone: 1-800-729-6686. Applicants should reference OSAP Grant Announcement No. AD 89-02, "Model Projects for Pregnant and Postpartum Women and Their Infants (Substance Abuse)," when requesting application materials. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular A-110 for nonprofit organizations. Applications will be reviewed by Peer Review Committees. Committees will evaluate applications based on review criteria in the grant announcement and recommend approval or disapproval with percentile scores.

Range of Approval/Disapproval Time:

Approximately 120 days.

POST ASSISTANCE REQUIREMENTS:

Reports:

Reports must be submitted as follows: (1) interim quarterly progress reports for the first year and semiannual reports thereafter; (2) final progress report due within 90 days of project termination; (3) Financial Status Reports within 90 days after the end of the budget/project period.

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments." State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. 93.172 HUMAN GENOME RESEARCH

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Research Projects: Awards can be made to any public or private, for-profit or nonprofit university, college, hospital, laboratory, or other institution, including State and local units of government, qualifying small businesses (through the Small Business Innovation Research Program), and to individuals. To be eligible for funding, a proposal must be approved for scientific merit and program relevance by a scientific review committee and a national advisory council. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. Nonfederal public and private domestic organizations may apply for an Institutional National Research Service Award. Individual National Research Service awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. Predoctoral awardees must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.O., D.V.M., Sc.D., E.Eng., or equivalent domestic or foreign degree). Applicants to the Small Business Innovation Research Program must meet special requirements for small businesses, as defined by the Small Business Administration.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application forms and information concerning the area of science being supported may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892, and may be submitted to the same address for assessment by a scientific review committee. The standard application forms, as furnished by PHS and required by 45 CFR, Part 92 for State and local governments, must be used for this program. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations", as appropriate. SBIR application forms and the Phase I Solicitation may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Completed applications should be submitted to the same address for review.

Deadlines:

New Research Projects: February 1, June 1, and October 1. Renewals: March 1, July 1, and November 1. NRSA: January 10, May 10, and September 10. SBIR Applications: April 15, August 15, and December 15.

Range of Approval/Disapproval Time:

Project Grants: About 9 months. SBIR: About 7-1/2 months.

Appeals:

A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Center, and subsequently, the P.I. and applicant institution may formally appeal to the Deputy Director for Extramural Research, Office of the Director, NIH.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

All awards are made for at least 1 year. Additional support may be available for up to 4 more years depending upon the recommendations of the scientific review group, the national advisory council, successful annual performance, and availability of funds. Phase I SBIR awards are generally for 6 months; Phase II awards normally may not exceed 2 years.

FINANCIAL INFORMATION:

Obligations:

(Research Grants) FY 89 $27,046,000; FY 90 est $49,687,000; and FY 91 est $90,960,000. (Research Centers) FY 89 $300,000; FY 90 est $7,947,000; and FY 91 est $35,738,000. (SBIR Grants) FY 89 $1,251,000; FY 90 est $717,000; and FY 91 est $717,000. (NRSA) FY 89 $0; FY 90 est $2,980,000; and FY 91 est $5,066,000.

Range and Average of Financial Assistance:

Research Grants: $37,167 to $1,370,043; $262,583. Phase I SBIR awards are for approximately $50,000; Phase II awards may be for amounts up to $500,000.

PROGRAM ACCOMPLISHMENTS:

A broad-based research program directed towards the development of a resource, consisting of genetic maps, physical maps, and DNA sequence information of the human genome and the genomes of a number of other organisms, to be used in biomedical research, medicine, and biotechnology has been initiated. In fiscal year 1989, 103 research grants were funded. In fiscal year 1990, 144 research grants, three research centers, six research career awards, 10 other research-related awards, and 135 full-time trainee positions are estimated to be funded. In fiscal year 1991, an estimated 181 applications for competing research are expected to be received. Of that number, 53 competing grants are estimated to be funded. Additionally, support is anticipated for nine research centers, 12 research career awards, 18 other research-related awards, and 224 full-time trainee positions.

93.173 RESEARCH RELATED TO DEAFNESS AND COMMUNICATION DISORDERS

AUTHORIZATION:

Public Health Service Act, Sections 301, 464 A-F, and 487, as amended; 42 U.S.C. 241, 285m, 285m-3, and 288; Public Law 100-553; 102 Stat. 2769; Small Business Innovation Development Act of 1982, as amended, Public Law 97-219; Public Law 99-500.

OBJECTIVES:

To investigate solutions to problems directly relevant to patients with deafness or disorders of human communication, such as hearing, balance, voice, speech, language, taste and smell. The National Institute on Deafness and Other Communication Disorders (NIDCD) supports research including investigation into the etiology, pathology, detection, treatment, and prevention of all forms of disorders of hearing and other communication processes, primarily through the support of basic research in anatomy, audiology, biochemistry, bioengineering, epidemiology, genetics, immunology, microbiology, molecular biology, the neurosciences, otolaryngology, psychology, pharmacology, physiology, speech and language pathology, and other scientific disciplines. The NIDCD supports: (1) research into the evaluation of techniques and devices used in diagnosis, treatment, rehabilitation, and prevention of disorders of hearing and other communication processes; (2) research into prevention and early detection and diagnosis of hearing loss and speech and language disturbances and research into preventing the effects of such disorders on learning and learning disabilities with extension of programs for appropriate referral and rehabilitation; (3) research into the detection, treatment, and prevention of disorders of hearing and other communicative processes in the elderly population and its rehabilitation to ensure continued effective communication skills; and (4) research to expand knowledge of the effects of environmental agents that influence hearing or other communication processes. Multipurpose Deafness and Other Communication Disorders Centers Program: To provide funding for the development, modernization and operation of new and existing centers for studies of disorders of hearing and other communication processes. Each awarded center shall at least conduct: (1) basic and clinical research into the cause diagnosis, early detection, prevention, control and treatment of disorders of hearing and other communication processes and their complications, including (a) research into rehabilitative aids, (b) implantable biomaterials, (c) auditory speech processors, (d) speech production devices, and (e) other otolaryngological procedures; (2) training programs for physicians, scientists, and other health and allied health professionals; (3) information and continuing education programs for physicians and other health and allied health professionals; and (4) programs of general public information on early detection, prompt treatment, rehabilitation and avoiding exposure to noise and other environmental toxic agents. These centers may use funds to: (1) provide stipends for health professionals enrolled in their training programs; (2) use facilities of a single or consortia of institutions; (3) conduct programs to establish the effectiveness of new and improved methods of detection, referral, and diagnosis of individuals at risk, disseminate the results of research, screening, and other activities; and (4) develop means of standardizing patient data and record-keeping. In making these centers awards, the NIDCD will consider, as is practical, geographical distribution, the needs of the elderly and children, and the education and training of children. Small Business Innovation Research (SBIR) Program: to stimulate technological innovation; to use small business to meet Federal needs for research and development; to increase private sector commercialization of innovations derived for Federal research and development; and to foster and encourage participation by minority and disadvantaged persons in technological innovations.

APPLICATION AND AWARD PROCESS:

Deadlines:

All new research grant applications, program project and centers competitive renewal and supplemental grant applications, and career program applications: February 1, June 1, and October 1. Individual research competing renewal and supplemental grant applications: March 1, July 1, and November 1. Individual and Institutional NRSA applications: January 10, May 10, and September 10. SBIR: April 15, August 15 and December 15. Small Instrumentation Program: Contact Headquarters Office listed below for application deadlines.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments." State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $84,813,000; FY 90 est $103,054,000; and FY 91 est $107,926,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, of 615 research grant applications received, 458 were funded. In fiscal year 1990, an estimated 723 research grant applications are expected to be received and, of those, an estimated 492 are expected to be funded. For fiscal year 1991, 787 applications are expected to be submitted and an estimated 500 are expected to be funded. The Institute now supports a wide variety of basic and applied research studies concerning the physiology and pathophysiology of balance control, hearing, language, the senses of smell and taste, speech, touch, and voice. Encouraging progress has been made in each of these areas and is expected to continue. Clinical topics under investigation include vertigo, mild, moderate and profound hearing impairment, the design and efficacy of hearing aids and electronic cochlear implants, aphasia, specific language impairment, disorders of the senses of taste and smell, neurological abnormalities of the muscles of the larynx (e.g. spasmodic dysphonia, vocal tremor, and stuttering), and the development of tactile stimulators and their applications as communication devices.

93.180 MEDICAL TREATMENT EFFECTIVENESS RESEARCH

APPLICATION AND AWARD PROCESS:

Award Procedure:

Following review for scientific merit by a group composed primarily of nonfederal scientists, each grant application requesting over $250,000 total direct costs is also reviewed by the National Advisory Council for Health Care Policy, Research, and Evaluation, after which AHCPR makes final decisions to support approved applications. When such decisions are made, applicants are notified directly by AHCPR staff and all required steps are taken to issue the Notice of Grant Award, Form PHS-1533.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants are subject to inspection and audits by DHHS and other Federal officials.

93.184 DISABILITIES PREVENTION

APPLICATION AND AWARD PROCESS:

Renewals:

Priority consideration will be given to non-competing continuation applications for State-Based Projects initially awarded cooperative agreements in fiscal year 1988 and renewed, or awarded continuation funding in fiscal years 1989 and 1990. Demonstration/Epidemiology Projects will be given priority consideration for non-competing extensions in order to conduct orderly phase-out over several months in order to complete project objectives and reports. A program announcement will be issued outlining the requirements of the program if renewals are considered for future funding.

ASSISTANCE CONSIDERATIONS:

Length and Time Phasing of Assistance:

Financial assistance is for a 1-year budget period with future project periods of 3 to 5 years subject to the availability of funds. Currently funded State-Based Projects have a 3-year project period that will end in September 1991. Currently funded Demonstration/Epidemiology Projects will complete their 2-year project period in September 1990.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. 128, "Audits of State and Local Governments," State and local governments that receive $100,000 or more a year in financial assistance shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with OMB Circular A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. Nonprofit organizations will be subject to audit in accordance with OMB Circular No. A-133 and in the Standards for Financial Management Systems, Attachment F.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

State-based, cooperative agreement projects will begin their third year of support in September 1990, utilizing fiscal year 1990 funds. These funds will support State-Based Projects through their third budget year scheduled to end in September 1991. The range of these awards of fiscal year 1990 funds for the nine State-Based Projects is $206,245 to $348,920, with an average of $275,000. For the four Demonstration/Epidemiology Projects receiving extensions for phase out, the range of awards using fiscal year 1990 funds is $126,905 to $214,616, with an average of $164,000.

PROGRAM ACCOMPLISHMENTS:

The State-Based Projects have all formed offices of disabilities prevention, established advisory bodies to oversee the planning and policymaking functions, initiated and conducted surveillance activities to determine the incidence and prevalence of targeted disabilities, and commenced community-based prevention intervention programs. These community projects focus on prevention of selected developmental disabilities and injury-related and the prevention of secondary disabilities/conditions in persons already having a physical disability. The Demonstration/Epidemiology Projects are now following selected populations of persons with disabilities to identify and quantify designated conditions, and conducting appropriate medical interventions and/or referrals based on their respective protocols and will conclude their projects over several months of an approved extension period.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations for this program are published under 42 CFR, Part 52 and 42 CFR, Part 74. The basic grant administration policies of DHHS and PHS are also applicable including the PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Eligible applicants include profit and nonprofit organizations. Thus, universities, colleges, research institutions, and other public and private organizations, including State and local governments, and small, minority and/or women-owned businesses are eligible.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Applications should be submitted on Form PHS-398 (Revised October 1988) or PHS 90-2 for SBIR grants. State and local government applicants may use Form PHS 5161-1, however, PHS form 398 is preferred. An original and six copies of the PHS 398 and PHS 90-2 or the original and two copies of the PHS 5161-1 application must be submitted to the Division of Research Grants, National Institutes of Health, Westwood Building, Room 240, 5333 Westbard Avenue, Bethesda, MD 20892. A cover letter requesting assignment to the National Institute for Occupational Safety and Health should be included. Forms PHS-398 and PHS-5161-1 should be available from the institutional business office or from the Office of Grant Inquiries, Division of Research Grants, National Institutes of Health, Westwood Building, Room 449, 5333 Westbard Avenue, Bethesda, MD 20892. SBIR: Application forms and the Phase I solicitation may be obtained from the PHS SBIR Mailing Office, 3202 Tower Oaks Boulevard, Suite 200, Rockville, MD 20852.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 137 research applications (including small grants) were received; 32 new grants and 40 continuation grants were awarded. It is estimated that 31 new and 40 continuation research grants will be awarded in fiscal year 1990. In 1991, it is estimated that 22 new and 35 continuation research grants will be awarded.

EXAMPLES OF FUNDED PROJECTS:

(1) "Influence of Particulates on Occupational Lung Disease" - A study to investigate the mechanisms associated with particulate-modified benzo(a)pyrene (BaP) metabolism and the involvement of alveolar macrophages in the development of lung disease; (2) "Development of Models to Predict Optimal Lifting Motion" - Development of an optimization model for lifting motion which explicitly considers the minimization of the sum of the squares of the active state of the musculoskeletal system along with the minimization of the rate of change of acceleration; (3) "Case Control Study of Cancer in Synthetic Rubber Workers" - To examine the risk of mortality from lymphopoietic hematological, and gastrointestinal cancers and sarcomas from occupational exposure to butadiene and styrene and to determine if a dose-response relationship exists; (4) "Explosion Hazards Related to Grain and Feed Dusts" - An experimental and theoretical evaluation of the fundamental aspects of ignition, combustion, and explosion of dusts to develop knowledge on how to prevent dust explosions or minimize damage; (5) "Stress Effects of Human-Computer Interactions" - A study to compare cardiovascular responses and masseter muscle "hostility" responses exhibited by type A and type B individuals during a frustrating, frequently encountered human-computer interaction; (6) "Occupational Risks of Pesticide Exposure for Females" - An assessment of ovarian toxicity of Kepone in the adult female mouse by examining alterations either in ovarian steroid hormones or in the cell membranes of the different cellular components of the ovary; (7) "Neurological Effects of Solvents in Older Adults" - To test the hypothesis that age-related processes may interact with the effects of past exposure to solvents to cause neurological dysfunction which is clinically significant and disproportionally greater than that which might result from either variable alone; (8) "Functional Correlates of Cochlear Injury" - To determine how the magnitude, pattern and growth of hearing loss and structural damage are altered by the physical characteristics of noise (frequency, intensity, duration, and scheduling); (9) "Biological Monitoring for Exposure to Coal Tar" - A study to investigate the development and use of immunological and other biological techniques for monitoring human exposure to crude coal tar preparations; (10) "Stress in One Occupational Group: Teachers" - A study to assess the extent to which work-related stressors and social and psychological resources contribute to depressive and psychosomatic symptoms, poor health behaviors, and low morale in beginning teachers; (11) "Computer Simulation of Push-Pull Systems" - To develop computer modeling and numerical analysis techniques to improve the design of local exhaust ventilation systems that are augmented by push or jet flows; and (12) "Development of Novel Sorbents for Respirators" - A study to investigate and provide solutions to the problems of (a) decreased respirator chemical cartridge lifetime at high relative humidities, and (b) the poor efficiency of current cartridges in absorbing volatile, polar organic toxins.

93.263 OCCUPATIONAL SAFETY AND HEALTH—TRAINING GRANTS

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

REGULATIONS, GUIDELINES, AND LITERATURE:

93.268 CHILDHOOD IMMUNIZATION GRANTS

OBJECTIVES:

To assist States and communities in establishing and maintaining preventive health service programs to immunize individuals against vaccine-preventable diseases (including measles, rubella, poliomyelitis, diphtheria, pertussis, tetanus, hepatitis b, mumps, and haemaphilus influenza type b).

USES AND USE RESTRICTIONS:

Grant funds may be used for costs associated with planning, organizing, and conducting immunization programs directed toward vaccine preventable diseases and for the purchase of vaccine; and for the implementation of other program elements, such as assessment of the problem; surveillance and outbreak control; information and education; adequate notification of the risks and benefits of immunization; compliance with compulsory school immunization laws; vaccine storage, supply, and delivery; citizen participation; and use of volunteers. Vaccine will be available "in lieu of cash" if requested by the applicants. Requests for personnel and other items "in lieu of cash" will also be considered. Vaccine purchased with grant funds may be provided to private practitioners who agree not to charge for vaccine. Grant funds may be used to supplement (not substitute for) existing immunization services and operations provided by a State or locality.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, 63 grants were awarded. Approximately 18.1 million doses of vaccine were purchased with Federal grant funds. Nearly 21.8 million doses of childhood vaccine were administered in the public sector in 1989. Preliminary data indicate relatively low numbers of cases were reported during 1989 for measles (16,236), mumps (5,611), rubella (373), diphtheria (2), tetanus (47), polio (0), and pertussis (3,745). During fiscal year 1990, 63 grants were awarded. It is anticipated that 63 applications will be received and that 63 awards will be granted in fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations governing this program are published under 42 CFR 51b. Guidelines are available. PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990, is available.

EXAMPLES OF FUNDED PROJECTS:

The majority of official State Health Departments (such as California, Michigan, and Texas) and many large local health departments (such as New York and Chicago) have ongoing disease control programs utilizing these grants. Immunization Projects: The national program goals for immunization are to reduce morbidity and mortality due to vaccine-preventable diseases; maintain interruption of indigenous measles transmission; eliminate indigenous rubella transmission; prevent perinatal transmission of hepatitis b; maintain 90 percent immunization levels for children under age 15 against measles, poliomyelitis, diphtheria, tetanus, and rubella; maintain 95 percent immunization levels for school enterers, and 90 percent immunization levels for children enrolled in licensed day-care centers against measles, poliomyelitis, diphtheria, tetanus, pertussis, rubella, mumps, and Haemaphilus influenza type b (HIB); develop, test, and implement systems for use in the States to ensure that 90 percent or more of children complete basic immunizations by age 2; and promote appropriate immunization programs for adults. In order to ensure an effective comprehensive program, all projects conduct the initial elements: (1) consistent enforcement of compulsory school immunization laws; (2) assessment of immunization status (K-1, K-12, licensed daycare centers, Head Start); (3) surveillance of vaccine-preventable diseases; public information and education programs; and (4) participation of citizens groups and use of volunteers.

93.282 MENTAL HEALTH NATIONAL RESEARCH SERVICE AWARDS FOR RESEARCH TRAINING

USES AND USE RESTRICTIONS:

Individual grants are made to fellows seeking predoctoral or postdoctoral support for full-time research training. An institutional allowance will be provided, upon request, to the sponsoring institution for each awardee. In addition, any domestic public or nonprofit institution may apply for an institutional research training grant in a specified area of research from which a number of stipend awards will be made to individuals selected by the training program director at the institution. Support is available for both predoctoral and postdoctoral trainees and will include an amount for institutional expenses. Indirect costs may be requested at 8 percent of total direct costs, exclusive of tuition and related fees and expenditures for equipment, or actual indirect costs, whichever is less. Students receiving fellowships or stipend support under institutional grants are obligated to pay back this support through a period of research and/or teaching activities after the completion of their training. Stipend levels will be $8,500 for predoctoral awards and $17,000 to $31,500 for postdoctoral awards dependent upon the number of years of relevant experience. Research training support may not be used for intern or other clinical training. Under the Minority Access to Research Careers (MARC) Programs, Faculty Fellowships are available for selected faculty members of institutions with substantial minority enrollment for advanced research training. It is intended that the faculty fellowship recipients will return to their home institution to teach and conduct research. The amount of the stipend awarded under the faculty fellowship will be commensurate with the salary or remuneration that the fellow would have been entitled to receive from his or her home institution, on the date of acceptance of the fellowship, except in no case shall the stipend exceed $31,500 annually. When an individual award is for approved training involving research at sites other than the sponsoring institution, an allowance may be requested to help support field costs of the research as well as travel. MARC Honors Undergraduate grants are to increase the number of well-prepared students from institutions with substantial minority enrollments who can compete successfully for entry into Ph.D degree programs. Stipends of $6,500 per year may be requested for each trainee and other related institutional costs may be requested.

APPLICATION AND AWARD PROCESS:

Award Procedure:

Applications are reviewed for scientific merit by nonfederal consultants recruited nationwide from the mental health field. Applications other than fellowships must also be reviewed by the National Advisory Mental Health Council. If recommended for approval and a decision to make an award is made, a formal award notice will be sent to the applicant and sponsor. Students to be supported must submit required forms, including a payback agreement and a Statement of Non-Delinquency on Federal Debt Certification.

POST ASSISTANCE REQUIREMENTS:

93.289 PRESIDENT'S COUNCIL ON PHYSICAL FITNESS AND SPORTS

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1990, more than 25 million Americans participated in PCPFS sponsored programs and more than 100 million were exposed to such programs. In fiscal year 1991, an estimated 26 million Americans will participate and more than 125 million will be exposed to such programs. Approximately 18 million youth, ages 6-17, took part in the Revised President's Challenge Physical Fitness Award Program, with more than 500,000 qualifying for either the Presidential Physical Fitness Award or the new National Physical Fitness Award. Regional clinics, special events, fitness conferences, and leadership training sessions were also part of the PCPFS continuing domestic program. The PCPFS responded to more than 40,000 individual requests for information and assistance. In addition, physical fitness advertising materials were provided to more than 300 television stations, 2,500 radio stations, and 2,500 publications. The PCPFS was the catalytic agent for several major fitness programs launched by the private sector and by other government agencies, including the Great American Workout on the South Lawn of the White House. In fiscal year 1991, the public media information spots and publications will be developed commensurate with the level of funding; others will be funded as public service by the private sector.

EXAMPLES OF FUNDED PROJECTS:

Only programs in a collegiate school of nursing, leading to a graduate degree in nursing, are eligible for funding. The three priority areas are: geriatric nursing, nursing of patients with AIDS, and programs that include minority students. All clinical nursing specialties are eligible for Advanced Nurse Education funds. Projects to prepare nursing educators, administrators, or researchers are also eligible.

93.306 LABORATORY ANIMAL SCIENCES AND PRIMATE RESEARCH

OBJECTIVES:

To support resource projects that enable biomedical scientists to use animals effectively in research on human health problems. Special attention is given to animal resource projects that are broadly supportive of the missions of the various National Institutes of Health (NIH) components. Objectives are accomplished through the Regional Primate Research Centers program and the Laboratory Animal Sciences program. The Regional Primate Research Centers program provides for and conducts biomedical research using a variety of nonhuman primates. Its primary purpose is to develop and use primate models of human disease conditions and to offer training and expertise in primatology as it relates to medical research. The Laboratory Animal Sciences program was established to assist research institutions in meeting their needs for higher quality, specialized research animals, improved care of animals and characterization of animals as biomedical research models. Grants support activities such as developing and defining new animal biological models; developing and improving institutional animal resources, including projects to meet the requirements of the Animal Welfare Act and the Public Health Service Policy on Humane Care and Use of Laboratory Animals; developing and maintaining laboratory animal disease diagnostic laboratories, including those assuming a regional responsibility; investigating ways to enhance the health and well-being of research animals; projects for gathering and disseminating information on research animals, and research and training in laboratory animal medicine. Small Business Innovation Research (SBIR) grants are awarded to stimulate technological innovation; to use small business to meet Federal research and development needs; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation by minority and disadvantaged persons in technological innovation.

USES AND USE RESTRICTIONS:

Funded projects may include resource projects for improving an institutional animal resource programs; laboratories for diagnosis and control of naturally occurring-diseases of experimental animals; development of new animal models; research investigations on diseases of laboratory animals; research projects to determine environmental requirements for laboratory animals; regional primate research centers; and resource projects to develop and maintain all systems: Special Emphasis Research Center Awards (SERCA) in Laboratory Animal Science; National Research Service Awards (NRSA) to individuals for postdoctoral training in the field of laboratory animal medicine; and First Independent Research Support and Transition (FIRST) awards to newly independent biomedical investigators to develop their research capabilities. In addition, grants may be made to institutions to enable them to make National Research Service Awards to individuals selected by them. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I when it is likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Institutions of higher education, hospitals, and other institutions and organizations, both nonprofit and for-profit, seeking to establish, continue, or enlarge programs consistent with the objectives of the program. Applicants for National Research Service Awards must be citizens of the United States or be admitted to the United States for permanent residency; applicants must be nominated and sponsored by a public or private nonprofit institution having staff and facilities suitable to the proposed research training. Nonprofit domestic organizations may apply for the institutional NRSA. To be eligible, postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.V.M., etc., or equivalent degree). SERCA awardees must have a degree in veterinary medicine.

Credentials/Documentation:

None for research grants. Individual NRS Awards require that the applicant's academic record, research experience, citizenship, institution sponsorship, etc., be documented in the application form supplied by the Division of Research Grants, National Institutes of Health. Institutional NRSA Grants require the institution to show the objectives, methodology and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for award, and a detailed budget and justification for the amount of grant funds requested. Costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q, OMB Circular No. A-122, "Cost Principles for Nonprofit Organizations," OMB Circular A-21 for Educational Institutions, and OMB Circular No. A-87 for State and local governments. For-profit organizations' costs are determined in accordance with 48 CFR, Subpart 31.2 of the Federal Acquisition Regulations. SBIR: Each applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application forms may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892, and should be submitted to the same address. The standard application forms (PHS 398, Rev. October 1988), as furnished by PHS and required by 45 CFR, Part 92, must be used for this program. Prior to formal application the applicant for a National Research Service Award must arrange for acceptance at a sponsoring institution by a sponsor who will supervise the training. National Research Services awardees may be sponsored by a (domestic or foreign) nonprofit organization. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. SBIR application forms and the Phase I Solicitation may be obtained from and completed applications should be submitted to the above address.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $66,887,000; FY 90 est $67,871,000; and FY 91 est $68,563,000.

Range and Average of Financial Assistance:

$3,569,780 to $5,404,824; $5,215,030 (for primate research centers). $47,650 to $574,069; $210,985 (for laboratory animal sciences). For fellowship awards the basic stipend of $17,000 (first year beyond the doctoral degree). Average Phase I SBIR awards are for approximately $50,000; Phase II awards may be made for amounts up to $500,000.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, support was provided to 28 animal resources grants, seven primate centers, two SBIR grants, 10 research career program grants, 16 training grants, 69 resource related research grants, and 42 animal facility improvement grants. In fiscal year 1990, support will be provided to an estimated 32 animal resources grants, 19 biological models and materials grants, seven primate centers, 32 animal facility improvement grants, four SBIR grants, eight research career development awards, 19 training grants, and 35 resource related research grants. The fiscal year 1991 estimates are 34 animal resources grants, 19 biological models and materials grants, seven primate centers, five SBIR grants, eight research career program grants, 18 training grants, 34 resource related research grants, and 39 animal facility improvement grants.

93.333 GENERAL CLINICAL RESEARCH CENTERS

USES AND USE RESTRICTIONS:

Centers operate as discrete, multidepartmental, multicategorical research inpatient and outpatient units. Centers are institutional resources where scientists from many departments complement their laboratory studies with carefully controlled clinical investigations and analyses. Grants pay the costs of renovation of facilities, equipment, hospitalization, core laboratory, salaries of center directors, biostatisticians, nurses, and technical staff, and other operational costs. Core resources may include computing support for clinical projects. Experience in clinical research for promising young investigators is provided through the Clinical Associate Physician (CAP) program and through the Minority Clinical Associate Physician (MCAP) Program. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Special instructions for preparing applications should be requested from the General Clinical Research Centers Program, National Center for Research Resources, National Institutes of Health, Bethesda, MD 20892. This program is subject to the provisions of OMB Circular No. A-110. SBIR application forms and the Phase I Solicitation may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Completed applications should be submitted to the same address for review.

Award Procedure:

Applications from eligible institutions are initially reviewed by committees composed of authorities in various fields of medical research. Each application is given a peer evaluation for scientific merit and recommendations are forwarded to the National Advisory Research Resources Council. All Centers have a common annual award date. SBIR: All accepted applications are evaluated for technical merit by an appropriate scientific review group and by a national advisory council. All approved applications compete for the available SBIR set-aside funds on the basis of technical merit, program relevance and program balance.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

$5,563 to $4,058,625; $1,376,059. SBIR: Average Phase I awards are for approximately $50,000. Phase II awards may be made for amounts up to $500,000.

REGULATIONS, GUIDELINES, AND LITERATURE:

EXAMPLES OF FUNDED PROJECTS:

A typical center supports multiple projects from many disciplines, such as internal medicine, pediatrics, surgery, and obstetrics and gynecology. Projects relate to all aspects of disease mechanisms and may include projects in nutrition, diabetes, growth and development, genetics, immunology, and other areas. SBIR projects include development of systems (nonsoftware) or devices for patient research monitoring of physiological or biochemical parameters.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) the scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency and primary research funding of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. SBIR: The major elements in evaluating Phase I grant applications include assessment of: (1) the technical merit of the proposed research; (2) the soundness of the proposed design and methods; (3) the qualifications of the proposed principal investigator, supporting staff and consultants; (4) the potential of the proposed research for technological innovation and commercial application; (5) the appropriateness of the budget requested; and (6) the adequacy and suitability of the facilities and research environment. In the review of Phase II applications, criteria include those listed above in addition to the following: (a) the degree to which Phase I objectives were met and feasibility demonstrated; and (b) the adequacy of the Phase II objectives and methodology for addressing the proposed research.

93.337 BIOMEDICAL RESEARCH SUPPORT

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

BRSG Awards: $4,513 to $260,396; $70,333. SIG Awards: $49,000 to $400,000; $228,111. MHSSRA Awards: $3,000 to $15,000; $9,016.

PROGRAM ACCOMPLISHMENTS:

There were 633 BRSG awards issued during fiscal year 1989 to schools of medicine, dentistry, public health, osteopathy, pharmacy, veterinary medicine, nursing, as well as hospitals, health departments, research institutes and non-health professional academic institutions. A total of 29 BRSG awards were made in fiscal year 1990. It is not possible to estimate the number of BRSG awards for fiscal year 1991. During fiscal year 1989, 169 SIG awards have been made. In fiscal year 1990, 143 SIG awards were made. In fiscal year 1991, 150 SIG awards are anticipated. An estimated 343 MHSSRA Awards are expected to be made each year.

93.342 HEALTH PROFESSIONS STUDENT LOANS

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Any accredited public or other nonprofit private school of medicine, dentistry, osteopathic medicine, optometry, podiatry, pharmacy, or veterinary medicine which provides a course of study leading respectively to a degree of Doctor of Medicine, Doctor of Dental Surgery (or an equivalent degree), Doctor of Pharmacy (or an equivalent degree), Doctor of Osteopathic Medicine, Doctor of Optometry (or an equivalent degree), Doctor of Podiatry (or an equivalent degree), Bachelor of Science in Pharmacy (or an equivalent degree), or Doctor of Veterinary Medicine (or an equivalent degree), located in a State, the District of Columbia, or the Commonwealth of Puerto Rico.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

FINANCIAL INFORMATION:

Obligations:

(Federal Capital Contribution) FY 89 $0; FY 90 $0; and FY 91 est $0. (NOTE: Although no annual appropriation is enacted, this program operates using revolving account funds.)

REGULATIONS, GUIDELINES, AND LITERATURE:

See 42 CFR 57201-57218. "A Guide for Repayment and Deferment Provisions of Health Professions Student Loans"; Health Professionals Student Loan Fact Sheet.

EXAMPLES OF FUNDED PROJECTS:

(1) Long-term low-interest loans made to students of Medicine, Osteopathic Medicine, Dentistry, Pharmacy, Optometry, Podiatry, and Veterinary Medicine; and (2) funds provided to Health Professions Schools to capitalize loan funds.

93.358 PROFESSIONAL NURSE TRAINEESHIPS

USES AND USE RESTRICTIONS:

To provide for long-term, full-time academic study at a master's degree or higher level and for at least half-time study in a master's degree program in which the student meets requirements for a degree by the end of the academic year in which the traineeship is received and/or study at the certificate level for nurse-midwives. The study programs prepare nurse leaders as administrators, researchers, nursing specialists, teachers, nurse practitioners, and nurse midwives.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $12,637,000; FY 90 $13,501,000; and FY 91 est $0. (NOTE: No funds were requested for FY 91.)

PROGRAM ACCOMPLISHMENTS:

Approximately 4,550 nurses received traineeships in fiscal year 1990. In fiscal year 1991, an estimated 210 awards will be made in support of approximately 4,560 nurses.

93.359 NURSE TRAINING IMPROVEMENT—SPECIAL PROJECTS

APPLICATION AND AWARD PROCESS:

Application Procedure:

The standard application forms, as furnished by PHS and required by 45 CFR, Part 92 for State and local governments, must be used for this program. Program information may be obtained from the Division of Nursing. Applications are provided by the Grants Management Branch. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations.

Appeals:

None.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with OMB Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $9,382,212; FY 90 $10,086,000; and FY 91 est $0. (Note: No funds were requested for FY 91.)

PROGRAM ACCOMPLISHMENTS:

Projects have assisted nursing schools to meet the costs of recruitment and retention of disadvantaged students, assisted practicing nurses to keep their skills updated, improved nurse distribution, and developed training programs to upgrade the skills of LP/LVNs and other paraprofessional nursing personnel. There were 97 applications processed in fiscal year 1990, 44 were approved. There were 21 new grants, and 34 continuations and nine renewals awarded. No funds were requested for fiscal year 1991.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Research Grants: Application Form PHS 398 (Rev. October 1988) is the standard form which can be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Completed applications should be submitted to the same address. The standard application forms, as furnished by PHS and required by 45 CFR, Part 92 for State and local governments, must be used for this program. NRSAs (Individual): Application material for predoctoral research training is available from the National Center for Nursing Research; application material for postdoctoral research is available from the Division of Research Grants (see address above). This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. SBIR: Application forms and the Phase I solicitation may be obtained from Technical Resources, Inc., 3202 Monroe Street, Suite 200, Rockville, MD 20852. Completed applications should be submitted to the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Small Instrumentation Program: Prepare and submit application on Form PHS 398 (Rev. October 1988). Only the Face Page and the budget page are to be completed. Additional information required includes the number and dollar amount of the grant(s) that would benefit from the requested equipment, a brief description of each beneficiary project, and an explanation of how the equipment would benefit the project. Application instructions are mailed to only the BRSG Program Director in each eligible institution or institutional component.

Deadlines:

Research Grants: February 1, June 1, and October 1. Renewals: March 1, July 1, and November 1. NRSAs: May 10. SBIR: April 15, August 15, and December 15. Small Instrumentation Program: Contract Headquarters Office for application deadlines.

Renewals:

Research Grants: Renewal applications are accepted. NRSAs: Awards may be made for 1 to 5 years. No individual may receive more than 5 years of aggregate NRSA support beyond the predoctoral level, and no individual may receive NRSA support for more than 3 years of support beyond the postdoctoral level. Institutional awards may be renewed.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Range and Average of Financial Assistance:

(Research Grants) $86,336 to $754,886; $157,374. (NRSAs) $2,910 to $192,183; $15,740.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, 264 competing research grant applications were received, and 130 competing and noncompeting awards were made. In fiscal year 1990, 294 competing research grant applications and 138 competing and noncompeting awards are anticipated. 93.364 NURSING STUDENT LOANS

AUTHORIZATION:

Public Health Service Act, Title VIII, Sections 836-842, as amended; Health Omnibus Programs Extension Act of 1988, Public Law 100-607.

USES AND USE RESTRICTIONS:

Loans have a maximum of $2,500 for an academic year, $4,000 for each of the final 2 years, or the amount of the student's financial need, whichever is less. The total is limited to $13,000. Loans to full- and half-time nursing students who are citizens, nationals, or a lawful permanent resident of the United States or the District of Columbia, the Commonwealth of Puerto Rico or the Marianna Islands, the Virgin Islands, Guam, the American Samoa, the Trust Territories of the Pacific Islands (the Republic of Palau), the Republic of the Marshall Islands, and the Federated States of Micronesia. Funds are made to schools of nursing to capitalize loan funds.

POST ASSISTANCE REQUIREMENTS:

Audits:

Audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, schools are subject to inspections and audits by DHHS and other Federal governmental officials.

FINANCIAL INFORMATION:

Obligations:

(Federal Capital Contribution) FY 89 $8,194,143; FY 90 $0; and FY 91 est $0. (NOTE: No funds were requested for FY 91.)

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, $8,194,143, was awarded to 184 schools from funds returned to the Department by other participating schools. In addition, $24,100,000 was awarded from the Revolving Loan Fund to 12,050 students in fiscal year 1989. It is estimated that $16,000,000 will be awarded from the Revolving Loan Fund to 8,000 students in fiscal year 1990, and $13,000 will be awarded to 6,500 students in fiscal year 1991.

93.779 HEALTH CARE FINANCING RESEARCH, DEMONSTRATIONS AND EVALUATIONS

OBJECTIVES:

To support analyses, experiments, demonstrations and pilot projects in efforts to resolve major health care financing issues or to develop innovative methods for the administration of Medicare and Medicaid. For fiscal years 1990 and 1991, the Health Care Financing Administration (HCFA) has identified a number of areas where specific information or experience is necessary to improve program effectiveness or guide decisions anticipated in the near future. These priority areas for discretionary contracts, cooperative agreements or grants are as follows: (1) quality of care; (2)

physician and ambulatory care payment systems; (3) capitated payment systems; (4) hospital payment; (5) program efficiencies, analyses and refinements; (6) health care prevention and access; and (7) subacute and long term care.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination:

The HCFA research and demonstration strategy for each fiscal year is publicized through the "Federal Register," "Commerce Business Daily," issuance of application guidelines and requests for proposals, and other appropriate means. Some funds are used for creative, unsolicited proposals. Applicants should maintain contact with Regional HCFA Offices (see Appendix IV of the Catalog for listing). The standard application forms, as furnished by HCFA, must be used for this program. This program is excluded from coverage under E.O. 12372.

Application Procedure:

Application forms are submitted to the Office of Acquisition and Grants, HCFA, Room 364, East High Rise, 6325 Security Boulevard, Baltimore, MD 21207. This program is subject to the provisions of OMB Circular Nos. A-102 and A-110. A letter of intent to file an application is necessary 30 days prior to the closing date of each solicitation cycle.

Deadlines:

Established when grants/cooperative agreements are solicited by publication in the Federal Register or a program announcement for grants/cooperative agreements and by the individual Request for Proposal for contracts. Applications may be submitted at any time. They will be processed according to the announced schedule.

PROGRAM ACCOMPLISHMENTS:

There were 215 cooperative agreement awards (includes 184 awards to hospitals under the Rural Health Care Transition Grants Program (RHCTGP) and 25 contracts awarded in fiscal year 1989. There are expected to be 235 cooperative agreement awards (includes 212 new awards to hospitals under the RHCTGP) and 14 contracts in fiscal year 1990. A similar number of awards is expected in fiscal year 1991.

EXAMPLES OF FUNDED PROJECTS:

Examples of funded projects in fiscal year 1989 are: (1) physician preferred provider organization demonstrations; (2) demonstration of integrated quality assurance systems for nursing homes; (3) design and evaluation of a prospective payment system for ambulatory care; and (4) analysis of the health care financing system. Examples of funded projects in fiscal year 1990 are: (1) study of physician reaction to price changes; (2) impact of Medicare fee schedule on Medicaid fees; (3) demonstration and evaluation on home health prospective payment; and (4) financing of AIDS and ARC treatment payment costs by Medicaid and Medicare. In fiscal year 1991, solicitation for new projects will be made through the "Federal Register," the "Commerce Business Daily," or other appropriate means.

CRITERIA FOR SELECTING PROPOSALS:

The review process consists of two phases. During the first phase applications are separated into two groups, those that are relevant to the interests of HCFA and those that are not. The criteria used for this decision will be whether the project fits within the language of HCFA's general interest as stated in "D. Current Priorities" in the Federal Register announcements and program announcements published in February 1989. A solicitation for cooperative agreements/grants is expected in fiscal year 1991 that will focus on discrete program areas. The first group will be screened for completeness and assigned to review panels; the second group will be returned to the applicants. The second phase will consist of the review, ranking, and award. The review will be conducted by a panel of not less than three experts (who are not staff members of ORD). There will be at least one panel for each priority area. An ORD/HCFA Project Officer will coordinate the panel's review, but will not vote. This individual will also prepare the panel's recommendation to the Director, Office of Research and Demonstrations (ORD). The panel's recommendations will contain numerical ratings, rankings of applications, and a written assessment of each application. The recommendations will be based on the criteria stated in the above Federal Register Announcement ("III. Selection Criteria").

93.802 SOCIAL SECURITY—DISABILITY INSURANCE

FINANCIAL INFORMATION:

Obligations:

(Benefit Payments) FY 89 $22,515,935,000; FY 90 est $24,062,000,000; and FY 91 est $25,700,000,000.

Range and Average of Financial Assistance:

Monthly cash benefits for a worker disabled in 1990 range up to a maximum of $1,164.00 based on the level of the worker's earnings and the age at which a worker becomes disabled. The corresponding maximum for such a worker with a family is $1,746.00. As of December 1989, the average benefit paid to a disabled worker alone was $541 monthly and the average amount payable to a disabled worker with eligible dependents was $973. This takes into account stipulations set forth in Public Law 96-265, and Public Law 97-35. Under Public Law 97-123, the minimum amount is no longer applicable for workers who either become disabled or first met the insured status requirements after December 1981, and a lesser amount can be paid, depending on the worker's average earnings.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, an average of 4,088,000 disabled workers and their dependents received monthly cash benefits. It is estimated that for fiscal year 1990, an average of 4,150,000 disabled workers and their dependents will have received monthly cash benefits, and during fiscal year 1991, the number receiving benefits will increase to 4,189,000.

APPLICATION AND AWARD PROCESS:

Renewals:

A redetermination of a person's benefit amount and continuing eligibility will be made on a scheduled basis at periodic intervals. The length of time between scheduled redetermination varies depending on the likelihood that the beneficiary's situation may change in a way that affects payment amount or eligibility. Annually, about 53 percent of all cases are redetermined.

FINANCIAL INFORMATION:

Obligations:

(Benefit Payments) FY 89 $11,483,112,000; FY 90 est $11,434,000,000; and FY 91 est $15,235,000,000.

Range and Average of Financial Assistance:

Monthly Federal cash payments range from $1 to $386 for an aged, blind, or disabled individual who does not have an eligible spouse, and from $1 to $579 for an aged, blind, or disabled individual and an eligible spouse. These rates became effective January 1990. The average Federal monthly benefit for fiscal year 1989 was $242. The estimated average Federal monthly benefit for fiscal year 1990 is $242. The estimated average Federal monthly benefit for fiscal year 1991 is $253.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, an average of 4,109,000 persons per month were Supplemental Security Income recipients. It is estimated that in fiscal year 1990, an average of 4,239,000 recipients will receive monthly cash benefits. During fiscal year 1991, the average number receiving payments is estimated to increase to 4,340,000 per month.

93.812 SOCIAL SECURITY—RESEARCH AND DEMONSTRATION

OBJECTIVES:

(1) To conduct research studies on the factors that affect the social, psychological, occupational and financial situations of the aged, the timing of their retirement and the adequacy of the amount of their retirement income today and in the future; (2) to examine the relationship between rates of return on various types of assets and how those relationships are affected by the risks commonly associated with inflation, demographic changes, and other types of economic uncertainty over future government policy; (3) to study demand for older workers in the labor force; (4) to examine the effects of the earnings test and actuarial adjustment for early or late retirement; (5) to study pension expectations and their effects; (6) to analyze the factors that contribute to the specification of long run simulation models dealing with disability and life earnings history; (7) to analyze the integration of public and private pension plans; (8) to demonstrate effective, ongoing, and transferrable approaches for identifying potentially eligible needy aged, blind, and disabled individuals in the application process; and (9) to develop and carry out experiments and demonstration projects designed to determine the relative advantages and disadvantages of: (a) various alternative methods of treating the work activity of disabled beneficiaries under the old-age, survivors, and disability insurance programs, including methods designed to encourage the return to work of disabled beneficiaries under the old-age, survivors, and disability insurance programs; and (b) modifying other limitations and conditions applicable to such disabled beneficiaries including, but not limited to, examining: (i) the trial work period; (ii) the 24-month waiting period for Medicare benefits; (iii) the manner in which such a program is administered; (iv) earlier referral of beneficiaries for rehabilitation, including effective and efficient use of available vocational rehabilitation (VR) and other employment services; and (v) greater use of employers and others to develop, perform, and otherwise stimulate new forms of rehabilitation, to the end that savings will accrue to the Trust Funds, or to otherwise promote the objectives or facilitate the administration of Title II of the Social Security Act. Under Title XVI of the Social Security Act, projects designed to improve the efficiency and effectiveness of the program will be considered.

93.820 SCHOLARSHIPS FOR STUDENTS OF EXCEPTIONAL FINANCIAL NEED

USES AND USE RESTRICTIONS:

Funds Health Professions Schools in the U.S. and Puerto Rico to provide financial assistance to full-time students of exceptional financial need. Scholarships awarded without a service or financial obligation, in order to encourage those needy students who might otherwise be reluctant to do so, to pursue a career in one of the specified health professions.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Accredited public or nonprofit private schools of medicine, dentistry, osteopathic medicine, optometry, podiatry, pharmacy or veterinary medicine.

Beneficiary Eligibility:

To be eligible, a student must be: (1) a citizen, a U.S. national, an alien lawfully admitted for permanent residency in the U.S., or a citizen of the Commonwealth of the Northern Mariana Islands, a citizen of the Commonwealth of Puerto Rico, a citizen of the Trust Territory of the Pacific Islands (consisting of the Republic of Palau) or a citizen of the Republic of Marshall Islands, the Federated States of Micronesia (both formally part of the Trust Territory of the Pacific Islands); and (2) must be accepted by a Health Professions School for enrollment as a full-time student. Must provide to the Financial Aid Director total financial information including information on parent's income and spouse's income, regardless of the student's taxable status, and must be of "exceptional financial need" as defined by the Secretary and identified by the Financial Aid Director.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Health professions schools apply annually to the Health Resources and Services Administration for renewal of their agreement to participate in this scholarship program. Students apply to the Financial Aid Office at their respective school. Consultation and technical assistance is provided to institutions wishing to apply. Health professions schools submit the required application form (HRSA-525). This application contains: (1) the starting date of the school year; (2) the number of eligible recipients in the order of students with the greatest need and identification number; (3) a description of the procedures used to evaluate the financial status of student applicants and to select those who are eligible for scholarship awards; (4) an estimated number of students for resident/non-resident status; and (5) average educational cost per student. This program is subject to the provisions of OMB Circular No. A-110.

POST ASSISTANCE REQUIREMENTS:

93.853 CLINICAL RESEARCH RELATED TO NEUROLOGICAL DISORDERS

OBJECTIVES:

To investigate solutions to problems directly relevant to patients with neurological disorders. The National Institute of Neurological Disorders and Stroke (NINDS) supports research including: (1) improved methods of disease prevention; (2) new methods of diagnosis and treatment; (3) clinical trials; (4) drug development; (5) development of neural prosthesis for stroke and paraplegia; (6) epidemiological research; and (7) research training in the clinical sciences. Clinical research is supported in three extramural programmatic areas within this Institute. The Division of Stroke and Trauma supports such research in stroke, spinal cord injury, neural regeneration and plasticity, coma, chronic pain, head injury, peripheral nerve injury, tumors of the nervous system, brain edema, and manipulative therapy. The Division of Demyelinating, Atrophic and Dementing Disorders supports clinical research in multiple sclerosis and amyotrophic lateral sclerosis, movement disorders, such as the dystonias and Tourette's syndrome, and in degenerative and dementing disorders such as Parkinson's, Huntington's and Alzheimer diseases. Also supported under this program is research in viral encephalitis, meningitis and neuro-AIDS studies. The Division of Convulsive, Developmental and Neuromuscular Disorders supports clinical and applied research in convulsive, developmental and neuromuscular disorders in an effort to increase knowledge of their etiology, diagnosis, prevention, and treatment. The objectives of the Small Business Innovation Research (SBIR) Program are to: stimulate technological innovation; use small business to meet Federal research and development needs; increase private sector commercialization of innovations derived from Federal research and development; and foster and encourage participation by minority and disadvantaged persons in technological innovation. The NINDS also participates in the Academic Research Enhancement Award (AREA) Program which is intended to provide research support to institutions currently having little National Institutes of Health (NIH) support, and in the Small Instrumentation Program, which is intended to support the purchase of relatively low-cost pieces of research equipment that generally are not funded in research project grants and which also do not qualify for support under NIH's larger shared instrumentation program.

ELIGIBILITY REQUIREMENTS:

Credentials/Documentation:

Research grants are awarded to an institution in the name of an individual investigator. Persons qualified to carry out research related to the three extramural programs described above may apply for funds to support their investigations. Each SBIR applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential, and in Phase II there should be evidence that commercialization of the research results is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively. Career Program training must be conducted under the direction of a competent sponsor. A candidate for a career award must have an earned M.D., Ph.D., or equivalent degree and must generally have had at least 2 years of pertinent postdoctoral training or research experience. National Research Service Awards: Individual NRS Fellowship Awards for postdoctoral training: the candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. Institutional Training Grants for predoctoral and postdoctoral training: The applicant institution must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, there were 258 competing research applications and of that number, 87 awards were made; of 48 competing NRSA applications, 27 awards were made. For fiscal year 1990, it is estimated that 83 competing research grants and 34 NRSAs will be made. For fiscal year 1991, it is estimated that 71 competing research grants and 33 NSRAs will be made.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

PROGRAM ACCOMPLISHMENTS:

In fiscal year 1989, there were 1,204 competing research grant applications and of that number, 406 awards were made. Of 234 competing NRSA applications received, 120 awards were made. The fiscal year 1990 estimates are 332 competing research grants and 211 NRSAs. The fiscal year 1991 estimates are 334 competing research grants and 203 NRSAs.

93.855 ALLERGY, IMMUNOLOGY AND TRANSPLANTATION RESEARCH

USES AND USE RESTRICTIONS:

No precise limitation exists on the dollar value of research grants that may be awarded to any one investigator or institution. Research grants provide funds for salaries, equipment, supplies, and travel. They also afford the collateral benefits of enriching the training and experience of research workers. Grantees are expected to be judicious in using grantee funds. The application for a research grant sets forth specific terms and conditions and requires the signatures of the principal investigator and an official authorized to sign for the institution. Scientists and institutions are under an obligation to expend grant funds prudently for the purposes stated in the application and award document. Research Career Development Awards support the development of scientists during the formative stages of their careers. The scientists must demonstrate an outstanding research potential for careers of independent research in the sciences related to transplantation, immunology, allergies and immunological diseases. National Research Service Awards (NRSAs) (Individual) are made directly to approved applicants for research training in specified biomedical shortage areas. In addition, National Research Service Awards (Institutional) may be made to institutions to enable them to select and make awards to individuals to receive training under the aegis of their institutional program. Each individual who receives an NRSA is obligated upon termination of the award to comply with certain service and payback provisions. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. Small Instrumentation Program: Funds are awarded as institutional formula grants for the purchase of research equipment costing not less than $5,000 or more than $60,000 per piece. Indirect costs are not provided.

PROGRAM ACCOMPLISHMENTS:

Genetic mapping of chromosomes, development, gene regulation and structure, and control mechanisms for genetic expression for a range of organisms from viruses and bacteria to man are being studied. The "Human Genetic Mutant Cell Repository" provides stocks of well-characterized human tissue culture cells representing human genetic diseases and are available to researchers in the field. GenBank, the genetic sequence data bank, maintains and distributes a computerized database of nucleotide sequences. In fiscal year 1989, a total of 1,756 research grants, center grants, and National Research Service Awards were funded. It is anticipated that a total of 1,609 research grants, center grants, and National Research Service Awards will be funded in fiscal year 1990, and 1,613 will be funded in fiscal year 1991.

93.863 CELLULAR AND MOLECULAR BASIS OF DISEASE RESEARCH

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Research projects: Awards can be made to any public or private, for-profit or nonprofit university, college, hospital, laboratory, or other institution, including State and local units of government, qualifying small businesses (through the Small Business Innovation Research Program), and to individuals. To be eligible for funding, a proposal must be approved for scientific merit and program relevance by a scientific review committee and national advisory council. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, an SBIR grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. Small Instrumentation Program: Eligible institutions or institutional components are those that (1) have received a Biomedical Research Support Grant (BRSG) in the previous fiscal year, and (2) have, at the time of application, active NIH grants that can benefit from the requested equipment. Only one application may be submitted by each eligible institution or institutional component. Nonfederal public and private nonprofit domestic organizations may apply for an institutional National Research Service Award. Individual National Research Service awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. Predoctoral awardees must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D. Eng., or equivalent domestic or foreign degree). Applicants to the Small Business Innovation Research Program must meet special requirements for small businesses, as defined by the Small Business Administration.

POST ASSISTANCE REQUIREMENTS:

PROGRAM ACCOMPLISHMENTS:

Research has included work on the differentiation and function of cell organelles, transport of ions and molecules across cell membranes, the molecular organization of cells, and the mechanism of cell motility and cell-cell interactions. The use of some of these basic approaches to solve pathological problems has been fostered. A total of 2,056 research grants, center grants, and National Research Service Awards were funded in 1989. It is anticipated that a total of 1,993 research grants, center grants, and National Research Service Awards will be funded in fiscal year 1990, and 2,012 will be funded in fiscal year 1991.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, this program supported 561 grants and cooperative agreements, 47 NRS awards, and four SBIR awards. This program received 373 competing applications, of which 162 applications were funded. The award rate for competing research and cooperative agreement applications in 1989 was 47 percent of all reviewed applications. In fiscal year 1990, the program is expected to support 568 grants and cooperative agreements, 50 NRS awards and six SBIR awards. In fiscal year 1991, the program is expecting to support 564 grants and cooperative agreements, and 34 NRS awards and six SBIR awards. A number of very promising major nationwide multicenter clinical trials are in progress to test the safety and effectiveness of the two treatments of diabetic retinopathy and other retinal vascular diseases, for retinopathy of prematurity, aging macular degeneration and ocular melanoma. Considerable progress continues to be made in understanding the development, metabolism, molecular genetics and function of retina and choroid in health and diseases.

93.868 ANTERIOR SEGMENT DISEASES RESEARCH

APPLICATION AND AWARD PROCESS:

Application Procedure:

The standard application forms, as furnished by PHS and required by 45 CFR, Part 92 for State and local governments, must be used for this program. Also, consultations are available from Institute staff. Research grant and career applications from other than State and local units of government in general do not require preapplication coordination. Applications for research centers (core grants) and Clinical Vision Research Awards require preapplication coordination through contact with NEI staff. Individual NRSA applications must be nominated and sponsored by a Federal, public or nonprofit institution having staff and facilities appropriate to the proposed research training program. Institutions submit research grant proposals for basic and clinical research. These are reviewed for scientific merit, for evaluation of applicant qualifications, for the adequacy of the research environment, and for the significance of the problem to be studied. Institutions submit proposals for Physician Scientist Awards; these are reviewed for an evaluation of the applicant's competence in clinical activities and potential to develop into an independent biomedical investigator. The National Advisory Eye Council provides for final review. An application form, PHS-398 (Rev. October 1988), for research grants and Physician Scientist Award proposals may be requested from the Division of Research Grants, the National Institutes of Health, Bethesda, MD 20892, and should be submitted to the same address when completed. Supplemental instructions for preparing Core Grant and Small Grant application must be requested from NEI staff. Application forms and information concerning the NRSA program are available from the Office of Research Manpower, Division of Research Grants, National Institutes of Health, Bethesda, MD 20892, and should be submitted to the same address. National Eye Institute guidelines and supplemental instructions for preparing NRSA applications are available from National Eye Institute, Building 31, Room 6A-52, Bethesda, MD 20892. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. Application procedures for SBIR grants: Forms and the Phase I Solicitation may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Completed applications should be submitted to the same address for review. Small Instrumentation Program: Prepare and submit application on Form PHS-398 (Rev. October 1988). Only the Face Page and the budget page are to be completed. Additional information required includes the number and dollar amount of the grant(s) that would benefit from the requested equipment, a brief description of each beneficiary project, and an explanation of how the equipment would benefit the project. Application instructions are mailed to only the BRSG Program Director in each eligible institution or institutional component.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

FINANCIAL INFORMATION:

Obligations:

(Grants and Cooperative Agreements) FY 89 $65,071,000; FY 90 est $64,082,000; and FY 91 est $66,887,000. (NRS) FY 89 $1,629,000; FY 90 est $2,161,000; and FY 91 est $2,457,000. (SBIR) FY 89 $809,000; FY 90 est $1,102,000; and FY 91 est $1,110,000.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, the National Eye Institute supported 426 grants and cooperative agreements, 22 NRS awards, and 10 SBIR awards. This program received 249 competing applications, of which 112 applications were funded. The award rate for competing research and cooperative agreements applications in 1989 was 47 percent of all reviewed applications. In fiscal year 1990, the program is expected to support 413 grants and cooperative agreements, 23 NRS awards, and 12 SBIR awards. In fiscal year 1991, the program is expecting to support 415 grants and cooperative agreements, and 38 NRS awards. During the last year progress has been made in trying to narrow down the effects of ultraviolet light and the different forms of active oxygens which are formed in the mammalian lens. There appears to be natural substances in the lens-like pigments and antioxidants which protect the lens against deleterious effects of light and active forms of oxygen. Techniques for nerve fiber photography have been improved and measurements in normal and glaucomatous eyes suggest that this method may be useful in detecting early optical nerve injury which can be correlated with visual field measurements and other psychophysical testing.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, this program supported 282 grants and cooperative agreements, 36 NRS awards, and eight SBIR awards. This program received 208 competing applications, of which 90 applications were funded. In fiscal year 1990, the program is expected to support 297 grants and cooperative agreements, 49 NRS awards and seven SBIR awards. In fiscal year 1991, the program is expecting to support 302 total grants and cooperative agreements, and 38 NRS awards. Research has been directed toward understanding the mechanism of visual processing and the disorders that affect it. This includes basic research on molecular, genetic, chemical, cellular and integrative mechanism of the visual nervous system, studies of visual behavior and its development, studies of conjugate and vergent eye movements and accommodation. Studies of myopia are currently receiving special emphasis. Clinical, as well as the basic, research supported by this program is aimed toward developing improved methods for preventing, diagnosing and treating visual disorders such as amblyopia, optic neuropathies, strabismus; neuroophthalmological disorders and refractive error. In addition, the NEI encourages research on the rehabilitation of blind persons and those with low vision. The SBIR program is currently supporting studies on new designs for telescopic visual aids, tactile paper for low vision, OCR readers for the visually impaired, and the audible microcomputer interface.

PROGRAM ACCOMPLISHMENTS:

The program supports graduate training awards in disciplines ranging from cell and molecular biology to clinical pharmacology. The Honors Undergraduate Research Training grants provide support to minority students in their third and fourth years of college in order to enable them to compete successfully for entrance into graduate programs leading to the Ph.D. degree or M.D. -Ph.D. degree in the biomedical sciences. Support for predoctoral fellowships is also available to selected graduates of the MARC Honors Undergraduate Research Training Program. In addition, the MARC Program supports visiting scientists and faculty fellows of whom about one-half are at the postdoctoral level. A total of 130 National Research Service Awards and training awards were funded in 1989. It is anticipated that a total of 137 National Research Service Awards and training grants will be funded during fiscal year 1990, and 187 National Research Service Awards will be funded in fiscal year 1991.

93.972 HEALTH PROFESSIONS SCHOLARSHIP PROGRAM

USES AND USE RESTRICTIONS:

Scholarships support students who pursue full-time courses of study in health professions needed by the Indian Health Service (IHS). Disciplines have included allopathic and osteopathic medicine, dentistry, nursing (baccalaureate and graduate), public health nutrition (graduate), medical social work (graduate), speech pathology/audiology (graduate), optometry, pharmacology and health care administration. Not all disciplines participate each year. Scholarships may not be awarded to students who have conflicting service obligations after graduation or who are not U.S. citizens at the time of application. Recipients are required to perform 1 year of obligated service for each year of scholarship support, with a minimum obligation of 2 years in the Indian Health Service, or in a program conducted under a contract entered into under the Indian Self-Determination Act; or in an Indian health organization assisted under Title V of the Indian Health Care Improvement Act; or in private practice in a Health Manpower Shortage Area which addresses the health care needs of a substantial number of Indians. Deferment for internship, residency, or other advanced clinical training for medical, osteopathy, and dental students is generally not to exceed 3 years, consistent with the specialty needs of the IHS. Currently, 4-year deferments may be granted for obstetrics-gynecology and psychiatry residencies.

PROGRAM ACCOMPLISHMENTS:

93.977 PREVENTIVE HEALTH SERVICES—SEXUALLY TRANSMITTED DISEASES CONTROL GRANTS

OBJECTIVES:

To reduce morbidity and mortality by preventing cases and complications of sexually transmitted diseases (STD). Project grants under Section 318c awarded to State and local health departments emphasize the development and implementation of nationally uniform prevention and control programs which focus on disease intervention activities designed to reduce the incidence of these diseases, with applied research, demonstration, and public and professional education activities supporting these basic program activities authorized under Section 318b of the Public Health Service Act.

USES AND USE RESTRICTIONS:

Grant funds may be used for: (1) sexually-transmitted disease (STD) surveillance activities, including reporting, screening, and follow-up of diagnostic tests for, and diagnosed cases of, STD; (2) STD case finding and case follow-up activities, including notification of sex partners to infectious cases of STD and follow-up systems; (3) interstate epidemiological referral and follow-up activities; (4) program-specific professional (including appropriate allied health personnel) STD education, training, and clinical skills improvement activities as authorized under section 318(b) of the PHS Act; (5) program-specific STD education and information activities as authorized under Section 318b of the PHS Act; (6) special studies or demonstrations to evaluate or test STD prevention activities; and (7) control strategies and activities as may be prescribed by the Secretary. Grant funds may not be used for: (1) supplanting funds supporting existing STD control services provided by a State or locality; or (2) unless specifically approved for that purpose, grant funds shall not be used for performing diagnostic tests (other than gonorrhea screening tests), maintaining central registries, providing diagnostic and treatment facilities and services, or purchasing automated data processing equipment.

PROGRAM ACCOMPLISHMENTS:

During fiscal year 1989, 217,000 persons with a reactive test for syphilis received health department follow-up. Of those, 51,000 (24 percent) were previously unknown infections and were treated. Outreach activities resulted in the examination of epidemiologically linked individuals; 20,000 new cases detected and treated, 46,000 patients preventively treated and 6,100,000 culture specimens were obtained from women in gonorrhea screening programs, some 264,400 (4.3 percent) were positive for gonorrhea of which 254,000 (96 percent) were located and received treatment. These gonorrhea screening and other outreach efforts resulted in the prevention of an estimated 181,700 new cases of gonorrhea. There were 52,600 cases of antibiotic resistance reported in fiscal year 1989. All project areas have established hospital based surveillance efforts for pelvic inflammatory disease (PID). Forty-two States have established at least one city or county STD program that offers comprehensive surveillance, diagnostic, testing, and treatment services for chlamydia. Outreach activities for chlamydia resulted in 60,700 interviews, 47,500 epidemiologically-linked patients treated and an estimated 80,200 additional cases of chlamydia prevented. A total of 64 applications were reviewed and funded in fiscal year 1990. The same level of effort will continue in fiscal years 1991 and 1992.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations for this program are published under 42 CFR 51b. Guidelines are available. PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990, is available.

93.978 PREVENTIVE HEALTH SERVICES—SEXUALLY TRANSMITTED DISEASES RESEARCH, DEMONSTRATIONS, AND PUBLIC INFORMATION AND EDUCATION GRANTS

OBJECTIVES:

To develop, improve, apply, and evaluate methods for the prevention and control of gonorrhea, chlamydia, syphilis, and other sexually-transmitted diseases (STD) through demonstrations and applied research; to develop, improve, apply, and evaluate methods and strategies for public information and education about syphilis, gonorrhea, chlamydia and other STD; and to support professional (including appropriate allied health personnel) STD education, training, and clinical skills improvement activities.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

PROGRAM ACCOMPLISHMENTS:

Fiscal year 1990 funds supported 22 grants for the following activities: A demonstration project to develop chlamydia control intervention strategies applied research projects supporting research into treatment, complication and outcome of congenital syphilis, efficacy of therapy for early syphilis in pregnant women, development of treatment and control strategies for chlamydia, development of diagnostic test evaluations for genital warts; and two public and professional educational initiatives to support a clinic based prevention project among high-risk ethnic groups and the National STD Hotline in Research Triangle Park, North Carolina. In addition, 11 grants were awarded to support existing STD Prevention/Training centers. The same level of effort will continue in fiscal year 1991 and fiscal year 1992.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations governing this program are published under 42 CFR 51b. Guidelines are available. PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990, is available.

93.994 MATERNAL AND CHILD HEALTH SERVICES BLOCK GRANT

USES AND USE RESTRICTIONS:

States may use funds for the provision of health services and related activities, including planning, administration, education and evaluation consistent with the State's annual application. Funds may not be used for (1) inpatient services other than those provided to children with special health care needs or to high-risk pregnant women and infants and such other inpatient services as the Secretary may approve; (2) cash payments to intended recipients for health services; (3) purchase and improvement of land, construction or permanent improvement of buildings or purchase of major medical equipment; (4) matching other Federal grants; or (5) providing funds for research or training to any entity other than a public or private nonprofit entity. Beginning in FY 1991, States must use at least 30 percent of their Federal allotment for preventive and primary care services for children, and at least 30 percent for services for children with special health care needs. In addition, each State must establish and maintain a toll-free information number for parents on maternal and child health (MCH) and Medicaid providers. No more than 10 percent of each State's allotment may be used for administration.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility:

Maternal and Child Health Blocks Grants are limited to States.

APPLICATION AND AWARD PROCESS:

Application Procedure:

Annual submission of a State application and Annual Report are required prior to allocation of funds.

Award Procedure:

Funds are allocated to States by way of the Letter of Credit system subsequent to the review and approval of the State application and Annual Report.

Deadlines:

August 15th of each year.

Range of Approval/Disapproval Time:

From 1 to 2 months.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements:

Funds are allocated among the States and Territories in proportion to their relative shares of funds received under eight antecedent programs in fiscal year 1981. In fiscal year 1989, since available funding exceeded the amount appropriated in fiscal year 1983, the additional funds were allocated in proportion to the poverty population under age 18. States must assure that $3 of State or local funds will be expended for Maternal and Child Health purposes for every $4 of Federal funds allotted through the formula mechanism.

POST ASSISTANCE REQUIREMENTS:

Reports:

Each State must prepare and submit an annual report on the activities undertaken. Such reports will be in such form, and contain such information as the Secretary may require.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $465,293,300; FY 90 $470,582,950; and FY 91 est $470,582,950.

PROGRAM ACCOMPLISHMENTS:

Consolidated State Programs: Block Grant awards were first made in fiscal year 1982 to 53 jurisdictions during the transition of the program from categorical to Block Grants. Greater flexibility is provided to States

in determining the unique health needs of their populations and the selection of priority health programs. States have full responsibility for planning, promoting, coordinating and administering health care programs for mothers and children. In fiscal year 1989 and 1990, 59 Block Grant awards were made to all jurisdictions, and the same number of awards is planned for fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE:

There are no specific program regulations. Only the general Block Grant regulations are currently applicable. Federal Register Vol. 52, No. 197, Dated October 13, 1987, pp. 37957 - 37968. In addition, the Headquarters Office may issue guidance to the States on a periodic basis.

EXAMPLES OF FUNDED PROJECTS:

Each of the 59 States and jurisdictions determines its individual program priorities under its Block grant.

93.995 ADOLESCENT FAMILY LIFE—DEMONSTRATION PROJECTS

APPLICATION AND AWARD PROCESS:

Application Procedure:

Application kits may be obtained from Ms. Barbara N. Rosenberg, Grants Management Officer, Office of Population Affairs, Office of the Assistant Secretary for Health, Room 736E, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, DC 20201. The standard application forms, as furnished by PHS and required by 45 CFR, Part 92 for State and local governments, must be used for this program. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations.

POST ASSISTANCE REQUIREMENTS:

Audits:

In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133.

FINANCIAL INFORMATION:

Obligations:

(Grants) FY 89 $6,511,000; FY 90 est $6,262,000; and FY 91 est $6,129,000. (NOTE: The authorizing legislation requires that of the funds earmarked demonstration projects services (not less than two-thirds of all Title XX appropriations), no more than one-third can be used to fund prevention services programs.)

REGULATIONS, GUIDELINES, AND LITERATURE:

Proposed rules pending (48 Federal Register 22750 (May 20, 1983); authorizing legislation specifies requirements and should be used by applicants until regulations are finalized, Public Law 97-35, Title IX, Section 955 (a), 42 U.S.C. DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

11.433 MARINE FISHERIES INITIATIVE (MARFIN)

FEDERAL AGENCY: NATIONAL OCEANIC AND ADMINISTRATION, DEPARTMENT OF COMMERCE

AUTHORIZATION: Fish and Wildlife Act of 1956, Section 304(e), 16 U.S.C. 753a; Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1854(e); Appropriation Act for each fiscal year.

OBJECTIVES: To provide financial assistance for research and development projects to provide information for the full and wise use and enhancement of fishery resources in the Gulf of Mexico.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Funds can be used to develop harvest methods, economic analyses of fisheries, processing methods, fish stock assessment and fish stock enhancement. Projects are restricted to the fisheries in the Gulf of Mexico. Funds are not used for loans.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Any individual, corporation, partnership or other entity, nonprofit or otherwise, if such entity is a citizen of the United States within the meaning of Section 2 of the Shipping Act, 1916, as amended, 46 U.S.C. 802.

Beneficiary Eligibility: State or local governments, universities, private enterprise, nonprofit or profit organizations, and individuals.

Credentials/Documentation: Applications must include resumes of qualifications and experience of the principal investigators. They are expected to demonstrate expertise in the proposed area of study.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in nis or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure: A standard application Form (SF-424) should be submitted to the appropriate Regional Office. It should include a summary sheet, proposed statement of work, budget estimate on Form ED-357 NG Rev. 3-80, and detailed budget per line item listed on the Form. See annual solicitation published in the Federal Register for additional details and requirements.

Award Procedure: Proposals will be reviewed, evaluated and ranked by the National Marine Fisheries Service (NMFS). The ranking is divided into three groups; (a) Highly recommended; (b) recommended; and (c) not recommended. They are then presented to the MARFIN board members. Board members will individually submit their funding recommendations to the Director of the NMFS Southeast Region. The Director will determine the projects to be funded and fund availability and will submit the information to the NOAA Grants Officer. The Department of Commerce will review all projects before an award is executed by the NOAA Grants Officer.

Deadlines: Deadlines are published in the annual Federal Register. Contact the NMFS Southeast Regional Office at: National Marine Fisheries Service, 9450 Koger Blvd., St. Petersburg, FL 33702, for application deadlines.

Range of Approval/Disapproval Time: Disapprovals take about 45 days. Approvals require about 135 days, that includes processing the award through the NMFS, NOAA, Department of Commerce financial offices.

Appeals: None.

Renewals: Multi-year awards of up to three years may be approved. Funding beyond the first year however, depends on satisfactory performance and fund availability.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula. Cost-sharing is not required under this program.

Length and Time Phasing of Assistance: Assistance is available on an annual basis. The money must be spent during the award period and is received by letter-of-credit or request for reimbursement.

POST ASSISTANCE REQUIREMENTS:

Reports: Quarterly progress and financial reports are due 30 days after each calandar year quarter. Progress reports should summarize all work accomplished and the financial reports should reflect the use of funds. An annual/final report is due 90 days after the first or last year of a project.

Audits: An audit could be conducted at any time. Records should be kept to substantiate costs under the award and allow access for audit and examination by the Secretary of Commerce, the Comptroller of the U.S. or their authorized representatives. For awards subject to 15 CFR Part 24, the recipients are subject to the single audit Act of 1984, 31 U.S.C. 7501-7507 as implemented by OMB Circular No. A-128 and found under 15 CFR Part 8a.

Records: All records must be maintained for a period of 3 years from the date of the final financial status report.

FINANCIAL INFORMATION:

Account Identification: 11-1450-0-1-306.

Obligations: (Cooperative Agreements) FY 89 $1,500,000; FY 90 est $1,600,000; and FY 91 est $1,700,000.

Range and Average of Financial Assistance: $10,000 to $100,000; $50,000.

PROGRAM ACCOMPLISHMENTS: Valuable information has been obtained under this program. The following are a few of the highlights: The red drum fishery is decreasing and the economic impact is estimated to be over $200 million per year. Two stocks of king mackerel were identified in the Gulf, an eastern and western which mix in the northern gulf during the warm months. This fishery was steadily declining from 1984 to 1987, but showed an increase in 1988. Texas shrimp closures allowed shrimp to grow larger producing an increased revenue of 3.9 percent. New experimental procedures have produced oil, mince for chowders, fish cakes, stuffing, and sausages from menhaden. Several reef fish species are becoming over-fished. First soft (netting only) turtle excluder device (TED) was certified for use in shrimp trawls. In fiscal year 1989, 59 applications were received, of these 24 were funded and six multi-year awards were funded. In fiscal year 1990, 54 applications were received, of these 17 were funded and 14 multi-year projects received second and third year funding. It is estimated that over 50 applications will be received in fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE: For cost principles see OMB Circular Nos. A-21, A-87, and A-122. A description of MARFIN activities is available and published in an "Executive Summary to the Annual Report." A copy may be obtained from the Southeast Regional Office.

INFORMATION CONTACTS:

Regional or Local Office: Donald R. Ekberg, National Marine Fisheries Service, 9450 Koger Blvd., St. Petersburg, FL 33702. Telephone: (813) 893-3720. (FTS 826-3720.)

Headquarters Office: Not applicable.

RELATED PROGRAMS: 11.427, Fisheries Development and Utilization Research and Development Grants and Cooperative Agreements.

EXAMPLES OF FUNDED PROJECTS: Ten or more fishery areas are considered each year. Examples follow: 1) Estuarine Fish, Red drum population assessment; 2) endangered species, turtle excluder devices (TED's); 3) Underutilized species, butterfish harvesting; 4) coastal pelagics, king and spanish mackerel population assessment;

and 5) by-catch, studies to reduce the catch of non-target species caught in trawls.

CRITERIA FOR SELECTING PROPOSALS: Priority in program emphasis will be placed upon funding projects that have the greatest probability of recovering, maintaining, improving, or developing fisheries, improving our understanding of factors affecting recruitment success, generating increased values from fisheries, and generating increased recreational opportunity and harvest potential. Projects will be evaluated as to the likelihood of achieving these benefits through both short-term and long-term research projects with consideration of the magnitude of the eventual economic benefit that may be realized.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

HOUSING-FEDERAL HOUSING COMMISSIONER

14.180 LOWER INCOME HOUSING ASSISTANCE—SECTION 8 EXISTING HOUSING CERTIFICATE PROGRAM

(Section 8 Certificates)

FEDERAL AGENCY: HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

AUTHORIZATION: National Housing Act of 1937, 42 U.S.C. 1437f, as amended; Housing and Community Development Act of 1974, Public Law 93-383; Stewart B. McKinney Homeless Assistance Amendments Act of 1988, Public Law 100-628; Department of Housing and Urban Development Reform Act of 1989, Public Law 101-235.

OBJECTIVES: To aid very low-income families in obtaining decent, safe, and sanitary rental housing.

TYPES OF ASSISTANCE: Direct Payments for Specified Use.

USES AND USE RESTRICTIONS: Provides housing assistance payments to participating owners on behalf of eligible tenants to provide decent, safe and sanitary housing for very low-income families in private market rental units at rents they can afford. This is primarily a tenant-based rental assistance program through which participants are assisted in rental units of their choice; however, a housing agency may also attach up to 15 percent of its certificate funding to rehabilitated or newly constructed units under a new project-based component of the program. All assisted units must meet program guidelines. Housing Assistance payments are used to make up the difference between the approved rent due to the owner for the dwelling unit and the occupant family's required contribution towards rent. Assisted families must pay the highest of 30 percent of the monthly adjusted family income, 10 percent of gross monthly family income, or the portion of welfare assistance designated for the monthly housing cost of the family.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: An authorized Public Housing Agency (any State, county, municipality or other governmental entity or public body or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for very low-income families).

Beneficiary Eligibility: Very low-income families (whose income does not exceed 50 percent of the median income for the area as determined by the Secretary with adjustments for smaller and larger families) and, on an exception basis, lower income families whose income does not exceed 80 percent of the median income for the area adjusted for smaller and larger families).

Credentials/Documentation: In the Section 8 Certificate Program, the Public Housing Agency (PHA) must support its application by furnishing data that the program proposed is consistent with any local Housing Assistance Plan. In the absence of such a plan, the Public Housing Agency must demonstrate that the proposed program is responsive to the condition of the housing stock in the community and the housing assistance needs of very low-income families (including the elderly, handicapped and disabled, large families and those displaced or who will be displaced) residing in or expected to reside in the community; and that there is or will be available in the area public facilities and services adequate to serve the proposed housing. This program is excluded from coverage under OMB Circular No. A-87.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: The Chief Executive Officer of the unit of general local government in which the proposed housing is to be carried out will have an opportunity to comment on the proposed housing. Where there is an approved Housing Assistance Plan, the local government has the opportunity to object to the approval of the application on the grounds that the application is inconsistent with its Housing Assistance Plan. Where there is no Housing Assistance Plan, the local government has an opportunity to comment upon, or provide information concerning the need for housing assistance and the availability of local facilities and public services to serve the proposed housing. The Department will publish a Notice of Funding Availability (NOFA) in the Federal Register identifying allocation areas, amount of funds available for each area, and the selection criteria for rating and ranking applications. Applicants will have at least 30 days to submit an application. This program is excluded from coverage under OMB Circular No. A-102 and E.O. 12372.

Application Procedure: Submission of Application for Housing Assistance Payments Program (Form HUD-52515). This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure: The local HUD Field Office Manager (or Regional Administrator) makes the final decision based on the results of the rating and ranking process.

Deadlines: Applications should be submitted in accordance with the time frame stated in the NOFA.

Range of Approval/Disapproval Time: Generally 30 days from the date of receipt and approval of applications.

Appeals: Not applicable.

Renewals: Expiring increments of Section 8 Certificate assistance are automatically renewed by HUD with new 5-year Certificate contracts.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: There are no matching requirements.

Length and Time Phasing of Assistance: For units under contract in the Certificate Program, assistance payments may be made for a period up to 180 months. New funding is provided for 60 months.

POST ASSISTANCE REQUIREMENTS:

Reports: Supporting Data for Annual Contributions Estimates, HUD Form 52672; Estimate of Total Required Annual Contributions, HUD Form 52673; Requisition for Partial Payment of Annual Contributions, HUD Form 52663; Voucher for Payment of Annual Contributions and Operating Statement, HUD Form 52681; and Tenant Data Summary, HUD Form 50058.

Audits: Periodic fiscal, occupancy, general management and maintenance audits.

Records: Those necessary to indicate compliance with Annual Contributions Contract/Housing Assistance Payments Contract.

FINANCIAL INFORMATION:

Account Identification: Housing Payments 86-0164-0-1-604.

Obligations: Reported under Program 14.156.

Range and Average of Financial Assistance: Amount necessary for the Public Housing Agency to lease units and cover related administrative, management and maintenance and operating expenses including utilities. The housing assistance payment to the owner is the difference between the tenant portion of the rent and the contract rent to the owner. Contract rents approved by the public housing agency are not to exceed reasonable rents for existing comparable units offering equivalent accommodations, utilities and services, for the housing area in which the units are located.

PROGRAM ACCOMPLISHMENTS: As of July 31, 1990, there were 914,378 certificates available under this program to assist eligible families in rental units.

ENVIRONMENTAL PROTECTION AGENCY

OFFICE OF POLICY, PLANNING AND EVALUATION

66.900 POLLUTION PREVENTION INCENTIVES FOR STATES

FEDERAL AGENCY: OFFICE OF POLICY, PLANNING AND EVALUATION, ENVIRONMENTAL PROTECTION AGENCY

AUTHORIZATION: Resource Conservation and Recovery Act, as amended, Section 8001; Clean Water Act, as amended, Section 104(b)(3); Clean Air Act, Section 103; Toxic Substances Control Act, as amended, Section 10; Safe Drinking Water Act, Section 1442(b)(3)(c).

OBJECTIVES: To support State and regional level pollution prevention programs that address the reduction of pollutants across all environmental media: air, land, surface water, ground water, and wetlands.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Funds awarded under this grant/cooperative agreement program must be used to support innovative pollution prevention programs that address the transfer of potentially harmful pollutants across all environmental media -- air, land, surface water, ground water, and wetlands. Such innovative programs should reflect comprehensive and coordinated pollution prevention planning and implementation efforts. State and interstate agencies seeking funding under this grant program should focus on, for example: Demonstrating the impact of institutionalizing multimedia pollution prevention as an environmental management priority, establishing prevention goals, and developing strategies to meet those goals; Initiating demonstration projects that support and test innovative pollution prevention applications and integrate pollution prevention ethic within both governmental and non-governmental institutions of the State or region; Other multimedia prevention activities, including but not limited to: Providing direct technical assistance to businesses, collecting and analyzing data to target outreach and technical assistance opportunities, conducting outreach activities, developing measures to determine pollution prevention progress, and identifying regulatory and nonregulatory barriers and incentives to pollution prevention.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Congressional appropriations language indicates that these funds are to be used to support "State" pollution prevention efforts. "State" includes State and interstate agencies and other instrumentalities of the State such as State universities. Federally Recognized Indian Tribal Governments are also eligible to apply for funding. Local governments or other political subdivisions of the State are not instrumentalities of the State and are therefore not eligible to apply directly for funding. Private universities, private nonprofit organizations, and other private organizations are also not eligible to apply directly for funding. However, organizations excluded from applying directly are encouraged to work with eligible State or interstate agencies in developing pollution prevention proposals and be included as participants in the project. EPA strongly encourages this type of cooperative arrangement.

Beneficiary Eligibility: Any interstate, intrastate, State and local agency/organization/university, Federally Recognized Indian Tribal Government, public nonprofit organization/institution, profit organization, private organization, and quasi-public nonprofit organization.

Credentials/Documentation: In cases where applicants are not clearly, by given name, an instrumentality of the State, the applicant must provide proof that the applicant is indeed a State or interstate agency/organization.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: The Standard Form 424, 424A, and other forms as provided by the Environmental Protection Agency must be used for this program. Applicants are subject to the State's review. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs" (and the review requirements of Section 204 of the Demonstration Cities and Metropolitan Development Act). An applicant should consult the office or official designated as the single point of contact in his or her State for more informtion on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The single point of contact must notify in writing, within thirty days of the publication of the Federal Register Notice announcing availibilty of funds, the Grants Administration Division of the Environmental Protection Agency whether their State's official E.O. 12372 process will review applications in this program.

Application Procedure: Requests for application forms should be made to: Pollution Prevention Division, U.S. Environmental Protection Agency, PM-219, 401 M Street, SW., Washington, DC 20460. Telephone: (202) 245-4164. Completed applications must be submitted to the Grants Operation Branch, Grants Administration Division, Environmental Protection Agency. Applications must meet the requirements of the grant regulations and will be reviewed to determine relevancy of the proposed project.

Award Procedure: Procedures for awards are outlined in General Grant Regulaion 40 CFR Part 30.

Deadlines: Application deadline for funds available in fiscal year 1991 has not yet been determined.

Range of Approval/Disapproval Time: 120 days.

Appeals: As described in 40 CFR Part 30, Subpart L.

Renewals: None.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Organization awarded funds under this program will be required to contribute at least 10 percent of the total cost of their project (in dollars or in-kind goods/services). Maximum awards available are $300,000. There is no minimum award.

Length and Time Phasing of Assistance: Grants are awarded for a budget period not to exceed three years. Funds are released by a letter of credit.

POST ASSISTANCE REQUIREMENTS:

Reports: Organizations that are awarded grant/cooperative agreement funds will be required to submit to the Pollution Prevention Division, Environmental Protection Agency semi-annual progress reports. Each report will summarize funds expended, tasks accomplished, and results achieved to date. A summary final report will also be required at the end of the project period. This final report should include a discussion of the prospects for continuation and further development of the pollution prevention efforts.

Audits: Subject to audit by EPA and the Comptroller General. Periodic audits should be made as part of the recipient's system of financial management and internal control to meet terms and conditions of grants and other agreements. In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," States that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State agencies that received less than $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate.

Records: Financial records, including all documents to support entries on accounting records to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

FINANCIAL INFORMATION:

Account Identification: 68-0108-0-1-304.

Obligations: (Grants) FY 89 $3,925,460; FY 90 $7,300,000; and FY 91 est $5,000,000.

Range and Average of Financial Assistance: $125,000 to $300,000; $300,000.

PROGRAM ACCOMPLISHMENTS: During fiscal year 1990, grant awards totaling $7,300,000 were made to 25 State agencies and one interstate organization to initiate or expand pollution prevention programs. It is anticipated that these recipients will demonstrate a contribution to the overall reduction of wastes in their State or region in fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE: 40 CFR Parts 29, 30, 31, 32; and "EPA Assistance Administration Manual," available from the National Technical Information Services, Department of Commerce, Springfield, VA 22161 on a subscription basis, Order No.: NTIS UB/031.

INFORMATION CONTACTS:

Regional or Local Office: Contact appropriate EPA Regional Office listed in Appendix IV of the Catalog.

Headquarters Office: For program information, Jackie Krieger or Lena Hann, Pollution Prevention Division, Office of Policy, Planning and Evaluation, PM-219, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460. Telephone: (202) 245-4164 (Use same 7-digit number for FTS).

RELATED PROGRAMS: None.

EXAMPLES OF FUNDED PROJECTS: 1) Technical assistance; 2) Data collection and dissemination; 3) Education for and outreach to business/government/academic personnel; 4) Curriculum development; 5) Environmental auditing; 6) Recycling projects; 7) Waste exchange service; 8) Research; 9) Demonstration projects; and 10) Planning, or combinations thereof.

CRITERIA FOR SELECTING PROPOSALS: The selection criteria for this program include the following; 1) Goals and objectives are clearly identified and a strategy for meeting the goals and objectives is defined; 2) Multimedia opportunities and impacts are identified. A multimedia pollution prevention program addresses the prevention of pollution across all environmental media -- air, land, and water; 3) The proposal addresses significant needs of the State or region. Areas of significant risk are targeted and integrated into overall pollution prevention goals, objectives, and implementation strategies; 4) The pollution prevention activities of other programs or organizations in the State or region are integrated and leveraged into the proposed program, as appropriate. Activities funded complement and augment pollution prevention activities already undertaken by the State; 5) Measures of success are identified. There is a reasonable expectation for significant accomplishments in pollution prevention and there is an adequate system planned for measuring progress with environmental and/or programmatic indicators; and, 6) Plans for the long term implementation of a multimedia pollution prevention program beyond the initial project funding period are identified.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

FAMILY SUPPORT ADMINISTRATION

93.028 LOW-INCOME HOME ENERGY ASSISTANCE

FEDERAL AGENCY: FAMILY SUPPORT ADMINISTRATION, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Low-Income Home Energy Assistance Act of 1981; Omnibus Budget Reconciliation Act of 1981, Title XXVI, Section 2602(a), Public Law 97-35, 42 U.S.C. 8621, as amended; Public Law 98-558, Title XXVI, 95 Stat. 893 and 98 Stat 2889; Public Law 99-425, 100 Stat. 966.

OBJECTIVES: Energy Assistance Block Grants: To make grants available to States and other jurisdictions to assist eligible households to meet the costs of home energy. Training and Technical Assistance: To provide training and technical assistance to States and other jurisdictions administering the Low-Income Home Energy Assistance Program (LIHEAP) block grant program.

TYPES OF ASSISTANCE: Formula Grants; Project Grants; Project Grants (Cooperative Agreements); Project Grants (Contracts).

USES AND USE RESTRICTIONS: Energy Assistance Block Grants: Funds are awarded to States and other jurisdictions, which then make payments directly to an eligible low-income household or, on behalf of such household, to an energy supplier to assist in meeting the cost of home energy. Up to 10 percent of these funds may be used for State planning and administration. Up to 10 percent may be transferred to other block grants administered by the Department of Health and Human Services. Up to 15 percent may be used for low-cost residential weatherization. Training and Technical Assistance: The Secretary has authority to set aside up to $500,000 from each year's appropriation for training and technical assistance relating to the Low-Income Home Energy Assistance Program (LIHEAP). These activities are accomplished through grants, contracts, or jointly financed cooperative agreements with States, Indian tribes, or tribal organizations. The nature of and amount awarded for training and technical assistance varies from year to year.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Energy Assistance Block Grants: All States, the District of Columbia, federally- and State-recognized Indian Tribal governments which request direct funding, and specified Territories may receive direct grants. The prospective grantee must submit an annual application. Training and Technical Assistance: States, Indian tribes or tribal organizations, public agencies, and private nonprofit organizations may apply. Nothing in the statute precludes a business concern that applies jointly with a private nonprofit organization from receiving a training and technical assistance grant.

Beneficiary Eligibility: Energy Assistance Block Grants: Households with income which does not exceed the greater of 150 percent of the poverty level or 60 percent of the State median income, or households with recipients of Aid to Families with Dependent Children (AFDC), Social Security Insurance (SSI), Food Stamps or certain income-tested veterans' benefits. Categorical eligibility does not extend to households in certain types of living arrangements, e.g., nursing homes. Grantees are not required to make payments to all federally-eligible households. Grantees may not set income eligibility standards below 110 percent of the poverty level. Training and Technical Assistance: Eligibility varies and is specified in Federal Register notices of availability of funds.

Credentials/Documentation: Energy Assistance Block Grants: The chief executive officer of the State, Tribe or Territory or his designee must certify to 14 assurances required by law. Households must meet grantee eligibility requirements. This program is excluded from coverage under OMB Circular No. A-87. Training and Technical Assistance: Requirements vary and are published in the Federal Register.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Energy Assistance Block Grants: Requirements for applications are set forth in Section 2605 of the authorization. There is no format for applications. Prospective grantees may contact the Office of Community Services Headquarters Office for assistance. (See Information Contacts below.) This program is excluded from coverage under E.O. 12372. Training and Technical Assistance: Requirements that apply to each request for proposals are published in the Federal Register.

Application Procedure: Energy Assistance Block Grants: Applications are submitted by the chief executive officer of a State, Indian Tribe (recognized by the Federal government or a State government), or Territory, or his designee. Applications contain assurances prescribed by law and a plan describing how certain assurances will be carried out, and other information specified by law. Households wishing to apply for benefits should contact the local welfare agency or community action agency for information regarding the agency administering the program. This program is excluded from coverage under OMB Circular Nos. A-102 and A-110. Training and Technical Assistance: Requirements that apply to each request for proposals are published in the Federal Register.

Award Procedure: Energy Assistance Block Grants: Grants are made upon receipt of a complete application by the Office of Community Services Headquarters Office. Training and Technical Assistance: Procedures that apply to each request for proposals are published in the Federal Register.

Deadlines: Energy Assistance Block Grants: No deadline has been established (other than the end of the fiscal year for which funds are sought) for receipt of State or Territorial applications. Tribal applications must be submitted by September 1 prior to the fiscal year for which the funds are sought, unless the State in which a tribe is located agrees to a later date. Training and Technical Assistance: Deadlines pertaining to each request for proposals are published in the Federal Register. Contact Headquarters Office listed below for further information.

Range of Approval/Disapproval Time: Energy Assistance Block Grants: The Department reviews plans for completeness and will act on the plans submitted as quickly as possible. Training and Technical Assistance: Range of time varies, depending upon the nature and complexity of a request for proposals.

Appeals: Energy Assistance Block Grants: Grantees may request a hearing regarding repayment of funds or withholding of funds under Section 2608 of the authorization. Training and Technical Assistance: Not applicable for unsuccessful applicants for grants or cooperative agreements. For contracts, offerors may object to a contract award by filing a protest with the contracting officer or higher authority. The notification issued by the contracting office to unsuccessful bidders contains the procedures and timeframe for filing a protest.

Renewals: Energy Assistance Block Grants: Annual applications are required. Training and Technical Assistance: Grant award periods may vary and are published in the Federal Register.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: Energy Assistance Block Grants: There is no requirement for matching Federal funds with grantee funds. Allocations to grantees are based on the formulas described in Section 2604 of the authorizing statute. Contact funding agency for further details. Training and Technical Assistance: There is no requirement for matching Federal funds with grantee funds.

Length and Time Phasing of Assistance: Energy Assistance Block Grants: Grant awards are made to grantees with complete applications for carrying out the program within the fiscal year. Up to 15 percent of a fiscal year's grant not transferred to other block grants may be held available for obligation in the subsequent fiscal year. Training and Technical Assistance: Grant award periods may vary and are published in the Federal Register.

POST ASSISTANCE REQUIREMENTS:

Reports: Energy Assistance Block Grants: A report on the number and income level of the households served, and the number of assisted households with elderly or handicapped persons must be submitted annually. A report on the amount of funds that the grantee desires to carry over for obligation in the succeeding fiscal year, the reasons any such funds will not be used during the first fiscal year, the types of assistance to be provided with funds carried over, and the amount of funds, if any, to be subject to reallotment must be submitted annually. Training and Technical Assistance: Grantees are required to submit quarterly financial reports and a final progress report. For contracts, contractors are required to submit quarterly financial reports (Form HHS-646, Financial Report of Individual Project (Contract)).

Audits: This program is covered under the Single Audit Act and OMB Circular No. A-128 for both Block Grants and Training and Technical Assistance. In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive Federal financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials. Training and Technical Assistance: Private nonprofit organizations receiving grants must submit financial compliance audits covering the grant period in accordance with Federal Regulations, Title 45, Part 45. Private nonprofit organizations must provide audits in accordance with OMB Circular No. A-133 or Attachment F of OMB Circular No. A-110. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records: Proper grant accounting records must be maintained.

FINANCIAL INFORMATION:

Account Identification: 75-1502-0-1-609.

Obligations: Energy Assistance Block Grants: (Grants) FY 89 $1,383,094,000; FY 90 est $1,443,000,000; and FY 91 est $1,050,000,000. Training and Technical Assistance: (Grants and Contracts) FY 89 $215,000; FY 90 est $365,000; and FY 91 est $500,000.

Range and Average of Financial Assistance: Energy Assistance Block Grants: States gave an average of $204 in assistance for heating costs in fiscal year 1989. Training and Technical Assistance: $20,000 to $150,000.

PROGRAM ACCOMPLISHMENTS: Energy Assistance Block Grants: During fiscal year 1989, States provided regular heating assistance benefits to approximately 5.9 million households. Additionally, households could have received energy crisis assistance, assistance with cooling costs, or weatherization assistance. As a result, some households can receive more than one type of LIHEAP assistance. Training and Technical Assistance: A number of "roundtable" workshops on various topics, clearinghouse, conference sponsorship, and other activities were conducted to assist in the more effective provisions of LIHEAP services.

REGULATIONS, GUIDELINES, AND LITERATURE: 45 CFR 96; 45 CFR 74; 45 CFR 92.

INFORMATION CONTACTS:

Regional or Local Office: None.

Headquarters Office: Janet M. Fox, Director, Office of Energy Assistance, Office of Community Services, Family Support Administration, Department of Health and Human Services, 370 L'Enfant Promenade, SW., Washington, DC 20447. Telephone: (202) 252-5300.

EXAMPLES OF FUNDED PROJECTS: Roundtable workshops, clearing houses and conferences have been conducted.

CRITERIA FOR SELECTING PROPOSALS: Criteria pertinent to each request for proposals are published in the Federal Register.

93.121 ORAL DISEASES AND DISORDERS RESEARCH

FEDERAL AGENCY: NATIONAL INSTITUTES OF HEALTH, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Public Health Service Act, as amended, Title IV, Section 301, Public Law 78-410; Small Business Innovation Development Act of 1982, as amended, Public Law 97-219; Public Law 99-158; Public Law 99-500, and Report 99-711 to accompany H.R. 5233.

OBJECTIVES: To obtain improved information on the etiology and prevention of dental caries; to develop improved restorative materials and devices including dental implants, for the repair of damaged oral structures; to develop new knowledge on the cause, pathology, diagnosis, treatment, and prevention of periodontal and oral soft tissue diseases, the oral manifestations of acquired immunodeficiency syndrome (AIDS), herpes simplex and Candida albicans infections, and diseases of the tooth pulp; to develop new knowledge of relationships between nutritional factors and oral health; and to improve the understanding of the role of salivary secretions in the prevention of oral disease; to conduct research on the cause, prevention, and treatment of cleft lip/palate, other craniofacial birth defects, malocclusion of the teeth and jaws, and disfigurements acquired through accidents and surgery to reduce their impact; to determine the prevalence, etiology, and treatment of acute and chronic dental orofacial pain in order to develop more effective means of prevention, diagnosis, and treatment; to study oral factors influencing chemosensory functions and the determinants of normal and impaired oral-motor function; and to determine how behavioral or social factors influence disease risks, prevention, diagnosis, and dental treatment. Small Business Innovation Research (SBIR) Program: To stimulate technological innovation; to use small business to meet Federal needs for research and development; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation by minority and disadvantaged persons in technological innovation. Small Instrumentation Program: To support the purchase of relatively low-cost pieces of research equipment that generally are not funded in research project grants and which do not qualify for support under the National Institutes of Health's (NIH) larger shared instrumentation program.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Research Grants: Research Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation in the oral health sciences. They are awarded to universities, colleges, medical and dental schools, hospitals, and other nonprofit and for-profit institutions. Awards include investigator-initiated project grants, program project grants, center grants, First Independent Research Support and Transition (FIRST) awards for new investigators, and small grants. In addition, Method to Extend Research in Time (MERIT) awards provide simplified application and review procedures for grantees with records of high scientific productivity. Individual physician-scientist awards for dentists are made through institutions for research career development in specific basic science areas. Individual and institutional dentist scientist awards are made to provide research career development in both clinical and science areas. National Research Service Awards (NRSAs) can be made directly to individuals for research training in specified biomedical areas, and can be made to institutions to enable them to accept individuals for research training. Each individual who receives a NRSA is obligated upon termination of the award to comply with service and payback provisions. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. Small Instrumentation Program: Funds are awarded as institutional formula grants for the purchase of research equipment costing not less than $5,000 or more than $60,000 per piece. Indirect costs are not provided.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Grants: Scientists at universities, hospitals, laboratories, and other public or private nonprofit and for-profit institutions. NRSA and Research Career Development Awards (RCDA): (1) Nonprofit domestic organizations may apply for an institutional awards. (2) Individual candidates or applicants must arrange sponsorship by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. (3) All awardees must be citizens, or non-citizen nationals of the United States or have been admitted to the United States for permanent residence. (4) To be eligible, postdoctoral NRSA and RCDA awardees must have professional or scientific degree (M.D., Ph.D., D.D.S., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Dentist Scientist and Physician Awardees must have a dental degree. Institutional applicants must be able to provide the staff and facilities suitable for the proposed research training. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. Small Instrumentation Program: Eligible institutions or institutional components are those that (1) have received a Biomedical Research Support Grant (BRSG) in the previous fiscal year, and (2) have, at the time of application, active NIH grants that can benefit from the requested equipment. Only one application may be submitted by each eligible institution or institutional component.

Beneficiary Eligibility: Any nonprofit or for-profit organization, company or institution engaged in biomedical research.

Credentials/Documentation: Grants: Applications for grants must show the objectives, methodology, and resources for the specific research project and must present the applicant's competence and interest. NRSA and Research Career Development Awards: (1) Individual Candidates: the applicant's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training, must be included in the application. (2) Institutional Candidates: the applicant institution must show the objectives, methodology and resources for the research training program, the research qualifications and experience of directing staff to train students, the criteria to be used in selecting individuals for awards, and a detailed budget and justification for the amount of grants funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other than State and local government grantees, costs will be determined by Health and Human Services (HHS) Regulations 45 CFR, Part 74, Subpart Q. Each SBIR applicant must present a research plan and furnish evidence that scientific competence, experimental methods, facilities, equipment, and supplies are appropriate to carry out the plan. Furthermore, in Phase I, there should be an idea or concept with commercial potential; in Phase II, there should be evidence that commercialization of the research is plausible. Use Forms PHS 6246-1 and 6246-2 for Phase I and Phase II applications, respectively.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Not applicable. This program is excluded from coverage under E.O. 12372.

Application Procedure: Research Grants: Request application Form PHS-398 (Rev. October 1988) from: the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Telephone: (301) 496-7723. The standard application forms, as furnished by PHS and required by 45 CFR, Part 92 for State and local governments, must be used for this program. Applications for Center Grants are accepted only in response to specific announced requests. RCDAs and NRSAs: Individual: Prior to formal applications, an applicant must arrange for acceptance at a sponsoring institution by a sponsor who will supervise the training. Applicants may be sponsored by a nonprofit institution. NRSA: Application forms for Individual or Institutional NRSA awards and information concerning the areas of science being supported may be obtained from the Office of Research Manpower, Division of Research Grants, National Institutes of Health, Bethesda, MD 20892, and be submitted to the same address. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. MERIT awardees are nominated by National Institute of Dental Research (NIDR) and the National Advisory Dental Research Council from regular research grant applications being reviewed at that Council meeting. SBIR: Application forms and the Phase I solicitation may be obtained from the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892, and submitted to the same address for review. Small Instrumentation Program: Prepare and submit application on Form PHS-398 (Rev. October 1988). Only the face page and the budget page are to be completed. Additional information required includes the number and dollar amount of the grant(s) that would benefit from the requested equipment, a brief description of each beneficiary project, and an explanation of how the equipment would benefit the project. Application instructions are mailed to only the BRSG Program Director in each eligible institution or institutional component.

Award Procedure: Grants: All accepted applications competing for grants are reviewed by two advisory groups -the initial review group composed of nongovernmental peer scientists and the second the National Advisory Dental Research Council. For grants costing less than $50,000, review by a competent staff group may be substituted for Council review. RCDAs and NRSAs: All accepted applications are reviewed by an appropriate initial scientific review group. The Advisory Council provides secondary review of institutional NRSAs and all RCDAs. NIDR staff provides expedited secondary review of individual NRSA applications. All accepted SBIR applications are evaluated for technical merit by an appropriate scientific review group and by Council. All approved SBIR applications compete for the available SBIR set-aside funds on the basis of technical merit, program relevance, and program balance.

Deadlines: New Research Grants and all Career Development Grants: February 1, June 1, and October 1. Renewal Research Grants, Supplementals, Revised Research Grants and Career Development Grants: March 1, July 1, and November 1. NRSA: January 10, May 10, and September 10. SBIR: April 15, August 15, and December 15. Small Instrumentation Program: Contact Headquarters Office listed below for application deadlines.

Range of Approval/Disapproval Time: Grants: From 6 to 9 months. NRSA: From 6 to 9 months. Small Grants: About 4 months. SBIR: About 7-1/2 months. Small Instrumentation Program: From 5 to 6 months.

Appeals: A Principal Investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute and, subsequently, the P.I. and applicant institution may formally appeal to the Deputy Director For Extramural Research, Office of the Director, NIH.

Renewals: Grants: Applications for approval beyond the approved project period must be submitted at least 6 to 9 months in advance of the termination date. NRSA: Institutional Awards may be made up to 5 years. No individual may receive NIH/NRSA support at the postdoctoral level for more than 3 years, unless a specific wavier is requested and approved.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula or matching requirements.

Length and Time Phasing of Assistance: Grants: Approval of a project includes a determination of support for the authorized project period (not to exceed 5 years). Awards to support the project are made on an annual basis. At the time of initial award, the grant provides funds for the conduct of the project during the first budget period (usually 12 months) and the Notice of Grant Award (Form PHS-1533) indicates the support recommended and expected to be made available for the remainder of the project period. If additional support is desired to continue the project beyond the approved project period, an application for renewal (PHS-398, Rev. October 1988) must be submitted in accordance with the deadline dates and instructions attached to the form. SBIR Phase I awards are generally for 6 months; Phase II awards normally may not exceed 2 years. Small Instrumentation Program: Grants are made for 1 year with no future year commitments.

POST ASSISTANCE REQUIREMENTS:

Reports: Grants: Annual and terminal reports on progress, expenditures, and inventions in accordance with 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. Reports are required after termination of NRSA to ascertain compliance with the service and payback provisions.

Audits: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records: Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period.

FINANCIAL INFORMATION:

Account Identification: 75-0873-0-1-550.

Obligations: (Grants) FY 89 $92,454,000; FY 90 est $94,882,000; and FY 91 est $97,699,000.

Range and Average of Financial Assistance: Grants: $15,000 to $1,491,000; $158,000. NRSA: $10,000 to $293,000; $59,000. SBIR: Average Phase I SBIR awards are for approximately $50,000; Phase II awards may be made for amounts up to $500,000.

PROGRAM ACCOMPLISHMENTS: Significant new information has been obtained from epidemiological and clinical studies in canal and root caries and periodontal disease experience and treatment in the elderly, minority populations, and other high-risks groups. Major advances have occurred in research on the secretory immune system that protects the mouth and on the molecular biology of virulence factors of cariogenic microorganisms. Considerable progress has been made in delineating salivary gland regulatory factors and characterizing the molecular structure and function of salivary proteins and other macromolecules important in oral health maintenance. An intra-oral model was developed with which the enamel demineralizing potential of test foods and fluoride regimens can be compared under conditions of normal human use. Clinical testing of amalgams and composites, coupled with research on their properties, continues to provide data which points to longer lasting dental fillings. Significant improvements have been made in the way that restorative materials can be bonded to damaged teeth. Tooth implant research, in both animal and human clinical studies, indicates a continued interest in this area; titanium and ceramic implants look promising for future use. In the periodontal field, additional progress has been made in identifying the bacteria that cause different forms of periodontal disease and in developing rapid means of detecting these organisms; advances were also made in defining how the bacteria cause disease, in characterizing the body's immune response and in determining the influence of diabetes. Important improvements in measuring periodontal disease have also been made. In addition to studies focused on early detection of oral cancer, emphasis is shifting to study of synergistic factors such as alcohol, tobacco, papilloma viruses, oncogenies, and certain growth factors. Findings from studies conducted by laboratory scientists should help clinicians in their efforts to improve the cure rate of oral cancer through early detection programs. This knowledge should also contribute to improved preventive measures. The epidemiology and treatment of oral manifestations of AIDS and herpes simplex have recently received increased attention. Other research accomplishments include: determination of how different tissues comprising the head, face, and oral structures develop; identification of some of the molecular and hormonal factors responsible for development of bones and teeth; identification of the mechanisms involved in scar formation following wound healing; development of techniques to improve transplantation of muscles to correct facial injuries; clarification of neural pathways and structures involved in transmitting and modulation pain emanating from the jaw joint and muscles; development of improved techniques for establishing effective consistent oral self care in adults and seniors; and the identification of behavioral and anatomical factors associated with temporomandibular disorders. In fiscal year 1989, the NIDR received 456 new and competing research project grant applications; 109 were awarded at a cost of $17,516,000. The Institute also supported 284 noncompeting research project grants at $44,231,000, 19 research centers at $14,478,000, 155 positions in the RCDA program at $8,847,000, 58 other research grants at $2,078,000, and 189 positions in the NRSA program at $5,304,000. Amounts anticipated for these combined programs in fiscal year 1990 and fiscal year 1991 are $94,882,000 and $97,699,000 respectively.

REGULATIONS, GUIDELINES, AND LITERATURE: Grants: 42 CFR 52; 42 CFR 66; 45 CFR 74; Leaflet, entitled, "Grant and Contract Research Programs at the National Institute of Dental Research", Grant Application Kit. Address for all contacts: Extramural Program, National Institute of Dental Research, National Institutes of Health, Public Health Service, Department of Health and Human Services, Bethesda, MD 20892.

RELATED PROGRAMS: None.

EXAMPLES OF FUNDED PROJECTS: (1) Support of periodontal disease, dental caries, and resortative materials research centers; (2) studies of the molecular nature of gingival and mucosal collagen in health and disease; immunological studies and molecular genetic analyses of bacterial virulence factors in caries and periodontal disease; (3) the mechanisms of bone resorption in chronic periodontitis; (4) studies of the bioavailability of fluoride and its effect on dental caries, dental fluorosis, and remineralization of early enamel lesions; (5) the oral manifestations of AIDS; (6) cellular and molecular aspects of salivary secretion; (7) the molecular biology and treatment of orofacial herpes virus infection; and (8) studies of water-insoluble adhesives for dental restorations; (9) synergistic factors in oral cancer; (10) mapping of genes responsible for congenital craniofacial defects; (11) study of teratogen induction of craniofacial anomalies; (12) evaluation of the efficacy of different orthodontic treatments; (13) mechanisms of bone grafting and induction following injury; (14) studies of neural mechanisms controlling oral-motor activities, such as swallowing and chewing; (15) studies assessing the diagnostic value of magnetic resonance imaging (MRI) in assessing jaw joint pathologies; (16) studies os social and behavioral factors differentiating senior citizens showing high and low levels of oral disease; (17) development of instruments to assess benefits from facial surgeries for children with craniofacial anomalies; and (18) evaluation of anti-depressant drug therapies for relieving chronic jaw pain.

CRITERIA FOR SELECTING PROPOSALS: The major elements in evaluating proposals include assessments of: (1) the scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to the announced program objectives. The major elements in evaluating SBIR Phase I grant applications include assessment of: (1) the technical merit of the proposed research; (2) the soundness of the proposed design and methods; (3) the qualifications of the principal investigator, supporting staff, and consultants; (4) the potential of the proposed research for technological innovation and commercial application; (5) the appropriateness of the budget requested; and (6) the adequacy and suitability of the facilities and research environment. In the review of Phase II applications, criteria include those listed above, in addition to the following: (1) the degree to which Phase I objectives were met and feasibility demonstrated; and (2) the adequacy of the Phase II objective and methodology for addressing the proposed research.

93.392 CANCER CONSTRUCTION

FEDERAL AGENCY: NATIONAL INSTITUTE OF HEALTH, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Public Health Service Act, Section 413(b) 6(A), 42 U.S.C 285a and Section 414, 42 U.S.C 285, as amended, Public Law 99-158; Public Law 101-166.

OBJECTIVES: To renovate existing cancer research facilities and build new cancer research facilities to meet basic and clinical space requirements, laboratory safety, biohazard containment, and animal care standards in order to support the facility demands of National Cancer Institute (NCI) research programs.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: New physical resources for cancer research include basic research laboratories, clinical and support facilities, and those related to biohazard control that are integral parts of an overall effort. Proposed facilities must be part of an existing cancer research effort or a developing cancer research program. Facilities constructed may not be used to replace existing cancer research facilities. Facilities shall be used for research pertinent to cancer problems for at least 20 years. Funds must be used for purposes stated in the approved grant application.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Except where otherwise prohibited by law, any nonprofit organization competent to carry out cancer research is eligible to apply for support. Examples include universities, colleges, hospitals, public agencies or nonprofit research institutions.

Beneficiary Eligibility: Public and private nonprofit organizations and the public needing treatment for cancer.

Credentials/Documentation: Application should include a complete research program description (with staff curricula vitae), space requirements for projected program, an environmental summary of the impact of the proposed facility as detailed in Public Law 90-190, The National Environmental Policy Act, and listing of all relevant licenses, permits, or other approvals required by State and local authorities. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Preapplication assistance is available from the address noted below under Information Contacts. The standard application forms, as furnished by PHS and required by 45 CFR 92 for State and local governments, must be used for this program. An environmental impact statement and assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs". An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure: Application kits for construction programs can be obtained from Research Facilities Branch, Division of Cancer Biology, Diagnosis, and Centers, National Cancer Institute, 9000 Rockville Pike, EPN Building, Room 300, Bethesda, MD 20892, and returned to the Division of Research Grants, National Institutes of Health, Bethesda, MD 20892. Review procedure is according to NIH grant review procedures for research grants. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. The standard application forms, as furnished by PHS and required by 45 CFR 92 for State and local governments must be used for this program.

Award Procedure: Awards are made annually following the meeting of the National Cancer Advisory Board in October.

Deadlines: February 1.

Range of Approval/Disapproval Time: From 8 to 16 months.

Appeals: A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the institute and, subsequently, the P.I. and applicant institution may formally appeal to the Deputy Director for Extramural Research and Training, Office of the Director, NIH.

Renewals: Not applicable.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula. The National Cancer Institute (NCI) will award up to 50 percent of the eligible costs. Matching funds from nonfederal sources are required.

Length and Time Phasing of Assistance: Construction must be completed within time specified in grant award. Funds will be released in proportion to construction completed.

POST ASSISTANCE REQUIREMENTS:

Reports: Grantee is responsible for performance of contractor. Contractor must be covered by performance and payment bonds.

Audits: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more with the State's fiscal year shall have an audit made for that year. State and local governments that receive $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records: Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last financial status report for the report period.

FINANCIAL INFORMATION:

Account Identification: 75-0849-0-1-550.

Obligations: (Grants) FY 89 $0; FY 90 est $10,000,000; and FY 91 est $10,000,000.

Range and Average of Financial Assistance: $500,000 to $10,000,000; $3,000,000.

PROGRAM ACCOMPLISHMENTS: In fiscal year 1989, no awards were made; in fiscal year 1990, three awards are anticipated. In future fiscal years, five awards per year may be made. Approximately twenty-five percent of the applications are funded.

REGULATIONS, GUIDELINES, AND LITERATURE: 45 CFR 38; PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990.

INFORMATION CONTACTS:

Telephone: (301) 496-8534. Grants Management Contact: Leo F. Buscher, Jr., Grants Management Officer, National Cancer Institute, Bethesda, MD 20892. Telephone: (301) 496-7753. (Use same 7-digit numbers for FTS.)

RELATED PROGRAMS: 93.393, Cancer Cause and Prevention Research; 93.394, Cancer Detection and Diagnosis Research; 93.395, Cancer Treatment Research; 93.396, Cancer Biology Research; 93.397, Cancer Centers Support; 93.399, Cancer Control.

EXAMPLES OF FUNDED PROJECTS: (1) Construction of new basic research laboratories for cancer research; (2) construction of new clinical and support facilities for cancer research; (3) construction of facilities for cancer research related to biohazard control; (4) upgrading of existing basic research and animal facilities for cancer research; and (5) upgrading of existing clinical and support facilities for cancer research.

CRITERIA FOR SELECTING PROPOSALS: The major elements in evaluating proposals include assessments of: (1) the scientific merit of the total cancer program; (2) the degree of the applicant's program relevance to the National Cancer Program; (3) the special biohazard containment needs; and (4) the evaluation of the ongoing program for research pertinent to cancer problems for at least 20 years.

93.902 MODEL COMPREHENSIVE TREATMENT PROGRAMS FOR CRITICAL POPULATIONS

(Critical Populations)

FEDERAL AGENCY: ALCOHOL, DRUG ABUSE AND MENTAL HEALTH ADMINISTRATION, PUBIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Public Health Service Act, Section 509G(b), 42 U.S.C. 290aa-14.

OBJECTIVES: To enhance existing drug abuse treatment programs for specific population sub-groups called critical populations: adolescents, racial/ethnic minority populations and residents of public housing, with the ultimate goal of improving treatment for these populations.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Funds may be used by the States toward the improvement of existing programs, as opposed to the creation of new programs, which will not be funded. Funds are not available for improvement of alcohol treatment, except in the context of providing services to drug abusing persons who are dually diagnosed (e.g., drug abuse and alcohol problems). States may use funds only to support the particular projects for which funding is provided. Funds may not be re-budgeted among projects by the State. States must obligate funds to sub-recipients' programs within 60 days of the grant award. No less than 98 percent of the total amount awarded must be allocated for treatment improvement programs performed by sub-recipients. From any remaining funds, the State may recover up to its actual costs (but in no case more than 2 percent) of the administration (direct and indirect costs) of the grant. However, should the State fail to make the sub-awards within the 60 day period specified above, the State must cost share all administrative costs under the grant and award 100 percent of the total grant to the sub-recipients. Funds may be used for expenses clearly related and necessary to carry out the described project, including both direct costs which can be specifically identified with the project and allowable indirect costs of the organization. Funds cannot be used to supplant current funding for existing activities, either at the grantee or the sub-recipient levels.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Eligibility is limited to States, including the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Marianna Islands, the Virgin Islands, American Samoa, and the Successor States to the Trust Territory of the Pacific Islands (the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau). A single State agency designated by the Governor in writing, may submit applications only for specific drug treatment improvement projects to be carried out by local provider organizations. Local provider organizations are limited to those organizations already providing drug treatment services to the targeted critical populations.

Beneficiary Eligibility: State and community-based treatment programs.

Credentials/Documentation: States must certify in the application that each proposed sub-recipient has provided services to the particular critical population(s) addressed in the project for at least 2 years. The State also must certify that each proposed project is consistent with current State treatment plans.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Preapplication coordination is not required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the official designated as contact in his/her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure: Applicants may contact the Office for Treatment Improvement, Alcohol, Drug Abuse and Mental Health Administration, for consultation on the application process. Applications must be submitted on the PHS 5161-1 Form (Rev. March 1989). Forms are available from Office for Treatment Improvement, Technical Resources Inc., P. O. Box 409, Rockville, MD 20848-0409. Applications judged to be conforming, responsive and competitive will be objectively reviewed by initial review group(s) composed primarily of nonfederal experts.

Award Procedure: Grants in support of the projects recommended for approval by the review group are awarded by the Office of Treatment Improvement, Alcohol, Drug Abuse and Mental Health Administration, to the Single State Agency for Drug Abuse, as designated by the Governor in writing.

Deadlines: Contact the Headquarters Office listed below for application deadlines.

Range of Approval/Disapproval Time: From 90 to 120 days.

Appeals: None.

Renewals: None.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: None.

Length and Time Phasing of Assistance: Applications will be accepted for a 3-year project period with 12-month budget periods. Annual awards will be made subject to continued availability of funds and progress achieved. Payments will be made under an Electronic Transfer System.

POST ASSISTANCE REQUIREMENTS:

Reports: A progress report must be included with each noncompeting application and a final performance report submitted 90 days from the project end date. Financial status reports are due 90 days following the budget and/or project period end date.

Audits: In accordance with the provision of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with OMB Circular A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. In addition, grants are subject to inspection and audits by DHHS and other Federal officials.

Records: There is a 3-year record retention requirement. Records shall be retained beyond the 3-year period if final audit has not been done or findings resolved.

FINANCIAL INFORMATION:

Account Identification: 75-1361-0-1-550.

Obligations: (Grants) FY 89 $0; FY 90 est $25,000,000; and FY 91 est $39,256,000.

Range and Average of Financial Assistance: $333,000 to $540,000; $405,000.

PROGRAM ACCOMPLISHMENTS: Forty-nine applications were received in fiscal year 1990 and 35 awards were issued. Eight new awards are estimated for fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE: 45 CFR 92. PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990. Program announcements, guidelines and instructions are included in the application kit.

INFORMATION CONTACTS:

Regional or Local Office: Not applicable.

Headquarters Office: Program Contact: Dr. Rebecca Ashery, Office for Treatment Improvement, Alcohol, Drug Abuse, and Mental Health Administration, Public Health Service, Rockwall II Building, 10th Floor, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 443-6533. Grants Management Contact: Ms. Christine

Chen, Grants Management Office, Office for Treatment Improvement, Alcohol, Drug Abuse and Mental Health Administration, Public Health Service, 10th Floor, Rockwall II, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 443-6501. (Use same 7-digit numbers for FTS.)

RELATED PROGRAMS: None.

EXAMPLES OF FUNDED PROJECTS: Drug treatment clinics for residents of public housing; residential treatment program improvements for minorities and adolescents; community linkages and case management.

CRITERIA FOR SELECTING PROPOSALS: Individual treatment improvement projects will be reviewed, rated, and ranked. Criteria for technical merit review of individual projects will include: (1) relevance of project objectives to goals of the grant program; (2) extent of coordination with relevant State and/or local drug and alcohol abuse prevention, treatment, or rehabilitation programs, health care facilities (including HIV/AIDS related service agencies), community or voluntary groups, and/or other relevant programs and systems. There must be documentation of specific commitments and support from those organizations the applicant is coordinating with, as well as integration of the proposed treatment improvement project into the Statewide Drug Abuse Treatment Plans; (3) extent to which the proposed program enhancements, together with the applicant's existing services, constitute a "model" approach to treatment for the critical population(s); (4) potential for national significance of the proposed project in terms of developing an approach with applicability and replicability elsewhere; (5) adequacy of plans for evaluating all clients concerning drug use, alcohol use, mental health problems and, as appropriate, HIV knowledge and sero status, and making appropriate referrals; (6) adequacy of approach to meet multiple needs of population(s), at individual developmental stages and across stages, through service delivery and/or coordination of existing services; (7) evidence that the proposed project is ethnically, racially, and culturally relevant, for example, use of minority professional staff or staff that have received, or will receive, cross-cultural training; (8) clarity, feasibility, and appropriateness of evaluation plans; and (9) capability and experience of project director.

93.903 MODEL CRIMINAL JUSTICE DRUG ABUSE TREATMENT—INCARCERATED POPULATIONS—NON-INCARCERATED POPULATIONS—TREATMENT PRISON

(Criminal Justice Treatment Program)

FEDERAL AGENCY: ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Public Health Service Act, Section 509G(b), 42 U.S.C. 290aa-14.

OBJECTIVES: To enhance drug treatment for criminal justice populations, including prisons, jails, probation and parole, as well as court diversion to treatment.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Assistance can be used for model approaches that link treatment to the criminal justice system. For example: (1) prison projects where an existing State correctional treatment plan exists, funding is available for creating model treatment services within prisons or juvenile institutions, where the services are an outgrowth of the State correctional treatment plan; and (2) local jail projects aimed toward directly improving the range and quality of drug abuse treatment services currently being provided within metropolitan jails. Funds may also be used to support model drug abuse treatment diversion and supervision projects. Funds may not be re-budgeted among projects by the State. States must obligate funds to sub-recipients' programs within 60 days of the grant award. No less than 98 percent of the total amount awarded must be allocated for treatment improvement projects performed by sub-recipients. From any remaining funds, the State may recover up to its actual costs (but in no case more than 2 percent) of the administration (direct and indirect costs) of the grant. However, should the State fail to make subawards within the 60-day period specified above, the State must cost share all administrative costs under the grant and award 100 percent of the total grant to the sub-recipients.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Eligibility is limited to the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, the Successor States to the Trust Territories of the Pacific Islands (the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau). Only a State agency designated by the Governor in writing, may submit an application. The agency may apply on its own behalf and/or on behalf of State prison administrations, country or local corrections or sheriff departments, local criminal justice or a local substance abuse treatment agency.

Beneficiary Eligibility: Primary beneficiaries include State and local corrections populations in prisons, jails, and on probation or parole. Secondary beneficiaries include professional staff in corrections agencies, public and not-for-profit treatment agencies, and the courts in diversion projects. There is an emphasis on assistance to minority populations and youth.

Credentials/Documentation: Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: There is no preapplication coordination requirement. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure: States may contact the Office for Treatment Improvement, Alcohol, Drug Abuse, and Mental Health Administration (ADAMHA) for consultation on the application process. The standard application forms (PHS 5161-1, as furnished by PHS and required by 45 CFR Part 92), must be used by all applicants. Application kits containing the necessary forms and instructions may be obtained by contacting: The Office for Treatment Improvement, ADAMHA, c/o Technical Resources, Inc., P.O. Box 919, Rockville, MD 20848-0919. This program is subject to the provisions of 45 CFR Part 92 for State and local governments. Applicants will be reviewed by panels composed primarily of nonfederal experts.

Award Procedure: Projects recommended for approval by nonfederal technical experts and approved for funding by the Director of the Office of Treatment Improvement are awarded directly to the applicant organization.

Deadlines: Contact the Headquarters Office listed below for application deadlines.

Range of Approval/Disapproval Time: From 60 to 90 days from the due date for applications to date of award.

Appeals: None.

Renewals: None.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula or matching requirements.

Length and Time Phasing of Assistance: Applications will be accepted for a 3-year project period with 12-month budget periods. Annual awards will be made subject to continued availability of funds and progress achieved. Payments will be made under an Electronic Transfer System.

POST ASSISTANCE REQUIREMENTS:

Reports: Quarterly narrative reports will be required for each budget period and a final progress report will be due at the end of each budget period. A financial status report is required within 90 days after the end of each budget period. A final performance report and a final financial status report are due 90 days following the project period end date.

Audits: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with Federal laws and regulations governing the programs in which they participate. In addition, grants are subject to inspection and audits by DHHS and other Federal officials.

Records: There is a 3-year record retention requirement; records shall be retained beyond the 3-year period if final audit has not been done or findings resolved.

FINANCIAL INFORMATION:

Account Identification: 75-1361-0-1-550.

Obligations: (Grants) FY 89 $0; FY 90 est $8,000,000; and FY 91 est $17,000,000.

Range and Average of Financial Assistance: Grants will range from $300,000 to $1,000,000 for the treatment prison. Average grants for jail treatment, probation and parole treatment, or diversion will be $300,000 to $400,000 per year.

PROGRAM ACCOMPLISHMENTS: Nineteen awards were made in fiscal year 1990. Fourteen new awards are estimated for fiscal year 1991.

REGULATIONS, GUIDELINES, AND LITERATURE: 45 CFR 92. Program announcements, guidelines and instructions are included in the application kit which is available from: OTI Grants Manager, Technical Resources, Inc., P.O. Box 919, Rockville, MD 20848-0919. CRITERIA FOR SELECTING PROPOSALS: Individual treatment improvement projects will be reviewed, rated and ranked according to the following criteria: (1) relevance of project objectives to goals of the grant program; (2) extent to which the proposed treatment enhancements, together with the applicant's existing services, constitute a "model" comprehensive approach to treatment for inmate populations; (3) potential for national significance of the proposed project in terms of developing an approach with applicability and replicability elsewhere; (4) adequacy of procedures for assessing client needs; (5) adequacy of approach to meet multiple needs of the target population; (6) evidence that the proposed project is ethnically, racially, culturally, and age relevant (for example, use of minority professional staff or staff that have received, or will receive, cross-cultural training); (7) clarity, feasibility, and appropriateness of evaluation plans; (8) capability and experience of project director, consultants, and other key staff proposed for the project and adequacy of staffing plan; (9) evidence of organizational capability relevant to the proposed project; (10) logic and feasibility of project management plan; and (11) reasonableness of the proposed budget and future funding plans.

93.904 PREVENTION AND PRIMARY HEALTH CARE SERVICES TO PERSONS WITH HIV INFECTION AND/OR AIDS IN COMMUNITY HEALTH FACILITIES

(AIDS and HIV Infection Ambulatory Services)

FEDERAL AGENCY: HEALTH RESOURCES AND SERVICES ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Department of Health and Human Services FY 1990 Appropriations Act, Public Law 101-166.

OBJECTIVES: To increase the capacity of community health facilities to offer higher quality, broader scope, and greater quantities of human immunodeficiency virus (HIV)-related ambulatory clinical services needed in their service area. The services will include increased counseling and testing, partner involvement in risk reduction, transmission prevention, appropriate primary care diagnostic and treatment services, and case management to ensure that individual service needs are met.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Applications should be designed to improve the availability, accessibility and organization of ambulatory health services to persons infected with HIV or who are at high risk of infection. Funds may not be used for acquiring real property.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Eligible applicants are nonprofit public or private community health facilities, including community and migrant health centers, and local public hospitals and clinics. Profit-making organizations are not eligible. Priority consideration will be given to (1) those community health facilities providing a comprehensive program of primary health care services, like those offered by community and migrant health centers funded under Sections 329 and 330 of the Public Health Service Act, that include specialized services for individuals who are infected with HIV or those with acquired immunodeficiency syndrome (AIDS); (2) community-based organizations with a governing board, a majority of whose members are served by the center and who represent the individuals being served in terms of demographic characteristics; (3) those community health facilities located in medically-underserved areas that have large numbers of HIV/AIDS cases, a high AIDS incidence rate, and/or concentrations of persons at high risk for HIV infection; and (4) those community health facilities that have integrated their HIV efforts with drug abuse treatment programs and other State/local/private providers of HIV-related services.

Beneficiary Eligibility: Physically afflicted persons infected with HIV or who are at high risk of HIV infection.

Credentials/Documentation: Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For others, costs will be determined in accordance with Health and Human Services (HHS) Regulations, 45 CFR, Part 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Preapplication coordination is not required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedure: Application forms and instructions are available from the Public Health Service (PHS) Regional Offices. (See Appendix IV of the Catalog for a listing of PHS Regional Offices.) State and local governments and all nonprofit organizations must prepare a Form HHS 5161, Application for Federal Assistance (Nonconstruction), fully documenting the need for the proposed amount of the grant.

Award Procedure: The PHS Regional Office will do an initial review of the grant applications and will forward the reviews to a national review panel. The Director of the Bureau of Health Care Delivery and Assistance makes the final award decisions.

Deadlines: Contact the appropriate PHS Regional Office for application deadline dates. (See Appendix IV of the Catalog for a listing of PHS Regional Offices.)

Range of Approval/Disapproval Time: From 60 to 90 days.

Appeals: None.

Renewals: Contact PHS Regional Offices regarding renewal procedures. (See Appendix IV of the Catalog for a listing of PHS Regional Offices.)

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula for determining the amount of individual awards. The amount of the grant is based on need and other factors outlined in the application requirements. The applicant must assume part of the project costs.

Length and Time Phasing of Assistance: Projects may be supported for up to a 3-year project period with 12-month budget periods. After the initial budget period, awards will be made subject to continued availability of funds, satisfactory performance and submission and approval of a continuation application.

POST ASSISTANCE REQUIREMENTS:

Reports: A progress report must be included with each noncompeting application and a final performance report submitted 90 days from the project end date. Financial status reports are due 90 days following the budget periods and a final financial status report is due 90 days following the end of the project period.

Audits: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with OMB Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by Department of Health and Human Services (DHHS) and other Federal officials.

Records: DHHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR, Part 74, Subpart D, grantees are required to maintain grant accounting records 3 years after the end of a budget period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

FINANCIAL INFORMATION:

Account Identification: 75-0350-0-1-550.

Obligations: (Grants) FY 89 $0; FY 90 est $10,251,000; and FY 91 est $13,323,000.

Range and Average of Financial Assistance: Anticipated range of support is $200,000 to $600,000.

PROGRAM ACCOMPLISHMENTS: During fiscal year 1990, it is estimated that 28 awards will be made.

REGULATIONS, GUIDELINES, AND LITERATURE: All awards are subject to PHS Grants Policy Statement, DHHS Publication No. (OASH) 90-50,000, (Rev.) October 1, 1990. Grants Management rules for State, local and Indian Tribal governments are in 45 CFR 92. Private nonprofit grantees must follow similar rules in 45 CFR 74.

RELATED PROGRAMS: 93.133, Health Services Delivery to Persons with AIDS—Demonstration Grants; 93.153, Pediatric AIDS Health Care Demonstration Program.

EXAMPLES OF FUNDED PROJECTS: None.

CRITERIA FOR SELECTING PROPOSALS: (l) The need in the community for additional primary care services to those at-risk for HIV infection and HIV-infected persons, barriers to meeting those needs with the existing service provider system, and other information that makes a compelling case for the grant request; (2) evidence of existing community health facility policies, staff training, and clinical protocols that address provision of HIV services; (3) evidence of casefinding among previously enrolled patients; the number of HIV/AIDS patients currently being served, and incorporation of new HIV-positive community health facility patients with acceptable follow-up systems; (4) documentation of the existing, plus intended, scope of primary care prevention, diagnostic, treatment and case management services provided by the community health facility; (5) documentation of appropriate diagnostic and treatment services provided for asymptomatic and symptomatic HIV-positive patients, identifying existing and intended services; (6) documentation of significant linkages with other U.S. Public Health Service funded programs, State, local, or privately funded specialized HIV services in the community and primary care programs provided through the State/local public health system. This should show how the grant supported program is complementary and increases the available HIV services to the community; (7) documentation of cost identification and cost control procedures, third party reimbursement, and other fiscal administrative policies that will maximize the grant funds awarded; (8) documentation of competent administrative and clinical management of the other currently-operated primary health care service programs, with sound fiscal and management reporting systems; and (9) documentation of plan for evaluating the impact of the program on the health of the patients in the health care facilities, and plan for assessing the quality of care provided by the grant supported program.

93.905 INDIAN HEALTH SERVICE RESEARCH

FEDERAL AGENCY: INDIAN HEALTH SERVICE, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Indian Health Care Act, Section 208, Public Law 94-437, as amended; 42 U.S.C. 1621g.

OBJECTIVES: To conduct research and developmental activities in areas of Indian health care which further the performance of health responsibilities of the Indian Health Service.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Recipient organizations must be Indian tribes or tribal organizations contracting with the Indian Health Service under the authority of the Indian Self-Determination and Education Assistance Act, Public Law 93-638, 25 U.S.C. 450. In accordance with the authorizing legislation, applications from tribes and tribal organizations will be given an equal opportunity to compete with those from Indian Health Service components. Grants under this program are limited to research and development activities in areas of health care which impact the health of the American Indians and Alaska Natives (AI/AN) and which are within the health services responsibilities of the Indian Health Service. Areas of consideration for funding are studies related to: (l) basic epidemiology, risk factors and/or preventive strategies involving chronic diseases; (2) understanding of behavioral changes and their acceptance in Indian communities, regarding health promotion/disease prevention strategies which rely on individual, family, or community acceptance of responsibility for improving health status; (3) etiology, morbidity, adjunctive treatment alternatives or preventive strategies for dealing with alcohol or substance abuse, mental health problems and their impact on non-afflicted family members; (4) functional status, burden of illness or social support systems for health care of the elderly, and estimates of demand for extended care services; (5) involvement of professional nursing in reproductive health care, infant care, patient education, compliance with self-care, and the influence of social support systems on the behavior of pregnant women, as well as questions of job-satisfaction in nursing; (6) intervention alternatives for family dysfunction problems such as interpersonal violence, alcohol or drug abuse, poor school or work performance, mental health problems and inappropriate utilization of health services; (7) alternative configurations for the delivery of health care services, including innovative approaches to provide staffing, funding mechanisms, flexible benefits packages and/or more effective use of health care facilities; (8) prevention, treatment and prioritization of oral health problems among the AI/AN people, with particular interest in consumer attitudes and behavioral variables; and (9) other areas of concern within the functional health care responsibilities of the Indian Health Service.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: There are two groups of eligible applicants: (1) Federally-recognized Indian tribes and tribal organizations which are contracting with the Indian Health Service under the authority of the Indian Self-Determination and Education Assistance Act, Public Law 93-638, 25 U.S.C. 450; and (2) Indian Health Service components, including Service units and area offices.

Beneficiary Eligibility: American Indian Tribes and Alaska Natives.

Credentials/Documentation: If the applicant is a tribe or tribal organization, support of the project must be evidenced by signature of the Tribal Chairperson or designee. If more than one tribe is affected, it is urged that letters of support be provided. If the applicant is an Indian Health Service component, resolutions from tribes involved in the research and letter(s) of support from Indian Health Service unit(s) affected by the proposed research must be submitted. An Indian Health Service component must obtain clearance signatures from the Area Contracting Officer if any purchasing, contracting, or consultant hiring actions are requested in the project. If an application proposes the use of human subjects, the applicant must submit a Form HHS 596. Applicants must provide documentation of the process which will be established to protect the confidentiality of data collected and the privacy of patients to include protection of patient records. Costs will be determined in accordance with the applicable cost principles, either OMB Circular No. A-87 for State and local governments including Indian tribes or with OMB Circular No. A-122 for Nonprofit Organizations. Indian Health Service components must comply with the requirements of the Public Health Service Grants Administration Manual (GAM) Part 135.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Preapplications may be required if specifically requested in the program announcement. This program is excluded from coverage under E.O. 12372. An environmental impact statement is not required. Anyone interested in submitting an application under this program is encouraged to contact William L. Freeman, M.D., Ph.D., Acting Director, Indian Health Service Research Program, or Ms. Donna Pexa, Program Coordinator, for technical assistance. Telephone: (602) 670-6310.

Application Procedure: The standard application forms, as furnished by the Public Health Service and approved by the Office of Management and Budget (OMB) must be used for this program. This program is subject to the provisions of 45 CFR, Part 92 for Indian Tribes and 45 CFR, Part 74 for nonprofit organizations. Application kits may be obtained from the Indian Health Service Headquarters, Grants Management Branch. Telephone: (301) 443-5204. (Use same 7-digit number for FTS.)

Award Procedure: Grants are awarded on a competitive basis with a thorough, objective review to determine selection. Ineligible or incomplete applications will be returned to applicants without review. Applications are processed and grants are awarded by Indian Health Service Headquarters.

Deadlines: For specific information on the application deadline, contact the Grants Management Branch on (301) 443-5204.

Range of Approval/Disapproval Time: Approximately 180 days.

Appeals: None.

Renewals: Projects are required to resubmit and recompete each year for renewal of awards.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula or matching requirements.

Length and Time Phasing of Assistance: Assistance is normally available for a 1-year period. Expenditure of funding is limited by language in the annual appropriations legislation. Payment of grant funds to tribal recipients is made through the Department of Health and Human Services (DHHS) Payment Management System (PMS). Information will be forwarded to grantees regarding the process of obtaining funds.

POST ASSISTANCE REQUIREMENTS:

Reports: Reporting requirements are consistent with 45 CFR, Part 92 for Indian tribes and with 45 CFR, Part 74 for nonprofit tribal organizations. Quarterly and final program progress reports will be required. A final status report is also required. Indian Health Service components shall comply with the same terms and conditions applicable to nonfederal grantees.

Audits: In accordance with the provisions of OMB Circular No. A-128, "Audits of State and Local Governments," State and local governments that receive financial assistance of $100,000 or more within the State's fiscal year shall have an audit made for that year. State and local governments that receive between $25,000 and $100,000 within the State's fiscal year shall have an audit made in accordance with OMB Circular No. A-128, or in accordance with Federal laws and regulations governing the programs in which they participate. For nongovernmental grant recipients, audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records: DHHS and the Comptroller General of the United States or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of a grantee, subgrantee, contractor, or subcontractor, which are pertinent to the grant in order to make audits, examinations, excerpts, and transcripts. Grantees are required to maintain grant accounting records for three years after the end of a budget period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the three year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular three year period, whichever is later.

FINANCIAL INFORMATION:

Account Identification: 75-0390-0-1-551.

Obligations: (Grants) FY 89 $0; FY 90 est $0; and FY 91 est $600,000.

Range and Average of Financial Assistance: $30,000.

PROGRAM ACCOMPLISHMENTS: It is anticipated that approximately 25 grants will be awarded in fiscal year 1991. This number includes both those to tribes and tribal organizations and to Indian Health Service components.

REGULATIONS, GUIDELINES, AND LITERATURE: Program guidelines are available from the Headquarters program and grants management contacts. Grants with tribes or tribal organizations will be administered in accordance with either 45 CFR 92 or 45 CFR 74, whichever is applicable. Indian Health Service components shall comply with the requirements of the Grants Administration Manual Part 135. The PHS Grants Policy Statement, DHHS Publication No. 90-50,0000, (Rev.) October 1, 1990.

INFORMATION CONTACTS:

Regional or Local Office: Not applicable.

Headquarters Office: Program Contact: William L. Freeman, M.D., Ph.D., Acting Director, Indian Health Service Research Program, or Ms. Donna Pexa, Program Coordinator, IHS Research Program/OHPRD, 7900 South J. Stock Road, Tucson, AZ 85746-9352. Telephone: (602) 670-6310. Grants Management Contact: Ms. Kay Carpentier, Grants Management Branch, Division of Acquition and Grants Operations, Indian Health Service, Public Health Service, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 443-5204. (Use same 7-digit numbers for FTS.)

RELATED PROGRAMS: None.

EXAMPLES OF FUNDED PROJECTS: Not applicable.

CRITERIA FOR SELECTING PROPOSALS: The proposals will undergo a dual review process. In the initial review stage, the objective review committee reviews all applications based upon the following criteria: (1) clarity of study question; (2) evidence of understanding the problem; (3) methodological approach and study design; (4) staff experience; and (5) feasibility of study. In the second stage of review, the advisory board may consider the following factors related to health service responsibility priorities in making recommendations for funding: Is the study question relevant to the health of American Indian/Alaska Native? Can the study be done only (or best) in an American Indian/Alaska Native population? Will the project lead to a useful product, outcome or information in the near future? Will the project develop the capability for research in the Indian Health Service or the tribes? Is the expected product/outcome reasonable relative to the cost? Is the Indian Health Service the appropriate funding source?

93.906 RURAL HEALTH MEDICAL EDUCATION DEMONSTRATION PROJECTS

FEDERAL AGENCY: HEALTH RESOURCES AND SERVICES ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Omnibus Budget Reconciliation Act of 1987, Section 4038, Public Law 100-203, amended; Omnibus Budget Reconciliation Act of 1989, Section 6216, Public Law 101-239.

OBJECTIVES: To assist physicians to develop clinical experience in rural areas by providing reimbursements for graduate medical education.

TYPES OF ASSISTANCE: Direct Payments for Specified Use.

USES AND USE RESTRICTIONS: For the purpose of payments for the indirect costs of graduate medical education, pursuant to Section 1886(d)(B) of the Social Security Act, a resident participating in this project who works for any part of a year at a small rural hospital, shall be treated as if the resident were working at the sponsoring hospital on September 1 of that year and shall not be treated as if the resident was working in the small rural hospital. Medicare's share of the direct graduate medical education costs of the sponsoring hospital will be increased for the duration of the project to meet any reasonable additional direct costs incurred for the education and training of resident physicians at the rural site. The sponsoring hospital will be required to accumulate separately the costs of the demonstration project. Medicare will pay the sponsoring hospital for Medicare's share of the additional costs the hospital incurs in connection with the project computed pursuant to the reasonable cost authority in Section 1861(v) of the Act. Payment for these costs will be in addition to the payments otherwise due the hospital under Section 1886(h). Absent the project direct costs may be claimed only once and will not be paid under both Sections 1886(h) and 1861(v).

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Eligible hospitals may be public or private, nonprofit, or for-profit entities which currently receive payments for direct and indirect graduate medical education costs as defined under Medicare.

Beneficiary Eligibility: Teaching hospitals that train medical residents in family medicine, osteopathic general practice, primary care internal medicine or primary care pediatrics.

Credentials/Documentation: None.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: This program is excluded from coverage under E.O. 12372.

Application Procedure: No application forms are used. Consultation is available from Health Resources and Services Administration programmatic staff and Health Care Financing Administration, Bureau of Program Development Headquarters Office staff. Submit proposal in accordance with instructions obtained from the Health Resources and Services Administration office. Contact Headquarters Office listed below for further information.

Award Procedure: Notice of approval is in writing from Health Resources and Services Administration Headquarters Office and Health Care Financing Administration intermediaries.

Deadlines: Proposals are submitted to Health Resources and Services Administration Program Division for review and recommendation to Health Care Financing Administration relative to hospitals to be supported. Funds are provided through Health Care Financing Administration's intermediaries to the hospitals.

Range of Approval/Disapproval Time: Approximately 3 months.

Appeals: None.

Renewals: None.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: None.

Length and Time Phasing of Assistance: Approximately 3 years.

POST ASSISTANCE REQUIREMENTS:

Reports: A progress report is required on a semi-annual basis. A final report is required within 90 days of the end of the project period.

Audits: Records are subject to review.

Records: Records must be retained for 3 years following the end of the project period.

FINANCIAL INFORMATION:

Account Identification: 20-8005-0-7-571.

Obligations: (Reimbursements) FY 89 Not Separately Identifiable; FY 90 est Not Separately Identifiable; and FY 91 est Not Separately Identifiable. (NOTE: Obligations are for such additional indirect and direct medical education payments corresponding to added costs authorized under this demonstration project. Funding appropriated under the HI Trust Fund cannot be separately identified for this program, as reimbursements will be paid as they are approved.)

Range and Average of Financial Assistance: Not determined.

PROGRAM ACCOMPLISHMENTS: In fiscal year 1989, one hospital was approved for payment under Section 4038.

REGULATIONS, GUIDELINES, AND LITERATURE: None.

INFORMATION CONTACTS:

Regional or Local Office: None.

Headquarters Office: Financial Contact: Mr. Phil Bateman, Health Care Financing Administration. Telephone: (301) 966-5400 or FTS 646-5400. Program Contact: Marilyn Gaston, M.D., Director, Division of Medicine, Bureau of Health Professions, Health Resources and Services Administration, Public Health Service, Department of Health and Human Services, Room 4C-25, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 443-6190. (Use same 7-digit number for FTS.)

RELATED PROGRAMS: None.

EXAMPLES OF FUNDED PROJECTS: The teaching hospital affiliate of Eastern Carolina School of Medicine established a rural residency program at Martin General Hospital. This residency program will expose their family medicine residents to both a rural hospital experience and to preceptorship by a family physician or group of family physicians practicing in the community. The rotation will be for a month thus providing several residents with an opportunity to share in this experience.

CRITERIA FOR SELECTING PROPOSALS: The successful applicants will be evaluated on the effectiveness and innovativeness with which the following elements are addressed: (1) the criteria to be used in selecting the resident(s) for rotation through the rural hospital; (2) a description of the rural hospital, the services it provides, the community in which the hospital is located (demographic and epidemiological data), and the county health resources; (3) a description of the residency program of the teaching institution from which the resident(s) will be selected; (4) a statement that describes the current service capability, particularly to the Medicare population, of the hospital and how the resident will be used to augment this service capability; (5) the process by which faculty supervision will be provided during the rotation through the rural hospital. The description of this process should include the schedule of on-site supervision; (6) a description of the rural practice setting, the educational/training curriculum plan for the resident(s), the length of the expected rotation, and the likely content of clinical exposure; (7) a plan for how the rural hospital board and administration will prepare the hospital staff, the health providers, community leaders, and area citizens for the possible arrival of a resident and create an atmosphere that will be conducive to his or her recruitment and retention; (8) a description of how the program will enhance the potential for the recruitment and retention of primary care physicians in rural communities; (9) a system of accounting for the direct and indirect costs of the project and possible revenues generated by the resident(s); (10) provide an evaluation plan to assess each of the following: (a) the success in meeting the educational and training objectives of the project; (b) the degree of community involvement with the project; (c) the subsequent effect on the practice decisions of the participating residents; (d) the feasibility of duplicating this project in other rural hospitals; and (e) the comparative costs that are attributable to the project prior to and after its implementation to determine the cost-effectiveness of the project.

93.907 GRANTS FOR NURSE ANESTHETIST FACULTY FELLOWSHIPS

FEDERAL AGENCY: HEALTH RESOURCES AND SERVICES ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Public Health Service Act, Title VIII, Section 831(b), Public Law 100-607.

OBJECTIVES: To provide financial assistance and support through fellowships to certified registered nurse anesthetists (CRNAs) who are faculty members of accredited programs to enable such nurse anesthetists to obtain advanced education relevant to their teaching functions.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Grant funds may be used only to support fellowships awarded under the terms of the Notice of Grant Award. No stipend allowance from these grant funds is available for faculty enrolled in part-time study, nor for those employed on full-time salary.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Grants may be awarded to public or private nonprofit institutions for the education of nurse anesthetists, which are accredited by an entity or entities designated by the Secretary of Education.

Beneficiary Eligibility: Fellowships are awarded to certified registered nurse anesthetists who are also faculty members at accredited nursing institutions. Fellows are selected by participating schools.

Credentials/Documentation: Costs will be determined by Health and Human Services (HHS) Regulations, 45 CFR 74, Subpart Q.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: Not applicable. This program is excluded from coverage under E.O. 12372.

Application Procedure: Application forms are sent to schools of nursing by the Grants Management Office upon request. Potential fellows must apply to participating schools. This program is subject to the provisions of OMB Circular No. A-110.

Award Procedure: Grants are awarded by the Secretary of HHS on the recommendation of the Division of Nursing and the Bureau of Health Professions Grants Management staff. The review of applications will be conducted by Division of Nursing program staff and Bureau of Health Professions Grants Management staff.

Deadlines: One review cycle will be held annually for this program. Contact the Grants Management Office, Bureau of Health Professions, Health Resources and Services Administration, Room 8C-26, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 443-6880. (Use same 7-digit number for FTS.)

Range of Approval/Disapproval Time: From 2 to 5 months.

Appeals: None.

Renewals: None.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: The Secretary will determine the amount of the grant to each approved school of nursing which will be based on the number of eligible faculty projected for support.

Length and Time Phasing of Assistance: Schools must appoint and make obligations to fellows within a 12-month budget/project period.

POST ASSISTANCE REQUIREMENTS:

Reports: A progress report must be submitted annually. A financial status report must be submitted within 90 days after the end of each budget period. A final progress report and final financial status report must be submitted within 90 days after the end of the project period.

Audits: Audits are to be carried out in accordance with the provisions set forth in OMB Circular No. A-133. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials.

Records: The grantee institution must retain the statement of appointment forms for all fellows for a period of 3 years.

FINANCIAL INFORMATION:

Account Identification: 75-0350-1-0-551.

Obligations: (Grants) FY 89 $0; FY 90 est $75,000; and FY 91 est $0.

Range and Average of Financial Assistance: $57,000.

PROGRAM ACCOMPLISHMENTS: Ten awards supporting 33 faculty CRNAs for a total Federal expenditure of approximately $75,000.

REGULATIONS, GUIDELINES, AND LITERATURE: Program guide is available from the Division of Nursing, Bureau of Health Professions, Health Resources and Services Administration, Public Health Service, Department of Health and Human Services, Room 5C-14, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. RELATED PROGRAMS: 93.147, Post-Baccalaureate Faculty Fellowships; 93.298, Nurse Practitioner and Nurse Midwife Education and Traineeships; 93.358, Professional Nurse Traineeships.

EXAMPLES OF FUNDED PROJECTS: None.

CRITERIA FOR SELECTING PROPOSALS: Applications will be reviewed by staff in the Division of Nursing and in the Grants Management Office of the Bureau of Health Professions, taking into consideration: the eligibility of applicants; the eligibility of faculty; and the extent to which an applicant meets the funding preference.

93.908 NURSING EDUCATION LOAN REPAYMENT AGREEMENTS FOR REGISTERED NURSES ENTERING EMPLOYMENT AT ELIGIBLE HEALTH FACILITIES

(Nursing Education Loan Repayment Agreements)

FEDERAL AGENCY: HEALTH RESOURCES AND SERVICES ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION: Public Health Service Act, Section 836 (h)(i)(c), as amended, Section 714, Public Law 100-607.

OBJECTIVES: To address the serious shortage of nurses at health facilities in certain areas of the United States. As an incentive for registered nurses to enter into full-time employment at these health facilities, the program will assist in the repayment of their nursing education loans. The intent of this program is to increase the number of registered nurses serving designated nurse shortage areas.

TYPES OF ASSISTANCE: Project Grants.

USES AND USE RESTRICTIONS: Agreements are made for not less than 2 consecutive years of service and will provide: (1) upon completion by the nurse of the first of the 2 consecutive years of service at an eligible health facility, an amount to be paid which will bring the total payments for the year to 30 percent of the principal and interest which was unpaid for each qualified loan at the beginning of the period of agreed service; (2) upon completion by the nurse of a second consecutive year of service, an amount to be paid which will bring the amounts paid during the 2 years to 60 percent of the principal and interest which was unpaid for each loan at the beginning of the period of agreed service; (3) if the term of service is extended to 3 years of service, an amount to be paid at the end of the third year of service which will bring the total payments for the 3 years of service to 85 percent of the principal and interest which was unpaid for each loan at the beginning of the original period of service. Eligible health facilities are Indian Health Service health centers, Native Hawaiian health centers, nursing facilities, and rural health clinics, or health facilities determined by the Secretary of Health and Human Services to have a critical shortage of nurses.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility: Individuals who satisfy all of the following criteria are eligible to apply: (1) expect to receive (or have already received) a diploma or academic degree in nursing prior to October 1 of the current fiscal year; (2) plan to begin employment for 2 or 3 years at a eligible health facility in the United States; and (3) on the date employment begins, have unpaid educational loans they obtained for their nursing education. Applicants must be currently licensed, or are eligible to be licensed and plan to take their board examinations.

Beneficiary Eligibility: Beneficiaries include registered nurses who have received initial nursing preparation from a diploma, associate degree, or collegiate school of nursing as defined in Section 853 of the Public Health Service Act.

Credentials/Documentation: Applicants must submit: (1) copies of all loan documentation; (2) a copy of licensure, specialty certifications or other pertinent documentation; and (3) a copy of the letter or notice accepting the applicant for employment at an eligible health facility.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination: None. This program is excluded from coverage under E.O. 12372.

Application Procedure: Applications may be obtained by writing to: Nursing Education Loan Repayment Agreements, Division of Health Services Scholarships, Bureau of Health Care Delivery and Assistance, Health Resources and Services Administration, Department of Health and Human Services, Room 7-18, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Applicants are required to document all of the following: (1) greatest financial need; (2) employment by an eligible health facility in an area that has been determined by the Bureau of Health Care Delivery and Assistance to have a "critical shortage of nurses"; (3) employment at the eligible health facility that will cause a net increase in the number of nurses at that facility; and (4) be able to start their full-time licensed employment at the eligible health facility no later than September 30 of the current fiscal year.

Award Procedure: Once a determination has been made as to who will receive an award, that individual will be accepted into the program. The individual will be notified in writing of his/her acceptance.

Deadlines: Contact Headquarters Office listed below for deadline dates.

Range of Approval/Disapproval Time: From 60 to 90 days.

Appeals: None.

Renewals: Renewals for the third year of service will be considered according to the availability of funds.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements: This program has no statutory formula or matching requirements.

Length and Time Phasing of Assistance: Loan repayments for 1 year of obligated service will be made no later than the end of the fiscal year in which the individual completes such year of service. The program will repay each of the participant's loans in the same amount and frequency as the loans required the participant to pay. On the 20th of the month prior to the month in which the participant's regular payments are due, Treasury checks payable jointly to the participant and the lenders will be mailed to the participant.

POST ASSISTANCE REQUIREMENTS:

Reports: Participants must complete and send to the Program an annual certification that they have engaged in a year of full-time continuous service as a registered nurse at the eligible health facility stated in the agreement. This certification includes an endorsement by an appropriate official of this eligible health facility.

Audits: None.

Records: Financial records must be kept available for 3 years after the end of the service obligation.

FINANCIAL INFORMATION:

Account Identification: 75-0350-0-1-550.

Obligations: (Grants) FY 89 $0; FY 90 est $982,000; and FY 91 est $982,000.

Range and Average of Financial Assistance: $3,000 to $50,000; $18,000.

PROGRAM ACCOMPLISHMENTS: It is estimated that between 55 and 70 loan repayment agreements will be signed in fiscal year 1990. For fiscal year 1991, approximately 100 loan repayment agreements will be arranged.

Appendix I: Programs Requiring Executive Order 12372 Review

This appendix lists programs requiring Executive Order 12372 review. Executive Order 12372 "Intergovernmental Review of Federal Programs," structures the Federal government's system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

For more information on the process a particular State requires to be followed, an applicant should contact the office or official designated as the single point of contact in his or her State. Consult the individual program description in the Catalog to determine whether the programs under which he/she plans to apply is subject to E.O. 12372. Consult the Federal agency's application package for instructions on State notification.

The State Single Point of Contact List is printed at the end of the listing of programs.

Appendix III: Budget Functional Code Appendix

FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which a program is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the appropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated program, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated programs for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

0-Regular budget schedules
1-Supplemental under existing legislation
2-Proposed for later transmittal under proposed legislation
3-Proposed for later transmittal under existing legislation
4-Supplemental - additional authorizing legislation required
5-Recission proposal
6-Supplemental request pending

The eighth digit identifies the type of government fund involved:

1-General fund

General Fund Appropriation Accounts - Accounts established to record amounts appropriated by the Congress to be expended for the general support of the Government.

General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.

2-Special fund

Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law.

Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.

3-Public Enterprise Revolving Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

4-Intragovernmental Revolving or Management Fund

Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds.

Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.

7-Trust Fund (non-revolving) - Funds collected and used by the Federal Government for carrying out specific purposes and programs according to terms of a trust agreement or statute, such as the social security and unemployment trust funds. Trust funds are administered by the Government in a fiduciary capacity and are not available for the general purposes of the Government. Trust fund receipt accounts are credited with receipts generated by the terms of the trust agreement or statute. Trust fund receipts that are not anticipated to be used in the immediate future are generally invested in interest bearing Government securities and earn interest for the trust fund. Trust fund expenditure accounts record amounts appropriated from trust fund receipts to be expended in carrying out the specific purposes or programs under the trust agreement or statute. A special category of trust funds called trust revolving funds is used to carry out a cycle of business-type operations, e.g.,the Federal Deposit Insurance Corporation.

8-Trust Fund (revolving) - A fund established to finance a cycle of operations through amounts received by the fund. There are three types of revolving funds: public enterprise, intergovernmental revolving, and trust revolving funds.

9-Deposit Fund - Accounts established to facilitate the accounting for collections that are either (a) held in suspense temporarily and later refunded or paid into some other fund of the Government upon administrative or legal determination as to the proper disposition thereof or (b) held by the Government as banker or agent for others and paid out at the discretion of the depositor. These accounts are not included in the budget totals and they are not available for expenses of the Government, although they do provide a means of financing the budget.

The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a program is split between two or more subfunctions: (a) if all subfunctions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used.

Example: 75-1361-0-1-550.

Listed below are 16 major functions and 67 subfunctions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Catalog programs are listed following each applicable subfunction (or major function). Note that some subfunctions are not applicable to Catalog programs.

The alphabet(s) in parentheses following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows: A-Formula Grants; B-Project Grants; C-Direct Payments for Specified Use; D-Direct Payments with Unrestricted Use; E-Direct Loans; F-Guaranteed/Insured Loans; G-Insurance; H-Sale, Exchange, or Donation of Property and Goods; I-Use of Property, Facilities, and Equipment; J-Provisions of Specialized Services; K-Advisory Services and Counseling; L-Dissemination of Technical Information; M-Training; N-Investigation of Complaints; O-Federal Employment.

(050) NATIONAL DEFENSE

This function includes those programs directly related to the common defense and security of the United States. It includes the raising, equipping, and maintaining of armed forces (including civilian supporting activities), development and utilization of weapons systems (including nuclear weapons), and related programs. National defense includes direct compensation and benefits paid to active military and civilian personnel; contributions to their retirement, health, and life insurance funds; cash benefits for military retired pay; the conduct of defense research, development, testing, and evaluation; and procurement, construction, stockpiling, and other activities undertaken with the direct object of fostering our national security.

Excluded from national defense are benefits or compensation to veterans and their dependents (veterans benefits are generally available to personnel who served the country in national emergencies; benefits for career military personnel are generally charged as a cost to the national defense function.) Also excluded from national defense is the peaceful conduct of foreign relations; foreign military, economic, and humanitarian assistance; subsidies to business by civilian agencies (such as maritime subsidies) that may be partially justified as promoting national security; and research and operations of agencies (such as space research) whose program mission is not directly designed to promote national defense but which could result in some significant benefits to our national security.

(051) Department of Defense - Military

The entire agency is included in this subfunction. Because of the method of funding and accounting in the Defense Department no further subdivisions on a program basis are available in terms of outlays.

12.001	Industrial Equipment Loans to Educational Institutions (I)
12.002	Procurement Technical Assistance For Business Firms (B)
12.400	Military Construction, Army National Guard (B)
12.600	Community Economic Adjustment (J,K)
12.607	Military Base Reuse Studies and Community Planning Assistance (B)
12.608	Impact Assistance for Areas Affected by the East Coast Trident Program (B)
12.609	Selected Reserve Educational Assistance Program (C)
12.610	Joint Military/Community Comprehensive Land Use Plans (B)

(053) Atomic Energy Defense Activities

Those programs of the Department of Energy devoted to national defense activities, such as naval ship reactors and nuclear weapons.

(054) Defense-Related Activities

Miscellaneous defense activities such as the expenses connected with selective service and with defense stockpiles outside the Departments of Defense and Energy.

(150) INTERNATIONAL AFFAIRS

This function is concerned with the maintenance of peaceful relations, commerce, and travel between the United States and the remainder of the world, and with the promotion of international security and economic development abroad. It includes the conduct of foreign affairs; cost of membership in international organizations; foreign information and exchange activities; foreign military, economic, and humanitarian assistance programs; and loan programs designed to foster U.S. exports. Excluded from international affairs are outlays from domestic programs that may tangentially affect foreign relations or citizens of other nations.

(151) Foreign Economic and Financial Assistance

This includes humanitarian assistance, development assistance, security supporting assistance, grants to and investments in international financial and development institutions, and the costs associated with concessionary agricultural exports.

70.002	Foreign Investment Guaranties (F)
70.003	Foreign Investment Insurance (G)
70.005	Direct Investment Loans (E)

(152) Military Assistance

This includes all of international security assistance. It involves the transfer of defense articles and services to foreign governments through grants, credit sales, and training.

(153) Conduct of Foreign Affairs

This includes the diplomatic and consular operations of the Department of State and closely-related activities in other agencies (such as the Arms Control and Disarmament Agency).

19.202	Special Domestic Assignments (J)
61.001	Import Relief (Industry) (J)
91.001	International Peace and Conflict Management—Research and Education (B)
91.002	International Peace and Conflict Management—Articles and Manuscripts (B)

(154) Foreign Information and Exchange Activities

This includes student and cultural exchange programs and foreign library, radio, or other media information activities designed to promote mutual understanding between the people of the United States and other Nations.

82.001	Educational Exchange—Graduate Students (B)
82.002	Educational Exchange—University Lecturers (Professors) and Research Scholars (B)

(155) International Financial Programs

This includes export credit, the military sales trust fund, international commodity agreements, international monetary programs, and other programs designed to improve the functioning of the international financial system.

(250) GENERAL SCIENCE, SPACE AND TECHNOLOGY

This function shows budget resources allocated to science and research activities of the Federal Government to meet the national need to advance knowledge in this area. In addition, research and technology programs that have diverse goals and cannot readily be classified into one specific function are also placed here to avoid detailed splitting of accounts. Included in this function are general scientific research and civilian space programs that are not an integral part of the programs conducted under any other function. This includes the research conducted by the National Aeronautics and Space Administration, and general science research supported by the Department of Energy.

As is noted above, research programs that are an integral part of the achievement of other major functions — e.g., health, national defense, energy — are excluded from this function. Only if a research program cannot readily be included in other functions is it classified in this function.

(251) General Science and Basic Research

This includes the expenses of conducting the National Science Foundation programs and the general science activities of the Department of Energy.

47.009	Graduate Research Fellowships (B)
47.041	Engineering Grants (B)
47.049	Mathematical and Physical Sciences (B)
47.050	Geosciences (B)
47.051	Biological, Behavioral, and Social Sciences (B)
47.053	Scientific, Technological, and International Affairs (B)
47.066	Teacher Preparation and Enhancement (B)
47.067	Materials Development, Research, and Informal Science Education (B)
47.068	Studies and Program Assessment (B)
47.069	Research Initiation and Improvement (B)
47.070	Computer and Information Science and Engineering (B)
47.071	Undergraduate Science, Engineering, and Mathematics Education (B)
47.072	Young Scholars (B)
47.073	Science and Technology Centers (B)
81.049	Basic Energy Sciences, High Energy and Nuclear Physics, Magnetic Fusion Energy, Health and Environmental Research, Program Analysis and Field Operations Management (B)

(253) Space Flight

This subfunction is devoted to the development and operation of space transportation systems.

(254) Space Science, Applications, and Technology

This subfunction is devoted to basic scientific research connected with outer space, research and demonstrations designed to provide terrestrial applications of technology developed through space research, and development of new space technologies for future missions.

(255) Supporting Space Activity

This includes the costs of tracking and data relay support for NASA space science and applications for flight missions.

(270) ENERGY

The energy function includes those programs designed to promote an adequate supply and appropriate use of energy to serve the needs of the economy. It includes most of those programs operated by the Department of Energy and its predecessor agencies except for atomic energy defense activities and for general science research not closely related to energy.

81.003	Granting of Patent Licenses (L)
81.036	Energy-Related Inventions (B,I,K,L)
81.041	State Energy Conservation (A)
81.048	Priorities and Allocations for Energy Programs and Projects (J,M)
81.050	Energy Extension Service (A)
81.064	Office of Scientific and Technical Information (L)

(271) Energy Supply

This includes those programs designed to increase the supply of energy through the development of domestic resources and systems capable of using them. Included in energy supply are the costs of research and demonstration of supply systems.

10.850	Rural Electrification Loans and Loan Guarantees (E,F)
10.851	Rural Telephone Loans and Loan Guarantees (E,F)
10.854	Rural Economic Development Loans and Grants (B,E)
81.004	University-Laboratory Cooperative Program (B,I)
81.011	University Reactor Sharing and Fuel Assistance (B,H)
81.022	Used Energy-Related Laboratory Equipment Grants (H)
81.028	Radiological Emergency Assistance (J,K,L)
81.047	Pre-Freshman Enrichment (B)
81.049	Basic Energy Sciences, High Energy and Nuclear Physics, Magnetic Fusion Energy, Health and Environmental Research, Program Analysis and Field Operations Management (B)
81.057	University Coal Research (B)
81.065	Nuclear Waste Disposal Siting (B,C)
81.077	University Research Instrumentation (B)
81.079	Regional Biomass Programs (B)
81.086	Conservation Research and Development (B)
81.087	Renewable Energy Research and Development (B)
81.089	Fossil Energy Research and Development (B)
81.092	Environmental Restoration (B)
81.093	Nuclear Energy Policy, Planning and Development (B)
81.095	Nuclear Energy, Reactor Systems, Development, and Technology (B)
81.096	Clean Coal Technology Program (A)
81.097	Science and Engineering Research Semester (C,M)

(272) Energy Conservation

Programs in this subfunction are designed to encourage the prudent use of energy resources.

81.052	Energy Conservation for Institutional Buildings (A)
81.078	Industrial Energy Conservation (B)
81.080	Energy Policy, Planning and Development (B)
81.081	Energy Task Force for the Urban Consortium (B)

(274) Emergency Energy Preparedness

This includes the programs associated with developing and maintaining a stockpile of energy resources (currently combined to petroleum) to meet emergency needs and associated contingency planning activities.

81.088	International Affairs and Energy Emergencies (B,C,D)

(276) Energy Information, Policy, and Regulation

This includes the unallocable overhead activities of the Department of Energy plus the costs of energy information and regulation activities.

77.001	Radiation Control—Training Assistance and Advisory Counseling (K,L,M)
77.003	Enhance Technology Transfer and Dissemination of Nuclear Energy Process and Safety Information (B)
77.005	Financial Assistance for NRC Local Public Document Rooms (LPDRs) (L)
81.039	National Energy Information Center (L)
81.082	Management and Technical Assistance for Minority Business Enterprises (K)
81.083	Minority Educational Institution Research Travel Fund (C)
81.084	Minority Honors Training and Industrial Assistance Program (B)

81.085	National Minority Energy Information Clearinghouse (L)
81.091	Socioeconomic and Demographic Research, Data and Other Information (B)
81.094	Minority Educational Institution Assistance (B)

(300) NATURAL RESOURCES AND ENVIRONMENT

This function includes those programs whose primary purpose is to develop, manage, and maintain the Nation's natural resources and environment. It encompasses development and management of water resources; protection and enhancement of environmental quality; development and maintenance of recreational resources; promotion of the prudent use of forest and mineral resources; the fostering of conservation practices on both public and private lands; marine, earth, and atmospheric -related research, and the management of the public domain.

Excluded from this function are the outlays for community water supply programs, basic sewer system, and waste treatment plants, which are part of a community or regional development (rather than an environmental enhancement) program or are part of the cost of operating a Federal facility (such as a military installation).

(301) Water Resources

This includes water protection, conservation, irrigation, and related activities including the total costs of multipurpose water projects where it is not feasible to separate out the transportation (navigation) or energy (power) segments of these projects.

10.904	Watershed Protection and Flood Prevention (B,K)
10.906	River Basin Surveys and Investigations (J)
12.100	Aquatic Plant Control (J,L)
12.101	Beach Erosion Control Projects (J)
12.102	Emergency Rehabilitation of Flood Control Works or Federally Authorized Coastal Protection Works (J)
12.103	Emergency Operations Flood Response and Post Flood Response (J)
12.104	Flood Plain Management Services (K,L)
12.105	Protection of Essential Highways, Highway Bridge Approaches, and Public Works (J)
12.106	Flood Control Projects (J)
12.107	Navigation Projects (J)
12.108	Snagging and Clearing for Flood Control (J)
12.109	Protection, Clearing and Straightening Channels (J)
12.110	Planning Assistance to States (J)
12.111	Emergency Advance Measures for Flood Prevention (J)
15.501	Distribution System Loans (E)
15.502	Irrigation Systems Rehabilitation and Betterment (E)
15.503	Small Reclamation Projects (B,E)

(302) Conservation and Land Management

This includes the costs of operating the public domain (including national forests), payments to encourage private land conservation activities, and surface mining reclamation efforts.

10.062	Water Bank Program (C)
10.063	Agricultural Conservation Program (C)
10.064	Forestry Incentives Program (C)
10.069	Conservation Reserve Program (C)
10.652	Forestry Research (B)
10.664	Cooperative Forestry Assistance (A,B,I)
10.669	Accelerated Cooperative Assistance for Forest Programs on Certain Lands Adjacent to the Boundary Waters Canoe Area (B)
10.900	Great Plains Conservation (C,K)
10.901	Resource Conservation and Development (B,K)
10.902	Soil and Water Conservation (K)
10.903	Soil Survey (L)
10.905	Plant Materials for Conservation (J)
10.907	Snow Survey and Water Supply Forecasting (L)
10.910	Rural Abandoned Mine Program (C,K)
11.419	Coastal Zone Management Program Administration Grants (A,B)
15.214	Non-Sale Disposals of Mineral Material (H)
15.219	Wildlife Habitat Management Technical Assistance (B)
15.221	Cooperative Agreements for Research in Public Lands Management (B)
15.250	Regulation of Surface Coal Mining and Surface Effects of Underground Coal Mining (B,C)
15.252	Abandoned Mine Land Reclamation (AMLR) Program (A,B)

(303) Recreational Resources

These are programs involving the acquisition, improvement, and operation of recreational lands and facilities including fish and wildlife and parks. It also includes outlays for the preservation of historic areas.

15.600	Anadromous Fish Conservation (B)
15.602	Conservation Law Enforcement Training Assistance (M)
15.604	Fishery Research—Information (L)
15.605	Sport Fish Restoration (A)
15.606	Migratory Bird Banding and Data Analysis (L)
15.607	Environmental Contaminant (K,L,M)
15.608	Fish and Wildlife Management Assistance (J)
15.610	Wildlife Research Information (L)
15.611	Wildlife Restoration (A)
15.612	Endangered Species Conservation (B)
15.904	Historic Preservation Fund Grants-In-Aid (B)
15.909	Historic American Buildings Survey/Historic American Engineering Record (J,K,L)
15.910	National Natural Landmarks Program (J,L)
15.912	National Historic Landmark (K)
15.914	National Register of Historic Places (K)
15.915	Technical Preservation Services (J,K,L)
15.916	Outdoor Recreation—Acquisition, Development and Planning (B)
15.918	Disposal of Federal Surplus Real Property for Parks, Recreation, and Historic Monuments (I)

(304) Pollution Control and Abatement

This includes outlays for controlling and reducing air, water, and land pollution or that are specifically funded as an environmental enhancement program. It excludes water resources programs, water treatment plants, and similar programs that are not funded as part of an environmental enhancement activity.

10.068	Rural Clean Water Program (C)
10.070	Colorado River Salinity Control (C)
66.001	Air Pollution Control Program Support (A)
66.003	Air Pollution Control Manpower Training (B)
66.006	Air Pollution Control—Technical Training (M)
66.007	Air Pollution Control—National Ambient Air and Source Emission Data (J)
66.009	Air Information Center (L)
66.032	State Indoor Radon Grants (B)
66.418	Construction Grants for Wastewater Treatment Works (B)
66.419	Water Pollution Control—State and Interstate Program Support (A)
66.423	Water Quality Control Information System—Orientation/Training Seminars, Data and Monitoring Publications (M)
66.432	State Public Water System Supervision (A)
66.433	State Underground Water Source Protection (A)
66.435	Water Pollution Control—Lake Restoration Cooperative Agreements (B)
66.438	Construction Management Assistance (A)
66.454	Water Quality Management Planning (A)
66.456	National Estuary Program (B)
66.458	Capitalization Grants for State Revolving Funds (A)
66.459	Nonpoint Source Reservation (A)
66.460	Nonpoint Source Implementation (A)
66.461	Wetlands Protection—State Development Grants (B)
66.600	Environmental Protection Consolidated Grants—Program Support (A)
66.700	Consolidated Pesticide Compliance Monitoring and Program Cooperative Agreements (B)
66.702	Asbestos Hazards Abatement (Schools) Assistance (B,E)
66.705	Toxic Release Inventory Data Quality Assurance Program (B)
66.801	Hazardous Waste Management State Program Support (A)
66.802	Hazardous Substance Response Trust Fund (B)
66.804	State Underground Storage Tanks Program (B)
66.805	Underground Storage Tank Trust Fund Program (B)
66.900	Pollution Prevention Incentives for States (B)
93.161	Health Program for Toxic Substances and Disease Registry (B)

(306) Other Natural Resources

This includes miscellaneous natural resources programs not classified in other subfunctions, such as marine, earth, and atmosphere-related research, and the cost of geological surveys and mapping.

11.405	Anadromous and Great Lakes Fisheries Conservation (B)
11.407	Interjurisdictional Fisheries Act of 1986 (A)
11.413	Fishery Products Inspection and Certification (J)
11.417	Sea Grant Support (B)
11.420	Coastal Zone Management Estuarine Research Reserves (B)
11.428	Intergovernmental Climate—Programs (B)
11.429	Marine Sanctuary Program (B)
11.430	Undersea Research (B)
11.431	Climate and Atmospheric Research (B)
11.432	Environmental Research Laboratories Joint Institutes (B)
11.433	Marine Fisheries Initiative (B)
15.308	Grants for Mining and Mineral Resources and Research Institutes (A,B)
15.805	Assistance to State Water Resources Research Institutes (A)
15.806	National Water Resources Research Program (B)
15.807	Earthquake Hazards Reduction Program (B)
15.808	Geological Survey—Research and Data Acquisition (B)

(350) AGRICULTURE

This function includes those programs that promote the economic stability of agriculture and the Nation's capability to maintain and increase agricultural production. These objectives are accomplished through farm income stabilization programs, research and educational activities, programs that maintain agricultural markets, regulation of agricultural markets and practices, and maintenance of an adequate stockpile of agricultural commodities.

This function does not include programs which, though related to rural development, are not directly related to agriculture, such as rural environmental and conservation programs that are classified in the natural resources function. In addition, it excludes the costs connected with concessionary food export sales or food donations whether overseas or for domestic income support purposes.

(351) Farm Income Stabilization

Loans, subsidies, and other payments for purposes of stabilizing agricultural prices at an equitable level. This includes the cost of acquisition and storage of agricultural commodity stockpiles but does not include the cost of foreign agricultural export losses (which are classified in the international affairs function) or domestic donations of food (which are part of an income support, rather than a farm price support, program).

10.051 Commodity Loans and Purchases (D,E)
10.052 Cotton Production Stabilization (D)
10.053 Dairy Indemnity Program (D)
10.055 Feed Grain Production Stabilization (D)
10.058 Wheat Production Stabilization (D)
10.059 National Wool Act Payments (D)
10.065 Rice Production Stabilization (D)
10.066 Emergency Livestock Assistance (D)
10.067 Grain Reserve Program (D)
10.071 Federal-State Cooperation in Warehouse Examination Agreement (C)
10.404 Emergency Loans (E,F)
10.406 Farm Operating Loans (E,F)
10.407 Farm Ownership Loans (E,F)
10.414 Resource Conservation and Development Loans (E)
10.416 Soil and Water Loans (E,F)
10.419 Watershed Protection and Flood Prevention Loans (E)
10.421 Indian Tribes and Tribal Corporation Loans (E,F)
10.435 Agricultural Loan Mediation Program (B)
10.437 Interest Rate Reduction Program (F)
10.438 Farm Credit System Farm Land Acquisition Program (F)
10.450 Crop Insurance (G)
10.550 Food Distribution (H)
10.568 Temporary Emergency Food Assistance (Administrative Costs) (A)
10.569 Temporary Emergency Food Assistance (Food Commodities) (A)

(352) Agricultural Research and Services

This includes all other costs of agricultural programs including expenses for programs such as agricultural research and extension services.

10.001 Agricultural Research—Basic and Applied Research (B)
10.025 Plant and Animal Disease, Pest Control, and Animal Care (B,J,K,L,M)
10.028 Animal Damage Control (B,J,K,L,M)
10.140 Minority Research and Teaching Programs Grants (B,K)
10.153 Market News (L)
10.156 Federal-State Marketing Improvement Program (B)
10.162 Inspection Grading and Standardization (J)
10.163 Market Protection and Promotion (J,K,M)
10.164 Wholesale Market Development (K)
10.165 Perishable Agricultural Commodities Act (N)
10.200 Grants for Agricultural Research, Special Research Grants (B)
10.202 Cooperative Forestry Research (A)
10.203 Payments to Agricultural Experiment Stations Under Hatch Act (A)
10.205 Payments to 1890 Land-Grant Colleges and Tuskegee University (A)
10.206 Grants for Agricultural Research—Competitive Research Grants (B)
10.207 Animal Health and Disease Research (A)
10.210 Food and Agricultural Sciences National Needs Graduate Fellowship Grants (B)
10.211 Higher Education Strengthening Grants (B)
10.212 Small Business Innovation Research (B)
10.214 Morrill-Nelson Funds for Food and Agricultural Higher Education (B)
10.215 Low Input Farming Systems—Research and Education (B)
10.216 1890 Institution Capacity Building Grants (B)
10.217 Higher Education Challenge Grants (B)
10.250 Agricultural and Rural Economic Research (L)
10.350 Technical Assistance to Cooperatives (K,L)
10.375 Human Nutrition Information Service (L)
10.477 Meat and Poultry Inspection (J)
10.500 Cooperative Extension Service (A)
10.600 Foreign Agricultural Market Development and Promotion (C)
10.601 Targeted Export Assistance (C)
10.700 National Agricultural Library (L)
10.800 Livestock, Meat and Poultry Market Supervision (N)
10.950 Agricultural Statistics Reports (L)
10.960 Technical Agricultural Assistance (B)
10.961 International Agricultural Research—Collaborative Program (B)
10.962 International Training—Foreign Participant (B)
10.963 Scientific and Technical Cooperation (B,C)

(370) COMMERCE AND HOUSING CREDIT

This function includes the promotion and regulation of commerce and the housing and thrift insurance industries. Commerce includes the collection and dissemination of social and economic data unless they are an integral part of another function (such as health). This function includes general purpose loans and subsidies to business and to the housing industry. In general, credit and insurance programs are included in this function; however, if such programs are a means of achieving the basic objectives of another function and are an integral part of the programs of that function they are classified in the other function.

(371) Mortgage Credit and Thrift Insurance

Includes homeownership and related loan and insurance programs, and insurance programs protecting depository thrift institutions.

10.405 Farm Labor Housing Loans and Grants (B,F)
10.410 Very Low and Low Income Housing Loans (E)
10.411 Rural Housing Site Loans (E)
10.415 Rural Rental Housing Loans (F)
10.417 Very Low-Income Housing Repair Loans and Grants (B,E)
10.427 Rural Rental Assistance Payments (C)
14.103 Interest Reduction Payments—Rental and Cooperative Housing for Lower Income Families (C,F)
14.108 Rehabilitation Mortgage Insurance (F)
14.110 Manufactured Home Loan Insurance—Financing Purchase of Manufactured Homes as Principal Residences of Borrowers (F)
14.112 Mortgage Insurance for Construction or Substantial Rehabilitation of Condominium Projects (F)
14.116 Mortgage Insurance—Group Practice Facilities (F)
14.117 Mortgage Insurance—Homes (F)
14.119 Mortgage Insurance—Homes for Disaster Victims (F)
14.120 Mortgage Insurance—Homes for Low and Moderate Income Families (F)
14.121 Mortgage Insurance—Homes in Outlying Areas (F)
14.122 Mortgage Insurance—Homes in Urban Renewal Areas (F)
14.123 Mortgage Insurance—Housing in Older, Declining Areas (F)
14.126 Mortgage Insurance—Cooperative Projects (F)
14.127 Mortgage Insurance—Manufactured Home Parks (F)
14.128 Mortgage Insurance—Hospitals (F)
14.129 Mortgage Insurance—Nursing Homes, Intermediate Care Facilities and Board and Care Homes (F)
14.130 Mortgage Insurance—Purchase by Homeowners of Fee Simple Title From Lessors (F)
14.132 Mortgage Insurance—Purchase of Sales-Type Cooperative Housing Units (F)
14.133 Mortgage Insurance—Purchase of Units in Condominiums (F)
14.134 Mortgage Insurance—Rental Housing (F)
14.135 Mortgage Insurance—Rental and Cooperative Housing for Moderate Income Families and Elderly, Market Interest Rate (F)
14.138 Mortgage Insurance—Rental Housing for the Elderly (F)
14.139 Mortgage Insurance—Rental Housing in Urban Renewal Areas (F)
14.140 Mortgage Insurance—Special Credit Risks (F)
14.142 Property Improvement Loan Insurance for Improving All Existing Structures and Building of New Nonresidential Structures (F)
14.151 Supplemental Loan Insurance—Multifamily Rental Housing (F)
14.155 Mortgage Insurance for the Purchase or Refinancing of Existing Multifamily Housing Projects (F)
14.157 Housing for the Elderly or Handicapped (E)
14.159 Section 245 Graduated Payment Mortgage Program (F)
14.162 Mortgage Insurance—Combination and Manufactured Home Lot Loans (F)
14.163 Mortgage Insurance—Single Family Cooperative Housing (F)
14.165 Mortgage Insurance—Homes—Military Impacted Areas (F)
14.166 Mortgage Insurance—Homes for Members of the Armed Services (F)
14.167 Mortgage Insurance—Two Year Operating Loss Loans, Section 223(d) (F)
14.172 Mortgage Insurance—Growing Equity Mortgages (F)
14.173 Multifamily Coinsurance (F)
14.175 Adjustable Rate Mortgages (F)
14.507 Mortgage Insurance—Experimental Homes (F)
14.508 Mortgage Insurance—Experimental Projects Other Than Housing (F)
14.509 Mortgage Insurance—Experimental Rental Housing (F)
44.001 Credit Union Charter, Examination, Supervision, and Insurance (G,J,K)

(372) Postal Service

Any net outlays of the postal service included in the budget (or off-budget).

(376) Other Advancement and Regulation of Commerce

This includes loan programs designed to aid specialized forms of business such as small business) that are not included elsewhere in the functional structure. It also includes the costs of collection and dissemination of economic and demographic statistics (such as census data) and of regulation of business.

11.001	Census Bureau Data Products (L)
11.002	Census Data User Services (K,L,M)
11.003	Census Geography (J,L)
11.004	Census Intergovernmental Services (K,L,M)

(400) TRANSPORTATION

This function includes all programs with the primary aim of providing for the transportation of the general public and/or their property, regardless of whether local or national and regardless of the particular mode of transportation. It includes the construction of facilities; purchase of equipment; research, testing, and evaluation; provision of communications directly related to transportation (for example, air traffic control by the FAA); and operating subsidies for transportation facilities (such as airports) and industries (such as railroads. Transportation includes regulatory activities directed toward commerce (business) in general.

Excluded from this function are the costs of moving personnel or equipment as part of the operation of other government services; the provision of foreign economic assistance which may take the course of assisting transportation facilities or programs abroad; the construction of roads, trails, etc., as an integral part of the operation of public lands, parks, forests, or military reservations, unless they are specifically funded as a part of a broader transportation program; the construction of roads or other transportation facilities as an integral part of a broad community facility or regional development program where the clear intent of the program is regional development and the provisions of transportation facilities is only an incidental by-product or means to attain the objective of regional development. Also excluded from transportation are research and technology activities devoted to space research, except for aeronautical technology, even though this research may eventually redound to the advantage of general transportation.

(401) Ground Transportation

20.900	Air Transportation—Consumer Affairs (N)

(450) COMMUNITY AND REGIONAL DEVELOPMENT

This function consists of broad-based community, regional, urban and rural renewal and development programs. It includes grants and loans for water supply and sewer systems (except those specifically funded as environmental protection programs), urban community and economic development programs, regional economic development programs, broad-based public facility construction programs, and relief and rehabilitation of private and public facilities in the event of natural disasters. Aids to businesses such as loans, loan guarantees, and subsidies are not normally included in this function unless such aids are a means of economic development to aid restricted (generally depressed) areas and are not designed to promote particular lines of business for their own sake. Transportation facilities developed as an integral part of a community development (rather than transportation) program are also included in this function.

As a normal rule, human development and services programs are excluded from this function (and included in the education, employment, training, and social services function). This function is confined to development of physical facilities or financial infrastructures designed to promote viable community economies.

(451) Community Development

This subfunction includes grants and related programs designed to aid community (largely urban) development. It includes community development block grants and predecessor activities such as the urban renewal and model cities programs. Community development programs are generally carried out by the Department of Housing and Urban Development.

(500) EDUCATION, TRAINING, EMPLOYMENT, AND SOCIAL SERVICES

This function includes those outlays designed to promote the general extension of knowledge and skills, to provide public services to needy individuals, and/or to assist individuals to become self-supporting members of society. It includes the provision of education or training child care services, employment counselling, vocational rehabilitation, and other social services provided to individuals and families. It also includes cash payments (scholarships, loans, or stipends) to persons when such payments are provided to enable a person to participate in education or training programs; it includes programs designed to provide services to the poor (such as community services) that are not an integral part of some other function, and also includes the costs of research directly related to the programs in this function.

This function excludes education or training undertaken as an integral part of the achievement of another functional end (such as training of military personnel; veterans education, training, and rehabilitation; or training of health workers in a health program) and also excludes general purpose scientific research. Nutrition or food service programs that are funded separately from social services or education shall be included as income security rather than being included in this function.

(550) HEALTH

This function includes those programs that have as their basic purpose the promotion of the physical and mental health of the nation's population, including the prevention of illness and accidents. It includes planning, financing, and provision of medical care; research into the causes and cure of disease; the financing of specialized programs for training of health workers and researchers; and promotion of consumer and occupational health and safety.

Excluded from the health function are Federal health care costs that are an integral part of another function, such as medicare and medical care for military personnel and for veterans. General scientific research that has medical applications (such as that conducted by the National Science Foundation) and health programs financed through foreign assistance programs are also excluded from the health function.

(552) Health Research

This includes the cost of all research programs — whether basic or applied — that are financed specifically as health or medical research. It excludes research that is an integral part of other functions (such as biomedical research in the space program).

93.154 Special International Postdoctoral Research Program in Acquired Immunodeficiency Syndrome (B)
93.180 Medical Treatment Effectiveness Research (B)
93.989 Senior International Fellowships (B)

(553) Education and Training of Health Care Work Force

This includes any education or training program specifically funded as a health program and restricted to training individuals who are working or expect to work in health or health-related fields.

93.108 Health Education Assistance Loans (F)

(554) Consumer and Occupational Health and Safety

This includes such programs as meat and poultry inspection, food and drug inspection, consumer product safety, and occupational safety.

93.103 Food and Drug Administration—Research (B)

(570) MEDICARE

This function implements the Social Security Amendments of 1983 which require that the budget contain a new function — social security and medicare. These programs were previously included in the income security and health functions.

(571) Medicare

Medicare is composed of the Federal Hospital Insurance and Federal Supplementary Medical Insurance trust funds. This includes all off-setting collections to these two funds, except for employers share and employee retirement (subfunction—951) and net interest (interest received by on—budget trust funds—902). Also includes trust funds and general funds payments to those funds.

93.773 Medicare—Hospital Insurance (C)
93.774 Medicare—Supplementary Medical Insurance (C)
93.906 Rural Health Medical Education Demonstration Projects (C)

(600) INCOME SECURITY

This function includes payments for or to persons for which no current service is rendered. It includes retirement (excluding military retired pay), disability, unemployment, and welfare payments and the associated administrative costs. Also included in income security are the food stamp, special milk, and child nutrition programs (whether the benefits are in cash or kind); both Federal and trust fund unemployment compensation and workmen's compensation; public assistance cash payments; benefits to coal miners; and low and moderate-income housing aids.

Excluded from this function are social security, financial assistance for educational purposes, provision or reimbursement for child care services and stipends, medical care (whether in cash or kind), and subsidies to businesses (such as farm price supports) even though they may end up as income to persons. Also excluded are income security programs restricted to veterans and their dependents.

(601) General Retirement and Disability Insurance

This includes non-needs-tested retirement and disability programs except for those specifically restricted to Federal employees and social security. Most programs in this subfunction are financed through trust fund mechanisms but it includes some Federal funds programs such as payments to coal miners. The subfunction is composed mainly of the railroad retirement fund and special benefits for coal miners.

(602) Federal Employee Retirement and Disability

Includes all funded retirement and disability programs restricted to Federal employees. In those cases where there are no retirement funds (such as in the cases of Military and Coast Guard retired pay) the case benefits are included in the function where the employees were employed (in these cases national defense and transportation, respectively) because otherwise those functions would never be charged anything for the retirement costs of their employees.

57.001	Social Insurance for Railroad Workers (D)

(603) Unemployment Compensation

Benefits for unemployed workers that are not conditioned by needs tests. This subfunction does not include other benefits (such as food stamps) that an unemployed person might be eligible for under any other program.

17.225	Unemployment Insurance (A,D)
17.245	Trade Adjustment Assistance—Workers (D,J)

(604) Public Assistance and Other Income Supplements

(650) SOCIAL SECURITY

Social Security is composed of the Federal Old—Age and Survivors Insurance and Federal Disability Insurance trust funds and general funds payments to those funds, all off—setting receipts by those trust funds, except those classified in subfunction 903 - interest received by off-budget trust.

(651) Social Security

This includes the Old Age and Survivors Insurance (OASI) and Disability Insurance (DI) trust funds and related intergovernmental payments and off—setting collections.

93.802	Social Security—Disability Insurance (D)
93.803	Social Security—Retirement Insurance (D)
93.804	Social Security—Special Benefits for Persons Aged 72 and Over (D)
93.805	Social Security—Survivors Insurance (D)

(700) VETERANS BENEFITS AND SERVICES

This function consists of programs providing benefits and services, the eligibility for which is related to prior military service but the financing of which is not an integral part of the costs of national defense. It includes veterans service-connected compensation; veterans non-service connected pensions; and veterans readjustment benefits, housing, and medical care programs.

As a normal rule, the outlays in this function are similar to those in the broader general purpose functions (such as income security or health) but are restricted to veterans, their dependents, and their survivors. Earned rights of career military personnel that are a cost of the defense budget (such as military retired pay or medical care) are excluded from this function. The subfunctions of this function are so structured that they are readily additive to analogous major functions for the general population.

(701) Income Security for Veterans

Includes veterans compensation, pensions, burial benefits and life insurance.

64.101	Burial Expenses Allowance for Veterans (C)
64.102	Compensation for Service-Connected Deaths for Veterans' Dependents (D)
64.103	Life Insurance for Veterans (E,G)
64.104	Pension for Non-Service-Connected Disability for Veterans (D)

64.114 Veterans Housing—Guaranteed and Insured Loans (F)
64.118 Veterans Housing—Direct Loans for Disabled Veterans (E)
64.119 Veterans Housing—Manufactured Home Loans (F)

(705) Other Veterans Benefits and Services

Mainly the administrative expenses of the Veterans Administration.

12.500 U.S. Soldiers' and Airmen's Home (J)
64.115 Veterans Information and Assistance (K)
64.201 National Cemeteries (J)
64.202 Procurement of Headstones and Markers (C,J)
64.203 State Cemetery Grants (B)

(750) ADMINISTRATION OF JUSTICE

This function includes those programs designed to provide judicial services, police protection, law enforcement (including civil rights), rehabilitation, and incarceration of criminals, and promotion of the general maintenance of domestic order. It includes the provision of court appointed counsel or other legal services to individuals.

This function excludes the costs of the legislative branch, the narrow-purpose police or guard activities providing protection to Federal property, or activities which are an integral part of a broader function (such as postal inspectors, tax collection agents, and Park Service Rangers). The costs of National Guard personnel who are called upon occasionally to provide general public safety protection and military police costs are included under the national defense function rather than in this function.

(751) Federal Law Enforcement Activities

Includes Customs, the Immigration and Naturalization Service, the Drug Enforcement Administration, and police and crime prevention activities in other programs. This subfunction also includes the readily identifiable enforcement costs of civil rights activities.

93.643 Children's Justice Grants to States (A)

(800) GENERAL GOVERNMENT

This function includes the general overhead costs of the Federal Government, including legislative and executive activities; provision of central fiscal, personnel, and property activities; and the provision of services that cannot reasonably be classified in any other major function. As a normal rule, all activities reasonably or closely associated with other functions shall be included in those functions rather than listed as a part of general government.

(801) Legislative Functions

Includes most of the costs of the legislative branch except for the Tax Court, the Library of Congress, and the Government Printing Office revolving fund.

(802) Executive Direction and Management

Includes the Executive Office of the President (unless some major grants or operating programs should be included in the EOP); occasionally some closely related spending outside the EOP is also included in this subfunction.

Appendix V: Sources of Additional Information Contacts

Additional information concerning Federal programs and services is available from the sources listed below. The information in this Appendix is in addition to that supplied in Appendix IV (Regional and Local Office Addresses), but are not the offices to which an applicant applies for an assistance program. If a potential applicant or information seeker is not certain which agency to contact, there are two types of organizations set up to help: The Federal Information Centers Program and the Federal Executive Boards.

FEDERAL INFORMATION CENTERS PROGRAM

Federal Information Centers Program (FIC) is a focal point for information about the Federal government. The FIC assists people who have questions about Federal services, programs, and regulations, but do not know where to turn for an answer. FIC information specialists either answer an inquirer's questions directly, or perform the necessary research to locate and refer the inquirer to the expert best able to help. Residents of 72 key metropolitan areas reach the FIC through locally listed, toll-free telephone numbers; statewide toll-free '800' service is available to the residents of four States: Iowa, Kansas, Missouri, and Nebraska. The FIC telephone numbers are listed below. If you are not in one of the metropolitan areas listed below, you may call the FIC on 301/722-9098 or write to Federal Information Center, P.O. Box 600, Cumberland, Maryland 21502. TDD users may reach the FIC by dialing a toll-free number, (800) 326-2996.

FEDERAL EXECUTIVE BOARDS

The Federal Executive Boards (FEBs) consist of the heads of Federal field offices in 26 metropolitan areas. The FEBs were established to improve internal Federal management practices, provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity, serve as a means for disseminating information within the Federal government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. The FEBs carry out their functions under the supervision and control of the Office of the Director, Office of Personnel Management (OPM). For further information, contact the Assistant for Regional Operations, Office of Personnel Management, Room 5518, 1900 E Street, N.W., Washington, DC 20415. Telephone: (202) 632-6101.
